Dear

JSR EXPORT OF PIGS FROM THE UNITED KINGDOM TO THE PEOPLE'S REPUBLIC OF CHINA

I am writing to provide declarations of certain disease freedoms for the UK and for JSR's premises involved in the currently planned export of pigs to China. The following declarations are for diseases that are Notifiable and Reportable in the United Kingdom and also for porcine reproductive and respiratory syndrome (PRRS) virus infection and pandemic influenza A/H1N1/09 (pH1N1) infection for the specific premises involved. Declarations for other diseases mentioned in the import protocol and export health certificate can be provided by [redacted]

I certify that:

(a) The United Kingdom is free from foot and mouth disease, classical swine fever, African swine fever, vesicular stomatitis and swine vesicular disease without vaccination in accordance with the OIE International Animal Health Code;

(b) The United Kingdom is free from vesicular exanthema of swine without vaccination;

(c) During the past 12 months no clinical or other evidence of teschovirus encephalomyelitis (swine infectious encephalomyelitis, enterovirus encephalitis, Teschen disease) has occurred within 20 kilometres of the following premises:

(d) as at 21/07/2011 when checks were last carried out, during the previous12 months no clinical or other evidence of porcine reproductive and respiratory syndrome (PRRS) virus infection has been detected on the premises above;

(e) as at 12/08/2011 when checks were last carried out, t here have been no confirmed clinical signs of the following diseases at the premises above;

(i) brucellosis - for the past 3 years;

(ii) tuberculosis (based on slaughterhouse reports) - for the past 12 months;

(iii) Aujeszky's disease (Pseudorabies) during the past 3 years. Great Britain is free from Aujeszky's disease. Vaccination against Aujeszky's disease is not permitted in Great Britain;

(f) as at 12/08/2011 when checks were last carried out, animal cases of pandemic influenza A/H1N1/09 virus infection in pigs have not been reported on the premises above in the last three months, and cases of pandemic influenza A/H1N1/09 in pigs have not reported on farms within a 50km radius of the premises above in the last three months.

Further checks will be carried out and disease clearances issued to the certifying Official Veterinarian prior to completion of the export health certificate.

Kind regards.

Yours sincerely,
