NOTES

1. Related Housing Benefit / Council Tax Benefit statistics

a) The Department for Work and Pensions (DWP) also publish Housing Benefit and Council Tax Benefit monthly caseload National Statistics – the statistics detail the number of people in receipt of Housing Benefit and Council Tax Benefit and the amount of benefit received. They also include breakdowns by local authority, tenancy type, passported benefits, family type and age group. See <http://statistics.dwp.gov.uk/asd/index.php?page=hbctb>

b) The historical Housing Benefit & Council Tax Benefit Claims Administration Quarterly Performance Data which is available to 2007/08 are based on clerical returns made by individual local authorities.

Breakdowns of new claims and changes processing times are available historically, and the new claims processing times are broadly comparable over time. However, a change in definition for changes of circumstances between 2007/08 and 2009/10 means that direct comparison of this element with Speed of Processing statistics is not meaningful. See http://research.dwp.gov.uk/asd/asd1/hb_ctb/performance/index.php?page=performance

c) Access to previously reported Right Time Indicator statistics is available via the following page: <http://research.dwp.gov.uk/asd/index.php?page=rti>

d) In addition, users can find links to DWP additional statistical analyses that have not been included in our standard publications at http://statistics.dwp.gov.uk/asd/index.php?page=adhoc_analysis.

2. National Statistics Code of Practice

DWP complies with the National Statistics Code of Practice and supporting Principles. Detailed policy statements and statement of compliance with the pre-release access to official statistics order 2008 are available via the link below:

If you use any of our statistics publications, we would be interested in hearing what you use them for and how well they meet your requirements. Please email DWP at stats-consultation@dwp.gsi.gov.uk. If you would like to receive occasional e-mails from DWP to directly inform you of documents seeking the views of users, please email general.statistics@dwp.gsi.gov.uk giving details of the DWP publications you use.

3. Known Issues, Changes and Revisions to SoP statistics

Quality assurance processes identified problems with quarter 3 data for 8 local authorities. In keeping with UKSA protocols we did not publish data for these local authorities for quarter 3 2011/12. Analysis indicates that these omissions should not significantly bias the headline Great Britain estimates for the average speed of processing for new claims and changes of circumstance.

4. Notification of future changes to SoP statistics

The next publication (Qtr4 2011/12) set for 24th July 2012 will contain the following changes:

- Additions to the First Release document to show time series and better commentary on the numbers.
