Good afternoon,

My name is [REDACTED] & I have been an Enterprise publican for the past 18 months. I have found enterprise to be a great company to work with.

All of the pub companies are getting so much bad press however, I have found that enterprise and our regional manager especially have been very helpful, understanding & have helped us grow our business.

As everyone knows things are changing in the pub world & Enterprise definitely seem to be changing as well. We have received a lot of help from Enterprise in means of funding for advertising and covering the cost of printing for new menus etc. They have also been very forward in helping & guiding us with new products & ideas for improving our business & helping us grow. They have provided some very well run courses for myself and other members of our staff free of charge. These courses have been very beneficial and even though I have worked in the trade all of my working life I still found I came away with new knowledge & ideas.

In short enterprise are just not as bad as they are made out to be!

Kind regards
