**Next publication:**  
July 2011

*This Statistical First Release contains statistics produced by the Department for Work and Pensions (DWP) on Housing Benefit Recoveries and Fraud (HBRF) data.*

The Housing Benefit Recovery and Fraud statistics are full National Statistics

The latest national statistics on Housing Benefits Recoveries and Fraud (HBRF) data produced by the Department for Work and Pensions were released on 11<sup>th</sup> May 2011 according to the arrangements approved by the UK Statistics Authority.

This data contains statistics relating to Housing Benefit fraud volumes and amounts of incorrectly overpaid benefit. It is aggregate level data received on a quarterly basis from each Local Authority. The delay in publishing these statistics is due to a change in the data collection method and priorities in re-instating the publication of Housing Benefit & Council Tax Benefit Summary Statistics.

This publication includes all Housing Benefit Recoveries and Fraud data covering a period from April 2008 to December 2010

## Key findings

The key findings are based on comparing December 2010 data against December 2009 data.

- At December 2010 there were 1,254.4 full time equivalent fraud investigators dealing with 63,550 fraud referrals issued for investigation during the quarter; of these 38,915 cases were closed
- The number of full time equivalent fraud investigators has reduced by 6.9% from the same collection period in 2009/2010
- The number of cases referred for fraud investigation during the quarter has reduced by 0.4% from the same collection period in 2009/2010
- The number of cases subject to investigation by the fraud section that were closed during the quarter has increased by 0.1% from the same collection period in 2009/2010
- The number of cases relating to administration penalties offered and accepted during the quarter has reduced by 6.9% to 1,755 cases from the same collection period in 2009/2010
- There were 1,800 cases accepted for prosecution during the last quarter an increase of 6.8% from the same collection period in 2009/2010
- There were 1,855 prosecutions resulting in guilty outcomes an increase of 18.9% from the same collection period in 2009/2010

**1. Housing Benefit Recoveries and Fraud Data**

Housing Benefit Recoveries and Fraud is aggregate level data received on a quarterly basis from each Local Authority. This data is used to produce established statistics on measures of activity to detect fraud and to capture information on the amounts of benefit that are overpaid to claimants.<sup>3</sup>

The data will also be used to feed into a range of briefings for Ministers and other senior officials on fraud and error issues and will be used to answer Parliamentary Questions. It will also be used for other policy functions including monitoring the impact of changes to sanctions policy and informing changes to policy.

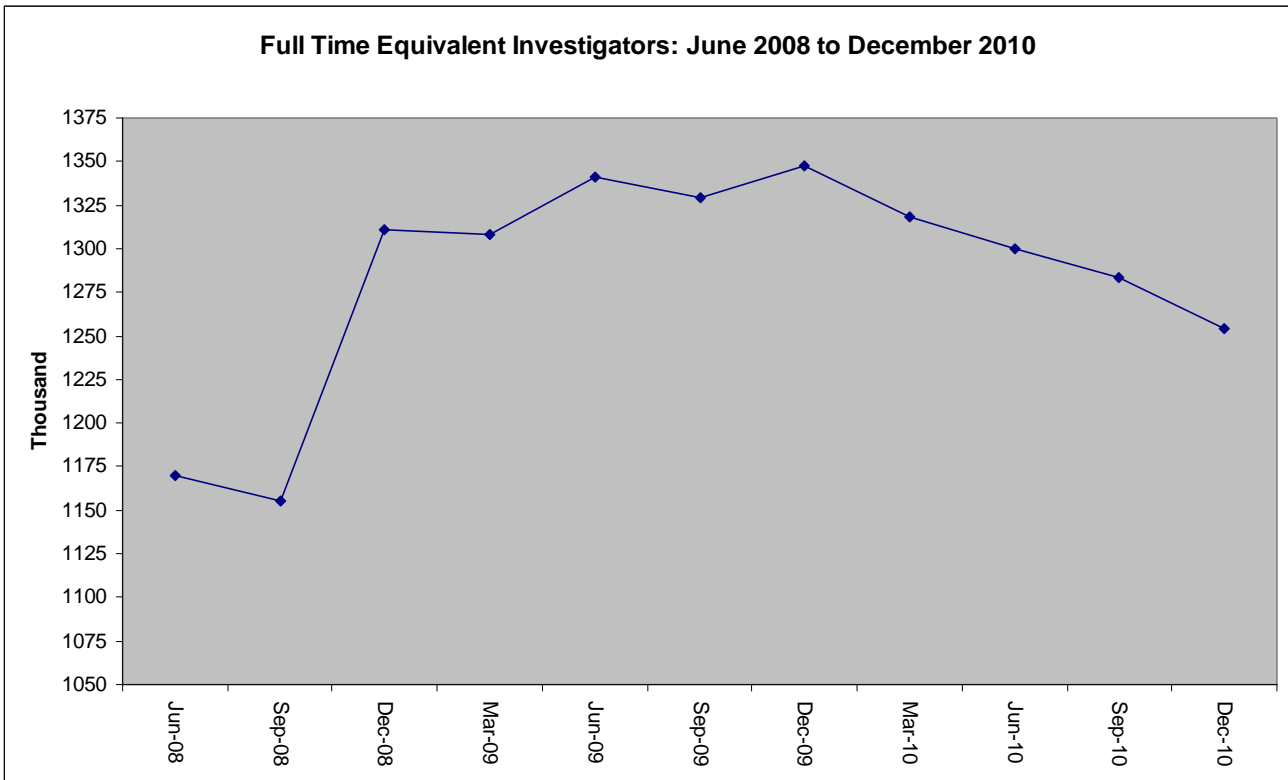

**Average Return Rates**

Collection Period	Average Return Rate
2008 – 2009	89.7%
2009 – 2010	99.2%
2010 – 2011	99.7%*

\* Based on the first three collection periods.

**Please note that the following data does not allow for imputation of any missing values and is based on the summation of the data presented in the published tables.**

**Returns for the first two collection periods were approximately 82% and therefore this data should be used with caution as it does not represent a full national data return. Returns for the remaining quarters have been significantly higher reaching almost 100% of all Local Authorities.**

The number of full time equivalent fraud investigators peaked in December 2009 at 1347.9 and now currently stands at 1254.4, a reduction of 6.9%.

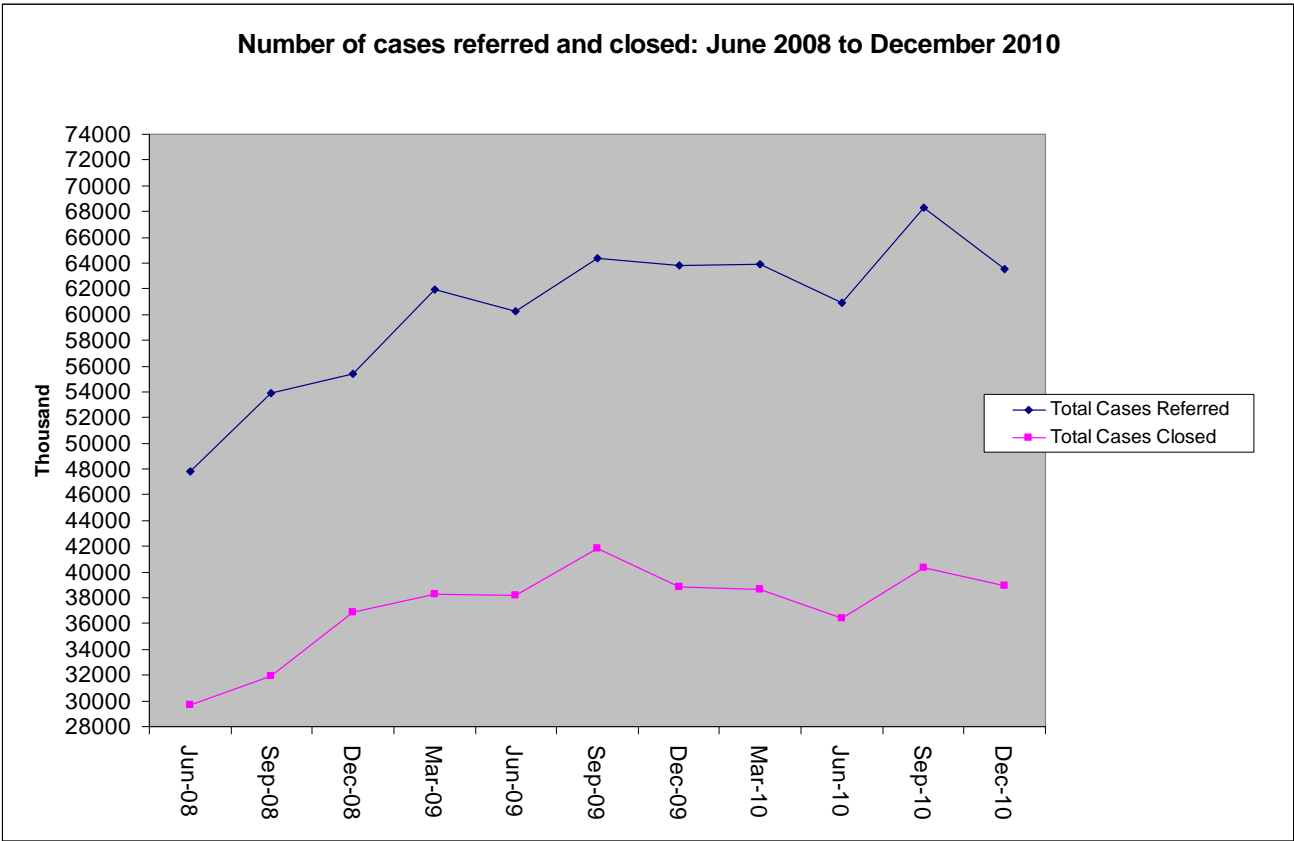

The number of FTE fraud investigators has now reduced for four consecutive collection periods.

85% of FTE Fraud investigators are currently based in England

5.5% of FTE Fraud investigators are currently based in Wales

9.5% of FTE Fraud investigators are currently based in Scotland

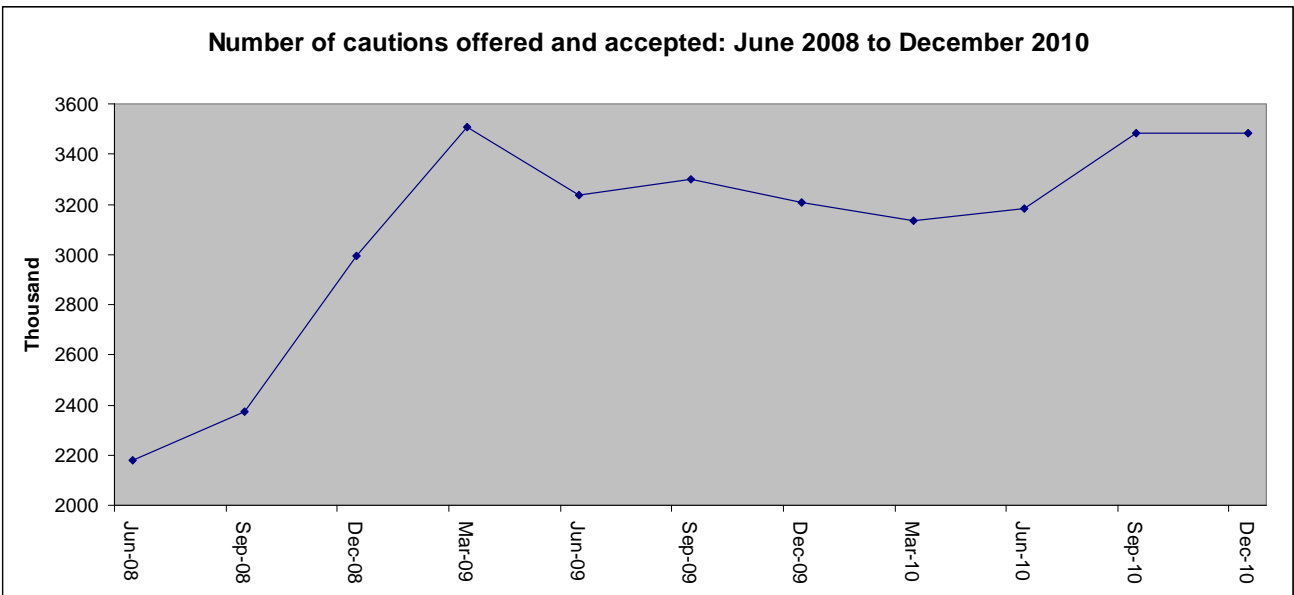

**Number of cases referred and closed: June 2008 to December 2010**

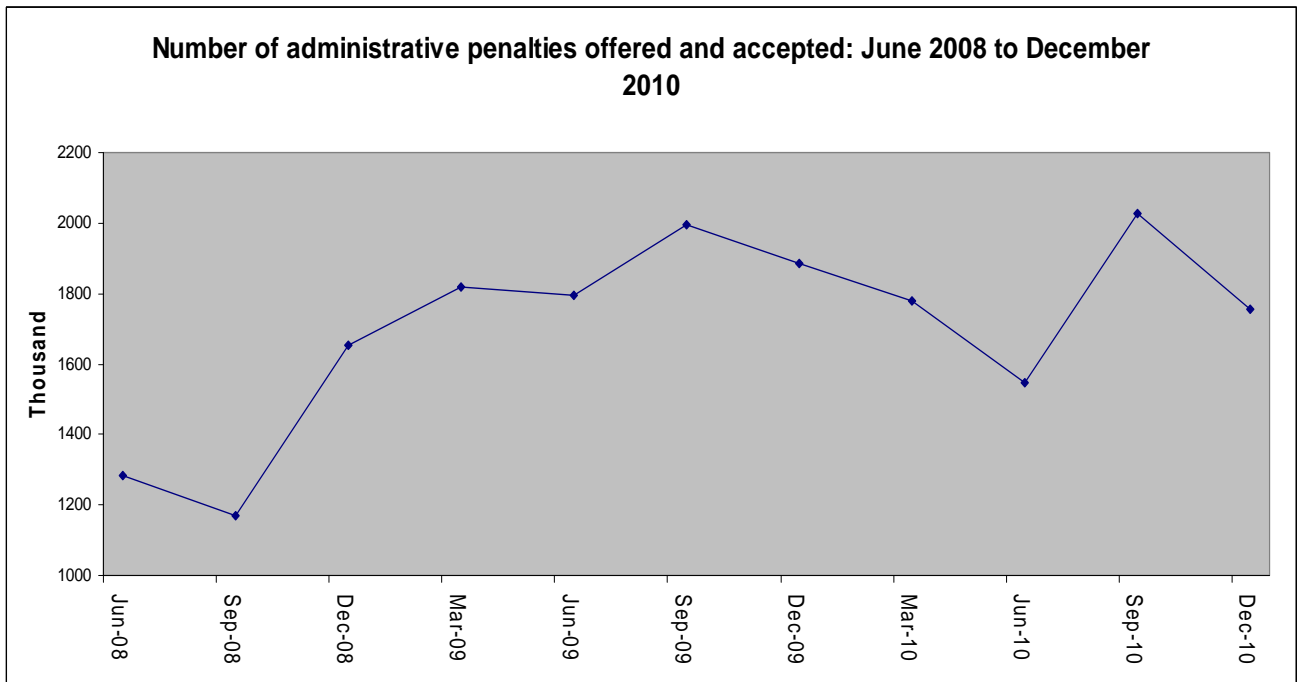

The number of cases referred to Local Authority fraud investigation peaked in September 2010 with 68,270 cases, despite the number of FTE fraud investigators reducing at this time. The number of cases closed during this period stood at 40,340, which was 59% of all cases referred.

Whilst the number of cases referred and closed tends to fluctuate between periods the total numbers seem to be on an upward trend.

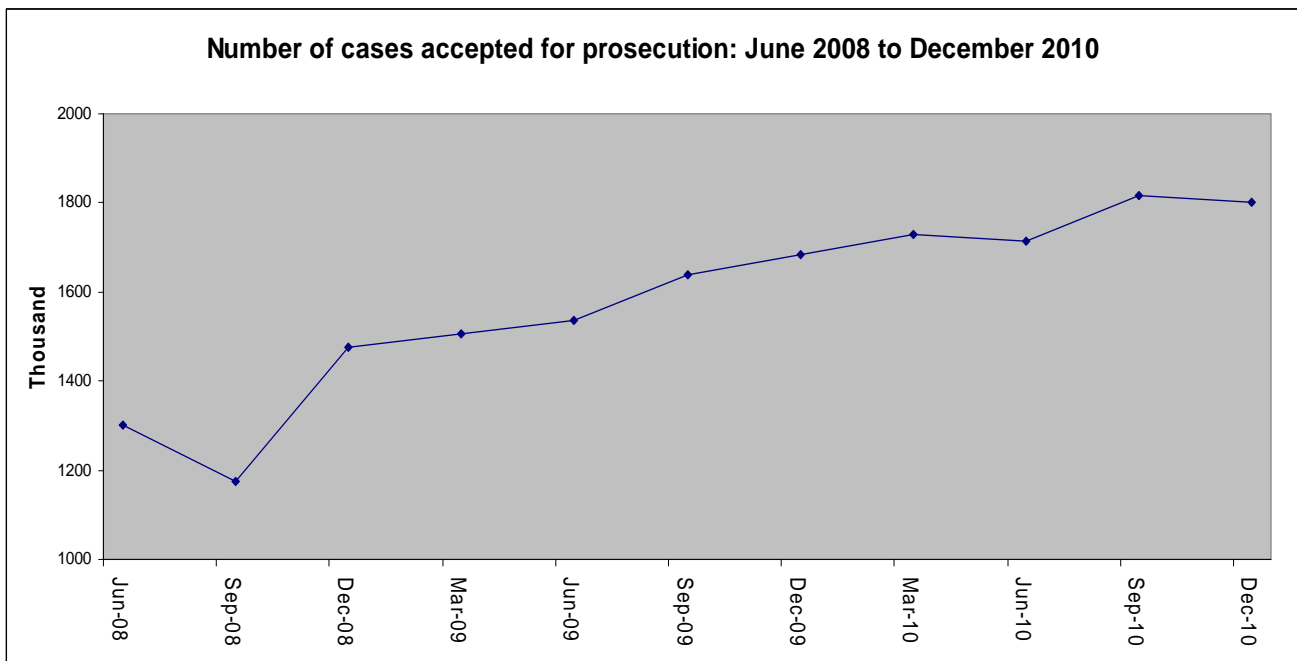

**Number of cautions offered and accepted: June 2008 to December 2010**

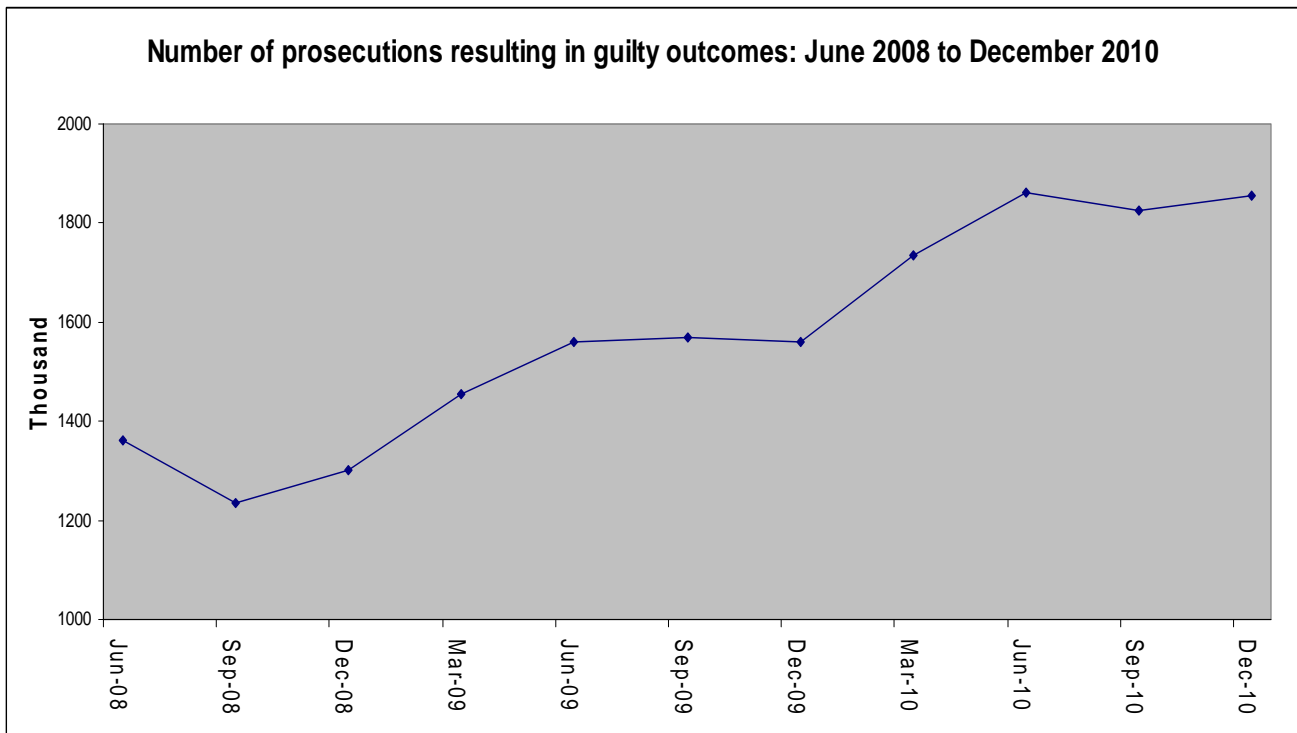

The number of cautions offered and accepted appears to be following a similar trend to that of the number of referrals.

The number of administrative penalties offered and accepted appears to be following a similar trend to that of the number referrals.

The number of cases that have been accepted for prosecution is steadily increasing.

The number of successful prosecutions has increased throughout the period.

*Source: Housing Benefit Recoveries and Fraud Extract (HBRF)*

Field	Fraud Investigation Questions
<b>5</b>	Number of full time equivalent fraud investigators at the end of the quarter
<b>6</b>	Number of cases referred to the LA fraud investigation section during the quarter
<b>7a</b>	Number of cases subject to investigation by the fraud section, that were closed during the quarter
<b>8</b>	Number of cautions offered and accepted during the quarter
<b>9a</b>	Number of administrative penalties offered and accepted during the quarter
<b>10a</b>	Number of cases accepted for prosecution during the quarter
<b>11a</b>	Number of prosecutions resulting in guilty outcomes (includes guilty pleas and verdicts) during the quarter

## NOTES

### 1. Background

In April 2008 DWP introduced a new, more efficient method for the collection of data from Local Authorities (LAs). The data is used to produce established statistics on measures of activity to detect fraud and to take action against those suspected of it. Also, since the introduction of the new collection method, it captures information on the amounts of benefit that are overpaid incorrectly to claimants. The new method for collecting this data is known as the Housing Benefit Recoveries and Fraud (HBRF) data collection system. Regular publication of these statistics was suspended in 2008, partly because of a government wide embargo on data transfers but also to allow the new collection methods to bed in.

The change to the way in which this data is collected was part of a much bigger exercise to transform the collection and production of core data from LAs. Once regular publication of LA data was suspended, priority was given to reinstating key statistics on Housing and Council Tax Benefit caseloads.

Housing Benefit fraud activity statistics were previously published as Housing Benefit Quarterly Fraud Performance Statistics. The last publication was released in 2008, based on clerically collected data. Collection of the data and publication of the statistics were suspended from November 2007 to July 2008 due to a government wide data transfer embargo.

### 2. National Statistics Code of Practice

DWP complies with the National Statistics Code of Practice and supporting Principles. Detailed policy statements and statement of compliance with the pre-release access to official statistics order 2008 are given below:

[DWP policy statements](#)

Detailed policy and methodology relating to the Statistical First Release can be found at:

- [Quality and Methods](#)
- [Uses and Users](#)
- [Ad hocs and pricing](#)

### 3. Overpayments

Overpayment data has not been included in this publication due to data quality issues. It is hoped that these issues will be resolved in time to publish overpayment data in the next publication in July 2011.

### 4. Other Fraud and Error statistics

National Statistics are published presenting six-monthly estimates of fraud and error in claims for Income Support, Jobseeker's Allowance, Pension Credit and Housing Benefit, along with an annual estimate of the level of fraud and error in the benefit system as a whole. One-off benefit reviews have been carried out from time to time to estimate fraud and error in claims for other benefits. Reports can be found at [http://research.dwp.gov.uk/asd/asd2/index.php?page=fraud\\_error](http://research.dwp.gov.uk/asd/asd2/index.php?page=fraud_error)

### 5. Other National Statistics issued by the Department for Work and Pensions

Abstract of Statistics for Benefits and Contributions and Indices of Prices and Earnings (annual) – *provides a reference source for those people interested in the main aspects of benefits, contributions and indices of prices and earnings. Latest published figures: <http://statistics.dwp.gov.uk/asd/index.php?page=abstract>*

Child Support Agency Quarterly Summary of Statistics – *provides statistics on the Child Support Agency. Latest published figures: <http://statistics.dwp.gov.uk/asd/index.php?page=csa>*

Family Resources Survey (annual) - *provides information on the incomes and circumstances of private households in the United Kingdom: <http://statistics.dwp.gov.uk/asd/frs/index.php?page=intro>*

Households Below Average Income (annual) - *provides information on potential living standards as determined by disposable income, changes in income patterns over time and income mobility: <http://statistics.dwp.gov.uk/asd/index.php?page=hbai>*

Housing Benefit and Council Tax Benefit Summary Statistics (monthly) – *provides caseload statistics. Latest published figures: <http://research.dwp.gov.uk/asd/index.php?page=hbctb>*

Industrial Injuries Disablement Benefit Quarterly Summary of Statistics – *provides statistics on people in receipt of Industrial Injuries Disablement Benefit, new claims and newly diagnosed prescribed diseases. Latest published figures: <http://statistics.dwp.gov.uk/asd/index.php?page=iidb>*

National Insurance numbers allocated to overseas nationals (Previously migrant workers statistics – quarterly) *provides statistics on migrant workers. Latest published figures: [http://statistics.dwp.gov.uk/asd/asd1/niall/index.php?page=nino\\_allocation](http://statistics.dwp.gov.uk/asd/asd1/niall/index.php?page=nino_allocation)*

Neighbourhood Statistics – *Quarterly ward and Lower Super Outputs Area caseloads for Income Support, Jobseeker's Allowance, Incapacity Benefits, Disability Living Allowance, Attendance Allowance, Pension Credit and State Pension are available from: <http://83.244.183.180/NESS/page1.htm>*
