

PPA Self-Assessment Review

Complete areas within white boxes only

Reporting Year	2008/9
----------------	--------

Part A – Basic Information

PPA partner	Islamic Relief Worldwide
-------------	--------------------------

Niche statement	<p>Islamic Relief Worldwide (IRW) is an international relief and development charity, which aims to alleviate the suffering of the world's poorest people.</p> <p>As well as responding to disasters and emergencies, Islamic Relief promotes sustainable economic and social development by working with local communities - regardless of race, religion or gender.</p> <p>With headquarters based in Birmingham UK, IR now has presence in over 40 countries worldwide.</p>
-----------------	--

	2004/5	2005/6	2006/7	2007/8	2008/9	2009/10	2010/11
PPA funding (£)	-	£562,500	£750,000	£771,429	£796,667	£796,667	£199,167
As % of total income* <small>*(See annexe 1)</small>	-	1.37%	1.98%	1.84%	1.79%	-	-

	2004/5	2005/6	2006/7	2007/8	2008/9	2009/10	2010/11
Other DFID funding (£)	£590,022	£749,185	-	£830,000	£660,618	-	-

<p>Summary of partnership with DFID and other DFID funding</p> <p>History: Islamic Relief's first funding interaction with Dfid was with a grant for an emergency in Bangladesh in 1998. See Annex 2 for list of DFID contracts.</p> <p>Dfid PPA: In 2006 a five year Partnership Programme Arrangement was agreed between Islamic Relief and DFID. The Islamic Relief PPA funding for 2008-2011 is £2,390,000.</p> <p>Funding for Dfid has enabled Islamic Relief to move in a new direction, especially in the fields of development practice, research, and development education.</p>
--

Dfid Contacts and relationships:

- There have been numerous contractual and country based interactions with DFID staff. Annex 2 shows significant meetings in the UK
- The Policy and Research Unit have begun to make links with DFID teams. In addition, an analyst from the Middle East team did attend a DFID gender meeting.
- Islamic Relief participated in the development of DFID's Asia Strategy, attended the DFID India CAP presentation, and participated in the DFID Pakistan CAP process with the DFID South Asia Team.

Approximate % of resources allocated by sector or theme from overall income

Advocacy	2%
Emergency Relief	42%
Reducing Malnutrition	11%
Education & Vocation Training	3%
Health & Nutrition	7%
Water & Sanitation	5%
Orphans & Child Welfare	24%

Above table is taken from the Islamic Relief Financial Statements 2008

Part B - Progress against PPA Strategic Objectives

Progress to date against PPA purpose statement

Inspired by **Islamic humanitarian values**, IR will utilise its **global partnerships, expertise and experience** to **promote** and to **contribute** to **poverty reduction**, specifically development projects in the **Horn of Africa**, raising **development awareness** amongst **Muslim organisations**, and **sharing knowledge** and experience with Muslim, faith-based, **multilateral and secular organisations**

The IR PPA can broadly be split into three sections:

- (i) Projects tackling child poverty in East Africa,
- (ii) Development awareness in the UK and
- (iii) Contribute an Islamic perspective to policy and research on a range of humanitarian and development issues.

In the current stage of the PPA, the focus has been on meeting the objectives, with different objectives at different stages.

The most significant activity on the PPA objectives has been in the policy and development education areas. The organisation produced new briefing papers, policies, research papers and discussion documents all pushing the boundaries of Islamic Development. In addition, significant materials were produced to assist in our development education work.

More challenging was our work in tackling child poverty in East Africa. Due to various reasons, including delays due to the onset of the rainy season, project activities have been slow to get off the ground.

Progress against PPA Performance Framework by each Strategic Objective

Strategic Objective 1:

1. Child mortality and poverty of targeted households reduced in **Sudan (Blue Nile), Ethiopia (Afar) and Kenya (Mandera)**

Indicators 1-5:

'Reduction from X/000 to Y/000 in child mortality (50 %) reduction in child mortality (under 5) in targeted communities by March 2011

Increase from X children immunized to Y children immunized(66 % increase) in children (under 1) in targeted communities by March 2011

increase in average household assets from \$XX to \$YY per household (33 % increase) in

<p>targeted communities by March 2011</p> <p>Reduction in global acute malnutrition to below 15% in targeted communities by March 2011</p> <p>Impact and lessons learnt, stakeholder (government and civil society) workshops held annually</p>
<p>Progress achieved and challenges faced</p> <p><u>Delay in Baseline survey:</u></p> <p>As of March 2009, baseline survey had been conducted but no significant project activity has taken place. This applies to all three locations (Blue Nile, Afar, and Mendera).</p> <p>Project activity is now ongoing and intermediate report is due before the end of 2009.</p> <p>Annex of list of projects in these areas is needed. The table should cover project name, location, MDG, type of project</p>
<p>List any documentary evidence of achievements</p> <p>The baseline documents were sent to Dfid on 14th August 2008</p> <p>In particular, please note the following documents:</p> <ul style="list-style-type: none"> • Baseline Survey In Ewa District Afar • Blue Nile State Baseline Survey Report • Household Baseline Survey Mendera

<p>What is the likelihood that Strategic Objective 1 will be achieved? Rate 1 to 5.¹</p> <p><i>See footnote 1.</i></p>	<p>2</p>
--	-----------------

<p>Strategic Objective 2:</p> <p>Increased awareness and commitment to international development. The focus will be on young people and the Muslim-based communities within the UK.</p>

<p>Indicator 6:</p>

¹

Ratings to be applied

- 1. = Likely to be **completely** achieved, i.e. well on the way to completion (or completed)
- 2. = Likely to be **largely** achieved, i.e. good progress made
- 3. = Likely to be **partly** achieved, i.e. partial progress made
- 4. = Only likely to be achieved **to a very limited extent**
- 5. = **Unlikely** to be achieved

Develop and train a cadre of international development speakers with at least 30 core speakers by March 2011
Progress achieved and challenges faced
<p>The IR Development education unit consisted of two staff members, based in Birmingham.</p> <ul style="list-style-type: none"> • In March 09, IR employed a Development Education Officer for its London office. This greatly added to the capacity to produce materials, train staff and volunteers and deliver lectures and workshops. This brought IR's Dev Education Unit to three people • In addition to three full time staff, IR has a pool of volunteer trained speakers • Training has also taken place in the UK, in London, Cardiff and Birmingham. <p>The task of developing a cadre of speakers has been a little challenging. Initially, people are interested and are available. However, maintaining a list of people who are constantly available has proven challenging.</p> <p>The target demographic has tended to be young and mobile, in that although enthusiastic, after training they tend to move on to other areas of work and are not available for speaking engagements.</p> <p>This is being addressed by targeting a smaller number of committed volunteers in key cities, to maximise the impact of development education speaking events. We still believe the target can be met however the challenge highlighted above should be noted.</p>
List any documentary evidence of achievements
<p>There has been a regular list of speakers and speaking events engaged. Currently, people can book a speaker via the website: http://islamic-relief.org.uk/speakerbooking.aspx</p>

Indicator 7:
Establish an active working relationship with at least 30 educational institutions nationally, and with at least 10 Muslim based organizations by March 2011
Progress achieved and challenges faced
<p>Throughout 2008 we have developed closer links with a variety of primary and secondary schools through performing assemblies and workshops about faith, poverty and development issues. These institutions we have visited in 2008 are shown in the annex</p> <p>Relationships with Muslim organizations have been developed throughout 2008 through workshops and project collaboration:</p> <ul style="list-style-type: none"> • FOSIS (water well project and awareness raising)

- ULFAH Arts (story telling with a development twist);
 - Islam EXPO and Global Peace and Unity conferences: (both storytelling and stalls / displays communicating the message of development and charity in action)
 - Islamic Society of Britain through Islam Awareness Week and the bi annual Living Islam family convention
 - Islam Channel (hosting an MDG programme featuring Shahid Malik)
 - EMEL magazine featuring development stories
 - Association of Muslim Schools (regional hub programme)
 - Islamic Foundation – Leicester: assisting with school conferences
 - IFEES (Islamic foundation of Ecology and environmental science) – providing grants and collaborating on materials
 - Al Hijrah Islamic School, Birmingham – workshops / assemblies
 - Unity Community Radio station – broadcasts in Ramadan 2007
 - Reflection Training Organisation (have performed workshops for them)
 - Palfrey Muslim Girls school, Walsall

List any documentary evidence of achievements

See Annex 3 for list of educational establishments that we maintain links with

Indicator 8:

Stage at least one major Dev Ed awareness event per year, in partnership with other agencies e.g. with One World Week

Progress achieved and challenges faced

One of the highlights of 2008 was the production of a television show on development education issues on the Islam Channel, with Christian Aid.

This is a television programme that Islamic Relief, along with Christian Aid, on Thursday 18th September 2008 which was broadcast on the Islam Channel. We had a government minister, Shahid Malik MP, attend too. The aim of the programme was to highlight the vital importance of the Millennium Development Goals (MDGs) not just to one group of people, but to everyone.

In addition, various other, smaller meetings and events took place (see Annexe 4).

List any documentary evidence of achievements

The video of television programme featuring Shahid Malik discussing MDG's talk is available on the Islamic Relief UK website on the following URL :

<http://www.islamic-relief.org.uk/videos/Islam%20Channel%20MDG%20Show%20Full.zip>

Indicator 9:

<p>Incorporate and promote MDGs and the wider Dev Ed message across all aspects of IRUK's fundraising and campaigning work.</p>	
<p>Progress achieved and challenges faced</p> <p>The main source for this has been the Development Education website. Strategically speaking, the effort has been focused on providing materials for fundraisers and campaigners. In addition training sessions have been given to fundraisers to incorporate development education messages in fundraising campaigns.</p> <p>We have distributed across the UK 5,000 Hilal Ramadan calendars to schools which explore development education, faith and citizenship through messaging, 'did you know' facts and activity suggestions.</p> <p>In addition, the UK Partnership magazine has development education stories featured prominently, delivered to every UK household on our database.</p> <p>Campaigns and networking all integrate development education See annex for sample of products produced for development education purposes</p>	
<p>List any documentary evidence of achievements</p> <p>The main evidence for this is the Islamic Relief Development Education website http://www.islamic-relief.org.uk/Development_Education_Home_Page.aspx</p> <p>The production of development education materials has been a major priority throughout 2008. Resources for schools produced in 2008 include:</p> <ul style="list-style-type: none"> • A2 sized millennium development goal poster sets for schools and colleges (1 set = 9 posters) • A3 sized MDG posters sets (1 set = 9 posters) • Jumbo jig saws with development education theme for group activities • A set of 9 mini jig saws with development education themes for use in class workshop breakout sessions • A set of 9 development beneficiary profiles. Each profile /case study has 4 cards (a photo, a fact page, their development story and the way they are being empowered through aid and development). Cards for up to 4 profiles at a time are mixed up pupils have to sort them into the right groupings. • 'Environment and Islam' pamphlet • 'Debt and Islam' pamphlet • A 'water' development leaflet • An A/s & A2 publication • A 7 minute Dev Ed video 	
<p>What is the likelihood that Strategic Objective 2 will be achieved? Rate 1 to 5. See footnote 1.</p>	<p>1</p>

Strategic Objective 3:
Contribute an Islamic perspective to policy and research on a range of humanitarian and development issues with specific focus on HIV/Aids, reproductive health, debt & finance and gender justice.

Indicator 10:
Increased inclusion of Islamic perspectives seen in UN, Dfid discussion/dialogue/ conferences with regards to HIV/Aids, reproductive Health, debt/ finance and gender justice.
Progress achieved and challenges faced
<p>There has been relatively little inclusion of Islamic perspectives with reference to the four key areas. There is therefore a necessity and opportunity to improve this. This will be done through increased meetings with policy teams and attendance and contribution in key conferences</p> <p>One of the key challenges has been the accurate measuring of the baseline indicator for this. It is difficult to assess accurately the inclusion of Islamic perspectives in the development discourse, and if an increase is discovered it is again difficult to determine the extent of Islamic Relief's role in this.</p> <p>In this context we will request that this indicator can be discussed with the DFID technical team</p>
List any documentary evidence of achievements
An internet search was performed, the results were sent to Dfid on August 14 2009. The results of which are shown in Annexe 5

Indicator 11:
Six high quality policy/briefing papers published by March 2009
Progress achieved and challenges faced
<p>There have been a number of papers produced that have been approved as official policies. Papers produced to date include:</p> <p>Policy papers</p> <ul style="list-style-type: none"> - <i>Reproductive Health</i> policy paper endorsed and published on website - <i>Debt</i> policy endorsed and published on website <p>Other policy papers have been written and are available on the Islamic Relief website, but have yet to be endorsed.</p> <p>Briefing papers:</p>

- *Islamic Microfinance: Theory, Policy and Practice* written by Ajaz Ahmed Khan (published on website)

- *Islam and Debt* written by Ajaz Ahmed Khan and Helen Mould (published on website)

List any documentary evidence of achievements

The results and activities of the policy department, in addition to the six areas, have been published on the Islamic Relief website. Examples of topics covered include:

Policy Stances

- Poverty
- Environment
- HIV and AIDS
- International debt
- Reproductive health
- HIV and AIDS (draft)
- Gender Justice (draft)

Research Articles

- Islamic Perspectives on Education
- An Islamic Perspective on FairTrade
- Islam and Refugees
- Islam and Debt
- Islamic Microfinance – Theory, Policy and Practice - February 2008
- Humanitarian Aid

Full link here: <http://islamic-relief.com/Indepth/Default.aspx?deplD=6>

Indicator 12:

Increased inclusion of Islamic perspectives seen in academic journals/ discussions and conferences with regards to HIV/Aids, reproductive Health, debt/ finance and gender justice.

Progress achieved and challenges faced

There has been relatively little inclusion of Islamic perspectives with reference to the four key areas. There is therefore a necessity and opportunity to improve this Islamic Relief has begun to do this outside the reporting period.

List any documentary evidence of achievements

An internet search was performed, the results were sent to Dfid on August 14 2009. The summary

of these results can be seen in Annex 6

IR was accepted into the steering committee of a research programme entitled Religion and Aids in Africa, co-ordinated by the African Studies Centre in the Netherlands

Lecture given on the 'Opportunities and Challenges of Islamic Microfinance' at Birmingham University

Submissions on HIV/AIDS and microfinance were also made to a book entitled *Transforming Development* which is due to be published in 2010

Indicator 13:

Active participation and contribution to UN policy teams/forums in relevant areas at least once a year

Progress achieved and challenges faced

IR has discussed and finalised a Memorandum of Understanding with the UNFPA on Reproductive Health which is awaiting signature.

IR attended a Geneva-based workshop on faith and HIV/AIDS on invitation from UNAIDS

List any documentary evidence of achievements

Press Release on UNFPA – IR MOU

<http://www.alertnet.org/thenews/fromthefield/218894/122451458591.htm>

Reference of IR working with UNAIDS:

<http://www.unaids.org/en/Partnerships/Civil+society/religionAndAids.asp>

Indicator 14:

Active participation and contribution to DFID policy teams in relevant areas at least once a year

Progress achieved and challenges faced

- Feedback was produced and submitted for DFID's draft policy on Afghanistan

- Attended and presented to meeting on gender held by DFID's Middle East section

Although the policy and research group has key areas of focus, there is still a need for the team at IR to make linkages with the relevant teams within Dfid. It is anticipated this will take place within the next reporting quarter.

List any documentary evidence of achievements

What is the likelihood that Strategic Objective 3 will be achieved? Rate 1 to 5. <i>See footnote 1.</i>

2

Part C – Lessons Learned

What lessons are being learned from this PPA?

Knowledge generation: The PPA has had a significant impact on the change and direction of Islamic Relief. As a result of the PPA, significant capacity building in the two of the areas, Policy and Development education has taken place. Traditionally, Islamic relief has focussed on Emergency Response, and campaigns associated with this.

The tools used to capture the activities of these two areas are the Islamic Relief Worldwide website, and the Islamic Relief UK website, as well as the internal intranet. This way, cutting edge research is disseminated to the UK public.

The impact on the organisation has been relatively significant. Despite a comprehensive change process occurring during the reporting period, the areas covered under the PPA were deemed 'protected' areas and thus continued activity.

Islamic Relief is one of the few UK Muslim faith based agencies which has strategically taken on the role of development education and establishing faith based policies. This will go far towards ensuring the faith based constituency is not only represented but also aware of the wider aid sector.

Part D – Partnership with DFID

Partnership with DFID

- What does your organisation want from a partnership with DFID? To what extent is this met in practice?

The Dfid PPA Partnership is important to Islamic Relief, not just on a financial level but on a strategic level. It has enabled us as an organisation to grow and stabilise, and to consolidate areas that are not traditional activities for us.

- How well have commitments to mutual accountability been met through the reporting period?

IR could have improved the focus on getting the baseline indicators correct, and ensuring the baseline reports were completed sooner. In terms of the relationship with Dfid, and the support Dfid have given Islamic Relief, the meeting on February 24 2009, where Dfid staff came to Islamic Relief to discuss the PPA framework was very valuable to us

- To what extent – and how - has your PPA influenced this relationship? Please give specific examples if possible.

Two main examples of how the PPA has affected the Dfid relationship has been the number of visits ministers have made to Islamic Relief (and vice versa). In addition, the PPA has allowed Islamic Relief to mature and to further the discussion on the development sphere. The directors of the organisation are well aware of the strategic relationship with DFID hence it is prioritised in planning processes

- What might have worked better?

As mentioned above, the selection of indicators at the beginning of the logframe exercise with Dfid should have been better prepared on both sides.

Future of the relationship with Dfid:

- Would like to be able to host Ministers at Islamic Relief country offices on some of their International visits, and take them to visit work in the field. Islamic Relief are drafting a letter to Mike Foster to register this request.
- As part of the PPA, Islamic Relief would like regular meetings with representatives from the AIDS and Reproductive Health teams, the Equity and Rights team and with an appropriate contact to discuss their microfinance research and policy work.
- Islamic Relief would like an initial meeting and ongoing relationship with the Outreach and Stakeholder Relations Team to support their work under outcome 2 in the PPA agreement regarding development education in schools, and at Muslim and other events.
- Involvement of Islamic Relief country offices in DFID country action planning processes and other relevant consultation processes organised through the DFID office.
- Islamic Relief would like to be on invite lists for relevant country or regional strategy consultations carried out through DFID Regional teams in the UK.

Part E – Corporate Governance and Organisational Change

Provide evidence of how your organisation demonstrates good corporate governance, whether this has changed as a result of the PPA, and if so how.

With regards to good corporate governance, the organisation has two units specifically set up to monitor and suggest improvements for good governance. One is the Performance Improvement Unit, to look at project delivery and standards.

The other is the Internal Audit Department, to ensure managerial and financial propriety takes place. We are signed up to codes of humanitarian practice including: SPHERE and Red Cross Code of Conduct

Islamic Relief is an Equal opportunities employer, and this is made clear on all our recruitment literature, policies and publicity.

CRB Checks and POVA checks are conducted on all people working with children and vulnerable people.

IR is currently undertaking an environmental review, part of which is an Environmental Action plan which covers two broad areas:

- (i) activities of IR,
- (ii) Awareness of the environment in our project implementation

**Annexe 1:
PPA Funding breakdown as a percentage of IR income**

	2004/5	2005/6	2006/7	2007/8	2008/9	2009/10	2010/11
PPA funding (£)		£562,500	£750,000	£771,429	£796,667	£796,667	£199,167
As % of total income		1.37%	1.98%	1.84%	1.79%	-	-

Calendar Year	Total Income
2004	£21,737,760
2005	£42,504,366
2006	£37,126,036
2007	£40,026,396
2008	£47,800,000
2009*	£35,000,000

Financial Year (Apr-Mar)	Income over period
2004/5	£26,929,411.50
2005/6	£41,159,783.50
2006/7	£37,851,126.00
2007/8	£41,969,797.00
2008/9	£44,600,000.00
2009/10	-

* estimated

The figures, unless indicated are based on actual income earned as per Islamic Relief Accounts of that calendar year. They are then adjusted for the financial year to match the periods of the PPA, namely from April to March.
