**Armament Loading Certificate - MOD Form 705A(RN)** 

This form is to be completed under normal operation by the task supervisor whenever any change is made to the expendable stores load state. The Flight (Flt) column is to be numbered consecutively and to accord with the associated MOD Form 705 Certificate Number. If applicable to the store being loaded, the Mag ID code is to be entered in accordance with the relevant Topic 5A6, if not applicable box is to be struck through. The remainder of the columns are self explanatory.
