POCKET DATABANK

08 April 2014

The Electronic Version of The Pocket Databank can be found under Economic Data and Tools/Latest Economic Indicators at:

https://www.gov.uk/government/publications/weekly-economic-indicators

LATEST UK INDICATORS

% change on a year earlier unless otherwise stated

Activity		
GDP (QoQ)	*13Q4*	0.7
Service sector output	*January*	0.9
Industrial production	*January*	0.1
Manufacturing output	*January*	0.4
GfK Consumer Confidence	*February*	-5
Retail sales volumes	*January*	3.7
Whole economy investment	*13Q2*	0.8
Goods exports (volumes)	*January*	0.4
Goods imports (volumes)	*January*	-1.7
Current account balance, £bn	*13Q4*	-22.4
Business Investment	*13Q4*	2.4
Labour market & earnings		
Unemployment, mn	*3m to January*	2.33
Unemployment rate, %	*3m to January*	7.2
Claimant unemployment, mn	*February*	1.18
Claimant rate, %	*February*	3.5
LFS total in employment, mn	*3m to January*	30.2
LFS employment rate, %	*3m to January*	72.3
Workforce jobs, mn	*September*	32.4
Headline average earnings %[1]	*3m to January*	1.4
Inflation & prices		
CPI	*February*	1.7
RPI	*February*	2.7
CPIH	*February*	1.6
Producer output prices (nsa)	*February*	0.5
Producer input prices (nsa)	*February*	-5.4
Halifax house prices[2]	*March*	8.7
Nationwide house prices	*March*	9.5
Public finances		
Public sector surplus on current budget, £bn[3]	*February*	-14.1
Public sector net borrowing, £bn[3]	*February*	9.3
Public sector net debt, % of GDP[3,4]	*February*	74.7
Monetary		
M4 deposits (excluding intermediate OFCs)	*February*	3.7
Exchange rate index (2005=100)	*Latest*[5]	84.7
$/£	*Latest*[5]	1.66
€/£	*Latest*[5]	1.20
Bank rate, %	*Latest*	0.50
Long-term interest rates, %[6]	*Latest*[5]	2.70

[1] Excluding bonuses
[2] Excluding financial interventions
[3] Amount outstanding as a %of GDP, at market prices
[4] Benchmark 10 yr gilt yield, Bank of England
[5] 11 June

[1] Producer prices not seasonally adjusted, excluding climate change levy prior to Jan 2002.
[2] Headline average earnings excluding bonuses. Monthly figures: 3 month YoY average.
[3] Public earnings excluding financial services.
[4] From 19 January 2011 this data has changed to the Average Weekly Earnings series, as this is now the headline measure of earnings growth. Previous data was from the Average Earnings Index.

[1] Not all sectoral components are shown: excludes investment by National Health Trust hospitals and sales less purchases of land and existing buildings.
[2] Includes transfer costs of land and existing buildings for the whole economy.
[3] Private sector plus public corps' (excl. NHS Trust hospitals) non-residential fixed investment.
[4] Excluding purchases less sales of land and existing buildings.
[5] As a percent of GDP at current market prices (YBHA).
[7] Output per hour
[8] Constant market prices.
[9] Whole economy output per worker; Manufacturing output per job.

[1] Monthly figures are a 3-month average and are shown against the central month in each period. Annual figures refer to 3 months to May.
[2] Annual figures are averages for the year; monthly figures refer to the single month indicated.
[3] For monthly data, current month compared to previous month.
[4] Change on previous year (annual data) or previous month (monthly data).
[5] Claimant count, 25+, over twelve months, UK, sa.
[6] Claimant count, 25+, over twenty-four months, UK, sa.
[7] Claimant count, 18-24, 6 months+, UK, sa.

1 Seasonally adjusted, Labour Force Survey (age group 16 and over). Monthly figures represent a 3 month period and are shown against the central month. Annual figures are three months to May.
[2] For working age (All age 16-59/64)
[3] For monthly data, latest month compared to previous month.
[4] Annual figures are for Q2. Quarterly data are shown against the last month of the quarter.
[5] Manufacturing employee jobs.

[1] Total goods exports and imports. Annual data is percentage change on a year earlier

Monthly growth rate is latest 3 months compared to same 3 months a year earlier

Import figures for trade in goods include adjustments to allow for the impact of VAT MTIC fraud.

The adjustments to trade in goods relate only to part of the carousel version of VAT MTIC fraud.

[1] Previously known as public sector financial surplus/deficit in old system of national accounts

[2] Excluding financial sector interventions

Following the inclusion of LBG and RBS data in the 25 January 2011 release of the Public Sector Finances, where possible, all public sector finance data has now been changed to measures that exclude the temporary impact of financial interventions.
