Programme No. CCI UK 162 PO009

List of Beneficiaries

Last Updated 20/5/13

Name of Beneficiary	Name of Operation	P	Total ERDF Contracted	Total Public / Private Match Contracted	Start Date	End Date	Description
The Art House	Art House Phase 2 - Drury Lane Refurbishment	3	£1,353,751	£1,657,223	01/07/11	30/06/15	This project will build on the success of a project converting a listed building to convert the adjacent Drury Lane Library into 34 affordable and accessible workspaces for the visual art and related industries. Employment opportunities will be aimed at those with disabilities and female entrepreneurs and a Business Development Programme to help businesses to access financial support and new opportunities.
Barnsley College	Think Low Carbon Centre	2	£2,758,560	£1,485,378	11/02/2010	31/12/2012	The project designed and constructed the Think Low Carbon Centre within the campus of Barnsley College. It is a demonstrator centre with two practical demonstration areas used to showcase current environmental technologies and four multifunction rooms used for open days, seminars, providing advice and guidance or research.

Barnsley Development Agency Limited	Enterprise in Deprived Communities	3	£500,184	£500,184	01/04/2011	31/03/2014	This project focuses on problems facing new enterprises. It instils good business practice within community enterprises from the first stage of development. Through events, networking and exchanging good practice it raises the profile of social enterprise sector and helps individuals to develop new business ideas into viable business propositions, offering accessible, tailored support and signposts to other available help.
Barnsley Metropolitan Borough Council	Cultural Infrastructure for the 21st Century	4	£2,442,146	£4,176,135	01/04/2011	30/08/2014	The project aim is to make Barnsley more competitive in relation to the social, economic and cultural heritage sectors of the Borough by promoting it to businesses and visitors across the Borough, South Yorkshire and beyond. It will develop Barnsley Town Hall and Wentworth Castle Gardens & Stainborough Park, using the enhanced gateway sites as hubs to the market and promoting the cultural, visitor and heritage sector.
Barnsley Metropolitan Borough Council	Enterprising Barnsley	2	£2,891,000	£1,864,000	12/12/2008	31/03/2012	Enterprising Barnsley provides an integrated programme of initiatives. It will attract investment, accelerate development of indigenous businesses, and support/incubate businesses. The portfolio of projects focuses on Specialist Shared Business Support Environments, Coaching for High Growth, Business Collaboration Networks, and Maximising Foreign Direct SME Investment.
Barnsley Metropolitan Borough Council	Enterprising Barnsley 2	2	£3,015,276	£1,623,791	01/04/2012	30/06/2015	Building upon the success of the Enterprising Barnsley Programme Phase 1, significant additional contribution will be made through the Phase 2 programme towards supporting and stimulating successful enterprises. It will provide an intensive and integrated package of intensive support focused on local (start up and established) business needs in order to create and accelerate economic growth in targeted Priority 2 sectors. The portfolio of projects focuses upon business start up support, business incubation, enterprise

							coaching, networks and workshops and enterprise hubs.
Barnsley Metropolitan Borough Council	Enterprising Young People	3	£586,063	£519,717	01/02/2013	30/06/2015	Enterprising Young People is helping 14-24 year olds in Barnsley to develop new enterprise start-ups. Five Enterprise Champions will provide private sector business expertise in an educational context to help develop enterprising ideas amongst young people. Project activity includes specialist start-up support and business mentoring, employer engagement, links to managed workspace and enterprise hubs and promotion of the opportunities & benefits of developing own enterprise. It also offers a Young People's Enterprise Budget – up to £2,000 support to take forward their business plan.
Barnsley Metropolitan Borough Council	Urban Centre Infrastructure for a 21 st Century Market Town	4	£1,091,896	£1,867,172	01/06/2012	30/06/2015	The Urban Centre Infrastructure project will transform six key routes in Barnsley town centre, improving linkages between Barnsley's Transport Interchange, Queens Court offices, The Civic & Mandela Gardens, Barnsley College and the Town Hall / Experience Barnsley. The project will create approximately 10,806sq metres of infrastructure; high quality routes for all who come to the town whether arriving by car, on foot or by public transport. It is supported by the proven principle that quality of place is an underpinning driver of economic performance and is a significant factor in garnering additional private sector investment.
Biorenewables Development Centre Ltd	Biorenewables Development Centre	1	£4,443,824	£2,499,651	31/10/2011	30/06/2015	Biorenewables Development Centre on the Science Park adjacent to the University of York offers the possibility of significant new regional growth through research and development activities and a range of support services for bio-based businesses. It focuses on feedstock research and development and process development, developing and scaling up technology for businesses to convert plants and biowastes into useful products.

Bradford Enterprise Agency	The City Hub	2	£985,127	£1,136,157	01/10/2010	30/12/2014	The project is refurbishing and extending a derelict mill building in Bradford to create a specialist catalyst centre for the Financial and Business Services sector, know as the City Hub. This will identify and support opportunities for new start-up businesses and job creation, and provide support to foster businesses with high growth potential within the sector.
Bradford Metropolitan District Council	Supporting and Stimulating Successful Enterprise in Bradford District	2	£1,564,878	£1,800,452	01/04/2011	20/09/2014	The project delivers specialist intensive assistance to businesses in key ERDF priority sectors, identifying and supporting opportunities for business start-up, business growth and job creation. Building on Bradford Council's Local Enterprise Growth Initiative, it aims to narrow the gap in the economic performance of Bradford District, when compared to the Regional and National averages.
Bradnet	Ilaan Enterprise Centre	3	£707,338	£736,209	13/08/2010	31/03/2015	The Centre will support disabled people in overcoming barriers to enterprise, creating workspace for entrepreneurs and acting as a 'go-to' place for disabled people and enterprise support providers. An exemplar project, its highly adapted environment will give significant support to disabled people and, by bringing together employers, entrepreneurs and employees, it will break down barriers to employment and enterprise opportunities.

Calderdale Metropolitan Borough Council	Innovation and Capital: Business Creativity, Enterprise and Innovation Network Pilot – Calderdale	2	£1,113,338	£1,286,098	01/06/2011	30/06/2014	The Council and its University partners are delivering intensive and specialist assistance to businesses within the key ERDF priority sectors. Business products will include Coaching for High Growth, Cluster Collaborations, Networking for Innovation, and a Micro Knowledge Exchange Pilot. This project is known to the market as Business Growth Calderdale.
Case Training Services	CASE Rebuild	3	£698,268	£712,375	01/04/2011	30/09/2014	The project will refurbish and extend two adjacent buildings to create a unique Centre of Excellence for people with learning disabilities. It will house social enterprises in managed workspace, facilitating engagement in economic activity by offering progressive steps towards employment and enterprise. The project will also provide for a Business Project Manager to advise and develop the social enterprises, and intensive business support to develop self-employment as a work option.
Chamber of Commerce (Barnsley and Rotherham LTD)	Regional Enterprise Programme	3	£3,240,273	£3,372,535	03/01/2012	31/12/2014	The aims to increase the region's enterprise activity and business start-up rates in deprived communities, by delivering intensive start-up support, enterprise coaching and an Entrepreneur Network. Beneficiaries will come from under-represented, disadvantaged groups and deprived areas, specifically women, BAME, young people, older people, people with disabilities, economically excluded and inactive people, people living in the 20% most deprived areas and people wanting to start a business in a deprived area.

City of Bradford Metropolitan District Council	Bradford District Community Enterprise	3	£1,004,965	£1,045,985	01/07/2011	30/09/2014	The project delivers enterprise coaching in the Bradford District in order to develop an 'enterprise culture', boosting business start-up, growth and survival rates. It works with those in long-term unemployment to promote employment and self-employment opportunities, and educates employers about the benefits of employing and retaining those who were previously long-term unemployed. Support to both groups helps to create sustained employment positions and reduces 'workforce churn'.
City of Bradford Metropolitan District Council	Enterprising Bradford	3	£4,959,433	£5,134,197	01/01/2007	31/12/2011	This project supports the growth of new enterprises in deprived communities in Bradford, and works with third sector organisations to help them identify opportunities for growth and become tender ready. In Halifax, the project links established companies to emerging community businesses and social enterprises in a mentoring programme. Additional activity facilitated delivery of the British Science Festival in Bradford in September 2011.
City of Bradford Metropolitan District Council	Enterprise Hubs	3	£763,338	£917,090	01/10/2009	28/02/2013	The project provides two enterprise hubs in Priority 3 areas of Bradford where there is a lack of incubator space, business support and other related activities. Both venues provide incubator space for new businesses and social enterprises and together will deliver 1,394m2 new or upgraded floor space and 130 businesses assisted, 30 of which 30 will be to social enterprises.
City of Bradford Metropolitan District Council	Wright Watson Enterprise Centre	3	£513,692	£524,068	01/02/11	31/03/15	This project will convert a disused church building in Idle into a centre for stimulating enterprise. It will target inactive households in the wards of Idle & Thackley, Eccleshill, Bolton & Undercliffe, and Windhill & Wrose to attract 'hard to reach' groups. As well as high quality managed office space for up to 10 early stage businesses, the centre will provide work desks for up to 10 entrepreneurs where they can receive support from an Enterprise Coach, Employment Officer and access business

							and library resources.
CO2Sense Ltd	Lower Carbon Economy – Resource Efficiency Yorkshire	2	£3,469,815	£3,970,615	01/04/2009	30/06/2013	The Resource Efficiency Yorkshire programme builds on, integrates and simplifies the existing environment specific business support activity within the region. It combines a range of activities including support for re-use and recycling businesses of all types, increase in the number of technology providers and the development of more (and more versatile) environmental consultants.
Department for Business Innovation and Skills	Digital Region	4	£26,949,419	£43,472,805	07/04/2009	30/04/2012	This project aimed to transform the economy of South Yorkshire through the provision of high speed, next generation broadband services. This new infrastructure allows the public sector to utilise a more efficient and effective network for corporate services, and ensures both public and commercial companies can reach businesses and citizens, addressing the social inclusion agenda.
Department for Communities and Local Government	Technical Assistance for ERDF Programme Management	5	£341,903	£341,903	01/04/2008	30/06/2015	This project provides the core funding for activities to increase the quality and achievements of the Programme. This includes partnership and consortia development of ERDF projects in order to meet targets, appraisal and including specific support for capital Programmes, contracting and claims and auditing of ERDF projects ensuring minimum clawback, publicity and information, evaluation, development and implementation of cross cutting themes and overall Programme Management.

Doncaster Borough Council	Civic & Cultural Quarter (CCQ) Enabling Infrastructure	4	£2,443,761	£4,182,506	01/01/2010	30/09/2012	The project developed infrastructure and provided additional capacity to stimulate development of a Civic and Cultural Quarter in a run down area of Doncaster. This paved the way for the provision of a New Performance Venue and the redevelopment of 25 acres of Brownfield land for Council and commercial offices and leisure facilities, improving the attractiveness, footfall and commercial appeal of adjoining areas of the Town Centre.
Doncaster Borough Council	Inclusive Enterprise	3	£4,000,000	£4,000,000	01/04/2008	30/06/2011	The project funds a number of streams of enterprise coaching and intensive start-up support targeted at the Doncaster's deprived neighbourhoods and communities. Specific provision to improve understanding of and access to finance in these communities is also provided.
Doncaster Borough Council	Inclusive Enterprise Phase 2	3	£2,050,028	£2,050,030	01/07/2011	30/06/2014	Phase 2 is a re-engineered enterprise model, building on lessons from Phase 1 to achieve economic recovery in deprived communities, broaden Doncaster's business sectors, address the enterprise gap and foster demand and jobs to create a sustainable enterprise culture. The project is supporting start up businesses, facilitating and supporting early business development. It provides support for existing businesses, particularly for those businesses that do not traditionally access mainstream support and those with growth potential. It challenges attitudes and builds confidence, providing a stepping stone to mainstream support, mentoring, business networks, guidance to sources of finance and enterprise coaching.

Doncaster Borough Council	Southern Gateway: White Rose Way Improvement Scheme Phase 1	4	£5,452,407	£9,343,716	01/03/2011	31/12/2013	This project addresses this gateway's poor introduction to Doncaster. Improvement work is providing a high quality landscaping scheme and an imposing landmark feature on entering the town. This will deliver up to 2,000 jobs directly attributable to releasing planning restrictions on developable land in the town centre.
Doncaster Borough Council	Southern Gateway Phase 2	4	£5,315,054	£9,096,695	01/12/2010	30/09/2014	Phase II will help remove the final barrier to the implementation of the full gateway scheme and its full economic benefits. It is delivering physical infrastructure gateway works to improve 1.1km of the A6128 and bring it up to dual carriageway standard, with junction improvements, landscaping and new pedestrian and cycle routes. This will transform the currently uninviting access to from the M18 and M1, creating a welcoming business infrastructure to facilitate the transformation of Doncaster's economy into a creative and innovative one.
Doncaster Borough Council	South Yorkshire Technical Assistance Phase 2	5	£1,014,773	£1,014,785	01/04/2011	30/06/2015	This programme is delivering activity across South Yorkshire to support the take-up of the ERDF programme 2011–2013, building on strong and active partnerships established during the first phase. It will deliver neighbourhood, local and sub-regional level activities across four local authorities, the South Yorkshire Forest Partnership and the Dearne Valley Eco Vision. Project delivery will focus on ensuring that resources are targeted effectively, embedding the integration of ERDF strategically and locally; thus ensuring that ERDF funding adds value to other key funding regimes and maximises partner input into the process.

Doncaster Borough Council	Waterfront Phase 4 Gateway Infrastructure (Holmes Market Junction)	4	£1,146,968	£1,963,032	01/04/2011	30/12/2013	The reconfiguration of Holmes Market Junction forms a key part of Doncaster's Urban Renaissance Masterplan, providing a gateway and access point to the Waterfront site which is a proposed extension to the Town Centre. It unlocks 15.66 hectares of Brownfield land for the development of a planned, vibrant, mixed-use development with a marina at its centre, creating a sense of arrival and improving the image of Doncaster as an urban centre.
Dransfield Properties Ltd	Penistone Gateway Infrastructure	2	£1,265,199	£1,173,869	01/01/10	30/06/14	Penistone Gateway Infrastructure is an urban development project which integrates and links a number of key development opportunities with the core of the town centre. It comprises new and improved junctions, access and entrance road to the centre and a covered public space in traditional materials forming a focal point for the market town. This will result in 7,900sqm of new commercial space that could accommodate up to 150 jobs, including a two storey commercial/office space specifically funded by ERDF with 2,122sqm of space for companies in target sectors of business and professional services and digital media.
East Riding College	Environmental Technologies Centre	2	£1,290,125	£1,490,324	01/12/10	31/07/15	The project is building a Centre of Excellence in Beverley, creating 1,131 square metres of knowledge and technology transfer space for SMEs in the environmental and renewables business sector. It will provide bespoke training for businesses, leading to courses in the management and maintenance of 'green' products and processes in order to allow SMES to become more efficient and environmentally sustainable.

East Riding of Yorkshire Council	Capitol Park Goole	2	£8,402,840	£9,667,783	24/9/2010	31/12/2014	Capitol Park has been developed in response to demand in the marketplace to develop a cluster of Advanced Engineering and Environmental Technology companies. Situated adjacent to Junction 36 of the M62 at Goole, it will develop 122 acres of land, with a 200 acre site for future development, in order to act as a major strategic business and employment location, providing a major boost to the region's economy.
East Riding of Yorkshire Council	East Riding Broadband	2	£5,154,409	£6,070,000	01/02/13	30/09/15	This project aims to improve the competitiveness and growth rates of SMEs in the East Riding of Yorkshire through improving access to superfast broadband (24 Mbs+). It will create the infrastructure for superfast broadband where the private sector has not done so, and support SMEs to avoid further market failures associated with the take up of superfast broadband access, ensuring they exploit the growth and competitiveness opportunities superfast broadband represents.
East Riding of Yorkshire Council	Humber Technical Assistance	5	£191,728	£191,882	01/04/2009	31/05/2012	Humber TA has the role of brokering and developing partnerships and consortia to take advantage of the drive towards larger more strategic investment of ERDF monies. The Humber TA Project ensures a single point of contact, linking complementary ideas within the sub-region and identifying where a broader delivery mechanism may be more appropriate, linking in with other regional TA projects.
East Riding of Yorkshire Council	Humber Technical Assistance Phase 2	5	£586,489	£586,488	01/04/12	30/06/15	Humber TA 2 provides technical assistance to organisations aiming to deliver, or delivering, ERDF funded activity. At this stage of the Programme there is a need to shift the focus from promotion and awareness of ERDF to supporting project development and successful delivery. Activity includes promotion of ERDF, technical support for project development, programme support, technical support for project delivery and strategic support. The project will help to shape the future of ERDF funding in the Humber and support the Local

							Enterprise Partnerships to develop their strategic role in European funds.
E-Factor Enterprise (NEL) Ltd	Inspiring Enterprise	3	£3,509,012	£3,652,238	01/09/2010	30/06/2014	The project extends to scope of E-Factor's LEGI programme to support and develop an enterprise culture in North East Lincolnshire, facilitated by an established network of enterprise centres. It reinforces support to individuals, SMEs and social enterprises at community level to encourage and support the creation of long-term sustainable enterprises and increase latent economic activity, providing a flexible, dynamic and sustainable infrastructure of support from pre-pre-start stages up to and including specialist support to existing enterprises. The project also provides coaching for the application of ICT in business and engages entrepreneurs in digital creative and cultural sector opportunities.
Electronics Yorkshire	Electronics Yorkshire	2	£598,052	£539,259	01/01/2008	30/09/2010	Electronics Yorkshire supports the electronics sector within Yorkshire and Humber by providing specialist business support and consultancy services directly to the sector. It provides a unique range of equipment, and assists businesses in the development of new and better products.
Energy Works (Hull) Limited	Hull Energy Works	2	£19,904,304	£15,009,402	01/02/14	30/09/15	Beginning construction in 2014, Hull Energy Works will develop an innovative Advanced Fluidised Bed Gasification process to recover energy from waste materials. It will reduce the amount of waste sent to landfill, and reduce air, water and visual pollution, and helping to alleviate reliance on fossil fuels. It will create jobs, regenerate the local economy and promote the Humber as a focus for renewable and low-carbon energy generation.

Finance Yorkshire Ltd	Venture Capital and Loan Fund	2	£30,000,000	£60,000,000	04/12/2009	31/12/2014	This project provides a regional Venture Capital and Loan Fund to build on the success of the Partnership Investment Fund (PIF) and the South Yorkshire Investment Fund (SYIF). The fund will maximise the potential for ERDF and uses the JEREMIE initiative to secure investment from the European Investment Bank.
Goodwin Development Trust Ltd	Future Hull – Enterprising Neighbourhood Renewal and Growth (ENRG)	3	£639,847	£652,773	01/04/13	30/06/15	This project runs a Pre-Enterprise Support Team and an Enterprise Start Up and Growth Team for public libraries and Council business centres across Hull. The first team provides extensive outreach awareness, information and engagement in areas of deprivation to promote an enterprise culture, while the second offers intensive enduring caseload management to new and existing SMEs, including those arising from pre-enterprise support.
Goodwin Development Trust Ltd	Hull Enterprise Partnership	3	£2,079,325	£2,150,488	14/11/2008	30/09/2011	The project built on an established city-wide partnership of neighbourhood networks to provide outreach interventions. It supported the growth and development of enterprise and economic opportunity in Hull's most deprived communities. Its activities encouraged individuals into the mainstream Business Link offer and the wider economy in order to increase income, employment, and productivity within deprived neighbourhoods.
Goodwin Development Trust Ltd	The X Factory	3	£1,000,889	£1,041,742	01/10/2010	31/12/2011	This capital project provides 900m ² of high quality managed workspace in a former supermarket in Hull. The project will create 33 jobs over a period of 3 years, 6 enterprises supported (of which minimum 2 will be social enterprises).

Grimsby Institute of Further and Higher Education	Grimsby Renewable and Environmentally Associated Technologies (GREAT)	1	£3,316,610	£1,865,594	01/01/13	30/06/15	This project seeks to drive innovative technology transfer solutions within the Humber and North Yorkshire coastal districts, focused on low carbon initiatives. It will develop local supply chains and encourage knowledge transfer to support emerging renewable energy industries, and encourage innovation and transformational change in existing energy users.
Groundwork Sheffield	The Green Incubator	3	£412,516	£413,159	01/07/2011	31/12/2013	Groundwork Sheffield's Green Incubator project provides 100 people on Job Seekers Allowance a year with an opportunity to incubate and establish a social or community enterprise. It is made up of an intensive six months enterprise development programme and a post start-up support period of 18 months. Businesses established include those undertaking commercial and domestic energy assessments, undertaking minor domestic capital works and recycling bicycles.
Groundwork Wakefield Limited	Wakefield Kirkgate Rail Station Development	3	£750,000	£777,336	01/11/10	30/09/15	This project is part of a major £4.6 million regeneration of Kirkgate Railway Station. The ERDF-funded strand will create 625sqm of incubation units and meeting rooms, providing space for new and start-up SMEs on an easy-in easy-out arrangement. The refurbishment of the whole building to BREEAM Very Good standard and the enterprise space provided will bring significant added benefit to this deprived area.
Hambleton District Council	Hambleton Managed Workspace	2	£2,316,853	£3,357,300	01/11/2007	31/08/2010	The programme created two targeted managed workspace projects within Hambleton. One, the Northallerton Managed Workspace, includes management space, communal space and service space, while Leeming Bar focuses on affordable food-grade workspace for new and young SMEs within secondary food production, building upon the area's existing food cluster.

Hebden Bridge Community Association	Hebden Bridge Creative Quarter	2	£1,252,180	£1,446,488	01/02/2010	30/09/2014	The Creative Quarter adjoining the Town Hall will develop a growth cluster of knowledge-intensive businesses in the creative and digital sector. It targets newly-established and growing businesses as well as providing 'at-need' access to its facilities and support services for smaller, home-based businesses. The 750sqm of workspace and meeting rooms and conference facilities are equipped with high speed broadband, offering formal and informal networking and business exchange opportunities.
Homes and Communities Agency	Tower Works	2	£1,934,194	£2,230,737	06/09/2010	31/03/2012	This project is enabling first phase of development in Holbeck Urban Village, specifically focused at the Creative & Digital Industries (CDI) sector. These works will include immediate conservation works to one building, full development of the listed building known as the Entrance Range into managed workspace and conservation works to the Engine House.
Horncastle Group Plc	The Beacon	2	£3,004,094	£5,094,714	01/10/2010	31/03/2015	The Beacon is a new Business Park in Hull designed to accommodate SMEs in Bioscience, Environmental and Healthcare Technology sectors. The one hectare park will comprise three high quality detached units totalling some 4,642sqm of business accommodation on three levels.
Horncastle Group PLC	Green Park	2	£1,710,929	£1,976,407	01/07/12	31/08/15	This unique project will create 11 eco-offices targeted at Priority 2 growth sectors including advanced engineering and metals, food and drink and environmental technologies. It will develop infrastructure to service the 7.5 hectare site at Junction 38 of the M62 and create 2,443sqm of space. The business park will enable micro and SMEs currently operating out of growth-inhibiting, substandard premises to expand their activities and offer greater employment opportunities.

Huddersfield & District Textile Training Co Ltd	Textile Innovation Programme	1	£1,549,581	£2,118,849	01/07/2009	30/06/2012	The Textile Centre of Excellence provides an innovation centre for Technical Textiles including 'close to market' research and development to maximise business benefits from exploiting scientific and technological developments. It also supports a wide range of environmental improvement activities to allow manufacturers to use more environmentally friendly chemicals and reduce the use of power and water. Other applications from the programme include the use of nano and plasma technologies to produce fabrics which are self-cleaning, conductive fibres to make 'smart' clothing that can monitor the wearer's body functions, and dressings that monitor wounds, prevent infection and deliver medication.
Incommunities Group LTD	Locally Grown	3	£1,525,582	£1,517,188	01/09/12	30/06/15	This grass-roots approach to stimulating private and social economy sector growth supports business start up in social housing estates in Bradford, Leeds, Barnsley and Sheffield. By creating sympathetic conditions it supports Social Housing Tenants and others in these communities who recognise they are able to set up a business, and assists existing businesses and social enterprises to develop and expand in order to create jobs for local people and improve the local economies.
Ispace Investments LLP	lpark2	3	£1,268,942	£1,341,954	01/01/2010	30/06/2015	The project focuses on the development of quality accommodation to meet the needs of around micro and SME firms in Hull requiring incubation, managed workspace and "grow on" space in a safe, secure environment. Run in partnership with Hull City Council, these business spaces will address a market failure which has seen a lack of such facilities, and provide space for around 150 jobs.

Key Fund (South Yorkshire) Ltd	CDFI Finance for SMEs and Social Enterprises	3	£9,966,979	£9,983,000	05/01/2011	31/03/2014	The regional Community Development Financial Institutions have developed a project that ensures regional coverage of the Solutions for Business product of 'Small Loans for Business'. It supports new and growing businesses and Social Enterprises in deprived areas which have been unable to access mainstream finance, providing the best opportunity for them to develop and succeed.
Key Fund (South Yorkshire) Ltd	Key Fund Yorkshire Social Enterprise Fund	3	£1,440,539	£1,405,188	29/07/2010	31/12/2013	The Social Enterprise Fund provides small grants of up to £3,000 for voluntary and community sector organisations and social enterprises in order to help them move from grant funding towards sustainability.
Key Fund (South Yorkshire) Ltd	Key Fund Yorkshire Social Investment Fund	3	£1,456,140	£1,515,572	01/04/2007	30/11/2009	The project used ERDF funding to provide accessible and bespoke finance to help third sector organisations to move away from grant dependency towards financial resilience through income generated from providing products and/or services. It focused on areas of disadvantage and market failure and under-represented groups, providing mentor support as well as finance.
Key Fund (South Yorkshire) Ltd	Understanding Finance for Business	3	£485,699	£476,348	01/04/2011	31/03/2015	This project, run by regional Community Development Financial Institutions, aims to provide SMEs, Social Enterprises and new starts with knowledge and understanding of debt finance as a tool for developing business plans and securing sustainability. This is done through presentations at large events, smaller, targeted workshops and bespoke organisational and 'post investment' support.

Kingston upon Hull City Council	KREATE (Kingston Rovers Enterprise and Training Experience)	3	£3,444,186	£3,584,764	23/08/2010	31/08/2014	This project will provide differentiated and distinctive physical accommodation in which to support start-up & early stage micro businesses in East Hull. It will provide accommodation for vocational, adult and enterprise skills training and the facilities needed to increase economic regeneration and inclusion in Craven Park. Part of a mixed-use regeneration programme in one of Hull's most deprived areas, it will create local jobs and opportunities, and stimulate new businesses and business growth.
Kingston upon Hull City Council	Local Work Guarantee (Hull Employment / Retention / Mentoring)	3	£1,494,024	£1,032,052	05/02/2009	31/05/2012	Local Work Guarantee is the brand for an integrated suite of employment projects designed to address Hull's worklessness issues. There are three separate but linked strands and ERDF supports strand three: Maintaining Employment Contract. This provides a job brokerage service linked to local employers, promotes inclusive recruitment practice and supports employers with accessing the broadest population of applicants, recruitment, and job matching.
Kirklees Council	Energy Innovation in Deprived Communities	3	£7,108,974	£8,454,264	01/04/2010	30/06/2014	This project aims to deliver a new approach to energy efficiency and renewable energy projects in the most deprived communities within Yorkshire and the Humber. It will target particularly hard-to-treat homes such as solid wall properties and those where energy efficient measures are not possible. This will in turn prepare the region in terms of jobs, skills, knowledge and experience to take advantage of the Government's proposed Green Deal aspirations which will create 250,000 new jobs by 2030.

Kirklees Council	Kirklees Youth Enterprise Centre	3	£2,109,269	£2,760,087	01/01/2012	30/06/2015	The centre will build a culture which values, nurtures and promotes enterprise in young people across Kirklees. Focusing on the creative and media sector, it will encourage young people who show entrepreneurial flair. Operating outside of the normal national curriculum, support offered will include test trading, business mentoring, enterprise days, entrepreneur exchanges, 'dragon's den', enterprise challenges and example companies within the centre.
Leeds City College	Incubation and Education	2	£4,177,020	£4,903,454	09/09/2010	31/12/2013	This project worked with Further Education Colleges to support the formation and growth of new businesses, helping College Learners, including community learners, make a success of enterprise. It worked with Further Education Colleges and the Young People's Enterprise Forum to reach out to groups with an 'enterprise deficit' and people looking for new opportunities in response to redundancy and job loss.
Leeds City Council	Create and Innovate	5	£89,650	£89,650	01/10/2008	31/12/2010	This project supported the successful delivery of the Regional Competitiveness and Employment Programme 2007-2013 in Yorkshire and the Humber. By raising awareness of the ERDF programme, it aimed to increase the number of projects approved by the Programme, ensuring planning and co-ordination relating to the Innovation agenda of Priority 1.
Leeds City Council	Employment Leeds	3	£693,045	£693,045	01/01/2011	31/05/2014	Employment Leeds is overseen by the Worklessness Strategic Outcomes Group (WSOG) which includes key partners in Leeds. It brings together an offer of assistance for new and existing employers, undertaking job brokerage and retention activities. Activity will be commissioned to support the job brokerage requirements of large scale developments such as the Arena, City Centre retail schemes, Airport expansion and major regeneration schemes such EASEL and Aire Valley.

Leeds City Council	Enterprising Leeds	3	£474,784	£494,164	01/04/2010	31/12/2014	Enterprising Leeds focuses on raising the profile of enterprise and increasing self-employment rates in some of Leeds' most deprived communities. This is done through an integrated package of enterprise coaching and intensive start-up support. It is primarily delivered through a network of enterprise centres in deprived neighbourhoods, set up with LEGI funding. The centres will provide a central and single access point to enterprise support at a local level.
Leeds City Council	Middleton Enterprise Centre	3	£688,950	£746,463	01/01/2010	30/06/2013	The Middleton Enterprise Centre provides a two-storey new build to act as a central hub for encouraging and stimulating entrepreneurialism and self employment within the target communities. The Centre provides networking and hot desk space for budding new businesses, using the 'Pay As You Go' tariff model adopted by the existing catalyst centres in Leeds, as well as office accommodation of various sizes for up to ten additional commercial and social enterprises.
Leeds City Council	West Yorkshire Broadband	2	£4,219,341	£4,874,067	01/09/13	30/09/15	The aim of this project is to deliver fast and reliable broadband which is vital to the economic performance and social cohesion of West Yorkshire. It will support economic growth by making it easier to start and grow a business in the sub region, improving productivity, innovation and entrepreneurialism. As well as infrastructure, it will deliver business support activity to help local businesses in key sectors, helping them to improve performance, access new markets and diversify sale channels.
Leeds Community Foundation	Yorkshire Venture Philanthropy Programme	3	£736,462	£729,210	01/06/2012	31/05/2015	The first regional Venture Philanthropy Programme in the UK works with the private sector to encourage them to invest time and money in third sector groups looking to develop or grow social enterprise activity, and to use their services. It provides targeted business and professional advice to existing or potential social enterprises and offers grant funding and financial investment to help social enterprises to develop.

Lighthouse Group UK Ltd (The)	The Centre of Excellence Phase 2	2	£939,165	£1,083,155	01/10/2010	31/12/2013	Phase Two of the development of the Centre of Excellence provides bespoke, flexible incubation, start up and grow on space dedicated to the needs of new and high technology businesses within the Creative and Digital Industries (CDI) sector. This is a response to demand for a new technology enterprise hub for CDI, which will create jobs through business start up and business growth and provide an alternative geographic focus to the current support within the district.
Newlands Community Association (Trading) Ltd	Newlands Enterprise Park	3	£1,018,412	£1,527,466	01/07/2010	31/12/2011	This project is created one the largest straw bale buildings in Europe to form an Enterprise Centre and 14 work units. This created a sustainable Business Park where local organisations can grow and prosper whilst having a minimal impact on the environment.
North East Lincolnshire Council	CATCH 3	2	£1,500,576	£1,740,447	04/01/2011	30/06/2013	The project ensures that CATCH continues to add value for businesses by providing the right product for investors, the right mix of skilled and competent people and opportunities to facilitate industrial collaboration. It doubles capacity at CATCH, providing facilities to accommodate the current and future projected demand. It will create 612 jobs, leverage £750,000 private sector Investment and support 25 businesses.
North East Lincolnshire Council	Change Plus	3	£435,602	£491,211	01/04/2011	31/03/2014	Change Plus is set to make significant in-roads in preparing unemployed and hard to reach groups for employment. It will secure commitment from employers and help them to recruit people who are engaged, nurtured and employment-ready, creating sustainable employment opportunities. It will make key employment locations more accessible to residents of deprived neighbourhoods, adding to the existing Change Programme within North East Lincolnshire.

North Lincolnshire Council	Northern Lincolnshire Broadband	2	£3,072,922	£3,551,000	01/10/2012	30/09/2015	This project will offer an integrated package of support to help SMEs in Northern Lincolnshire fully capitalise upon the business opportunities offered through superfast broadband. It will provide both the infrastructure and business support needed to address market failure which has prevented investment in broadband provision, educating SMEs about the benefits of broadband access.
North Yorkshire County Council	Next Generation North Yorkshire (NYNET)	2	£13,182,859	£15,228,345	07/06/2011	30/06/2015	The project is connecting North Yorkshire SMEs to fast broadband, providing infrastructure and business support to address the market failure whereby businesses in rural North Yorkshire are unable to access services and markets with fast connectivity. It will improve dramatically the speed of access to and from North Yorkshire businesses, opening opportunities for business expansion through wide-scale market stimulation and state-of-the-art information exchange and development.
Pasture Development Company Ltd	Freeman Street Business and Community Hub	3	£705,403	£741,606	04/04/2011	31/12/2013	The project will convert 985sqm of Freeman Street market into facilities for community organisations and businesses. This will build on a highly successful pilot scheme and create 16 workshops and offices for new businesses, products and services. The development is responding to demand from creative and digital media users is flexible to accommodate a wide range of needs and will also safeguard 100 jobs and 6 businesses operating from the market by creating a sustainable use of space, increasing footfall and generating sales.

People United Against Crime	Business Crime Reduction Centre	2	£2,243,933	£2,012,000	01/10/2011	31/10/2014	The Business Crime Reduction Centre offers business support by providing security advice covering physical security and cyber crime threats. The Centre will support victims of crime and work with other businesses to mitigate crime-associated risks, helping businesses to survive in the short term, and seize future opportunities once the economic situation improves. It will create and safeguard jobs whilst removing the hidden costs of dealing with crime from small and medium sized enterprises.
Princes' Trust (Yorkshire & Humber)	Princes Trust Enterprise Project	3	£762,526	£762,538	01/10/2011	30/06/2015	The Prince's Trust Enterprise project will provide self-employment support for young adults aged 18-30 who have been long-term unemployed, have no formal qualifications, an offending background or who face economic and social isolation. Providing a region-wide enterprise support service for young entrepreneurs, the three-year project will create 414 new businesses in the region of which at least 207 will still be trading after 12 months.
Property Alliance Group Limited	Victory Higher Manufacturing Park	2	£2,130,169	£3,423,774	01/04/2010	30/09/2013	The Victory Higher Manufacturing Park is a capital project creating two buildings and remediating surplus land to support the development of new, high quality industrial and manufacturing accommodation in the Lower Don Valley.
Prospect Estates Limited	Darnall Managed Office Workspace, Sheffield	3	£683,249	£625,058	01/08/2010	30/11/2012	The project was required to fill the gap that exists in the market in the Darnall area for small managed office workspace at affordable rents on acceptable occupancy terms. It created 20 energy-efficient, ICT connected lettable units for micro/small businesses, with permanent onsite management providing a reception, a messaging service and meeting rooms.

Rotherham Metropolitan Borough Council	Employability Programme (Economic Inclusion PPR) - South Yorkshire - Rotherham	3	£725,700	£803,277	01/04/2010	30/09/2012	The project tackled the growing issue of redundancy in order to minimise the effects of the recession on the labour market by delivering a coordinated approach on recruitment, retention and progression for Rotherham employers. It focused on addressing unemployment, employment retention and redundancy, supporting disadvantaged people and employers to safeguard and create jobs and promote sustainable businesses.
Rotherham Metropolitan Borough Council	Growth & Prosperity in Rotherham (Soft Landing Zone)	2	£792,413	£476,111	01/04/2011	30/04/2015	Building on two decades of successful delivery of incubation programmes and inward investment, the next phase of development focuses on international business, and growth of existing businesses in to global markets. The first aspect is encouraging additional successful knowledge-based business to set up by attracting foreign business, while the second is working with home grown talent to develop ideas for export-focused businesses through accelerated development and support. Finally it encourages businesses to share ideas for development through an Ideas Bank.
Rotherham Metropolitan Borough Council	Rotherham Enterprising Neighbourhoods	3	£3,827,670	£3,260,609	01/01/2007	30/06/2015	This project, aimed at Rotherham's young people (18-30 yrs old), promotes sustainable economic growth and creates enterprise opportunities for individuals and businesses. It employs Business Support Officers based in four Neighbourhood Enterprise Centres and a co-ordinator to support the creation of an Enterprise Board, a new business network in Rotherham. It also runs the Rotherham Ready activity designed to embed an enterprising culture within schools and colleges.

Rotherham Metropolitan Borough Council	South Yorkshire Technical Assistance	5	£888,462	£888,462	01/04/2008	30/06/2011	South Yorkshire Technical Assistance seeks to improve the implementation, monitoring and control of ERDF in South Yorkshire and will undertake activity to support the delivery of the ERDF programme.
Scarborough Borough Council	Scarborough Enterprise Match	3	£928,134	£966,015	01/04/2011	30/09/2014	Scarborough Enterprise Match aims to create an enterprise culture to unlock the entrepreneurial potential of the borough's most disadvantaged communities, increasing the number of business start-ups, improving three year survival rates and creating jobs. It delivers intensive pre-pre start support, and support to start-up businesses and social enterprises through a team of community-based enterprise coaches, and provides a programme of new and additional support for students of Yorkshire Coast College. A new Enterprise Centre will be located at the college to provide facilities and services which build the capacity of residents to start their own business.
Scarborough Borough Council	Scarborough Job Match	3	£535,715	£557,603	01/10/2008	30/06/2012	This project developed links between employer demand for labour and workless people from the most disadvantaged neighbourhoods in Scarborough, by providing workless people with the skills and qualities employers require and supporting employers with a job-brokerage service. This was to address market failure in Scarborough which had lead to high concentrations of worklessness and a difficulty in recruiting for employers.

Science City York	Science City York - Embedded Business Space and Technology Transfer	2	£19,750,975	£19,069,849	01/01/2007	30/06/2013	This project is a nationally significant transformational improvement to the assets and strategic potential of the region's Science City through a major expansion of York University. It gives substantial opportunities for working with business, and connects with a significant new business strategy from the Central Science Laboratory involving specialist grow-on space for SMEs and research and development collaboration.
Science City York	Science City York Specialist Services for Business Growth and Innovation	2	£1,258,003	£1,550,081	01/01/2007	30/09/2013	This project encouraged business growth in target knowledge-based sectors in and around York and North Yorkshire by providing embedded Specialist Business Mentors. They worked within businesses over a six month period to enable them to overcome barriers to growth, stimulating the growth of target knowledge-based sectors.
Screen Yorkshire Ltd	Yorkshire Content Fund	2	£7,500,000	£7,500,000	01/12/2011	30/09/2014	The Yorkshire Content Fund addresses a gap in the market place by providing targeted co-investment finance to creative content projects, and developing innovative approaches to further investment in the digital and new media sector. Projects, such as film and television programmes, videogames and web applications, will either be initiated by Yorkshire-based companies or by SMEs attracted into or started up in the region.
Second Avenue Resource Centre Limited	South Community Hub	3	£688,635	£546,184	12/01/11	30/06/15	The South Community Hub will support economic development activity in the centre of a deprived area, restoring a redundant building to community use and developing it as a managed workspace to provide high quality, well managed and affordable accommodation and workspace in Nunsthorpe. It will create the conditions for new businesses and social enterprises to prosper in an area that is underperforming and not creating enough jobs to support local people.

Sheffield City Council	Enhanced BiG (LEGI) Programme	3	£4,846,364	£4,846,364	01/04/2008	31/03/2014	Operating across Sheffield to provide support to individuals looking to develop a business idea, the project delivers 1-2-1 support to early stage start up businesses, individuals and existing SMEs who are looking to grow and develop. It also provides a series of specialist support interventions for Sheffield businesses in areas such as Social Enterprise, Procurement and ICT.
Sheffield City Council	Enterprising Neighbourhood Centre - Knutton Road (SOAR Works)	3	£2,776,059	£1,872,083	01/02/2008	30/06/2012	This was part of Sheffield City Council's Programme to address a lack of suitable premises and services for start-up businesses in economically disadvantaged areas of Sheffield by building four managed workspace centres. The first phase the programme saw construction of Knutton Road, an enterprise centre in the deprived ward of Southey and Owlerton, creating fully serviced business start up units including office space, light industrial units, artists studios, hot desking facilities and meeting space.
Sheffield City Council	Enterprising Neighbourhood Centres - Alison Crescent	3	£1,465,137	£1,377,228	01/10/2008	31/12/2014	This project adds a third phase to the development of the Alison Crescent Business centre; expanding gross area by approximately 1560sqm, expanding lettable space by approx 1115sqm and adding 28 units. It provides office space and light industrial units, hot desks, shared office and virtual office facilities, and meeting rooms and seminar space.

Sheffield City Council	Sheffield Community Network Programme	3	£2,397,108	£2,397,108	01/06/2010	31/03/2015	The Sheffield Community Network delivers a programme of interventions and investment in ICT infrastructure to create a seedbed for community-based growth, enabling the creation of new businesses and jobs.
Sheffield City Council	Sheffield Cultural Infrastructure Programme	4	£4,142,000	£7,090,919	01/04/2008	31/07/2011	The Cultural Infrastructure Programme improved Tudor Square through the redevelopment of the urban environment. This provides an events arena and high quality gateway, intended to be visitor attraction in its own right, to the important complex of cultural facilities consisting of three theatres (Crucible, Lyceum and Library), the City Library, the Millennium and Graves Galleries, and the Winter Garden.
Sheffield City Council	Sheffield Eastern Gateway	4	£1,109,921	£1,899,627	09/02/2009	30/03/2011	The Eastern Gateway lies between the New Retail Quarter, the New Business District and the Moor. This project provides a high quality entrance for workers, shoppers and visitors whether arriving by car, public transport or by foot.
Sheffield City Council	Sheffield Employability Project (sector routeways)	3	£1,782,000	£1,782,000	01/04/2009	30/06/2012	This programme is an employer led, 'wrap around' service to support retention of people in work, extending and diversifying the pool of local labour available to businesses by connecting buoyant and growing sectors with economically inactive individuals from target groups. It operates under the brand "Opportunity Sheffield".

Sheffield City Council	South Yorkshire Sector Growth Enhancement Programme	2	£1,756,572	£945,847	01/04/2011	30/06/2013	The programme used ERDF funding to provide intensive business assists to South Yorkshire based SMEs with high-growth potential in target sectors, in order to support their expansion, create jobs and increase competitiveness. This facilitated the growth and expansion of indigenous businesses by using integrated key account management and tailored marketing activity to secure new inward business investment to the Sheffield City Region.
Sheffield Hallam University	Innovation Futures	1	£1,540,765	£1,480,343	01/01/2009	31/12/2012	This project delivers bespoke, in-depth interdisciplinary interventions to embed Research and Development, promote an innovation culture through long-term collaborations with businesses, and increase business growth and sales. Innovation Futures encourages businesses to transform the way they manage resources by supporting the development and use of new processes and technologies to improve efficiency.
Sheffield Hallam University	Innovation Futures 2	1	£966,868	£876,922	01/01/2013	30/06/2015	This project promotes innovation culture through long-term collaborations with businesses to increase business growth and sales. It utilises and enhances Sheffield Hallam University's expertise in materials and engineering, digital and design, food innovation and biomedical science, and the Sheffield Business School to embed research and development and contribute to the Region-wide business support and innovation ecosystem, providing bespoke, in-depth and interdisciplinary interventions.

Skills for Communities Ltd	2 Hubs 4 Inclusion	3	£1,096,537	£1,118,694	1/10/08	28/02/15	This project will create 855sqm of new, accessible, managed workspace in one of the most deprived areas of Hull. Two disused buildings will be brought back into economic use with BREEAM very good or excellent ratings and energy efficiency features. This will create neighbourhood hubs for local enterprise activities, with business space for new and existing social enterprises and small businesses.
South Yorkshire Passenger Transport Executive	Access to Opportunities	3	£2,378,995	£3,407,005	01/07/2008	30/06/2013	This project improved bus service in the Dearne Valley to improve access to opportunities for residents of South Yorkshire, where physical access to employment, training and education was adding to social exclusion. It increased the availability of labor by removing barriers to employment, facilitating environmentally sustainable business growth.
South Yorkshire Passenger Transport Executive	Doncaster Connecting Economic Infrastructure (A630 Smart Route)	4	£943,281	£1,614,420	01/02/2008	28/02/2013	The creation of the A630 Smart Route used bus priority and road safety measures, together with traffic signal technology, to reduce congestion and improve the attractiveness of the gateway approach to the town through modal shift to public transport. This will improve the physical attractiveness of access routes into Doncaster, making it a more attractive environment for inward investment by knowledge-intensive businesses.
South Yorkshire Passenger Transport Executive	Rotherham Central Railway Station Redevelopment and Station Gateway Improvements	4	£2,679,531	£4,976,272	01/04/2008	31/03/2012	The rail station is being completely modernised to address its outdated image, improve facilities, enhance the poor user environment, improve access for passengers (particularly those with disabilities) and address issues (and perceptions) of safety and security. The station improvements aim to provide a visually welcoming and prominent gateway to the town centre and enhance rail users' experience with a first-class station environment.

South Yorkshire Property Investment Company Limited	South Yorkshire JESSICA Fund	2	£15,201,888	£8,185,637	05/03/2012	31/12/2015	A Joint European Support for Sustainable Investment in City Areas (JESSICA) fund has been launched in South Yorkshire as part of a phased approach. It will debt finance, property and energy sector development projects via two new Urban Development Funds (UDFs).
Stafforce Personnel Ltd	Food Automation and Innovation	1	£1,446,267	£,1,047,294	01/07/2012	31/03/2015	This project funds a team of food engineering specialists and marketing support to improve the competitiveness and survival rates of food and drink SMEs by raising awareness of the benefits of automation, robotics and innovation. It offers a private matched Innovation Support Grant Scheme via a structured 'process and innovation technology plan', and provides opportunities to share knowledge and research and development through links to the regional engineering sector and Higher Education Institutes.
Technology Strategy Board	Large Company (Industrial) Research and Development Award Scheme - Second Round (IRD2)	1	£175,318	£525,947	01/01/2009	30/03/2012	This project provided specific, targeted financial support to large companies in the region wishing to accelerate research, development and innovation activities but who could not bear the full risk associated with such work themselves. This support would create and safe guard jobs, generate sales and establish key collaborations between the regional supply chain and knowledge base.
Technology Strategy Board	Grants for Research and Development	1	£975,305	£1,433,191	31/10/2009	30/09/2011	This national scheme used ERDF funding to help existing SMEs and individuals starting businesses to research and develop technologically innovative products and processes. Providing grant support to reduce the overall cost of the work reduced the risk associated with investing in new technology, encouraging SMEs to develop financially lucrative innovations.

Unity House (Wakefield) Limited	Unity Hall	2	£1,180,580	£1,228,816	07/02/12	30/06/15	The Unity Hall project will establish a Creative and Digital business centre in the heart of Wakefield by refurbishing 2042sqm of space to house 50 businesses. This project is lead by Unity House (Wakefield) Ltd with the project management assistance of Shine (Harehills Community Interest Company). Leeds Met University's Northern Technology Institute are to be a tenant and development partner in the building, establishing a digital co-working space similar to Old Broadcasting House in Leeds.
Unity Property Services Limited (trading as Unity Enterprise)	Chapelton Enterprise Network	3	£814,292	£814,292	01/04/13	30/06/15	The project will create 3 business units the Unity Business Centre, upgrade 60 more and upgrade 19 business units in the Chapelton Enterprise Centre to make them more space- and energy-efficient. It will work with entrepreneurs, local businesses, social enterprises and other organisations to offer holistic advice and support services, with a Social Enterprise Development Officer and a Network Business Advisor available to travel around the Chapelton network.
University of Bradford	University of Bradford Sustainability Centre	1	£2,776,510	£3,680,474	01/01/2008	31/12/2014	The Centre will be the focal point for sustainable development-related research and knowledge transfer expertise working with new and existing businesses. With interdisciplinary expertise in social sciences, environment, health, management, informatics, and design & engineering, the project will focus initially on supporting businesses in sustainable construction, resource efficiency (particularly water), and behaviour and cultural change.
University of Bradford	Yorkshire Innovation Fund	1	£4,146,586	£2,332,458	01/07/12	31/07/15	The fund aims to stimulate economic growth through multiple partnerships between businesses and universities. It will enable regional companies to work with universities to increase their competitiveness and create growth in employment through innovation. By providing vouchers, grants and investments it will create a platform capable of supporting companies operating at all levels of the innovation spectrum.

University of Huddersfield	Graduate Entrepreneurship Project	2	£1,231,843	£1,237,530	01/01/2011	31/10/2014	The Graduate Entrepreneurship Project delivers a broad framework of activity both locally, through individual HEI institutions, and regionally, to engage students and recent graduates within 5-7 years of graduation (depending on local need) to encourage and support business start up and growth.
University of Huddersfield	Huddersfield Enterprise & Innovation Centre	1	£6,192,408	£4,128,271	01/04/2010	31/03/2014	The EIC will be created by refurbishing and extending an existing University building to create an exciting business-facing centre for collaboration and research. It will work with the University to promote knowledge transfer and entrepreneurial culture in both the Higher Education and business community, creating an innovation community that will facilitate dynamic interactions to promote supply chain and demand-led innovation.
University of Leeds	Institute for Product and Process Development	1	£4,379,555	£3,231,862	01/01/2009	31/12/2013	This project will combine and exploit the strengths in science and engineering at the Universities of Leeds and Huddersfield. It provides unique infrastructure to make a significant step change in the commercialisation of activities in process research and development to provide more sustainable new products. It enhances the knowledge transfer agenda by working intimately with industry to develop useable, competitive and valuable technology, and promote the sustainability agenda through technology designed for cleaner processes.

University of Leeds	Utilising Synergies in Nano-Manufacturing to Accelerate Innovation (MNT2)	1	£2,511,834	£2,086,246	01/05/2009	31/12/2014	This project builds on the nanomanufacturing technology cluster in the region and established best practice technology transfer expertise to promote high technology innovation and develop a regional collaborative network of universities and companies. Activity will be a combination of marketing, networking with business, project resourcing and delivery, and collaborative project building to deliver new processes and products and encourage the commercialisation of new technologies.
University of Sheffield	Advanced Manufacturing Institute – Design Prototyping and Testing Centre (AMI-DPTC)	1	£4,830,000	£4,830,000	01/10/2011	30/09/2014	The AMI-DPTC project will extend the original AMRC building to build and equip a UK Centre of Excellence in Industrial Design, Prototyping and Structural Testing, building on South Yorkshire's industrial base. This is supported by some of the world's leading manufacturers, but regional SMEs will benefit most from having an internationally recognised DPTC at their disposal, able to work with them on projects ranging from basic design, through to preproduction prototype and testing. This project will further enhance the region's growing reputation as an international centre of manufacturing excellence. It will create jobs and bring work to the region far beyond the investment period.
University of Sheffield	Advanced Manufacturing Institute – Training Centre	1	£5,030,860	£12,899,640	01/10/2011	31/08/2014	This capital build project provides a state-of-the-art 5,464sqm training and networking centre for regional companies to improve their competitiveness by ensuring their employees are trained to the highest possible standard. It will offer training at all levels and create up to 250 new apprenticeships a year in manufacturing companies, providing the skilled workforce necessary for regional companies to compete in high value manufacturing supply chains. Courses will be part-time so that knowledge gained is of immediate benefit to the companies concerned.

University of Sheffield	Advanced Materials Centre at the AMP	1	£1,572,387	£1,568,409	01/03/2011	30/06/2015	The Advanced Materials Centre provides a range of industrially focused strategic services to regional companies, delivered by NAMTEC. These services will comprise of the delivery of a Manufacturing Design and Modelling support programme and the provision of an Advanced Manufacturing Support Programme to deliver sustainable growth and long-term prosperity to the Advanced Engineering and Materials sector in Yorkshire and Humberside.
University of Sheffield	Mercury, University of Sheffield	1	£5,144,291	£4,594,281	01/04/2010	31/12/2013	Mercury's speciality is powder-based manufacturing; the production, enhancement and repair of manufactured items using a material feedstock, including advance metal or ceramic, in a powder form rather than conventional forms of feedstock such as billets or sheets. Project Mercury works with companies to develop and demonstrate this innovative processes on their products and transfer the technology to their companies.
