To: Pubs Consultation Responses

Evening,

Just a quick mail with regards to the government consultation and my thoughts on Enterprise Inns as a Pubco.

Enterprise Inns have, on the whole, been very easy to deal with. I have found them to be supportive throughout my tenancy which I took on back in of last year.

They have been supportive in terms of marketing and merchandising in order for me to build my business. This has been really useful.

The support that the regional managers provide to tenants really is invaluable, especially for new start up businesses.

I feel that the current rent I pay is realistic and reflects the current economic market and I am happy with my agreement.

Regards,
