FBO Approvals and Listings			
1		[redacted] confirmed updated country by country list on shared (Nobel House/Carlisle) t:drive and that updated list would be put on it as well as direct hyperlink where that is appropriate. DMCES to produce revised FBO process paper. Internal mtg Defra/SSC-e to iron out procedure for China pork exports took place on 31 May. Next step is to involve ECL/industry both on china specific approvals and wider approvals generally on necessity for uniformity of information provided in documentation for exports. PH agreed to lead industry involvement ECL copied into all correspondence.	[redacted]

Key Markets strategy			
	China	**Pig meat**:.[redacted] informed meeting that following PM meeting with [redacted] China called off all Ministerial meetings.meant that MoS did not meet Vice President Wei but he did meet MoA. import licences had been granted for first consignments of pork so at technical level things were going ahead. Still need to get Wrexham cold store and Cranswick abattoir on both AQSIQ and CNCA websites before export can commence from them. Optimistic that this will be very soon **Breeding pigs** non-negative test results (N-NTR) for a range of diseases as high as >10%.[redacted] confirmed that procedures now in place.to approve herds prior to exports.	[redacted]**DMCES May need inspection know w/c 31 July** [redacted]
