Dear Sir,

Re: Consultation on Storage of Nuclear Waste in Cumbria

I refer to the consultation programme which you are carrying out at present.

Councillors from Great Salkeld parish (near Penrith) are very concerned that Councils of every size and geographical location in Cumbria should be involved in and part of the decision-making process. Whilst they will not be applying for impact funding themselves, they believe that it is crucial that the views of their parishioners are represented, as ultimately due to the scale, extent and nature of the project, there will inevitably be some impact upon this area by the decisions made.

Yours faithfully,

R.E. Lytollis

Mrs R Lytollis

Clerk to Great Salkeld Parish Council
