¹ There has been a small adjustment, since publication of the fourth Statement of New Regulation, relating to DWP005a. The Regulatory Policy Committee confirmed this as a net saving to business of -£0.40m.

² This includes a small adjustment due to the Health and Safety (Fees) Regulations 2012 which were incorrectly included in the fourth Statement. These regulations do not increase the regulatory burdens nor the level of regulatory activity for business and are outside the scope of the statement.
