

# **Aircraft Weapon Loading Log (Chinook Weapons)**

# Instructions for Use

## Aircraft Weapon Loading Log (Chinook Weapons) – RAF Form 2947(Chinook Weapons)

1. **General.** This form is used to record the fitment and removal of Expendable Weapon Stores. Provision is made to record one Load/Download Operation per form. The use of 'NCO' throughout this form refers to a Non-Commissioned Officer who is appropriately authorized to complete this form. This form is to be controlled in accordance with the MAM-P and local instructions, responsibilities for form completion are detailed in the following paragraphs:
2. **Form Opening.** The NCO I/C Load Team is to ensure this form is opened by recording the Aircraft Serial Number, Mark of Chinook, Sqn/Unit responsible for the Aircraft and Sheet Number.
3. **Load Completion:**
  - 3.1. **Weapons Loaded.** Upon load completion of Expendable Weapon Stores, the NCO I/C Load Team is to ensure that columns **(a), (b), (c), (d), and (e)** have been completed correctly for the Weapon Systems installed and Ammunition loaded.
    - Column (a):** Enter the station/location/position of the weapon system on the Aircraft (eg Port, Stbd, Ramp).
    - Column (b):** Enter the weapon system type (eg M134 DC Mini Gun, M60D Machine Gun).
    - Column (c):** Enter the serial number of the weapon system.
    - Column (d):** Enter the Nature/Type of ammunition (eg 7.62mm 4B/1T, 5.56mm).
    - Column (e):** Enter the quantity of ammunition loaded.
  - 3.2. **Work Recording.** Once all the sub-paragraphs above have been completed, all authorized personnel who conducted the load are to record their details within the '**Load Team Details**' block prior to the NCO I/C Load Team signing their block, certifying work completion in accordance with current Maintenance/loading procedures and policies.
  - 3.3. **Other Documentation.** An NCO is to complete/update F706A, F1165/1165A, F6581 and other relevant documentation **as required**.

**Note:** These blocks may not be required to complete depending on usage/environment. If required, input the next scheduled Weapon/System Maintenance and the next occurring Ammunition Schedule (eg service due date, Installed LX, Op LX, SLED, Ammo clean due date).
4. **Download Completion:**
  - 4.1. **Weapons Downloaded/Expended.** The NCO I/C Download Team is to record the quantity of ammunition expended and downloaded on columns **(f) and (g)** within the '**Installed Ammunition**' block.
  - 4.2. **Work Recording.** Once all the sub-paragraphs above have been completed, all authorized personnel who conducted the download are to record their details within the '**Download Team Details**' block prior to the NCO I/C Download Team signing their block, certifying work completion in accordance with current Maintenance/loading procedures and policies.
  - 4.3. **Other Documentation.** An NCO is to complete/update F706A, F1165/1165A, F6581, F752 and other relevant documentation **as required**.
5. **Documentation Co-ordination and Retention.** The Co-ordinator is to ensure the entirety of this form has been completed correctly, then is to calculate and record the total work hours prior to signing the '**Documentation Co-ordination**' block, certifying co-ordination completion. They are then to ensure this form is retained in accordance with MAM-D Part 1 Chapter 2.3 for 12 months through local archiving procedures.
