DWP QUARTERLY STATISTICAL SUMMARY

This Statistical Summary aims to give users a structured overview of the benefit National and Official Statistics published by the Department for Work and Pensions (DWP). Statistics are grouped by component area of DWP and, for each statistic; links are given for users to access more detailed information.

Key benefit statistics from 100% sources are available on an internet-based tabulation tool. A similar tabulation tool derived from 5% sample data is also available, however wherever possible 100% data should be used in preference to 5% estimates, as they are more accurate and form DWP's headline statistics. Statistics are also released via the NOMIS website and the Neighbourhood Statistics website.

All regular series are full National Statistics;

EXCEPT:

The working age inactive benefit early estimates are official statistics;
[See: <http://www.statisticsauthority.gov.uk/national-statistician/types-of-official-statistics>]

The early estimates for working age inactive benefit client groups are released monthly and are designed to give indicative, timely information; they are not a substitute for the National Statistics. They will be replaced by the quarterly National Statistics covering the same period when they are published. The National Statistics are the finalised figures.

These statistics were released on 15 May 2013 according to the arrangements approved by the UK Statistics Authority. Not all DWP National Statistics are covered by this release. Some statistics have their own first releases, but links to these are given throughout.

Key Findings

- There were 5.6 million working age benefit claimants at November 2012. This is a decrease of 141 thousand in the year to November 2012.
- Employment and Support Allowance (ESA) was introduced on 27th October 2008. There were around 1.45 million people claiming Employment and Support Allowance at the end of November 2012.
- The number of working age claimants of ESA and incapacity benefits totals 2.50 million in November 2012. This figure is 76 thousand less than November 2011.
- The number of lone parents claiming Income Support (IS) decreased by 72 thousand to 510 thousand in the year to November 2012.
- At November 2012, there were 12.8 million claimants of State Pension (SP), a rise of 146 thousand on a year earlier. Of these 40% were male and 60% female.
- At November 2012, there were 2.50 million claimants of Pension Credit (3.04 million including partners) a fall of 21 thousand on the previous quarter.

- At the end of March 2013, the CSA live and assessed caseload stood at 1.11 million cases. In the quarter ending March 2013, 81.0% of all cases in which maintenance was due had either received maintenance via the CSA collection service, or had a maintenance direct arrangement in place.
- At November 2012, there were 3.28 million recipients of Disability Living Allowance (DLA), 1.56 million recipients of Attendance Allowance and 622 thousand recipients of Carer's Allowance (CA)
- At February 2013, the total number of people claiming Housing Benefit was 5.08 million, with 5.90 million claiming Council Tax Benefit.

Statistics on benefit flows show:

- There were 1.15 million new claims to Employment and Support Allowance (ESA) and incapacity benefits, this includes people moving to ESA through Incapacity Benefit re-assessment; 28 thousand new claims to Bereavement Benefit/Widows Benefit (BB/WB); 295 thousand to Income Support (IS); and 632 thousand new claims to State Pension (SP) in the year to November 2012.
- There were 1.25 million benefit exits for Employment and Support Allowance and incapacity benefits, this includes people leaving IB through Incapacity Benefit re-assessment; 35 thousand for Bereavement Benefit/Widows Benefit (BB/WB); 694 thousand for Income Support (IS); and 519 thousand benefit exits for State Pension (SP) in the year to November 2012.
- There were 168 thousand new claims to PC in the financial year 2011/2012.

[OFFICIAL STATISTICS]: Early estimates show:

- At the end of March 2013, the working age Income Support lone parents (ISLP) early estimate was 500 thousand.
- The Employment and Support Allowance/ incapacity benefits (ESA/IB) early estimate for March 2013 is 2.465 million. Of these, approximately 92.3% were in receipt of benefit payments from IB, SDA, ESA or Income Support/ Pension Credit. The remaining 7.7% percent received National Insurance credits only.

Focus on...Stat-Xplore

Summary

On 15th May 2013, DWP are launching the full release of Stat-Xplore.

Stat-Xplore is a new dissemination tool which provides a guided way to explore DWP benefit statistics. It currently holds data relating to Housing Benefit claimants and in future will include data on a wider set of DWP benefits and programmes.

With Stat-Xplore you can:

- create customised tabulations
- view results in interactive charts
- share outputs via social networking tools or download into common file formats.

Stat-Xplore further supports DWP's commitment to Open Data. For the first time, it allows users to (a) access 'big data' interactively at very local geographical level and (b) download and freely re-use data under an Open Government Licence in different formats, including Excel, CSV and Statistical Data and Metadata Exchange (SDMX) – an ISO (17369:2013) standard open data format.

[Click here to access Stat-Xplore for Housing Benefit claimants](#)

Create your own tables and charts

Stat-Xplore allows users to:

- Save and create bespoke tabulations to suit their needs and view their data in a variety of charts.
- Redefine existing breakdowns to suit specific requirements.
- 'Queue' the creation of large tables and come back later to check progress and download the table.
- Share outputs via social networking tools or download into common file formats.

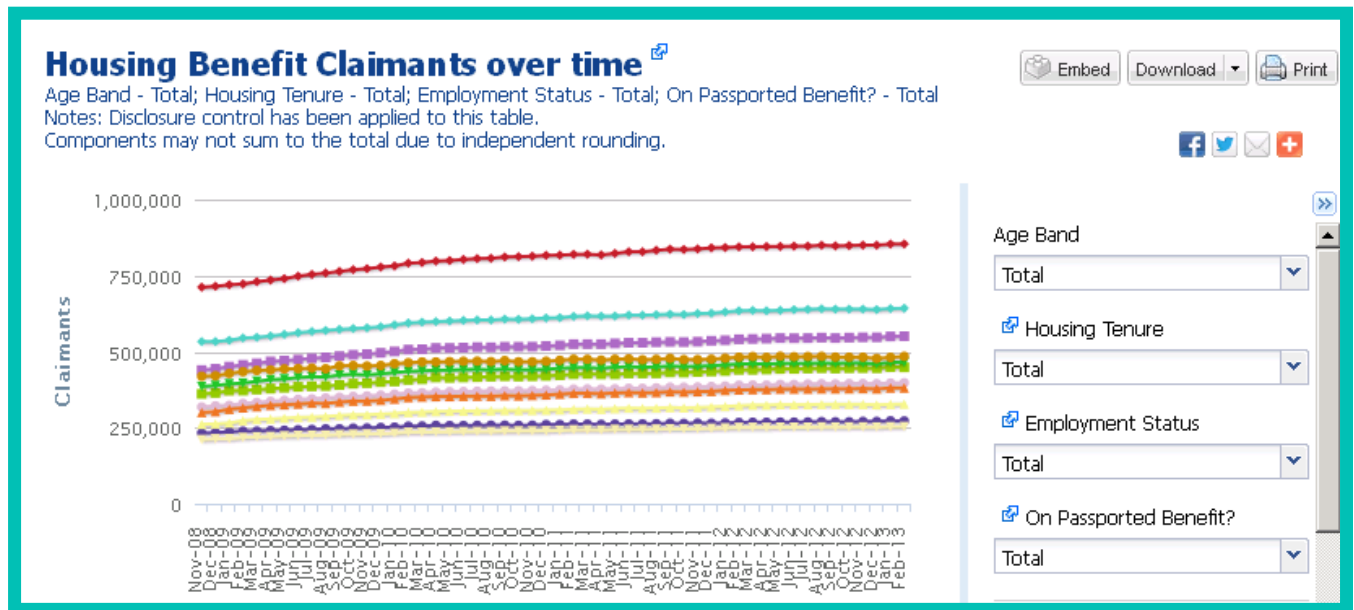

The screenshot shows the Stat-Xplore interface with a custom table titled "HB: Caseload by Small Areas". The table is broken down by Region, Local Authority and Output Areas by Month, Private or Social Rented and Family Type. The table cell count is 624 (48 columns x 13 rows).

Region, Local Authority and Output Areas	Social Rented Sector					Single, no child dependant
	Single, no child dependant	Single with child dependant(s)	Couple, no child dependant	Couple with child dependant(s)	Unknown or missing family type	
North East	117,091	32,425	26,983	15,459	0	37
North West	261,153	79,040	45,198	34,099	0	105
Yorkshire and The Humber	178,440	52,872	37,724	27,837	0	68
East Midlands	124,897	43,213	27,145	21,660	0	48

Stat-Xplore currently holds monthly data on Housing Benefit claimants for a selection of breakdowns including housing type, family type, average award amounts, single year of age, administrative geographies (going down to local authority), residential geographies down to census output area, travel to work areas and NUTS areas.

Data Visualisation

Stat-Xplore allows data to be analysed visually using our interactive visualisations. These can be customised to users needs and can be shared via social networking tools or downloaded into common file formats.

Registration

Due to the flexibility and the ability to create very large tables in Stat-Xplore, it is recommended that users register to take full advantage of all the benefits. Registering is optional and free and the process is quick and easy to do. Registering opens up access to more comprehensive features:

- **Save and create bespoke tables** - registered users can create and save bespoke breakdowns of available data and also redefine existing breakdowns to suit their specific requirements.
- **Queue large tables** - registered users can 'queue' the creation of large tables and come back later to check progress and download the table.
- **Create large tables** – there is no restriction on table size for registered users.
- **News** - registering also allows us to contact you to let you know of news about Stat-Xplore (maintenance time, improvements, expansion of data etc)

Guest users are welcome to use Stat-Xplore but are restricted to the size of table they can produce and won't have access to the full flexibility of the tool.

Rich Metadata and User Guide

We understand that using a new tool can be tricky at first but we aim to minimise this by providing a comprehensive user guide and some ready made tables and charts which you can customise to get you started.

Contact us

We welcome views on Stat-Xplore from our users. Please contact Stat.Xplore@dwp.gsi.gov.uk for feedback and queries on Stat-Xplore.

Focus on... Jobseeker's Allowance and Employment and Support Allowance sanctions statistics

Last month, DWP announced that:

On 15 May 2013, the JSA sanctions series will continue for reference dates up until the end of January 2013. These statistics will reflect the new JSA sanctions regime which took effect from 22 October 2012. Initially, statistics will be released via spreadsheets linked from this Statistical Summary. The statistics will include a breakdown by Jobcentre Plus office.

In the last few weeks, DWP have been preparing the final JSA sanction statistics to the end of January and extending some of the tables to show new measures. These activities have exposed some significant doubts around the quality of the new regime statistics. Consequently, to avoid a potentially misleading statistical release, JSA sanction statistics have not been released as previously planned.

DWP will perform further quality assurance activities on this new series and will publish as soon as possible. Unfortunately, it is not possible to commit to a definite date at the moment, but a proposed publication date will be announced in advance at <http://statistics.dwp.gov.uk/asd/index.php?page=news>.

Background

A new three tier sanctions regime was introduced and came into force in October 2012 for Jobseeker's Allowance (JSA) and December 2012 for Employment and Support Allowance (ESA) which seeks to broadly align the JSA & ESA sanctions regimes with the model to be introduced under Universal Credit.

DWP will introduce new statistical series to cover these new regimes, augmenting the existing series for JSA sanctions and completely replacing the ESA sanctions series.

National Statistics Consultation

In January this year we closed the JSA Sanctions National Statistics Consultation (http://statistics.dwp.gov.uk/asd/asd1/jsa/jsa_sanctions_consultation.pdf).

Four responses were received, from:

- Citizen's Advice
- Academia
- Single Parent Action Network
- Gingerbread

Key points made in the responses were:

Consultation Reply	DWP response
This is an opportunity to monitor how changes to the sanctions system improve compliance and positive labour market outcomes.	The recent proposals regarding DWP statistics during the introduction of Universal Credit address this. See: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf See section 5.5.5 and 5.6.7.
The statistics should provide data that helps the DWP and other organisations identify patterns of unintended consequences and outcomes so that these may addressed as appropriate;	The recent proposals regarding DWP statistics during the introduction of Universal Credit address this. See: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf See section 5.5.5 and 5.6.7.
Overall, we are interested in being able to understand a wide range of relationship between sanctions and other experiences and outcomes for customers. For example, the relationship between sanctions and labour market outcomes; the use of hardship payments and labour market outcomes; increased claimant debt and labour market	The recent proposals regarding DWP statistics during the introduction of Universal Credit address this. See: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf See section 5.5.5 and 5.6.7.

outcomes; future compliance with conditionality requirements; outcomes for customers who receive more than one sanction.	
<p>Increased numbers of breakdowns like:</p> <ul style="list-style-type: none"> • broad demographics • the channel used for agreeing a Claimant Commitment (eg face to face with an adviser, electronically, telephony) • Time between referral and decision • Rejected sanctions by reason • Threat of sanction • Splits by single parents/ nominated carers • Split reserved and cancelled 	<p>The sanction statistics will be published using Stat-Xplore. The statistics will include breakdowns showing:</p> <ul style="list-style-type: none"> • Broad demographics • Single parent splits <p>However, information regarding the following items is not collected in a form linkable with sanction records:</p> <ul style="list-style-type: none"> • Communication channels • The threat of a sanction <p>DWP will investigate the possibility of adding the following breakdowns in future:</p> <ul style="list-style-type: none"> • Time between referral and decision • A split of reserved and cancelled. • Reason for sanction rejection
Greater granularity for referrals that do not result in a sanction (to improve administration and minimise unnecessary referrals and unnecessary stress on customers)	Some information on non-adverse decisions will be included within the Stat-Xplore release of sanction statistics.
Relationship between personalisation of conditionality; and compliance; and labour market outcomes; and customer characteristics and compliance. Relationship between a sanction and revision/s of personalised conditionality for a customer	Personalised conditionality will be difficult to represent in statistical tables. The recent proposals regarding DWP statistics during the introduction of Universal Credit partly address this. See: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf See section 5.5.5 and 5.6.7.
Statistics to show how many people at any one time are being deprived of the benefit to which they are otherwise entitled.	Linkages between benefit payment records and sanction records are not straight forward. This is not currently part of our plans for sanction statistics. However, such breakdowns may be possible under Universal Credit.
We need to know exactly how many sanctions are of each actual length; this is not currently shown. This is going to be particularly important for the new 3-year sanctions.	This is unlikely to be possible for the initial Stat-Xplore release, but we will work to add it in a future release.
Hardship payments, for example, the number of applications for hardship payments; the outcome of application (recorded by actual number and proportion); the length of time between application and decision	The recent proposals regarding DWP statistics during the introduction of Universal Credit address this. See: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf See section 5.5.5 and especially 5.6.7.
Better information around appeals including combination of DWP appeals with HMCTS appeals.	DWP do not currently hold the necessary data to publish this information. However, we will consider it for future.

<p>Increased detail around the reasons for sanction, for example:</p> <ul style="list-style-type: none"> • Unable to obtain childcare to fulfil a work search or availability requirement • Unable to fulfil a work search or availability requirement because of the terms of a parenting order or contract • Unable to fulfil a work search or availability requirement because of a lack of suitable job vacancies. 	<p>DWP will investigate the possibility of adding this increased detail in future.</p>

ESA: <http://www.legislation.gov.uk/ukxi/2012/2756/introduction/made>

Focus on... Statistics and related information on Personal Independence Payment (PIP)

Introduction

This article explains how DWP will manage the release of statistics and related information on Personal Independence Payment (PIP).

Disability Living Allowance (DLA) has been replaced by Personal Independence Payment (PIP) for people aged 16 to 64 from 8 April 2013. The introduction of PIP is part of a wider reform of the welfare system. Further details on PIP can be accessed here:

<http://www.dwp.gov.uk/policy/disability/personal-independence-payment>.

DWP officials are also planning an evaluation of Personal Independence Payment, which will involve the commissioning of new research projects. Outline evaluation plans were published on the DWP website in December 2012 (<https://www.gov.uk/government/publications/evaluation-proposals-for-personal-independence-payment-policy-briefing-note>). Research reports will be published in line with Government Social Research protocols. The publication of commissioned research reports is pre-announced on the DWP website. For a list of all DWP research reports that have been pre-announced for publication in the coming weeks, please see: <http://research.dwp.gov.uk/asd/asd5/forthcoming.asp>.

Release strategy

The public consultation inviting user views on proposed changes to statistics closed on 24th April and can be accessed here:

<http://dwp.gov.uk/consultations/2013/stats-plans-2013-2017.shtml>

We will publish our response to the user consultation here:

<http://statistics.dwp.gov.uk/asd/index.php?page=topics>

Although limited data will soon start to feed through from the PIP Computer System, we need to wait until the data has been quality assured and meaningful figures for publication can be developed. The Department is working to guidelines set by the UK Statistics Authority to ensure we are able to publish statistics that meet high quality standards at the earliest opportunity. We intend to publish Official Statistics on PIP from Spring 2014 aligned to the DLA National Statistics release.

PIP figures will initially be released as 'Official Statistics – awaiting assessment' which means they are awaiting certification by the UK Statistics Authority to make sure they are compliant with the Code of Practice.

Official statistics on PIP will be published regularly via the Department's Statistical Summary and a tabulation tool (Stat-Xplore), which allows users to produce their own bespoke tables and visualisations so that the figures can be viewed via tables, graphs, and maps.

Where appropriate, management information will be used in evaluation reports or one-off ad hoc releases where there are no comparable forthcoming Official Statistics.

Release timetable

Our current working timetable for statistics publication is:

- no planned release of statistics before national rollout of PIP planned for June 2013;
- publish Official Statistics to August 2013 for first time in Spring 2014, aligned to DLA releases of statistics. These will form regular statistical publications, initially published on a quarterly basis and will be badged as "Official Statistics awaiting UK Statistics Authority assessment as National Statistics";
- in order to manage the gap between PIP go-live and the first Statistical Release in 2014, a set of management information will be published via an ad hoc statistical release in Autumn 2013 covering the total number of successful claims for PIP and any available information on claimant characteristics that are assessed to be of sufficient quality.

As soon as we are confident we have reliable data we will pre-announce an exact release dates here, and on the UK Statistics Authority publication hub.

Coverage of PIP statistics

The data source for PIP will eventually allow a wide range of breakdowns to be published albeit these will be introduced gradually following work to establish they are of sufficient quality.

Through releasing statistics our aim is to place in the public domain the information that we are likely to receive regular requests for, or that the Department may want to use publicly. For example, replies to Parliamentary Questions and Freedom of Information Requests. This includes:

- o Caseloads and claimant characteristic, such as age, gender, and medical condition(s)
- o Geographies including Local Authority and Parliamentary Constituency
- o Numbers claiming different PIP components (daily living and/or mobility)
- o Average amounts of benefit in payment

Later releases may be extended to include:

- o Overlaps with other benefits including Universal Credit or employment programmes
- o On-flows, off-flows and durations
- o Flows onto PIP as a result of reassessment

The process by which Armed Forces Independence Payment (AFIP) statistics will be published, is under review.

Official statistics on PIP tribunals will be published by the Ministry of Justice (MOJ) as part of their quarterly statistics release. The MOJ publication timetable is here: <https://www.gov.uk/government/organisations/ministry-of-justice/about/statistics#publication-schedule>.

And the quarterly publication is here: <https://www.gov.uk/government/organisations/ministry-of-justice/series/tribunals-statistics>.

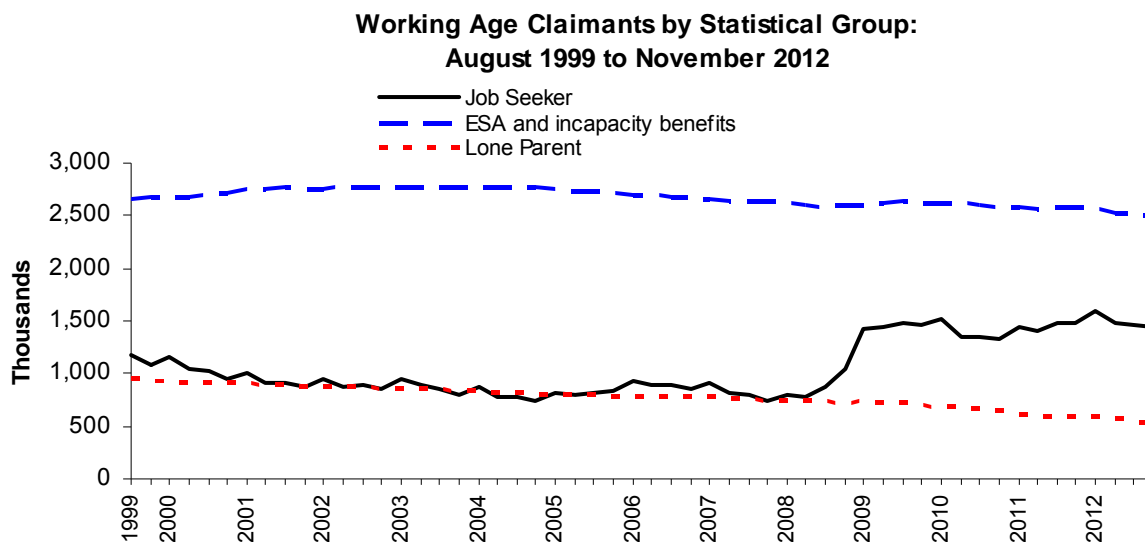

Further Information

If you have any views on the type of statistics you would like to see available on PIP, please get in touch with us at: stats-consultation@dwp.gsi.gov.uk or join the “Welfare and Benefit Statistics” community at www.statsusernet.org.uk.

1. Working Age

1.1 National Statistics: Working Age client group

Combines data collected for Jobseeker's Allowance, Incapacity Benefit, Employment and Support Allowance, Severe Disablement Allowance, Disability Living Allowance, Carer's Allowance, Widow's Benefit, Bereavement Allowance and Income Support for working age claimants (including Pension Credit for males under State Pension age).

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2034 and 2036; 68 between 2044 and 2046. The changes will introduce a small increase to the number of working age benefit recipients and a small reduction to the number of pension age recipients. There are also changes to the way users can analyse benefit recipients as a proportion of the working population. More information can be found at: <http://statistics.dwp.gov.uk/asd/espa.pdf>.

Between August 1999 and February 2008, the number of jobseekers in GB fell from 1.18 million to 807 thousand. However, rose to almost 1.53 million at February 2010. Since then, numbers have remained broadly steady and were 1.44 million in November 2012. The preferred source of JSA figures is the ONS claimant count measure (which is seasonally adjusted). This can be found at: <http://www.ons.gov.uk/ons/rel/lms/labour-market-statistics/index.html>

The lone parent caseload fell from 930 thousand to 510 thousand between November 1999 and November 2012.

The number of working age claimants of Employment and Support Allowance (ESA) and incapacity benefits totals 2.50 million in November 2012. This shows a year-on-year decrease of 76 thousand.

Table 1.1 Working Age claimants by Statistical Group: November 1999 – November 2012

	Total	Job Seeker ²	Employment and Support Allowance and incapacity benefits ³	Lone Parent ⁴	Carer ⁵	Other Income Related ⁶	Disabled ⁷	Thousands Bereaved ⁸

Notes relating to Table 1.1

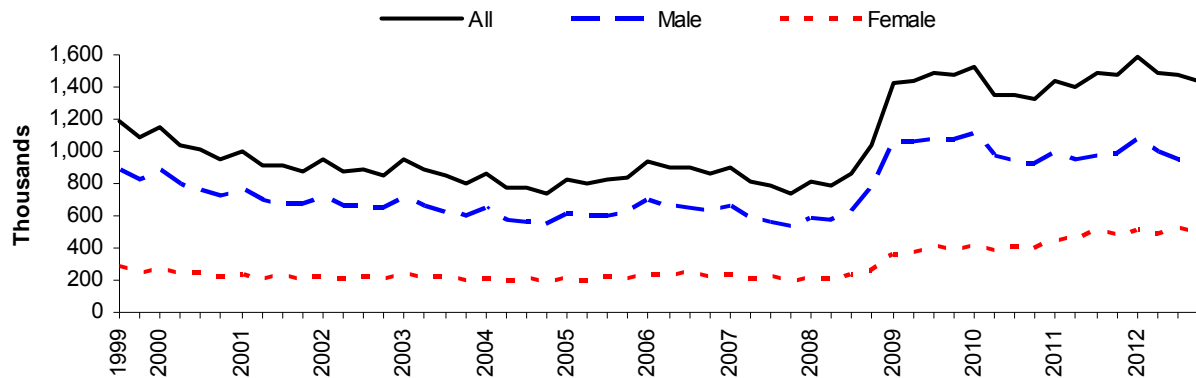

1. Claimants have been assigned to a statistical group according to a hierarchy. The order is shown in the table, i.e. 'Job Seekers' followed by 'Employment and Support Allowance and incapacity benefits'.
2. 'Job Seekers' are recipients of Jobseeker's Allowance.
3. 'From November 2008 the "incapacity benefits group" includes Employment and Support Allowance (ESA). ESA replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims from 27th October 2008. Prior to this the "incapacity benefits group" referred to claimants of Incapacity Benefit (including credits only) or Severe Disablement Allowance including people claiming IS on the grounds of Incapacity.
4. 'Lone Parents' are single recipients of Income Support with a child under 16.
5. 'Carers' are recipients of Carers Allowance.
6. 'Others on Income Related Benefit' are other recipients of Income Support (including Income Support Disability Premium) or Pension Credit.
7. 'Disabled' are recipients of Disability Living Allowance. Industrial Injuries benefits data is not available.
8. 'Bereaved' are recipients of Widow's Benefit or Bereavement Benefit.
9. Totals are not shown prior to May 2002 as complete data is not available for 'Disabled' and 'Bereaved' statistical groups.
10. HB/CTB data are not included in the client group hierarchy but are published separately (see section 1.5).

Latest statistical data available from: <http://83.244.183.180/100pc/tabtool.html>

1.2 National Statistics: Jobseeker's Allowance

Jobseeker's Allowance (JSA) was introduced on 7th October 1996 and has both contributory and income-related elements. It is paid to people under state pension age who are available for and actively seeking work.

Jobseekers Allowance by Gender: August 1999 to November 2012

The preferred source of JSA figures is the ONS claimant count measure (which is seasonally adjusted).

DWP produce a separate set of Jobseeker's Allowance figures to enable cross-benefit analysis and supply a wider range of breakdowns, and these are provided in this release.

The DWP figures at November 2012 show the total number of Jobseeker's Allowance claimants was 1.44 million. Female claimants represented 35% of the JSA caseload (503 thousand), while males represented 65% (941 thousand). The total caseload has decreased by 35 thousand since November 2011, with men decreasing by 49 thousand and women increasing by 15 thousand.

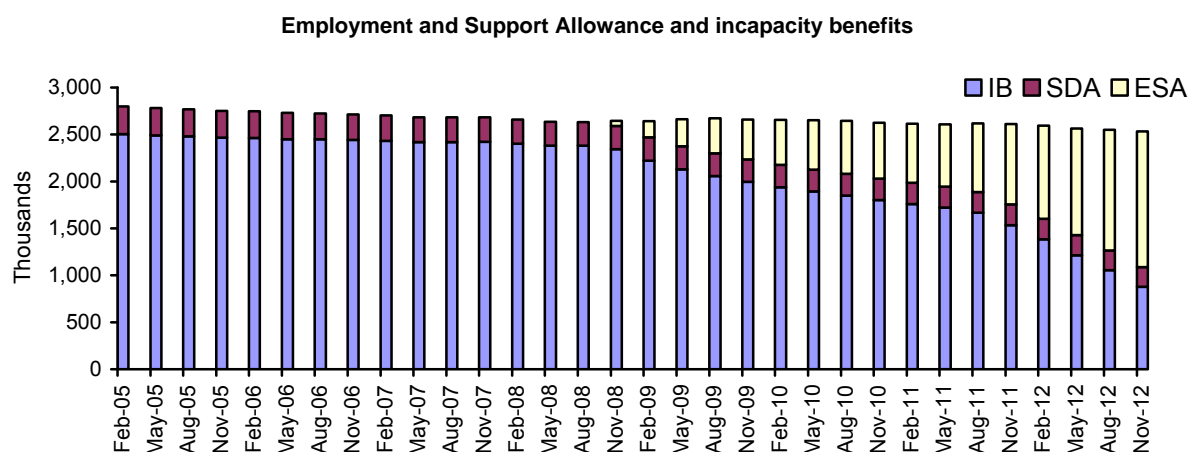

Latest statistical data available from: <http://83.244.183.180/100pc/tabtool.html>

1.3 National Statistics: Employment and Support Allowance and incapacity benefits

From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit (IB) and Income Support (IS) paid on the grounds of incapacity for new claims. Incapacity benefits consist of Incapacity Benefit (introduced on 13th April 1995 and paid to people who are incapable of work and who have paid sufficient contributions throughout their working life) and Severe Disablement Allowance (SDA). This section includes a small number of claimants over State Pension age; therefore figures may differ to those in Table 1.1 which refers to working age claimants only.

Between October 2010 and Spring 2014 most claimants who receive IB, SDA and IS paid on the grounds of illness or disability will be assessed to see if they qualify for ESA. If they qualify for ESA their IB, SDA or IS claim is converted into an ESA claim. For claimants who were previously in receipt of IB or SDA, their benefit will be converted to contributory ESA; if they were previously in receipt of IS their benefit will be converted to income-related ESA. In the same way as with IB, contributory ESA can be paid with an income-related top up and a transitional addition if appropriate.

The government has limited the period for which contribution-based Employment and Support Allowance (ESA) can be paid in some circumstances. These changes came into effect on 1 May 2012. Claimants who have already received 365 days of contribution-based ESA saw their entitlement end on 30 April 2012.

At November 2012, there were 2.53 million claimants of Employment and Support Allowance and incapacity benefits (Incapacity Benefit or Severe Disablement Allowance), a decrease of 78 thousand on a year earlier. 54% of claimants were men and 46% women. The male caseload has decreased by 71 thousand and the female caseload has decreased by 7 thousand in the year to November 2012.

There were 318 thousand new Employment and Support Allowance and incapacity benefits claimants in the November 2012 quarter, which represents 13% of the November 2012 caseload. Over the same period, 344 thousand claimants left the benefits, 14% of the caseload at November 2012. These numbers includes IB claimants who have been re-assessed for ESA. More information on this process and the numbers involved can be found at:

http://research.dwp.gov.uk/asd/workingage/index.php?page=esa_ibr

In the year to November 2012, there were a total of 1.15 million new claims for Employment and Support Allowance and incapacity benefits and 1.25 million claims were closed.

Table 1.2a shows the payment status of all working age Employment and Support Allowance and incapacity benefits claimants. In November 2012 approximately 92.4% were in receipt of benefit payments from Incapacity Benefit, Severe Disablement Allowance, Employment and Support Allowance, Income Support, Pension Credit. The remaining 7.6% percent received National Insurance credits only (i.e. no payment of IB, SDA, ESA, IS or PC). This compares to 5.8% receiving no benefit payments in February 2012. This change is because the government has limited the period for which contribution-based Employment and Support Allowance (ESA) can be paid in some circumstances. These changes came into effect on 1 May 2012. Claimants who had already received 365 days of contribution-based ESA saw their entitlement end on 30 April 2012.

Nov -12	2,534.80	1,447.98	877.26	209.56

Notes:

1. Claimants include those beneficiaries plus, those receiving National Insurance Credits and no monetary payment (many credits-only claimants of Incapacity Benefit or Severe Disablement Allowance will also receive Income Support).

2. This table replaces table 1.2 in the November 2010 Statistical Summary. This table no longer includes beneficiaries but still includes all claimants of Incapacity Benefit, Severe Disablement Allowance or Employment and Support Allowance. This provides a consistent time series. Numbers of Working Age claimants of 'ESA and incapacity benefits' are shown in the Working Age Client Group section of this release. Those figures differ from this table due to the inclusion of a small number of claimants over state pension age in table 1.2 and minor methodological differences.

Table 1.2a: Employment and Support Allowance and incapacity benefits claimants aged under State Pension age: 2000 - 2012

1. Claimants include those beneficiaries plus, those receiving National Insurance Credits and no monetary payment (many credits-only claimants of Incapacity Benefit (IB) or Severe Disablement Allowance (SDA) will also receive Income Support (IS)/ Pension Credit (PC)).

2. This table focuses on the following out-of-work benefits: Incapacity Benefit (IB), Severe Disablement Allowance (SDA), Income Support (IS) and Employment and Support Allowance (ESA). Claimants are classified as follows:

- ESA (Contributory), SDA or IB/SDA payments, without IS/PC = "Receiving contributory based benefit or SDA only"
- ESA (Contributory and Income based); or SDA or IB/SDA payments, with IS/PC = "Receiving contributory based benefit or SDA, with income based benefit"
- ESA (Income based) or IB/SDA credits only with IS/PC = "Receiving income based benefit"
- ESA (Credits only) or IB/SDA credits only without IS/PC = "National Insurance credits only"

3. This table focuses on the following out-of-work benefits: Incapacity Benefit (IB), Severe Disablement Allowance (SDA), Income Support (IS) and Employment and Support Allowance (ESA). Claimants are classified as follows:

- ESA (Contributory), or IB/SDA payments, without IS/PC = "Receiving contributory based benefit only"
- ESA (Contributory and Income based) or IB/SDA payments with IS/PC = "Receiving contributory and income based benefit"
- ESA (Income based) or IB/SDA credits only with IS/PC = "Receiving income based benefit"
- ESA (Credits only) or IB/SDA credits only without IS/PC = "National Insurance credits only"

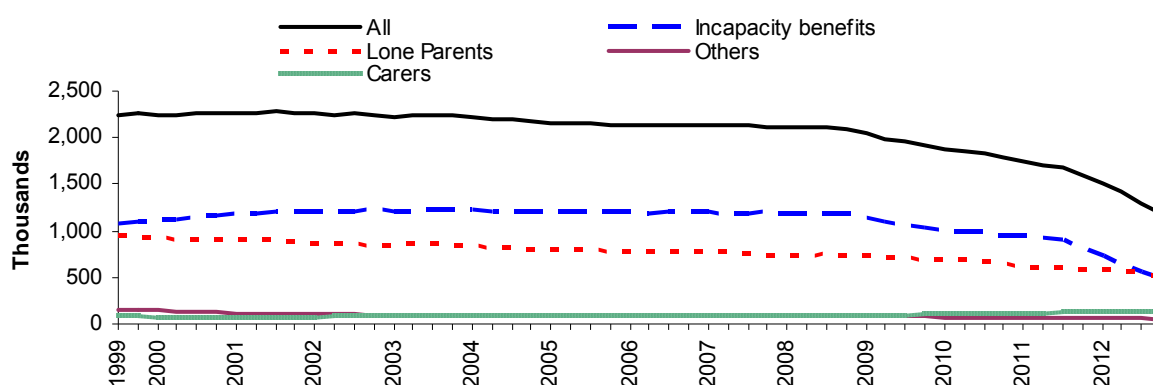

4. Some claimants (including those receiving "National Insurance credits only") are receiving payments from other benefits, such as Housing Benefit or Disability Living Allowance.

5. This table includes claimants under State Pension age. The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2020 and 2036; 68 between 2036 and 2044. These changes introduce a small increase to the number of working age benefit recipients and a small reduction to the number of pension age recipients.

1.4 National Statistics: Income Support

Income Support (IS) was introduced on 11th April 1988 and is an income-related benefit that can be claimed by adults under state pension age that work fewer than 16 hours a week and have insufficient income to meet their needs. Prior to the introduction of Pension Credit in October 2003, IS was available to people aged 60 and over. From 27th October 2008, Employment & Support Allowance (ESA) replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims. The Lone Parent Obligation policy came into effect from 24 November 2008; Lone Parents (LPs) with a youngest child aged 12 or over were no longer able to make a new or repeat claim for Income Support (IS) solely on the basis of their parental status. Existing IS LPs with a youngest child aged 12 or over had their eligibility removed over a period of time commencing 2nd March 2009. From October 2009 this policy was extended to LPs with a youngest child aged 10 or 11 and from October 2010 the policy was extended to LPs with a youngest child aged 7 or over. The Welfare Reform Act 2012 introduced further changes and from 21 May 2012 lone parents are eligible to claim Income Support until their youngest child is five years old.

**Income Support by Statistical Group:
August 1999 to November 2012**

Pension Credit (PC) replaced Minimum Income Guarantee (MIG) in Income Support on 6 October 2003. **MIG claimants have been excluded from this data prior to November 2003.**

At November 2012, the total number of Income Support (IS) claimants was 1.19 million. Claimants of incapacity benefits represented 41% of the IS caseload (489 thousand). Lone Parents (all single claimants with dependants under 16, excluding claimants of incapacity benefits) represented 43% of the IS caseload (510 thousand), while Carers and Others represented 16% of the caseload (190 thousand).

There were 74 thousand new claimants of Income Support in the November 2012 quarter, which represents 6% of the November 2012 caseload. Over the same period, 188 thousand claimants left the benefit, 16% of the caseload at end of November 2012. In the year to November 2012 there were a total of 295 thousand new claims for Income Support and 694 thousand claims were closed.

Table 1.3 Income Support Lone Parents claimants¹: November 2012

	Thousands		
	Total	Female	Male
All Ages	510.06	497.14	12.92
Unknown Age	-	-	-
Under 18	4.15	4.14	0.01
18-24	160.69	159.35	1.33
25-34	217.41	212.80	4.62
35-44	101.42	97.27	4.15
45-54	24.11	21.72	2.39
55-64	2.27	1.85	0.42

1. Lone Parents are all single claimants with dependants aged under 16, but excluding claimants of incapacity benefits.

1.5 National Statistics: Housing Benefit / Council Tax Benefit

Housing Benefit (HB) was introduced on 1st April 1983 and is an income-related benefit designed to help people on low incomes pay for rented accommodation whether in or out-of-work.

Housing Benefit Recipients: November 2008 to February 2013

At February 2013 there were 5.08 million recipients of Housing Benefit, of whom almost three-quarters were aged under 65. The average weekly amount of Housing Benefit was £89.30

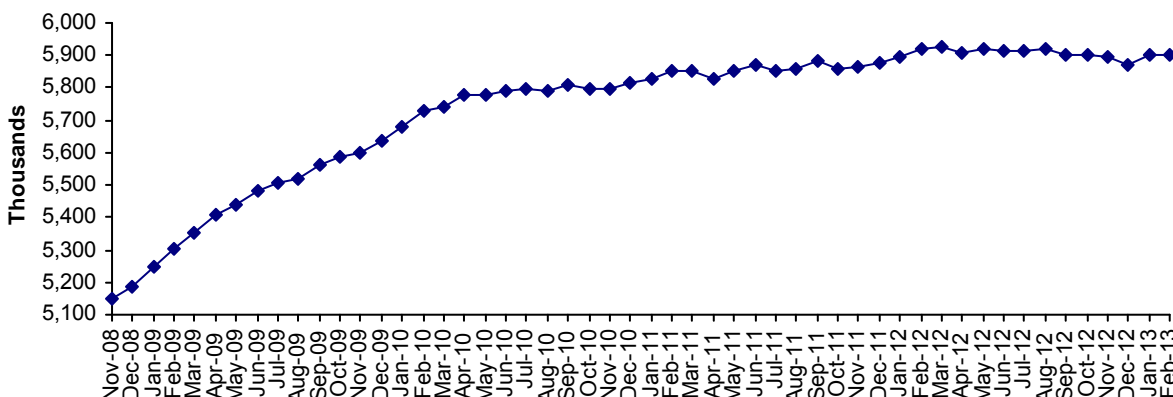

67% of Housing Benefit recipients were tenants of Social Sector. 83% of the 1.67 million Private Sector tenant Housing Benefit recipients were receiving the Local Housing Allowance.

Almost two-thirds of Housing Benefit recipients were also in receipt of Income Support, income-based Jobseeker's Allowance, income-based Employment and Support Allowance or Pension Credit (Guarantee Credit).

Further information on Housing Benefit can be found via [Stat-Xplore](#), which provides users with an interactive visualisation tool to produce charts, graphs and tables, downloadable in a number of different formats.

Council Tax Benefit (CTB) was introduced on 1st April 1993 and is an income-related benefit, calculated in a similar way to Housing Benefit, which has been designed to help people on low incomes pay their Council Tax. This benefit was abolished in April 2013.

Council Tax Benefit Recipients: November 2008 to February 2013

At February 2013 there were 5.90 million recipients of Council Tax Benefit (figure excludes second adult rebates), of whom 3.73 million were aged under 65. The average weekly amount of Council Tax Benefit was £15.67.

65% of Council Tax Benefit recipients were also in receipt of Income Support, income-based Jobseeker's Allowance, income-based Employment and Support Allowance or Pension Credit (Guarantee Credit).

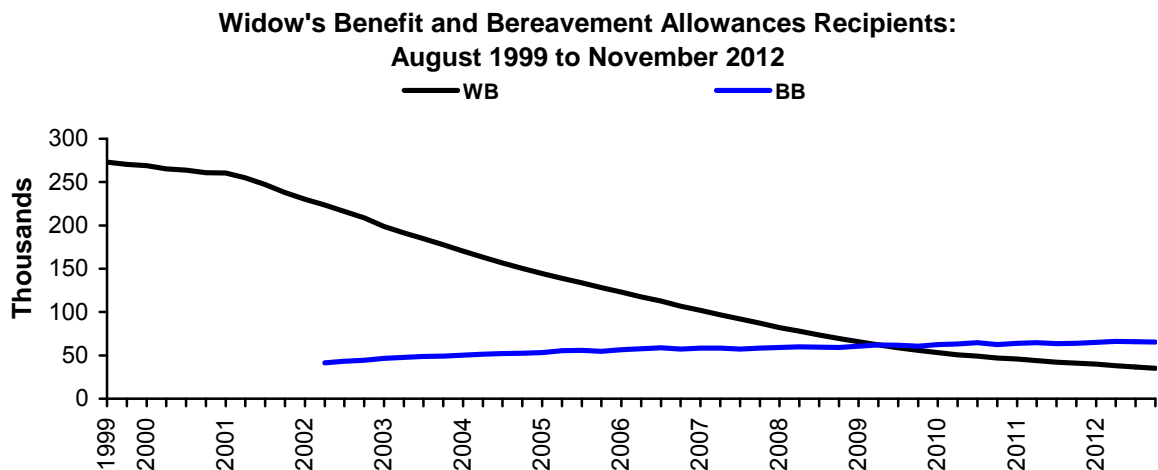

Council Tax Benefit was abolished in April 2013 and replaced by a system of localised support. In England, the Department for Communities and Local Government (DCLG) will be responsible for statistics. The Scottish and Welsh Governments will have similar responsibility. See:

<http://www.communities.gov.uk/localgovernment/localgovernmentfinance/counciltax/counciltaxsupport/>. This summary will be the last to report Council Tax Benefit, ending with the February 2013 numbers (for technical reasons, March 2013 numbers are not possible). The Housing Benefit series will continue via Stat-Xplore.

1.6 National Statistics: Widows Benefit & Bereavement Benefits

Widow's Benefit (WB) was introduced on 6th July 1948 and is payable to women widowed between 11th April 1988 and 8th April 2001 inclusive. There are three types of WB: Widow's Payment, Widowed Mother's Allowance and Widow's Pension. Women widowed before 11th April 1988 continue to receive Widow's Benefit based on the rules that existed before that date.

Bereavement Benefits (BB) was introduced on 9th April 2001 as a replacement for Widow's Benefit. It is payable to both men and women widowed on or after 9th April 2001. There are three types of BB: Bereavement Payment, Widowed Parent's Allowance and Bereavement Allowance.

At November 2012, there were 35 thousand claimants of Widow's Benefit, a fall of 6 thousand on a year earlier. Of these, 32 thousand were in receipt of Widow's Pension and 4 thousand Widowed Mother's Allowance.

At November 2012, there were 65 thousand claimants of Bereavement Allowances, an increase of 1 thousand on a year earlier. Of these, 21 thousand were in receipt of Bereavement Allowance and 44 thousand in receipt of Widowed Parent's Allowance.

There were 7 thousand new claimants of Bereavement Allowances/Widows Benefit in the November 2012 quarter, which represents 7% of the November 2012 caseload.

Over the same period, 10 thousand claimants left the benefits, 10% of the caseload at November 2012.

In the year to November 12, there were a total of 28 thousand new claims for Bereavement Allowances/Widows Benefit and 35 thousand claims were closed.

Latest statistical data available from: <http://83.244.183.180/100pc/tabtool.html>

Nov-12	7.6%	
Dec-12		7.3%
Jan-13		7.6%
Feb-13		7.7%
Mar-13		7.7%

The working-age **ESA/IB** early estimate for March 2013 is **2.465 million** to the nearest 5,000. This represents a fall of 1.4 per cent since November 2012 (the latest National Statistic). As the Incapacity Benefit reassessment continues, users should be aware that there may be increased uncertainty around these early estimates.

In March 2013 approximately 92.3% were in receipt of benefit payments from Incapacity Benefit, Severe Disablement Allowance, Employment and Support Allowance, Income Support, Pension Credit. The remaining 7.7% percent received National Insurance credits only (i.e. no payment of IB, SDA, ESA, IS or PC). A noticeable rise in the proportion of claimants receiving National Insurance credits was seen in May 2012. This is due to the introduction of a 365 day limit on receipt of contribution based ESA for those in the Work Related Activity Group on 1 May 2012.

These figures are estimates of the final National Statistic, to give an indication of their accuracy, over the past year the early estimates in Table 2.1 have been revised by an average of 0.4 per cent. See notes section for more information. Further details on the accuracy of the early estimates in Table 2.2 can also be found there.

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2034 and 2036; 68 between 2044 and 2046. Please see the Welfare Reform section of the notes for further information.

Figure 1.1: National Statistics to August 2012 and early estimates of numbers in working age ESA/IB client group: March 2012 to March 2013

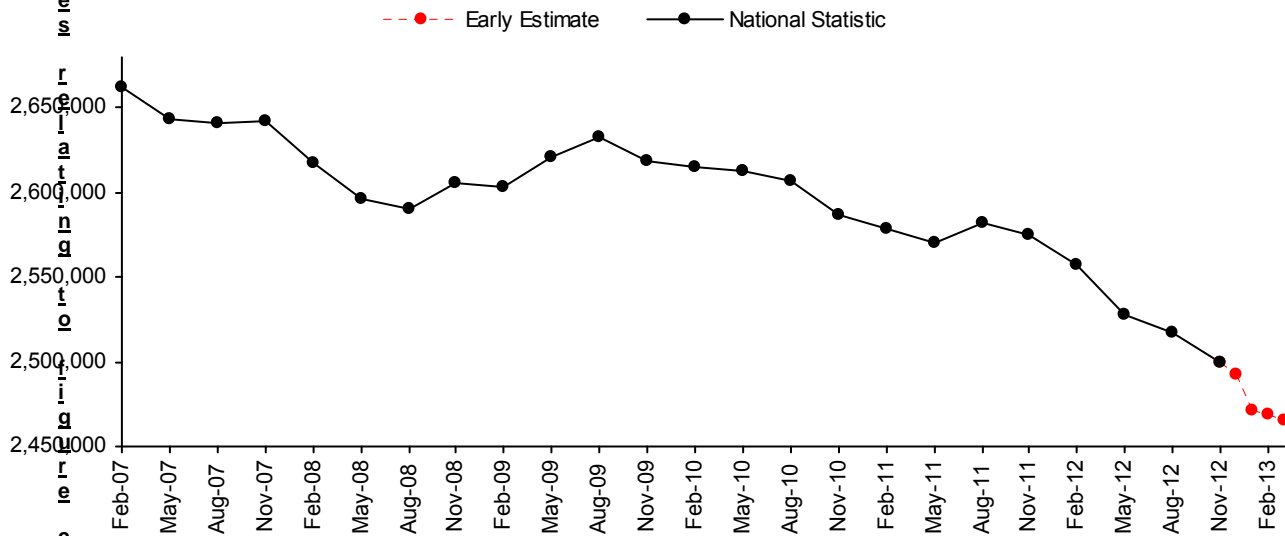

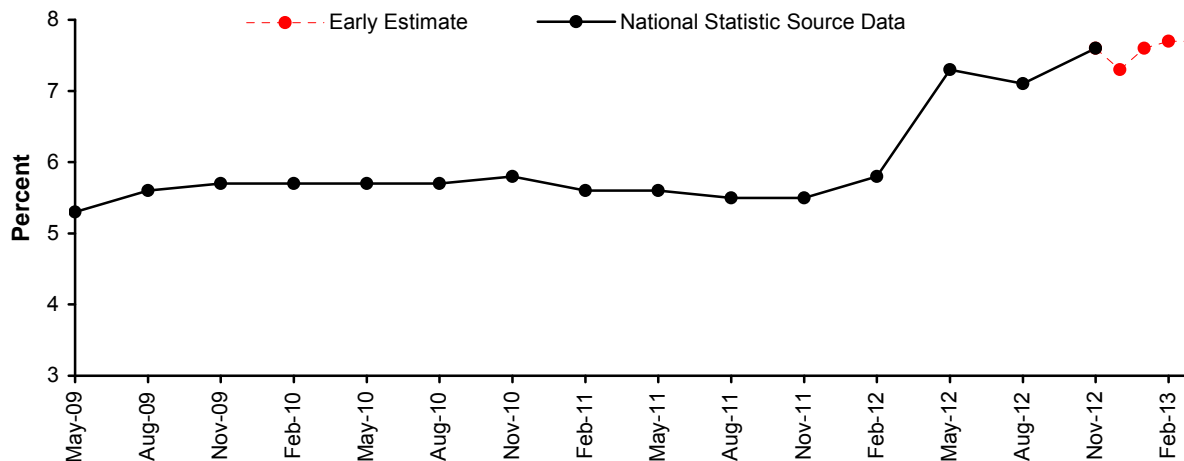

Figure 2.1 and table 2.1:

1. ESA/IB: From November 2008 ESA replaced Incapacity Benefit (IB) and Income Support paid on the grounds of incapacity for new claims from 27 October 2008. Prior to this the "incapacity benefits group" referred to claimants of IB or Severe Disablement Allowance including people claiming Income Support on the grounds of incapacity.
2. The red dotted line in the chart above emphasises that the figures are estimates and official statistics.
3. Source data: *DWP Information, Governance and Security: Work and Pensions Longitudinal Study*
4. When the next quarterly National Statistics are published they will be included as a National Statistic in Table 2.1, and the monthly early estimates for this quarter will be removed from Table 2.1.

Figure 1.2: National Statistics and Early estimates of the proportion of working age inactive benefit claimants in the ESA/IB client group claiming NI credits only: May 2009 to March 2013

Notes relating to figure 2.2 and table 2.2:

1. ESA/IB: From November 2008 ESA replaced Incapacity Benefit (IB) and Income Support paid on the grounds of incapacity for new claims from 27 October 2008. Prior to this the "incapacity benefits group" referred to claimants of IB or Severe Disablement Allowance including people claiming Income Support on the grounds of incapacity.
2. On 1 May 2012, a 365 day limit on the receipt of contribution based ESA for those in the Work Related Activity Group was introduced.
3. Source data: *DWP Information, Governance and Security: Work and Pensions Longitudinal Study*
4. When the next quarterly National Statistics figure is available they will be included in Table 2.2, and the monthly early estimates for this quarter will be removed from Table 2.2. This indicator has formed a new National Statistics table at table 1.3.

2.2 Income Support lone parent (ISLP) client group

Table 1.2 ISLP client group February 2010 to March 2013

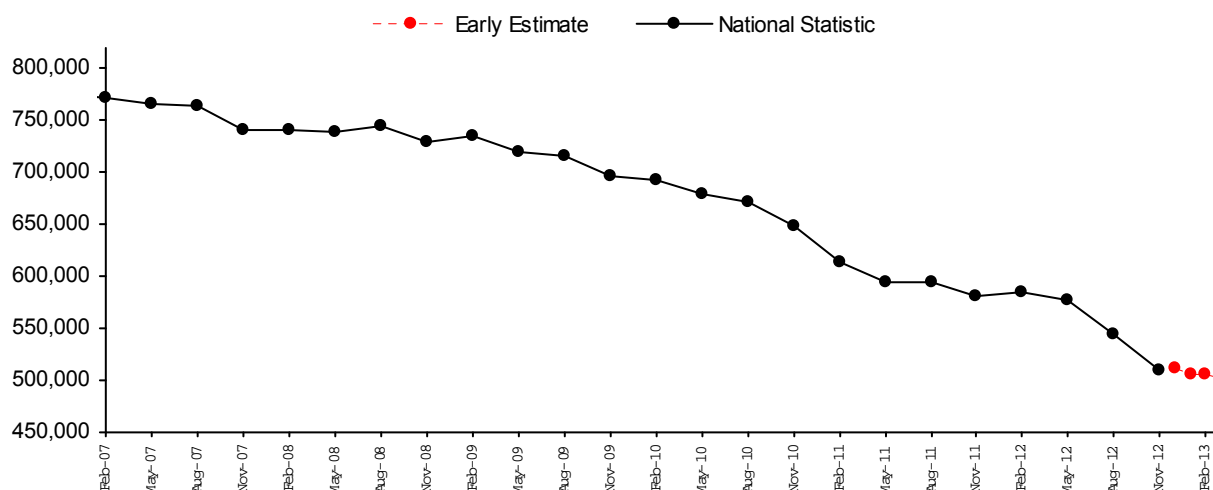

Time Series	Thousands	
	National Statistics Number of Claimants	Early Estimate Number of Claimants
Feb-10	692.02	
May-10	679.15	
Aug-10	672.35	
Nov-10	648.30	
Feb-11	613.78	
May-11	595.40	
Aug-11	595.29

May-12	577.08	
Aug-12	545.24	
Nov-12	510.06	
Dec-12		510
Jan-13		505
Feb-13		505
Mar-13		500

The working-age **ISLP** early estimate for March 2013 is **500 thousand** to the nearest 5,000. This represents a fall of 1.5 per cent since November 2012 (the latest National Statistic).

The number of lone parents claiming Income Support has been affected by the Lone Parent Obligations policy changes which came into effect from 24 November 2008. For more information see the notes section. The figures are estimates of the final National Statistic, to give an indication of their accuracy, over the past year the early estimates have been revised by an average of 0.4 per cent. See the notes section for more information.

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2034 and 2036; 68 between 2044 and 2046. This will introduce a small increase to the number of working age benefit recipients and a small reduction to the number of pension age recipients. Please see the Welfare Reform section of the Notes for further information.

Figure 1.3: National Statistics to August 2012 and early estimates of numbers in working age ISLP client group: March 2012 to March 2013

Notes relating to figure 2.2 and table 2.2:

- ISLP: claimants on IS with child under 16 and no partner.
New and repeat customers with the following conditions will no longer be entitled to Income Support:
 - A youngest child aged 12 or over from November 2008;
 - A youngest child aged 10 or over from October 2009;
 - A youngest child aged 7 or over from October 2010.
- The Welfare Reform Act 2012 introduced further changes and from May 2012 lone parents are only eligible to claim Income Support until their youngest child is five years old.
- The red dotted line in the chart above emphasises that the figures are estimates and official statistics.
- Source data: *DWP Information, Governance and Security Directorate: Work and Pensions Longitudinal Study*
- When the next quarterly National Statistics are published they will be included as a quarterly National Statistic in Table 2.2, and the monthly early estimates for this quarter will be removed from Table 2.2.

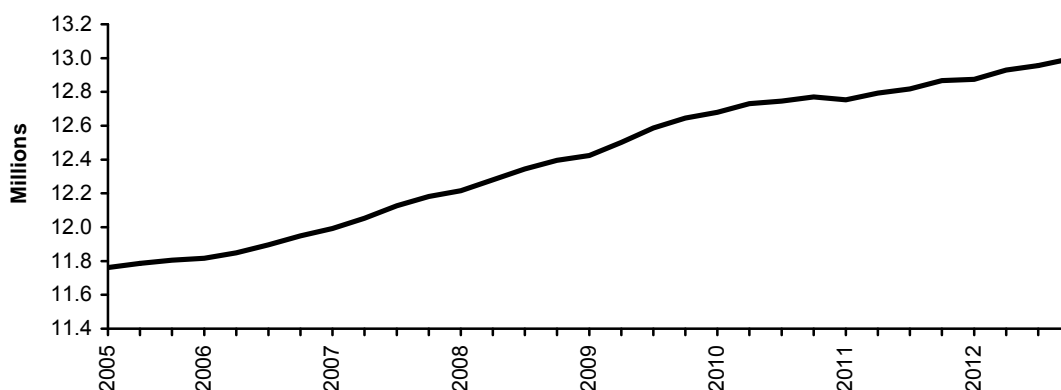

Latest statistical data available from: http://research.dwp.gov.uk/asd/index.php?page=early_ests

3. Pensioners

3.1 National Statistics: Pensioner client group

The Pensioner client group covers claimants, over State Pension age (see notes section 7), of at least one of the following benefits: State Pension, Pension Credit, Attendance Allowance, Widow's Benefit, Disability Living Allowance, Incapacity Benefit, and Severe Disablement Allowance. They are split into statistical groups that reflect their main reason for claiming benefit.

Pensioner Client Group: May 2005 to November 2012

At November 2012 there were 13.0 million claimants in the Pensioner Client Group, an increase of 128 thousand since November 2011. Of these, 18% were in receipt of Pension Credit. 50% of these Pension Credit claimants were also claiming Attendance Allowance or Disability Living Allowance.

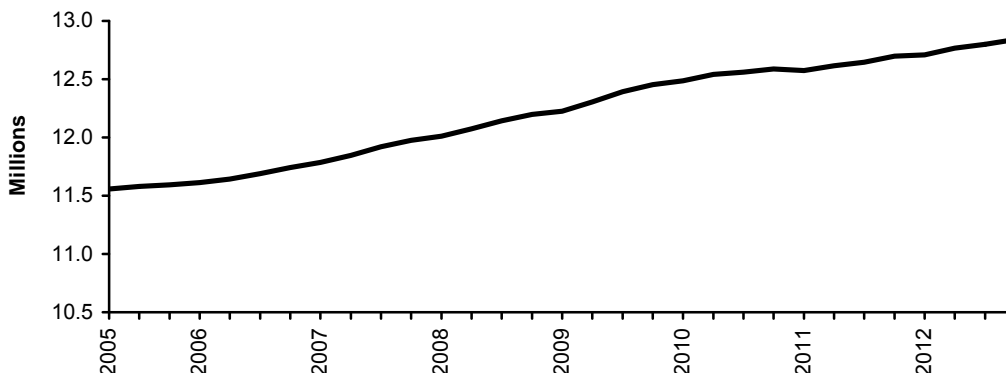

Table 3.1 Pensioner Client Group recipients: February 2006 – November 2012

3.2 National Statistics: State Pension

State Pension (SP) was introduced on 1st January 1909 and is paid to people who have reached the state pension age and who fulfil the residency and contributions conditions. The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2034 and 2036; and 68 between 2044 and 2046.

State Pension Recipients: May 2005 to November 2012

At November 2012, there were 12.84 million claimants of State Pension, a rise of 146 thousand on a year earlier. Of these, 40% were male and 60% female.

The average weekly amount in payment at November 2012 was £118.47, a rise of £7.40 since November 2011.

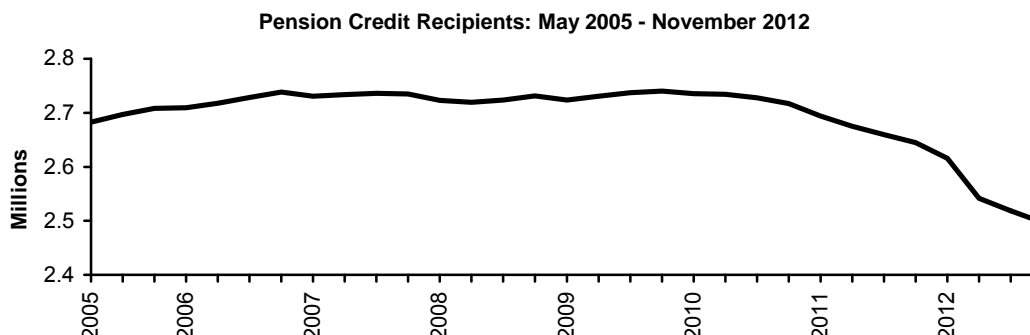

In quarter to November 12, there were a total of 159 thousand new claims for State Pension which represents 1.2% of the caseload. Over the same period, 127 thousand claimants left the benefit, representing 1.0% of the caseload at November 2012. In the year to November 12 there were a total of 632 thousand new claims for State Pension and 519 thousand claims were closed.

Table 3.2 State Pension recipients: November 2006 – November 2012

Nov -12	12,842.82	5,162.65	7,680.17

3.3 National Statistics: Pension Credit

Pension Credit (PC) was introduced on 6th October 2003 and replaced Minimum Income Guarantee (MIG). For people aged over the female state pension age (see Notes, section 7), the Guarantee Credit element guarantees an income at a set level. People aged 65 or over (and couples where one member is 65 or over) may also be entitled to Savings Credit if they have modest income from savings, investments or a second pension.

At November 2012, there were 2.50 million claimants of Pension Credit (3.04 million including partners), a fall of 147 thousand on the previous year. This fall is due to the increase in the female State Pension age, which is also the age at which people become eligible for Pension Credit, see Notes, section 7 for details. Of these Pension Credit claimants, 991 thousand claimed Guarantee Credit only, 949 thousand claimed Guarantee and Savings Credit, and 558 thousand were claiming Savings Credit only. The average weekly amount of Pension Credit in payment at November 2012 was £56.90, a fall of £0.44 since November 2011.

Statistics on benefit flows show there were 151 thousand new claims to Pension Credit in the year to November 2012. There were 168 thousand new claims to Pension Credit in the financial year 2011/2012. A small number of claims take a long time to process and are still outstanding at the cut off point for producing these statistics. This means that the statistics undercounts the final number of claims by a small percentage (around 2%).

Table 3.3 Pension Credit claimants: May 2006 – November 2012

		Thousands			
	Total	Guarantee Credit only	Guarantee Credit & Savings Credit	Savings Credit only	Still on Minimum Income Guarantee

Aug -12	2,518.47	1,000.68	957.62	560.14	0.02
Nov -12	2,497.45	990.63	948.74	558.06	0.02

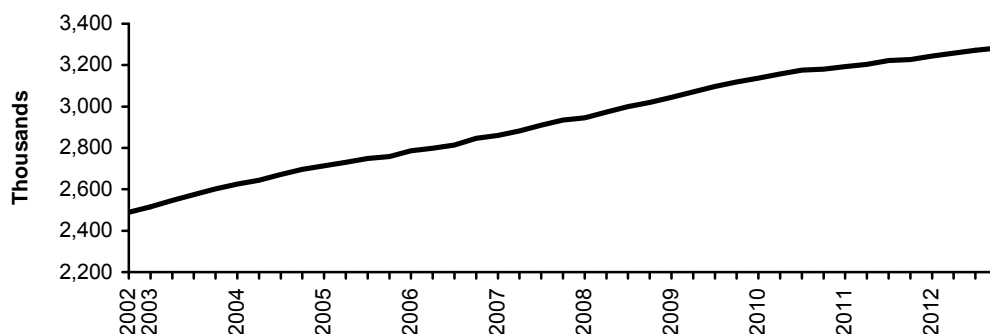

1. Pension Credit replaced MIG on the 6th Oct 2003, however a small number of residual cases remain on MIG.

4. Disabled and Carers

4.1 National Statistics: Disability Living Allowance

Disability Living Allowance (DLA) was introduced on 1st April 1992 and is a benefit for people who have become disabled before the age of 65 and who need assistance with personal care or mobility.

Disability Living Allowance Recipients: November 2002 to November 2012

At November 2012 3.28 million people were receiving Disability Living Allowance (not including suspended cases), a rise of 56 thousand on a year earlier. Of these claimants 50% were male. Both the male and female caseloads are rising, with males rising by 30 thousand and females by 26 thousand in the year to November 2012.

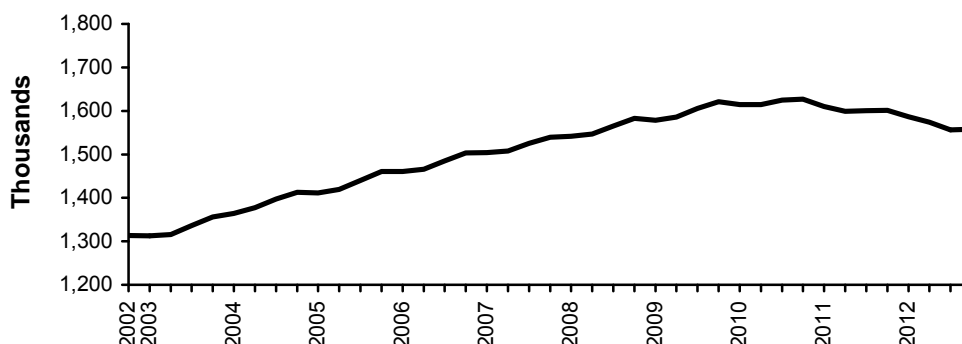

At November 2012, 11% of recipients were children, 57% were working age and 33% were pension age (a small number are an unknown age).

Latest statistical data available from: <http://83.244.183.180/100pc/tabtool.html>

4.2 National Statistics: Attendance Allowance

Attendance Allowance (AA) was introduced on 6th December 1971 and is a benefit for people over the age of 65 who are so severely disabled, physically or mentally, that they need a great deal of help with personal care or supervision. Those requiring constant help receive the higher rate of benefit.

Attendance Allowance Cases in Payment: November 2002 to November 2012

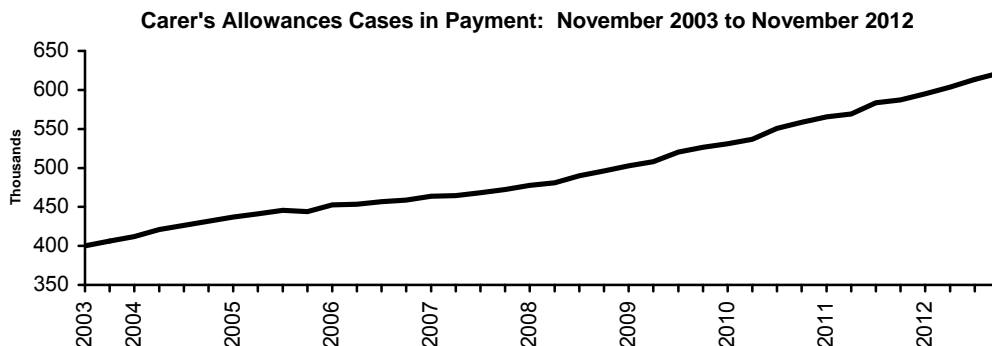

At November 2012 there were 1.56 million people receiving Attendance Allowance (excluding suspended cases), a fall of 43 thousand on a year earlier. Of these, 34% were male and 66% female. The male caseload has decreased by 10 thousand and the female caseload has decreased by 33 thousand in the year to November 2012. At November 2012, 68% were aged 80 or over.

Latest statistical data available from: <http://83.244.183.180/100pc/tabtool.html>

4.3 National Statistics: Carer's Allowance

Carer's Allowance (CA) was introduced on 5th July 1976; it is paid to carers who look after a severely disabled person for at least 35 hours a week. The severely disabled person must be getting either higher or middle rate DLA care component or AA or maximum rate Constant Attendance Allowance with their War Pension or Industrial Injuries Disablement Benefit.

At November 2012, there were 622 thousand people receiving Carer's Allowance (not including underlying entitlement cases). 28% of claimants were male, and 72% female. At November 2012, there were a further 437 thousand people entitled to Carer's Allowance but not receiving any payment due to overlapping benefit provisions (i.e. underlying entitlement cases).

1. Data is not available prior to August 2003.

4.4 National Statistics: Industrial Injuries Disablement Benefit

Industrial Injuries Disablement Benefit (IIDB) was introduced on 5th July 1948 and is a benefit for people who are disabled because of an industrial accident or prescribed industrial disease. Since 1st October 1986 any claim resulting in an assessment of less than 14% disabled does not normally attract benefit.

There were 319 thousand people claiming under the Industrial Injuries Disablement Benefit scheme in September 2012, of whom 66% received Industrial Injuries Disablement Benefit only, 16% received Reduced Earnings Allowance only, and 17% received both. The number of people claiming benefit has dropped slightly (by 2%) since September 2011. The average weekly payment was £51.73.

Latest statistical data available from: <http://statistics.dwp.gov.uk/asd/index.php?page=iidb>

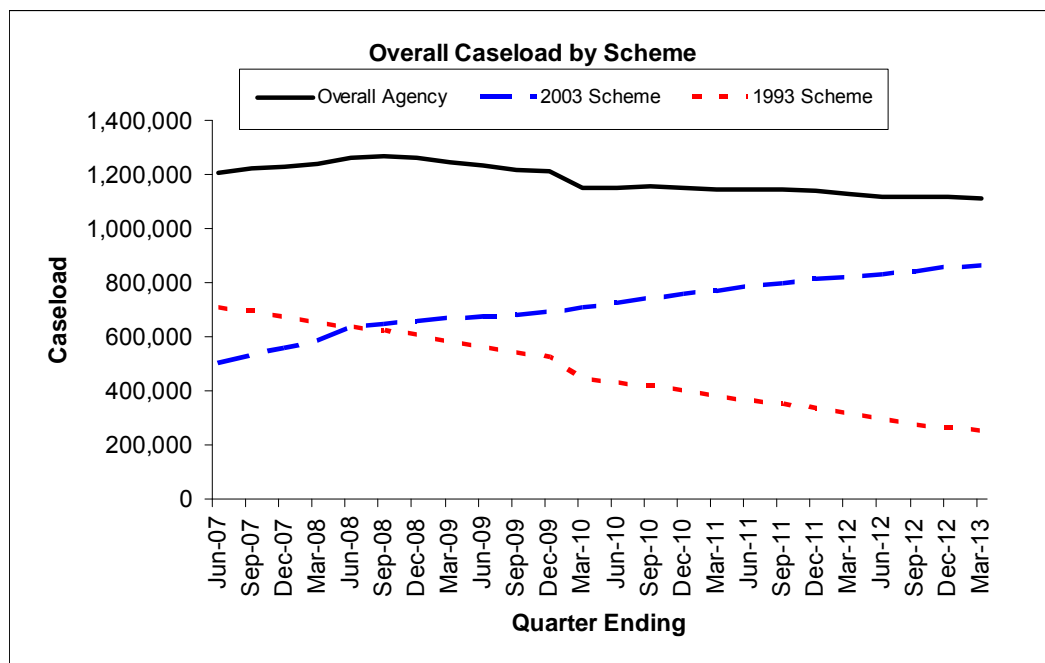

5. Families & Children

5.1 National Statistics: Child Support Agency cases

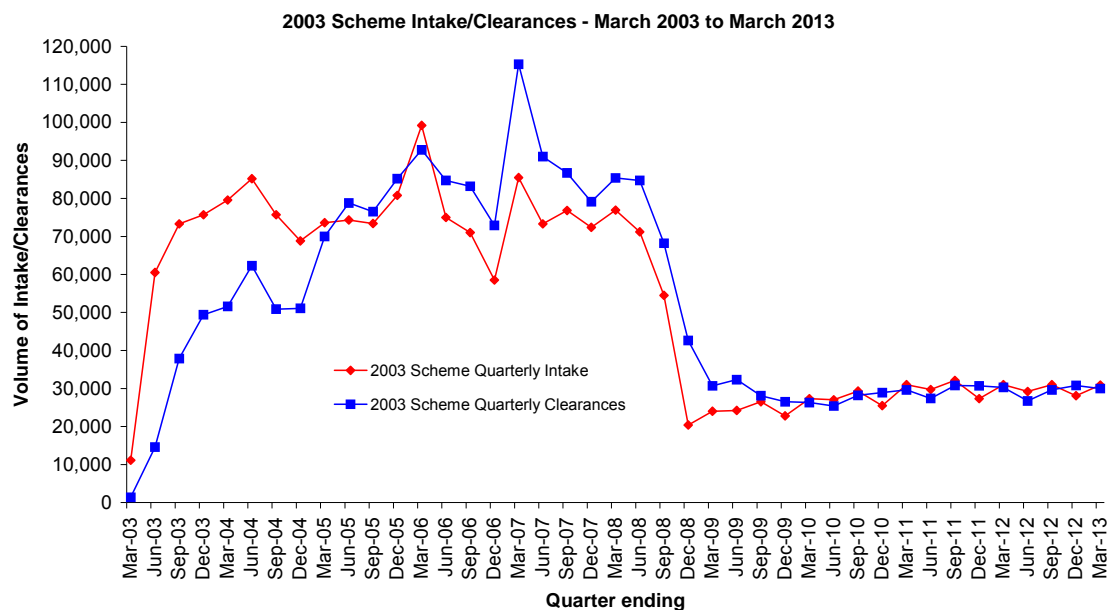

The Department for Work and Pensions (DWP) is responsible for the child maintenance system in Great Britain. It funds information and support for separating parents and runs the statutory child maintenance schemes, currently operated through the Child Support Agency (CSA).

DWP assumed responsibility for the CSA from the Child Maintenance and Enforcement Commission on the 1 August 2012, following an announcement on 14 October 2010 that the Commission would become an executive agency of DWP as part of the Public Bodies Reform. The Commission had responsibility for the CSA between the 1 November 2008 and the 31 July 2012, prior to that DWP had responsibility for the CSA.

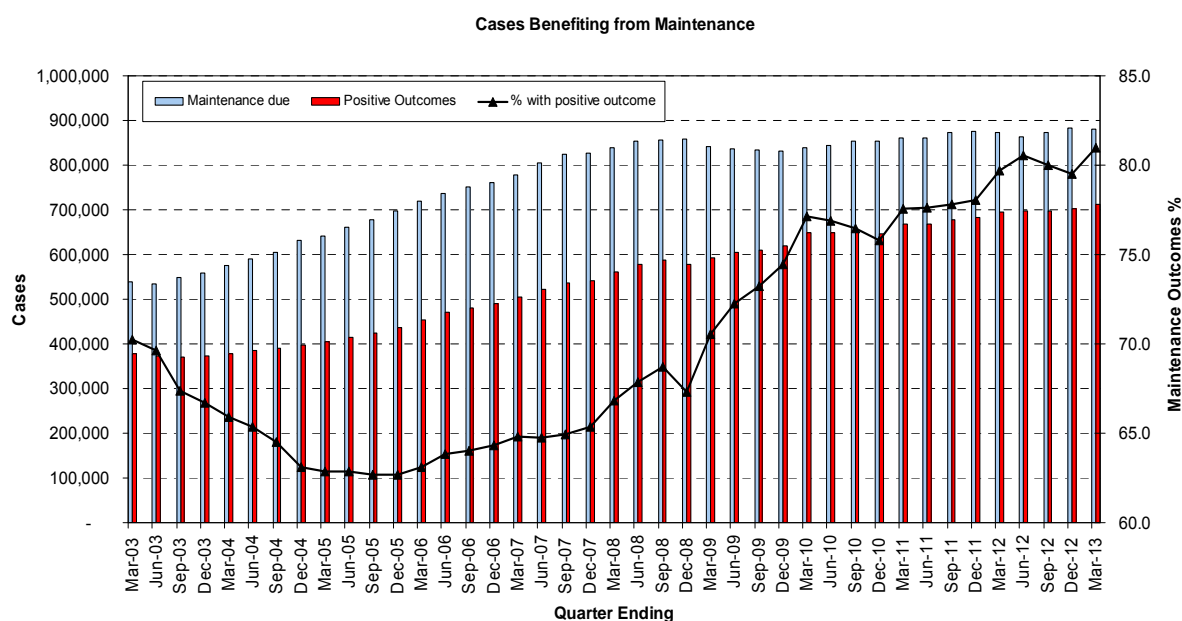

On the 10 December 2012 a new Child Maintenance Scheme was launched. A pathfinder approach has been taken to the launch of the scheme. All new applications with four or more children relating to the same Non Resident Parent and Parent with Care are being accepted onto the 2012 scheme. These figures exclude cases on the 2012 scheme.

At the end of March 2013, the CSA live and assessed caseload stood at 1.11 million.

The volume of uncleared current scheme applications has increased by 600 since December 2012, and is currently at 13,700. This represents an increase of 4.6% since December 2012.

In the quarter ending March 2013, 81.0% of all cases in which maintenance was due had either received maintenance via the CSA collection service, or had a maintenance direct arrangement in place.

Latest statistical data available from: <http://statistics.dwp.gov.uk/asd/index.php?page=csa>

NOTES

1. The Statistical Summary

The Department for Work and Pensions (DWP) publish a Statistical Summary document each month. It is used for the release of a wide range of DWP statistics

The DWP Statistical Summary brings together key National Statistics on DWP administered benefits and JSA (Jobseeker's Allowance) sanctions. To provide a more complete picture of DWP responsibility, statistics on Housing Benefit and Council Tax Benefit (administered by Local Authorities) and the Child Support Agency are also included.

The Summary is published monthly, containing Official Statistics giving early estimates of inactive benefit caseloads. Each quarter (in May, August, November and February), the Summary is a larger document containing the detail of DWP administered benefits, Housing Benefit and Council Tax Benefit, JSA sanctions and the Child Support Agency.

Alongside the Statistical Summary, there are a large number of tables which enable the user to delve in to the detail. These are provided to the user as:

- The DWP Tabulation Tool – for DWP administered benefits and employment programmes the Tabulation Tool provides the user with an interactive tool to select one of thousands of possible tabulations. This is available for caseloads and on/off flows at: <http://research.dwp.gov.uk/asd/index.php?page=tabtool>. A similar Tabulation Tool, derived from 5% sample data, is also available. Whenever possible, 100% data should be used in preference to 5% estimates, as these are both more accurate and form DWP's headline statistics. Some statistics remain outside the scope of the Tabulation Tool but will continue to be available via the internet as pre-defined summary tables.
- Identical numbers via Nomis (<https://www.nomisweb.co.uk/Default.asp>)
- Stat-Xplore – Stat-Xplore provides a guided way to explore DWP benefit statistics, currently holding data relating to Housing Benefit claimants and in future will include data on a wider set of DWP benefits and programmes. Using Stat-Xplore you can: create customised tabulations; view results in interactive charts; share outputs via social networking tools; or download into common file formats. The tool contains data on Housing Benefit claimants only at this stage. (<https://stat-xplore.dwp.gov.uk/>)
- Separate detailed tables on Housing Benefit and Council Tax Benefit; and Claimants on out-of-work benefits (via the [Working Age Client Group Tabulation Tool](#), use first "Useful Resources and Sites" link)
- Tables broken down by Lower Super Output Area (LSOA) and Census Output Area (COA).
- Other tables and background information via links on the Tabulation Tool pages (e.g. links to long time series spreadsheets; descriptions of the benefit.)

The National Statistics paper "DWP statistics transformed: the modernisation of the DWP's data sources and statistical publications" announced major changes to the National Statistics the Department publishes in 2005. Much of this content is still relevant and is available from:

http://statistics.dwp.gov.uk/asd/asd1/stats_consultation/modstats.pdf

On 23 January 2013, DWP opened a consultation on "People and households claiming Universal Credit, Personal Independence Payment and other benefits: Plans for 2013-2017". The outcome of this consultation will shape the content and format of the Statistical Summary through to 2017 and beyond. The full consultation can be found at: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf. This consultation is now closed and DWP are considering the responses.

2. National Statistics Code of Practice

DWP complies with the Code of Practice for Official Statistics and supporting Principles. Detailed policy statements and statement of compliance with the pre-release access to official statistics order 2008 are given below:

[DWP policy statements](#)

Detailed policy and methodology relating to the Statistical Summary can be found at:

- [Quality](#)
- [Methodology](#)

- [Uses and Users](#)
- [Ad hocs and pricing](#)

The UK Statistics Authority report on the compliance with the Code of Practice for Official Statistics for the Statistical Summary is report number 66 at:
<http://www.statisticsauthority.gov.uk/assessment/assessment-reports/index.html>

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

DWP would like to hear your views on our statistical publications. If you use any of our statistics publications, we would be interested in hearing what you use them for and how well they meet your requirements. Please email DWP at stats-consultation@dwp.gsi.gov.uk.

An ongoing questionnaire, enabling DWP to target future consultations at interested users; shaping the future direction of statistics development to address user needs; and helping ensure value for money, whilst giving users a structured way of expressing their views is available at:
http://research.dwp.gov.uk/asd/statistical_summary_questionnaire.doc

Completed questionnaires can be returned by e-mail to stats-consultation@dwp.gsi.gov.uk or by post to the following address:

Stuart Grant
 Information, Governance and Security Directorate
 Department for Work and Pensions
 Room BP5201
 Benton Park Road
 Longbenton
 NEWCASTLE UPON TYNE
 NE98 1YX

Users can also join the "Welfare and Benefit Statistics" community at: <http://www.statsusernet.org.uk>.

3. Statistical groups

DWP has a typology to define Statistical Groups within the client group classifications. The aim of the Statistical Group typology is to present each person by the main reasons they are in contact with the Department. Like the client group classification, each client is classified just once, permitting the estimation of the total number of people claiming one or more benefits. The Statistical Group hierarchy is:

a] Jobseeker	e] Other income-related benefits
b] Employment and Support Allowance and incapacity benefits	f] Disabled
c] Lone parents	g] Bereaved
d] Carers	h] Housing Benefit
	i] State Pension only recipients

From November 2008 the "incapacity benefits statistical group" includes Employment and Support Allowance (ESA). ESA replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims from 27th October 2008. Prior to this the "incapacity benefits group" covered people on Incapacity Benefit or Severe Disablement Allowance, including people claiming Income Support on the grounds of incapacity.

4. Jobseeker's Allowance figures at ONS

The preferred source of numbers for Jobseeker's Allowance is the ONS claimant count figure; these are more up to date and contain clerical cases. However, the reason we use the DWP JSA figures is that they are consistent with the other benefits used to produce DWP National Statistics, and permit a wider set of breakdowns. The ONS figures are available from Nomis and <http://www.statistics.gov.uk/>.

5. Flows on and off benefit

The flows Tabulation Tools show a full back series for on-flow and off-flow. Pension Credit information is available via a one-click table: http://83.244.183.180/100pc/pc/tabtool_pc.html. User guidance on the flows series can be found at: http://83.244.183.180/flows/flows_on/Guidance%20for%20Users.pdf

6. Early Estimates

The DWP benefit National Statistics have a gap of around five and a half months between the publication and reference dates.

The early estimates are official statistics (see: <http://www.statisticsauthority.gov.uk/national-statistician/types-of-official-statistics>) and published monthly to give indicative, timely information ahead of the publication of full National Statistics. The Office for National Statistics publish the Jobseeker's Allowance claimant count every month, one month in arrears. Consequently, the Early Estimates focus on the economically inactive groups of "incapacity benefits and Employment and Support Allowance" and "Income Support lone parents".

The main reason for the lag in the National Statistics release is because we have to wait three months for a small but significant number of late claims to be processed. Waiting for these late claims makes the National Statistics figures more accurate than the early estimates where we simply predict the number of late claims based on historical levels.

The early estimates are not a substitute for the National Statistics and will be replaced when the final quarterly National Statistics covering the same period are published. However, the estimates are fairly close to the final National Statistics figures. To give an indication of their accuracy, over the past year the early estimates for ESA/IB have been revised by an average of 0.4%, with the biggest revision being 0.71% and the smallest being 0.00%. The early estimates for ISLP have been revised by an average of 0.3%, with the biggest revision being 1.08% and the smallest being 0.04%.

During the re-assessment of Incapacity Benefit claimants for Employment and Support Allowance, users should be aware that there may also be increased uncertainty around these early estimates. As level of late claims is estimated using historical data, any change in the structure of the flows on and off benefit can affect the accuracy of the methodology. DWP plan to review the methodology each month to ensure that the estimates are as good as possible.

More detailed information can be accessed via the following links:

http://statistics.dwp.gov.uk/asd/asd1/early_ests/technical_document_final.pdf

http://statistics.dwp.gov.uk/asd/asd1/early_ests/QandA_Early_Estimates_final.pdf

7. Welfare Reform

The Lone Parent Obligation policy came into effect from 24 November 2008; Lone Parents (LPs) with a youngest child aged 12 or over were no longer able to make a new or repeat claim for Income Support (IS) solely on the basis of their parental status. Existing IS LPs with a youngest child aged 12 or over had their eligibility removed over a period of time commencing 2nd March 2009. From October 2009 this policy was extended to LPs with a youngest child aged 10 or 11 and from October 2010 the policy was extended to LPs with a youngest child aged 7 or over. The Welfare Reform Act 2012 introduced further changes and from 21 May 2012 lone parents have been eligible to claim Income Support until their youngest child is five years old.

Most effected LPs will leave IS and claim Jobseeker's Allowance (JSA). However, there are exceptions to these rules where the youngest child can legitimately be over the ages mentioned above. Similarly, some former LPs remain on IS for other reasons (e.g. they have a long term caring responsibility and claim Carer's Allowance). The IS LP series will continue to be defined as 'single IS claimants with a child under 16'.

Referrals to the new employment programme “Work Programme” began from June 2011 (<https://www.gov.uk/moving-from-benefits-to-work/job-search-programmes>). In the run up to that launch, a new package of Get Britain Working support measures were introduced. In tandem with these changes, referrals to legacy employment programmes ceased. Final statistics for these programmes have now been released. The existing Tabulation Tools will remain available for historical analysis. For statistics relating to these new programmes see:

<http://research.dwp.gov.uk/asd/asd1/pwp/index.php?page=pwp> and
<http://research.dwp.gov.uk/asd/index.php?page=wp>

The age at which women reach State Pension age is gradually increasing from 60 to 65 between April 2010 and April 2016 to November 2018. Under current legislation, State Pension age for men and women is planned to increase to: 66 between November 2018 and October 2020; 67 between 2034 and 2036; 68 between 2044 and 2046. The first quarterly statistical summary to be affected was the November 2010 publication and the first early estimates to be affected were released in June 2010. These changes introduce a small increase to the number of working age benefit recipients and a small reduction to the number of pension age recipients. There are also changes to the way we report benefit recipients as a proportion of the working population. More information can be found at: <http://statistics.dwp.gov.uk/asd/espa.pdf>. For general information about the change to State Pension age, please see: <https://www.gov.uk/browse/working/state-pension>.

A new three tier sanctions regime was introduced and came into force in October 2012 for JSA and December 2012 for ESA which seeks to broadly align the JSA & ESA sanctions regimes with the model to be introduced under UC. In the new regime the consequences of failure will be clearer for claimants. The new system will be more robust, particularly for claimants who repeatedly fail to meet their most important responsibilities. Sanctions will also be applied more quickly – specifically by the next payment date. For more details see:

JSA: <http://www.dwp.gov.uk/adviser/updates/jsa-sanction-changes/>
 ESA: <http://www.dwp.gov.uk/adviser/updates/esa-sanction-changes/>

8. Known Issues, Changes and Revisions to the Statistical Summary

- Last month, DWP announced that:
On 15 May 2013, the JSA sanctions series will continue for reference dates up until the end of January 2013. These statistics will reflect the new JSA sanctions regime which took effect from 22 October 2012. Initially, statistics will be released via spreadsheets linked from this Statistical Summary. The statistics will include a breakdown by Jobcentre Plus office.

In the last few weeks, DWP have been preparing the final statistics to the end of January and extending some of the tables to show new measures. These activities have exposed some significant doubts around the quality of the statistics relating to the new regime. Consequently, to avoid a potentially misleading statistical release, JSA sanction statistics have not been released on 15 May.

DWP will perform further quality assurance activities on this new series and will publish as soon as possible. Unfortunately, it is not possible to commit to a definite date at the moment, but a proposed publication date will be announced in advance via <http://statistics.dwp.gov.uk/asd/index.php?page=news> and http://statistics.dwp.gov.uk/asd/workingage/index.php?page=esa_sanc.

However, today has seen an ad hoc release of the number of Jobseeker’s Allowance (JSA) sanctions and disallowances, where a decision has been made, in each month from 1st April 2000 to 21st October 2012 (the last date of the old regulations) by Jobcentre Plus Office and decision. These statistics are unaffected to the quality concerns. This can be found at:
http://statistics.dwp.gov.uk/asd/index.php?page=adhoc_analysis.

- Council Tax Benefit was abolished in April 2013 and replaced by a system of localised support. In England, the Department for Communities and Local Government (DCLG) is now be responsible for statistics. The Scottish and Welsh Governments have similar responsibility. The May 2013 Summary will report the last set of Council Tax Benefit statistics, ending with the February 2013 numbers (for technical reasons, March 2013 numbers are not possible). The Housing Benefit series will continue via Stat-Xplore.
- Additional breakdowns for Housing Benefit will be available for the first time (via [Stat-Xplore](#) only) :
 - Entitled Number of Bedrooms (for Local Housing Allowance tenants only)
 - Single year of age

- Lower level geographies

9. Notification of future changes to the Summary

- The JSA sanctions series will be extended for reference dates up until the end of January 2013. These statistics will reflect the new JSA sanctions regime which took effect from 22 October 2012. Initially, statistics will be released via spreadsheets linked from this Statistical Summary. The statistics will include a breakdown by Jobcentre Plus office. Unfortunately, it is not possible to commit to a definite date at the moment, but a proposed publication date will be announced in advance via <http://statistics.dwp.gov.uk/asd/index.php?page=news> and http://statistics.dwp.gov.uk/asd/workingage/index.php?page=esa_sanc.
- DWP are planning to introduce ESA sanctions statistics into the Statistical Summary by August 2013. The plans are to include the first set of statistics for the new ESA sanctions regime, alongside a revised historical series and a working paper explaining the differences between the new and old methodology. These statistics have been delayed from a proposed May release to allow the new regime to bed-in and to allow sufficient quality assurance of the new methodology.
- The addition of a “migrated from Incapacity Benefit” flag to the ESA on flows Tabulation Tool (http://83.244.183.180/flows/flows_on/esa/tabtool_esa.html)

Current consultations

Universal Jobmatch launched on 19 November 2012. This is DWP’s new, free online job posting and matching service. Universal Jobmatch replaces the current vacancy management services, Employer Direct and Employer Direct Online for companies, and it replaces the Jobcentre Plus jobs and skills search facility for jobseekers.

As a result, there have been fundamental changes in the associated statistical series. User comments have been received as part of a consultation, which can be found on page 4 of:

http://statistics.dwp.gov.uk/asd/asd1/stats_summary/stats_summary_aug12.pdf. The consultation is now closed. Results are available at: http://statistics.dwp.gov.uk/asd/asd1/jsa/vacancies/user_views.pdf. The Department continues to receive a regular stream of user concerns about the limitations of the new Universal Jobmatch vacancy data. These are currently under consideration by the project team.

On 22nd October 2012 the new legislation for **JSA Sanctions** came into force. This meant a change to the current 26 reasons why a JSA claimant can be sanctioned to a new three tier sanctions regime which seeks to broadly align the JSA sanctions regimes with the model to be introduced under Universal Credit. DWP launched a consultation regarding the future of JSA sanctions statistics. This consultation can be found at: http://statistics.dwp.gov.uk/asd/asd1/jsa/jsa_sanctions_consultation.pdf. This consultation is now closed. Results are now available within the “Focus on ... JSA Sanctions” article in the Summary document.

On 23 January 2013, DWP opened a consultation on **People and households claiming Universal Credit, Personal Independence Payment and other benefits: Plans for 2013-2017**. The outcome of this consultation will shape the content and format of the Statistical Summary through to 2017 and beyond. This consultation can be found at: http://research.dwp.gov.uk/asd/dwp_stats2013_17.pdf. This consultation is now closed. Results will be published in due course.

10. Northern Ireland Statistics

The statistics in this Summary cover Great Britain (England, Scotland and Wales) only. Comparable benefit statistics for Northern Ireland can be found at:

http://www.dsdni.gov.uk/index/stats_and_research/benefit_publications.htm

and

http://www.dsdni.gov.uk/index/stats_and_research/geographical_data_on_ss_benefits.htm for geographical breakdowns

Currently, the Northern Ireland statistics use extracts from the benefit systems very similar to those used to create the 5% sample numbers for Great Britain (although the Northern Ireland sample size is usually greater than 5%). The directly equivalent GB numbers can be found at: <http://83.244.183.180/5pc/tabtool.html>. However, Northern Ireland statistics are shortly due to move to extracts from the benefit systems very similar to those used to create

the WPLS/100% sample numbers (<http://83.244.183.180/100pc/tabtool.html>) for Great Britain. However, Northern Ireland statistics will ignore the effect of retrospection.

Comparisons between the Great Britain 5% samples and 100% samples, plus the effect of retrospection can be seen in documents entitled "Differences between WPLS and 5% sample data" in the "Useful Resources and Sites" section of each single benefit 100% sample Tabtool (e.g. http://83.244.183.180/100pc/is/tabtool_is.html)

Housing Benefit is a social security benefit paid by the Housing Executive. It helps people on a low income pay their rent and rates. In Northern Ireland, rates are paid instead of Council Tax. Limited Housing Benefit numbers are available in the summary bulletin at:

http://www.dsdni.gov.uk/index/publications/summary_statistics_bulletin.htm. For people who own their own property and need help with rates only, Land and Property Services (LPS) provide rates relief payments. Statistics on those receiving rates relief only are not available.

Employment Programmes are different in Northern Ireland. Hence, statistics are not directly comparable. However, numbers on the various schemes are available from:

<http://www.delni.gov.uk/index/statsandresearch/training-and-employment-stats.htm>.

Vacancy statistics for Northern Ireland are available at <http://www.detini.gov.uk/deti-stats-index/stats-surveys/stats-vacancy-stats.htm> and at <http://www.delni.gov.uk/index/statsandresearch/labour-market-information-stats/vacancies.htm>. Statistics on Jobcentre Plus Sanctions and Child Maintenance are not currently published for Northern Ireland.

11. Her Majesty's Courts and Tribunals Service

Her Majesty's Courts and Tribunals Service was created on 1 April 2011. It brings together Her Majesty's Courts Service and the Tribunals Service into one integrated agency providing support for the administration of justice in courts and tribunals.

Responsibility for publishing statistics on the appeals now resides with Her Majesty's Courts and Tribunals Service and they publish statistical information via their website <http://www.justice.gov.uk/about/hmcts>

12. Fraud and Error statistics

National Statistics are published presenting six-monthly estimates of fraud and error in claims for Income Support, Jobseeker's Allowance, Pension Credit and Housing Benefit, along with an annual estimate of the level of fraud and error in the benefit system as a whole. One-off benefit reviews have been carried out from time to time to estimate fraud and error in claims for other benefits. Reports can be found at

http://research.dwp.gov.uk/asd/asd2/index.php?page=fraud_error

13. Take-Up of Income-Related Benefits

Publications contain information on the take-up of the main income-related benefits in Great Britain: Income Support, Pension Credit, Housing Benefit, Council Tax Benefit, Employment and Support Allowance (income related) and Jobseeker's Allowance (income based). Take-up is measured in two ways. Expenditure take-up compares the total amount of benefit received in the course of a year with the total amount that would have been received if everyone took up their entitlement for the full period of entitlement. Caseload take-up compares the number of benefit claimants – averaged over the year – with the number who would be receiving if everyone took up their entitlement for the full period of entitlement. Data is sourced from the Family Resources Survey and administrative benefit records. Latest published figures are available at:

<http://statistics.dwp.gov.uk/asd/index.php?page=irb>

14. Other National and Official Statistics issued by the Department for Work and Pensions

Details of other National and Official Statistics produced by the Department for Work and Pensions can be found on the DWP website at the following links:

- A list of Tabulation Tools: <http://statistics.dwp.gov.uk/asd/index.php?page=tabtool>;
- An A to Z list of DWP statistics: http://statistics.dwp.gov.uk/asd/index.php?page=statistics_a_to_z;
- A schedule of statistical releases over the next 12 months: <http://statistics.dwp.gov.uk/asd/index.php?page=schedule>;
- And a list of the most recent releases: <http://statistics.dwp.gov.uk/asd/index.php?page=recent>.

- In accordance with the Code of Practice for Official Statistics, all DWP National Statistics are also announced via the UK Statistics Authority publication hub at: http://www.statistics.gov.uk/hub/statistics-producers/publications/index.html?newquery=*&source-agency=Work+and+Pensions&pagetype=release-landing-page. In addition, users can find links to DWP additional statistical analyses that have not been included in our standard publications at http://statistics.dwp.gov.uk/asd/index.php?page=adhoc_analysis.
