Public Expenditure 2005-06

Provisional Outturn

Total Managed Expenditure This White Paper reports provisional outturn figures for public spending in 2005-06 providing information on DEL and AME, including voted spending and administration budgets. All departments are described as they were constituted at the end of 2005-06.

Spending by the public sector as a whole is known as Total Managed Expenditure (TME). Within TME there are two important aggregates. Departmental Expenditure Limits (DEL) covers spending for which firm three-year plans are capable of being set. Annually Managed Expenditure (AME) is subject to annual review as part of the Budget process.

Resource Accounting and Budgeting With effect from 1 April 2001, Government spending moved from being accounted for on a cash basis to an accruals basis. This White Paper reports outturn for the main control aggregates and departmental control limits on an accruals basis and takes account where necessary of the refinements to the budgeting system announced in Pre-Budget Report 2005 (Cm 6701). As noted above, the outturn figures are provisional and may be subject to adjustment when department's final accounts are available.

Data quality and consistency with other publications The system used by central government departments and devolved administrations to report expenditure data is being improved. Migration to the 'Combined On-line Information System' (COINS) started mid-2005. During the transition period, which is expected to be complete by summer 2006, it is possible that the quality of the data for recent periods will be affected, which may lead to larger than usual revisions to provisional outturn. For further details of COINS see www.hm-treasury.gov.uk.

Central government voted expenditure Provisional outturn in 2005-06 for voted resource spending was £434.302 billion – £14.205 billion (3.2 per cent) less than final provision and for voted cash spending £352.001 billion – £12.530 billion (3.4 per cent) less than final provision. Table 1 shows outturn, original provision and final provision by Estimate and Request for Resources (RfR). There were two overspends.

Departmental Expenditure Limits Provisional outturn for resource DEL in 2005-06 was £276.522 billion, £1.078 billion (0.4 per cent) less than the Budget 06 estimate and £3.6 billion (1.3 per cent) less than final departmental limits. The near cash element of resource outturn was £258.390 billion. Provisional outturn for capital DEL was £36.245 billion, £1.155 billion (3.1 per cent) less than the Budget 06 estimate and £3.210 billion (8.1 per cent) less than final departmental limits. Table 2 (resources) and Table 4 (capital) show outturn against original and final limits by department. There were two resource DEL breaches and six for capital. Limits can change during the course of the year for a variety of reasons including the draw down of End Year Flexibility (EYF) entitlements, transfers between departments and classification changes. Comparisons between provisional outturn and original limits can therefore be misleading. The outturn figures form the basis of the calculations to determine department's EYF entitlements for DEL shown in Table 5.

Administration Budgets	Provisional outturn in 2005-06 for Administration Budgets was £15.729 billion. This is £0.680 billion (4.1 per cent) lower than final limits. Table 3 shows outturn, original and final administration costs limits for gross controlled administration costs areas. There were no breaches.
Breaches	Whenever a breach of an individual DEL or administration budget occurs, the usual corrective procedures will be applied, including an investigation into the causes of the breach, an examination of the financial procedures of the department or body concerned and, where appropriate, a reduction in the corresponding limit in the following year.
End Year Flexibility	The DEL EYF scheme enables departments to carry forward all of their unspent DEL, including administration expenditure, with no upper limit. Eligible amounts are based on unspent DEL less, where appropriate, DEL Reserve claims plus any EYF entitlements from previous years not taken up. Table 5 shows the amounts for carry forward into 2006-07 for each individual DEL. For the 2006-07 entitlements there have been two changes to the categories. Following the change in the budgeting treatment of income from the European Union (PBR 2005 paragraph B.76) European structural funds entitlements have been merged with department's general resource entitlements. In line with refinements to the budgeting system announced in the PBR, near cash within resource EYF entitlements is now identified separately. Subject to Parliamentary approval of any necessary Supplementary Estimates, individual DELs or administration budgets will be increased when carry forward is taken up. A new table, Table 6, shows the movement in EYF stocks since the 2005-06 entitlements were announced in July 2005.
Annually Managed Expenditure	Provisional outturn for AME in 2005-06 was £224.376 billion – £4.606 billion (2.1 per cent) higher than the forecast in Public Expenditure Statistical Analyses (PESA) 2006 (Cm 6811). Table 7 shows outturn against the PESA 2006 forecast consistent with the groupings in Table 1.1 of that document.

(1) AME spending component only. Total net payments to EC Institutions also include receipts scored in DEL, VAT-based contributions which score as negative receipts and some payments which have no effect on the UK public sector in the national accounts. 2005-06 provisional outturn figures for UK net payments to EC Institutions, which exclude the UK's contributions to the cost of EC aid to non-Member States (which is attributed to the aid programme), and the UK's net contribution to the EC Budget, which includes this aid, are £3,797 million and £4,415 million respectively.

(2) LA Self-Financed Expenditure (LASFE) numbers have not been updated since PESA 2006 (CM 6811). Significant changes have been made recently to National Accounts and there has not been time to feed all these changes into the detailed calculation of LASFE for PEOWP. LASFE will be updated as normal in the next National Statistics release at PBR.
