ALB Review

The Department of Health has conducted a review of its arm's length bodies (ALBs). The document "Liberating the NHS: Report of the arm's-length body review", published on 26 July 2010 sets out the proposals which will change the configuration of our arm's length bodies. Some will cease to be ALBs or be subject to commercial review. In total, the changes will reduce the number of health ALBs from eighteen to between eight and ten; they are expected to deliver savings of over £180m by 2014/15. The proposals for each ALB are summarised below and on the respective pages:

Agencies

Medicines and Healthcare Products Regulatory Agency (MHRA)

ALB Review proposal: Retain, but with the expectation that it will undertake its regulatory duties in the most cost-effective way.

Executive Non-Departmental Public Bodies

Alcohol Education and Research Council (AERC)

ALB Review proposal: Abolish as an ALB and remove from the sector, while seeking to maximise the opportunities for effective cross-government policy to reduce the harm from alcohol misuse.

Appointments Commission (AC)

ALB Review proposal: Abolish as an ALB during 2012 in view of the very substantial reduction in the number of appointments required. Move remaining appointments to the Department of Health.

Care Quality Commission (CQC)

ALB Review proposal: Retain as quality inspectorate across health and social care, operating a joint licensing regime with Monitor. Host organisation for Healthwatch England. Current responsibility of assessing NHS commissioning moves to the NHS Commissioning Board. May gain functions from other organisations, e.g., Human Tissue Authority and Human Fertilisation and Embryology Authority.

Council for Healthcare Regulatory Excellence (CHRE)

ALB Review proposal: Remove from the sector. Make a self-funding body by charging a levy on regulators. Extend role to set standards for and quality assure voluntary registers.

General Social Care Council (GSCC)

ALB Review proposal: Transfer the regulation of social workers to the Health Professions Council, which will be renamed to reflect its new remit.

Health Protection Agency (HPA)

ALB Review proposal: Abolish as a statutory organisation and transfer functions to the Secretary of State as part of the new Public Health Service.

Human Fertilisation and Embryology Authority (HFEA)

ALB Review proposal: Retain as a separate ALB for the time being, with the aim of transferring its functions by the end of the current Parliament. In the meantime, we will examine the practicalities (and legal implications) of how to divide the HFEA's functions between a new research regulator, the Care Quality Commission and the Health and Social Care Information Centre.

Human Tissue Authority (HTA)

ALB Review proposal: Retain as a separate ALB for the time being, with the aim of transferring its functions by the end of the current Parliament. In the meantime, we will examine the practicalities (and legal implications) of how to divide the HTA's functions between a new research regulator, the Care Quality Commission and the Health and Social Care Information Centre.

The Independent Regulator of NHS Foundations

ALB Review proposal: Retain and make an economic regulator, operating a joint licensing regime with Care Quality Commission.

Special Health Authorities

Health and Social Care Information Centre

ALB Review proposal: Retain, and put on a firmer statutory footing by establishing it in primary legislation. National repository for data collection across health care, public health and adult social care. Clearer focus on data collection, with a close working relationship with the NHS Commissioning Board.

National Institute for Health and Clinical Excellence (NICE)

ALB Review proposal: Retain, and put on a firmer statutory footing by establishing it in primary legislation. Expand scope to include social care standards.

National Patient Safety Agency (NPSA)

ALB Review proposal: Abolish as an ALB. Safety functions retained and transferred to the National Commissioning Board. Explore transfer of National Research and Ethics Service functions to single research regulator. National Clinical Assessment Service to become self-funding over the next two to three years.

National Treatment Agency for Substance Misuse (NTA)

ALB Review proposal: Abolish as an ALB, and transfer functions to the Secretary of State as part of the new Public Health Service.

NHS Blood and Transplant (NHSBT)

ALB Review proposal: Retain, and commission an in-depth review of opportunities to make more commercially effective. Transfer Bio-Products Laboratory out of NHSBT into a Department of Health owned company.

NHS Business Services Authority (NHS BSA)

ALB Review proposal: Retain in short term, and commission commercial review to identify potential for increased commercial opportunities, including potential to remove functions from the ALB Sector.

NHS Institute for Innovation and Improvement (NHS I³)

ALB Review proposal: Remove from ALB sector. Move functions which will support the NHS Commissioning Board in leading for quality improvement to the Board. Review the potential for its remaining functions to be delivered through alternative commercial delivery models.

NHS Litigation Authority (NHSLA)

ALB Review proposal: Retain, and commission an industry review to identify potential opportunities for greater commercial involvement.

ANDPB Review

The outcome of a review involving 31 of the Department's Advisory Non-Departmental Public Bodies (ANDPBs) was announced in October 2010. A number of ANDPBs will have their status changed to a committee of experts of the Department of Health/ Public Health Service. The changes to the Department's ANDPBs will be in place from 2012. The decision taken on each ANDPB is summarised below and on the respective page for the individual ANDPB:

Terms of Reference	The Medicines for Human Use (Marketing Authorisations Etc.) Amendment Regulations 2000 introduced a statutory procedure for deciding whether a product is a "relevant medicinal product" when the licensing authority gives notice that it "is minded" to make a provisional determination that a product is a "relevant medicinal product". The statutory procedure provides an option to a company to seek review of a provisional determination by the Independent Review Panel ('the Panel'). Where a company has requested the review of a decision, the findings of the Panel have to be taken into consideration before a final decision can be made.

Terms of Reference	MEE provides independent expert advice to Ministers and input into the policy-making process on the content and structure of professional education and training as it relates to dental teams, doctors, healthcare scientists & technologists and pharmacy teams, and on the quality of workforce planning for these groups at a national level. MEE will develop a long-term strategic vision for professional education and training.				
Notes	Upon appointment, the SoS had a clear view that the MEE function should shift from an advisory role to an executive role, so that they should directly commission education rather than advise the department on it. This is also reflected in the White Paper where it states that 'Education commissioning will be led locally and nationally by the healthcare professions, through Medical Education England for doctors, dentists, healthcare scientists and pharmacists'.

Terms of Reference	The Council seeks to develop the capacity of people and organisations to address alcohol issues and also develop the evidence base linked to alcohol policy. Effective dissemination of this evidence to researchers, policy makers and practitioners is an important component of the strategy.				
Notes	The AERC was established under the Licensing (Education and Research) Act 1981. The council held its first meeting on 31 March 1982. Title of report - AERC: Annual Report and Accounts. Year ended 31 March 2006. An independent review, carried out by Julia Unwin and commissioned by DCMS, took place in 2005, looking at the Council's organisational structure. One of the review's recommendations was that responsibility for the Council should be transferred from DCMS to DH. This was accepted by the Prime Minister on the advice of the Cabinet Secretary and the transfer took effect from 2 January 2007. The ethnic backgrounds of Council Members are neither sought by the AERC nor volunteered by the individuals concerned. Figures are subject to audit.

Terms of Reference	PCTs are responsible for assessing the health needs of their local community and preparing plans for health improvement, reflecting the diversity of local needs. Their three main functions are: improving the health of the community; securing the provision of services; and integrating health and social care in the local community.				
Notes	PCTs receive a recurrent baseline allocation from Central Government via the Department of health in order to purchase secondary Healthcare services and provide primary Healthcare services for their local area. This baseline allocation may change for one off items during the year as specific programme budgets or national directives are issued for example 'Increasing Access to Mental Health Services'. PCTs may also receive income from rental of property or care of private patients via their provider arms.

Terms of Reference	NICE is an independent organisation responsible for providing national guidance on treatments and care for those using the NHS in England, Wales and Northern Ireland, and on effective public health interventions in England. Some of our guidance is also used by the NHS in Scotland. Through NHS Evidence, we also provide support for decision-makers across health and social care and a process for quality assuring sources of information. NICE works with experts from the NHS, local authorities and others in the public, private, voluntary and community sectors, as well as patients and carers. We make independent decisions in an open, transparent way, based on the best available evidence, and we include input from experts and interested parties.				
Notes	Title of report - Annual Review 2009/10. http://review2009-2010.nice.org.uk/ . For the purposes of this report we have defined our 'Government funding' as our direct funding from the Dept of Health. We also receive approximately £4m in additional funding from other sources.

Public Bodies 2010: Disclosure of Pay for Public Bodies

1. The Cabinet Office required that the Department's Public Bodies 2010 document should include relevant information on salaries for the senior staff in our agency and executive NDPBs (for which we include Special Health Authorities), as obtained through the Disclosure of Senior Salaries exercise. The new transparency and accountability measures for public sector bodies subject to Ministerial control require them to publish the salary, including benefits in kind, of named individuals at the level equivalent to SCS2 and above at six monthly intervals.
2. The tables below show the details provided by the ALBs for senior staff as at for the end of June 2010, which will also be available on their web sites. This was the first publication date under the Disclosure of Senior Salaries and is therefore the available information that is closest to the 31 March 2010. Please note there may also appear to be some inconsistencies between the senior salaries information below and that published in an addendum to the 2009 Public Bodies Report. This is because the Cabinet Office disclosure exercise that is the source of the data below asked for base salary only, whereas the 2009 exercise asked for base salary and taxable allowances.
3. There will be differences between the salaries shown below and those in the preceding section. The remuneration entries on each sheet are rounded to the nearest pound as at 31 March 2010. They include basic salary plus geographical weighting, performance related bonuses, employer's contributions to pension scheme, value of non-cash benefits, agreed sums on appointment. The figures below are from the Senior Salaries review in bands of £5,000, as at 30 June 2010, and they are of base pay only, as stated above.
