

10th June 2013

Dear Committee

My name is , I am
an Admiral Taverns tenant and
have been since November 2012
when I took on
that was previously closed.

I understand that there are likely
to be more changes in law in
relation to the industry shortly,
some of which concern me and I
am worried about more red-tape.

I am writing as I want to support
Admiral Taverns as they have done
me. My BDM, has
helped me and supported me during
my time at . She
treats me fairly, is flexible and
helps me make more of my business.
I have been on a training course
and also have had help from The
catering exec who produced me
new menus at no cost to me.
Admiral are so pleased with the

work I have done that they held a catering event here.

I think this industry is heavily regulated and I don't want to see more laws imposed. I have a good relationship with Admiral so I can't see why this is necessary.

I'm sure you only hear the bad stories not the good ones so I wanted to let you know a good story.

Yours sincerely
