AGREEMENT ON A UNIFIED PATENT COURT

THE CONTRACTING MEMBER STATES,

CONSIDERING that cooperation amongst the Member States of the European Union in the field of patents contributes significantly to the integration process in Europe, in particular to the establishment of an internal market within the European Union characterised by the free movement of goods and services and the creation of a system ensuring that competition in the internal market is not distorted;

CONSIDERING that the fragmented market for patents and the significant variations between national court systems are detrimental for innovation, in particular for small and medium sized enterprises which have difficulties to enforce their patents and to defend themselves against unfounded claims and claims relating to patents which should be revoked;

CONSIDERING that the European Patent Convention ("EPC") which has been ratified by all Member States of the European Union provides for a single procedure for granting European patents by the European Patent Office;

CONSIDERING that by virtue of Regulation (EU) No 1257/2012¹, patent proprietors can request unitary effect of their European patents so as to obtain unitary patent protection in the Member States of the European Union participating in the enhanced cooperation;

WISHING to improve the enforcement of patents and the defence against unfounded claims and patents which should be revoked and to enhance legal certainty by setting up a Unified Patent Court for litigation relating to the infringement and validity of patents;

CONSIDERING that the Unified Patent Court should be devised to ensure expeditious and high quality decisions, striking a fair balance between the interests of right holders and other parties and taking into account the need for proportionality and flexibility;

CONSIDERING that the Unified Patent Court should be a court common to the Contracting Member States and thus part of their judicial system, with exclusive competence in respect of European patents with unitary effect and European patents granted under the provisions of the EPC;

¹ Regulation (EU) No 1257/2012 of the European Parliament and of the Council of 17 December 2012 implementing enhanced cooperation in the area of the creation of unitary patent protection (OJEU L 361, 31.12.2012, p. 1) including any subsequent amendments.

CONSIDERING that the Court of Justice of the European Union is to ensure the uniformity of the Union legal order and the primacy of European Union law;

RECALLING the obligations of the Contracting Member States under the Treaty on European Union (TEU) and the Treaty on the Functioning of the European Union (TFEU), including the obligation of sincere cooperation as set out in Article 4(3) TEU and the obligation to ensure through the Unified Patent Court the full application of, and respect for, Union law in their respective territories and the judicial protection of an individual's rights under that law;

CONSIDERING that, as any national court, the Unified Patent Court must respect and apply Union law and, in collaboration with the Court of Justice of the European Union as guardian of Union law, ensure its correct application and uniform interpretation; the Unified Patent Court must in particular cooperate with the Court of Justice of the European Union in properly interpreting Union law by relying on the latter's case law and by requesting preliminary rulings in accordance with Article 267 TFEU;

CONSIDERING that the Contracting Member States should, in line with the case law of the Court of Justice of the European Union on non-contractual liability, be liable for damages caused by infringements of Union law by the Unified Patent Court, including the failure to request preliminary rulings from the Court of Justice of the European Union;

CONSIDERING that infringements of Union law by the Unified Patent Court, including the failure to request preliminary rulings from the Court of Justice of the European Union, are directly attributable to the Contracting Member States and infringement proceedings can therefore be brought under Article 258, 259 and 260 TFEU against any Contracting Member State to ensure the respect of the primacy and proper application of Union law;

RECALLING the primacy of Union law, which includes the TEU, the TFEU, the Charter of Fundamental Rights of the European Union, the general principles of Union law as developed by the Court of Justice of the European Union, and in particular the right to an effective remedy before a tribunal and a fair and public hearing within a reasonable time by an independent and impartial tribunal, the case law of the Court of Justice of the European Union and secondary Union law;

CONSIDERING that this Agreement should be open to accession by any Member State of the European Union; Member States which have decided not to participate in the enhanced cooperation in the area of the creation of unitary patent protection may participate in this Agreement in respect of European patents granted for their respective territory;

CONSIDERING that this Agreement should enter into force on 1 January 2014 or on the first day of the fourth month after the 13th deposit, provided that the Contracting Member States that will have deposited their instruments of ratification or accession include the three States in which the highest number of European

patents was in force in the year preceding the year in which the signature of the Agreement takes place, or on the first day of the fourth month after the date of entry into force of the amendments to Regulation (EU) No 1215/2012² concerning its relationship with this Agreement, whichever is the latest,

- (2) The national courts of the Contracting Member States shall remain competent for actions relating to patents and supplementary protection certificates which do not come within the exclusive competence of the Court.

ARTICLE 33

- (1) Without prejudice to paragraph 7 of this Article, actions referred to in Article 32(1)(a), (c), (f) and (g) shall be brought before:
- (a) the local division hosted by the Contracting Member State where the actual or threatened infringement has occurred or may occur, or the regional division in which that Contracting Member State participates; or
 - (b) the local division hosted by the Contracting Member State where the defendant or, in the case of multiple defendants, one of the defendants has its residence, or principal place of business, or in the absence of residence or principal place of business, its place of business, or the regional division in which that Contracting Member State participates. An action may be brought against multiple defendants only where the defendants have a commercial relationship and where the action relates to the same alleged infringement.

Actions referred to in Article 32(1)(h) shall be brought before the local or regional division in accordance with point (b) of the first subparagraph.

If an action referred to in Article 32(1)(a) is pending before a regional division and the infringement has occurred in the territories of three or more regional divisions, the regional division concerned shall, at the request of the defendant, refer the case to the central division.

In case an action between the same parties on the same patent is brought before several different divisions, the division first seized shall be competent for the whole case and any division seized later shall declare the action inadmissible in accordance with the Rules of Procedure.

(3) A counterclaim for revocation as referred to in Article 32(1)(e) may be brought in the case of an action for infringement as referred to in Article 32(1)(a). The local or regional division concerned shall, after having heard the parties, have the discretion either to:

- (b) refer the counterclaim for revocation for decision to the central division and suspend or proceed with the action for infringement; or
- (c) with the agreement of the parties, refer the case for decision to the central division.

(4) Actions referred to in Article 32(1)(b) and (d) shall be brought before the central division. If, however, an action for infringement as referred to in Article 32(1)(a) between the same parties relating to the same patent has been brought before a local or a regional division, these actions may only be brought before the same local or regional division.

(5) If an action for revocation as referred to in Article 32(1)(d) is pending before the central division, an action for infringement as referred to in Article 32(1)(a) between the same parties relating to the same patent may be brought before any division in accordance with paragraph 1 of this Article or before the central division. The local or regional division concerned shall have the discretion to proceed in accordance with paragraph 3 of this Article.

(6) An action for declaration of non-infringement as referred to in Article 32(1)(b) pending before the central division shall be stayed once an infringement action as referred to in Article 32(1)(a) between the same parties or between the holder of an exclusive licence and the party requesting a declaration of non-infringement relating to the same patent is brought before a local or regional division within three months of the date on which the action was initiated before the central division.

(7) Parties may agree to bring actions referred to in Article 32(1)(a) to (h) before the division of their choice, including the central division.

(8) Actions referred to in Article 32(1)(d) and (e) can be brought without the applicant having to file notice of opposition with the European Patent Office.

The level of the Court fees shall be reviewed periodically by the Administrative Committee. Targeted support measures for small and medium-sized enterprises and micro entities may be considered.

(3) During the initial transitional period of seven years, starting from the date of the entry into force of this Agreement, the contribution by each Contracting Member State having ratified or acceded to the Agreement before the entry into force thereof shall be calculated on the basis of the number of European patents having effect in the territory of that State on the date of entry into force of this Agreement and the number of European patents with respect to which actions for infringement or for revocation have been brought before the national courts of that State in the three years preceding entry into force of this Agreement.

During the same initial transitional period of seven years, for Member States which ratify, or accede to, this Agreement after the entry into force thereof, the contributions shall be calculated on the basis of the number of European patents having effect in the territory of the ratifying or acceding Member State on the date of the ratification or accession and the number of European patents with respect to which actions for infringement or for revocation have been brought before the national courts of the ratifying or acceding Member State in the three years preceding the ratification or accession.

(4) After the end of the initial transitional period of seven years, by which the Court is expected to have become self-financing, should contributions by the Contracting Member States become necessary, they shall be determined in accordance with the scale for the distribution of annual renewal fees for European patents with unitary effect applicable at the time the contribution becomes necessary.

(5) At the request of one of the parties and after having heard the other parties and the competent panel, the President of the Court of First Instance may, on grounds of fairness and taking into account all relevant circumstances, including the position of parties, in particular the position of the defendant, decide on the use of the language in which the patent was granted as language of proceedings. - (2) In the interim procedure, after the written procedure and if appropriate, the judge acting as Rapporteur, subject to a mandate of the full panel, shall be responsible for convening an interim hearing. That judge shall in particular explore with the parties the possibility for a settlement, including through mediation, and/or arbitration, by using the facilities of the Centre referred to in Article 35.

(3) The oral procedure shall give parties the opportunity to explain properly their arguments. The Court may, with the agreement of the parties, dispense with the oral hearing.

ARTICLE 55

Reversal of burden of proof

- (1) Without prejudice to Article 24(2) and (3), if the subject-matter of a patent is a process for obtaining a new product, the identical product when produced without the consent of the patent proprietor shall, in the absence of proof to the contrary, be deemed to have been obtained by the patented process.
- (2) The principle set out in paragraph 1 shall also apply where there is a substantial likelihood that the identical product was made by the patented process and the patent proprietor has been unable, despite reasonable efforts, to determine the process actually used for such identical product.
- (3) In the adduction of proof to the contrary, the legitimate interests of the defendant in protecting its manufacturing and trade secrets shall be taken into account.

CHAPTER IV – POWERS OF THE COURT

ARTICLE 56

The general powers of the Court

- (1) The Court may impose such measures, procedures and remedies as are laid down in this Agreement and may make its orders subject to conditions, in accordance with the Rules of Procedure.
- (2) The Court shall take due account of the interest of the parties and shall, before making an order, give any party the opportunity to be heard, unless this is incompatible with the effective enforcement of such order.

ARTICLE 57

Court experts

- (1) Without prejudice to the possibility for the parties to produce expert evidence, the Court may at any time appoint court experts in order to provide expertise for specific aspects of the case. The Court shall provide such expert with all information necessary for the provision of the expert advice.
- (2) To this end, an indicative list of experts shall be drawn up by the Court in accordance with the Rules of Procedure. That list shall be kept by the Registrar.

(3) The court experts shall guarantee independence and impartiality. Rules governing conflicts of interest applicable to judges set out in Article 7 of the Statute shall by analogy apply to court experts.

(4) Expert advice given to the Court by court experts shall be made available to the parties which shall have the possibility to comment on it.

ARTICLE 58

Protection of confidential information

To protect the trade secrets, personal data or other confidential information of a party to the proceedings or of a third party, or to prevent an abuse of evidence, the Court may order that the collection and use of evidence in proceedings before it be restricted or prohibited or that access to such evidence be restricted to specific persons.

ARTICLE 59

Order to produce evidence

(1) At the request of a party which has presented reasonably available evidence sufficient to support its claims and has, in substantiating those claims, specified evidence which lies in the control of the opposing party or a third party, the Court may order the opposing party or a third party to present such evidence, subject to the protection of confidential information. Such order shall not result in an obligation of self-incrimination.

(2) At the request of a party the Court may order, under the same conditions as specified in paragraph 1, the communication of banking, financial or commercial documents under the control of the opposing party, subject to the protection of confidential information.

ARTICLE 60

Order to preserve evidence and to inspect premises

(1) At the request of the applicant which has presented reasonably available evidence to support the claim that the patent has been infringed or is about to be infringed the Court may, even before the commencement of proceedings on the merits of the case, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.

(2) Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the infringing products, and, in appropriate cases, the materials and implements used in the production and/or distribution of those products and the documents relating thereto.

(3) The Court may, even before the commencement of proceedings on the merits of the case, at the request of the applicant who has presented evidence to support the claim that the patent has been infringed or is about to be infringed, order the inspection of premises. Such inspection of premises shall be conducted by a person appointed by the Court in accordance with the Rules of Procedure.

(4) At the inspection of the premises the applicant shall not be present itself but may be represented by an independent professional practitioner whose name has to be specified in the Court's order.

(5) Measures shall be ordered, if necessary without the other party having been heard, in particular where any delay is likely to cause irreparable harm to the proprietor of the patent, or where there is a demonstrable risk of evidence being destroyed.

(6) Where measures to preserve evidence or inspect premises are ordered without the other party in the case having been heard, the parties affected shall be given notice, without delay and at the latest immediately after the execution of the measures. A review, including a right to be heard, shall take place upon request of the parties affected with a view to deciding, within a reasonable period after the notification of the measures, whether the measures are to be modified, revoked or confirmed.

(7) The measures to preserve evidence may be subject to the lodging by the applicant of adequate security or an equivalent assurance intended to ensure compensation for any prejudice suffered by the defendant as provided for in paragraph 9.

(8) The Court shall ensure that the measures to preserve evidence are revoked or otherwise cease to have effect, at the defendant's request, without prejudice to the damages which may be claimed, if the applicant does not bring, within a period not exceeding 31 calendar days or 20 working days, whichever is the longer, action leading to a decision on the merits of the case before the Court.

(9) Where the measures to preserve evidence are revoked, or where they lapse due to any act or omission by the applicant, or where it is subsequently found that there has been no infringement or threat of infringement of the patent, the Court may order the applicant, at the defendant's request, to provide the defendant with appropriate compensation for any damage suffered as a result of those measures.

ARTICLE 61

Freezing orders

(1) At the request of the applicant which has presented reasonably available evidence to support the claim that the patent has been infringed or is about to be infringed the Court may, even before the commencement of proceedings on the merits of the case, order a party not to remove from its jurisdiction any assets located therein, or not to deal in any assets, whether located within its jurisdiction or not.

(2) Article 60(5) to (9) shall apply by analogy to the measures referred to in this Article.

ARTICLE 62

Provisional and protective measures

(1) The Court may, by way of order, grant injunctions against an alleged infringer or against an intermediary whose services are used by the alleged infringer, intended to prevent any imminent infringement, to prohibit, on a provisional basis and subject, where appropriate, to a recurring penalty payment, the continuation of the alleged infringement or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder.

(2) The Court shall have the discretion to weigh up the interests of the parties and in particular to take into account the potential harm for either of the parties resulting from the granting or the refusal of the injunction.

(3) The Court may also order the seizure or delivery up of the products suspected of infringing a patent so as to prevent their entry into, or movement, within the channels of commerce. If the applicant demonstrates circumstances likely to endanger the recovery of damages, the Court may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of the bank accounts and of other assets of the alleged infringer.

(4) The Court may, in respect of the measures referred to in paragraphs 1 and 3, require the applicant to provide any reasonable evidence in order to satisfy itself with a sufficient degree of certainty that the applicant is the right holder and that the applicant's right is being infringed, or that such infringement is imminent.

(5) Article 60(5) to (9) shall apply by analogy to the measures referred to in this Article.

ARTICLE 63

Permanent injunctions

- (1) Where a decision is taken finding an infringement of a patent, the Court may grant an injunction against the infringer aimed at prohibiting the continuation of the infringement. The Court may also grant such injunction against an intermediary whose services are being used by a third party to infringe a patent.
- (2) Where appropriate, non-compliance with the injunction referred to in paragraph 1 shall be subject to a recurring penalty payment payable to the Court.

ARTICLE 64

Corrective measures in infringement proceedings

- (1) Without prejudice to any damages due to the injured party by reason of the infringement, and without compensation of any sort, the Court may order, at the request of the applicant, that appropriate measures be taken with regard to products found to be infringing a patent and, in appropriate cases, with regard to materials and implements principally used in the creation or manufacture of those products.
- (2) Such measures shall include:
 - (a) a declaration of infringement;
 - (b) recalling the products from the channels of commerce;
 - (c) depriving the product of its infringing property;
 - (d) definitively removing the products from the channels of commerce; or
 - (e) the destruction of the products and/or of the materials and implements concerned.
- (3) The Court shall order that those measures be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.
- (4) In considering a request for corrective measures pursuant to this Article, the Court shall take into account the need for proportionality between the seriousness of the infringement and the remedies to be ordered, the willingness of the infringer to convert the materials into a non-infringing state, as well as the interests of third parties.

ARTICLE 65

Decision on the validity of a patent

- (1) The Court shall decide on the validity of a patent on the basis of an action for revocation or a counterclaim for revocation.
- (2) The Court may revoke a patent, either entirely or partly, only on the grounds referred to in Articles 138(1) and 139(2) of the EPC.
- (3) Without prejudice to Article 138(3) of the EPC, if the grounds for revocation affect the patent only in part, the patent shall be limited by a corresponding amendment of the claims and revoked in part.
- (4) To the extent that a patent has been revoked it shall be deemed not to have had, from the outset, the effects specified in Articles 64 and 67 of the EPC.
- (5) Where the Court, in a final decision, revokes a patent, either entirely or partly, it shall send a copy of the decision to the European Patent Office and, with respect to a European patent, to the national patent office of any Contracting Member State concerned.

ARTICLE 66

Powers of the Court concerning decisions of the European Patent Office

- (1) In actions brought under Article 32(1)(i), the Court may exercise any power entrusted on the European Patent Office in accordance with Article 9 of Regulation (EU) No 1257/2012, including the rectification of the Register for unitary patent protection.
- (2) In actions brought under Article 32(1)(i) the parties shall, by way of derogation from Article 69, bear their own costs.

ARTICLE 67

Power to order the communication of information

- (1) The Court may, in response to a justified and proportionate request of the applicant and in accordance with the Rules of Procedure, order an infringer to inform the applicant of:
 - (a) the origin and distribution channels of the infringing products or processes;

- (b) the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the infringing products; and
 - (c) the identity of any third person involved in the production or distribution of the infringing products or in the use of the infringing process.
- (2) The Court may, in accordance with the Rules of Procedure, also order any third party who:
- (a) was found in the possession of the infringing products on a commercial scale or to be using an infringing process on a commercial scale;
 - (b) was found to be providing on a commercial scale services used in infringing activities; or
 - (c) was indicated by the person referred to in points (a) or (b) as being involved in the production, manufacture or distribution of the infringing products or processes or in the provision of the services, to provide the applicant with the information referred to in paragraph 1.

ARTICLE 68

Award of damages

- (1) The Court shall, at the request of the injured party, order the infringer who knowingly, or with reasonable grounds to know, engaged in a patent infringing activity, to pay the injured party damages appropriate to the harm actually suffered by that party as a result of the infringement.
- (2) The injured party shall, to the extent possible, be placed in the position it would have been in if no infringement had taken place. The infringer shall not benefit from the infringement. However, damages shall not be punitive.
- (3) When the Court sets the damages:
