Subject: Support to Enterprise Inns
10 June 2013

TO WHOM IT MAY CONCERN

We have held several leases with Enterprise Inns over the past 25 years.

We have been through good times when business was booming and bad times when business declined.

We would like to forward our support to Enterprise Inns and share our experience.

When times have been really bad they have always stepped in with reduced rent and pricing and worked closely by our sides.

Twelve months ago figures were at an all time low. We desperately wanted to leave our public house.

Enterprise put a new scheme to us "beacon scheme".

We were not very optimistic but we had nothing to lose.

The scheme entailed a small refurbishment - kind of re-launching the business, cheaper products, all advertising, posters and banners supplied on a regular basis. Its like a managed house but we own the lease and have control of the money. This scheme has taken a lot of pressure off us. The help and support has been fantastic. We are reaching figures that we never thought possible and are now the place to be. So happy we stayed.

I think that people should hear of positive feed back about Enterprise. Well done Enterprise Inns, keep up the good work.

Yours faithfully
