Dear Sir or Madam.

I'm writing to object against any cuts to the DLA mobility allowance, for myself or anyone else who receives the benefit.

I receive £199.40 a month, the only other money I get is £135.25 a week pension. My illness started when I was a child, I'm now 73 years of age. I contracted T.B through untreated milk, I've had numerous operations over the years, and worked 40 years full time with my disability. Now I'm disabled with Osteo Arthritis in my back and all my joints.

If you stop any of my benefit, I'll not be able to afford my taxis.

Not having any family, and my only daughter having to work full time as she is widowed. I don't see anyone from one week to the next. Because of the pain I suffer when walking, the only way for me to socialise, or hospital appointments is by

using Taxis'.

I'm already fighting depression, If I have to stop my taxis, life won't be worth living. My partner died from cancer at the age of 50.

I find it hilarious that the government seem to think that we choose our lives, so that we can get benefits.

I know the economy has got to be put right, speaking for myself I would rather the government freeze the benefit, rather than stopping it altogether until the economy improves.

Yours faithfully
