Public Expenditure 2004-2005

Provisional Outturn

Total Managed Expenditure This White Paper reports provisional outturn figures for public spending in 2004-05 providing information on DEL and AME, including voted spending and administration costs limits. All departments are described as they were constituted at the end of 2004-05.

Spending by the public sector as a whole is known as Total Managed Expenditure (TME). Within TME there are two important aggregates. Departmental Expenditure Limits (DEL) covers spending for which firm three-year plans are capable of being set. Annually Managed Expenditure (AME) is subject to annual review as part of the Budget process.

Resource Accounting and Budgeting With effect from 1 April 2001, Government spending moved from being accounted for on a cash basis to an accruals basis. This White Paper reports outturn for the main control aggregates and departmental control limits on an accruals basis. As noted above, the outturn figures are provisional and may be subject to adjustment when department's final accounts are available.

Departmental Expenditure Limits Provisional outturn for resource DEL in 2004-05 was £ 266.891 billion, £ 1.790 billion (0.6 per cent) less than the Budget 05 estimate and £ 6.032 billion (2.2 per cent) less than final departmental limits. Provisional outturn for capital DEL was £ 25.270 billion, £ 1.433 billion (6.0 per cent) more than the Budget 05 estimate and £ 2.134 billion (7.8 per cent) less than the final departmental limits. **Table 1** (resources) and **Table 1A** (capital) show outturn against original and final limits by department. There were two breaches. Limits can change during the course of the year for a variety of reasons including the draw down of End Year Flexibility (EYF) entitlements, transfers between departments and classification changes. Comparisons between provisional outturn and original limits can therefore be misleading. The outturn figures form the basis of the calculations to determine department's EYF entitlements for DEL shown in **Table 6**.

Annually Managed Expenditure Provisional outturn for AME in 2004-05 was £ 202.883 billion - £ 0.037 billion (0.02 per cent) lower than the forecast in Public Expenditure Statistical Analyses (PESA) 2005 (Cm 6521). **Table 2** shows outturn against the PESA 2004 and PESA 2005 forecasts consistent with the groupings in Table 1.1 of the latter document.

Central government voted expenditure Provisional outturn in 2004-05 for voted resource spending was £ 349.870 billion - £ 12.425 billion (3.4 per cent) less than final provision and for voted cash spending £ 328.798 billion - £ 11.027 billion (3.2 per cent) less than final provision. **Table 3** shows outturn, original provision and final provision by Estimate and Request for Resources (RfR). There were two overspends.

Administration costs limits Provisional outturn in 2004-05 for gross controlled running costs was £19.555 billion. This is £0.784 billion (3.9 per cent) lower than final limits. **Table 4** shows outturn, original and final administration costs limits for gross controlled administration costs areas. There were no breaches. Provisional outturn for net administration costs limits was £ 0.066 billion. This is £ 0.053 billion higher than final limits. **Table 5** shows outturn, original and final administration costs limits for net controlled areas. There were four breaches.

Breaches Whenever a breach of an individual DEL or administration costs limit occurs, the usual corrective procedures will be applied, including an investigation into the causes of the breach, an examination of the financial procedures of the department or body concerned and, where appropriate, a reduction in the corresponding limit in the following year.

End Year Flexibility The DEL EYF scheme enables departments to carry forward all of their unspent DEL with no upper limit. Eligible amounts are based on unspent DEL less, where appropriate, DEL Reserve claims plus any EYF entitlements from previous years not taken up. **Table 6** shows the amounts for carry forward into 2005-06 for each individual DEL. Subject to Parliamentary approval of any necessary Supplementary Estimates, individual DELs or administration budgets will be increased when carry forward is taken up.
