Dear Mr Rottenburg

I am delighted to enclose the Association of Accounting Technician's (AAT) response to the Department for Business, Innovation and Skill's "Consultation on audit exemptions and change of accounting framework".

It explains in our response that we have chosen not to use the Response Form because it would have fragmented our response. However, we have indicated, in our response, the questions to which we are responding.

I would be grateful if you could add the AAT to your mailing list for this particular consultation as these proposals may affect our Licensed Members in public practice and a large proportion of the 300,000 businesses that they represent.

I wish you a Merry Christmas *and a Happy New Year.

Kind regards

Aleem Islan
