Subject: Paying for the Right to Work

Follow Up Flag: Follow up
Flag Status: Completed

Dear Sir /Madame

Please give some consideration to the small micro bussiness men and woman paying annual subscriptions to allow us to work within an accredited Remit.

Disproportionately Represented the length and breath of the UK

Annually accessed to prove our Skill / Competence working for you the consumer We still have no guarantee of receiving Payment for work undertaken.

We don't receive sick pay, we do work unsociable hours We are constantly under scrutiny Standards to maintain very high standards to maintain .

How can the accredited organisation receive Payment subscription annually since 2004 for the Introduction of a competent scheme and not represent its members who are suffering financial hardship through retainment of payment or in some cases non payment of work undertaken.
These are Government approved schemes might I add.

We have No representation but endorsed by Union representation we have become a very topical agenda throughout its implementation discussed in depth by the relevant Select Committees. Our accredited organisations do very well thank you very much maintaining and justifying there existence within the working platform/ Remit.

Insurance assurance for you the consumer and no assurances for me. Very disproportionate circumstances I would say.
With the shake down of the well documented GiG economy,Uber drivers,non contracted working hours.
How many times do you get in an unregistered Taxi?
I compete with the grey market rouge traders,cavalier DIY enthusiasts on a daily basis I work in an Industry even Dixon of Dock Green could not police.
B&Q, Screwfix,Homebase, Wickes ,CEF, Yess Electrical all selling to you the consumer on a daily basis.

So when I am considered for my Skill/Competence by you or your Building Contractor I deserve to be paid for my service provided.

4 Years of correspondence to my associated accredited Organisation Despite them being aware of the problems it's causing we still have to work under the same remit. It's shameful

I hope you are not another pointless Government review panel looking to implement change this is happening now today and for the foreseeable future. Don't turn a blind eye with a apathetically shrug of the shoulders.
Help me to make a difference a financial difference to the ones who have suffered non payment and bring them to account for the narrow minded oversight associated with this Flawed Industry

Let's start with the Insurance assurances If you receive the assurance by employing my service I and many more deserve the assurance of receiving payment.

All we are asking for is Parity,Equality working within the accredited remit.
