

PUB CONSULTATION

To Whom it may Concern

I operate a tenanted pub with Admiral Taverns and have recently agreed a tied tenancy deal with Admiral which was negotiated fairly and reasonably. I get good support from my BDM and to date am happy with the support I get from him and Admiral as landlord.

I am really worried that proposed legislation via the recent enquiry will potentially damage the relationship I have with Admiral

I see no benefit to me being free of tie as increased rent would not be offset by cheaper beer and would also affect the support I have received. I can't understand why this review is necessary.

p.t.o.

I am not unhappy with the current situation and see no reason to change it!

It seems to me a waste of tax payers money and my business is taxed enough already.

I do hope my views along with other happy tenants will be taken into consideration.

Yours sincerely
