Offender Management Community Cohort Study (OMCCS) Second Questionnaire

Ministry of Justice Analytical Series
2014

Analytical Services exists to improve policy making, decision taking and practice by the Ministry of Justice. It does this by providing robust, timely and relevant data and advice drawn from research and analysis undertaken by the department's analysts and by the wider research community

Module A: Consent, situation since last interview

This module introduces the study and identifies whether the respondent is still on the same order as they were at the baseline interview. If their order has ended early or been extended this is briefly examined. If the respondent is on a different sentence this is identified and start and potential end dates are collected. The type of sentence is also collected.

Apinfo

I am from the National Centre for Social Research, an independent research institute.

As part of our research for the Ministry of Justice we are contacting people again to talk about their experiences of Community Orders and what has happened since we last spoke to them. The research aims to show how improvements to services can be made.

All information will be treated in the strictest confidence in accordance with the Data Protection Act and used for research purposes only.

The data controller for this study is the Ministry of Justice.

Interviewer: Press <F9> for description of 'Community Order'.

Interviewer note at <F9>:

Community Order description

A Community Order is served in the community and can include a range of requirements.

- It is the sentence given by the court
- Should range from 1 to 36 months, but can be shortened or lengthened
- Usually involves regular meetings with a Probation Officer (or Offender Manager)
- Can include unpaid work (sometimes known as community service) – those doing unpaid work will be on a Community Order (or possibly a SSO – see below)
- Can also include:
 - treatment for drugs, alcohol, mental health
 - courses or programmes about offending behaviour
 - courses to help improve skills in a range of areas
 - restrictions on movements or people who the offender can see
 - requirements to live in particular places
 - more intensive supervision by a Probation Officer

Suspended Sentence Order (SSO)

SSOs are similar to Community Orders in their requirements.

However, the consequence for breaching the order is always a prison sentence (breaching a Community Order may result in additional requirements to the existing community-based order).

ACons

Taking part in the survey is voluntary. You do not have to answer any questions if you prefer not to, and you can withdraw your consent at any time.

However, if you mention an **intention** to harm yourself or others I will have to pass this information on.

If necessary: Also, taking part will NOT affect your Community Order in any way and your Probation Officer will not see your answers.

Are you happy to continue?

(No DK, no Ref)

1. Yes – happy to continue
2. No (end of interview)

Changes in situation of sentence

(If on a CO at baseline, Aordon=Yes or Aordero =Yes, currently, then)

Acostil

Last time we spoke with you, you mentioned that you began a Community Order in about <Month of start>.

Are you still on the same Community Order, are you now on another order, or are you not currently on any sentence?

Interviewer press <F9> for description of 'Community Order'.

1. Same Order
2. Different Order (or sentence)
3. No Order (or sentence)

If had finished CO at baseline (AOrdOn=No OR AOrderO =Yes, recently) Then

Acorem

Last time we spoke with you (in <month of baseline interview>) you mentioned that a Community Order that you began in <month of start> had recently ended.

Interviewer press <F9> for description of 'Community Order'.

1. Continue

(If on a sentence (but not a CO) at baseline (AAnysen=Yes, currently) then)

Ancostil

Last time we spoke with you, you mentioned that you began a sentence that involved seeing a Probation Officer in about <Month of start>.

Are you still on the same sentence, are you now on another sentence, or are you not currently on any sentence?

1. Same order
2. Different order (or sentence)
3. No Order (or sentence)

If had finished CO at baseline (aanysen=yes, recently) then

Ancorem

Last time we spoke with you (in <month of baseline interview>) you mentioned that a sentence that involved seeing a Probation Officer that you began in <Month of start> had recently ended.

1. Continue

If not clear from baseline whether on CO or not (aaanysen=no) then

Adkrem

Last time we spoke with you in <month of baseline interview> you mentioned that had been seeing a Probation Officer or other staff connected with the Probation Service.

1. Continue

This group will be asked about current situation later

Nature of end of CO

If CO has ended (acostil=2,3 OR ancostil=2,3 OR acoem=1 OR ancorem=1) then

Aendcom

I'd like to talk about that particular Community Order that started in <Month of start> and how it came to an end.

In which month did that Community Order end?

Interviewer: record month and then year at next question

Jan-Dec

Aendcoy

Interviewer: record year order ended

2009 - 2013

Coenddt

Derived date of end of original order from Aendcom and Aendcoy.

Coenddts

Textfill for month and year of end of order.

If CO has ended (acostil=2,3 OR ancostil=2,3 OR acoem=1 OR ancorem=1) then

Aenddif

Did you stay on that Community Order for the full original sentence length, did it end early, or did you stay on it longer?

Interviewer press <F9> for description of 'Community Order'.

1. Full original sentence length
2. Ended early
3. Ended later

Archanw

Showcard 1A

Looking at the card, how did that Community Order end?

1. Completed the full sentence length
2. Ended early for good progress / compliance
3. Due to a breach – broke the rules (but not another offence)
4. Due to another offence - remanded in custody
5. Due to another offence – but not remanded in custody
6. Ended for another reason

(If Archanw=Other then)

Archwo

What was the other reason that it ended?

Open

(If new sentence (Archanw=4) then)

Abefco

Did the offence occur before or during your Community Order?

1. Before
2. During
3. Did not occur (not read out)

(If archanw = 3 to 6 then)

Aendhap

Showcard A2

And which of these best describes what happened at the end of that Order?

Interviewer press <F9> for description of 'Community Order' or SSO

1. Given a new Community Order
2. Given a Suspended Sentence Order (SSO)
3. Went to prison
4. Went to court but not re-sentenced
5. Still waiting for court appearance

(If ancostil=same, acostil=same)

(If qfeedf.faordon=no,qfeedf.faordero=recent, afeedffaanyisen=recent)

(If acostil = diff/no, ancostil=diff/no)

Derived variable - whether original community order is current:

1. Yes – still on original Community Order
2. No – original Community Order ended after baseline interview
3. No – original Community Order ended before baseline interview

Derived for all

Adifsen

If anstil=yes, acusit=newco, acusit=ssp

If anstil=no, asince=newco, asince=ss

Derived variable – whether currently on a different CO or SSO - not the original:

1. Yes – still on a different CO/SSO
2. No –another order (CO or SSO) ended since the original ended
3. No – not been on another CO or SSO

Module B: Current sentence

Module B identifies further contact with the CJS through court appearances, breaches, warnings and warrants. The latter part of the module deals with the respondent's attitudes to his/her original Community Order.

Warnings

(If qmodulea acursen in (noaft) then)

Bwarnp

I would like to ask you about the Order that you were on when we last spoke with you in <month of baseline interview>.

Between < month of baseline interview > and when the Order ended in <month of end>, did you receive any written warnings for not complying with your Community Order?

1. Yes
2. No

(If qmodulea acursen in yes then)

Bwarnc

I would like to ask you about what has happened whilst you have been on this Order. Firstly, have you received any written warnings for not complying with your Community Order?

1. Yes
2. No

(If bwarnp = yes or bwarnc=yes)

Bwarnn

Excluding any that were later cancelled, how many written warnings (have/did) you (received/receive) during this order?
0-20

(If bwarnp=yes or bwarnc=yes)

Bwarnf

Did you think the warnings you received were fair?

1. Yes
2. No
3. Some were fair, some were not fair

(If bwarnp=yes or bwarnc=yes then)

Bwarnl

Do you think the warnings made you more likely to do the things your order required, less likely or did they make no difference?

1. More likely
2. Less likely
3. No difference

Bwarnw

What were you given a warning for?

5. Not read out: No commitments

Module C: Probation Officer relationship

Module C focuses on the respondent's relationship with the Probation officer. It identifies whether the respondent is still dealing with the same PO as they did wait the baseline interviews and explores reasons for a potential change. Questions related to frequency of interaction and attitudes regarding the relationship are repeated from the baseline interview to track potential changes.

Module D: Requirements

This module is asked of respondents who had not finished their Community Order by the first interview, i.e. respondents who have been on an Order since the first interview.

This module identifies what requirements the respondent has been doing since the previous interview. If a specific requirement has changed, the reason for this change is explored. The module further asks about new activities and identifies requirements the respondent has started since the first interview.

Respondents are asked the first half of the questions depending on the requirements they identified in the baseline interview. The second half of the module is asked of everyone to identify activities started since the baseline interview.

The information from this module results in flags which flag up requirements started at baseline interview and another flag for requirements started following the baseline interview. These flags are used for routing into the requirement modules E to K.

Several text fills from previous modules and feed forward from the baseline interview are used in this section. These are:

- newstdt (newstdt from baseline)
- Intdat baseline interview date (datenow from baseline)
- Aintsen variable from Module A in this interview
- Acursen variable from Module A in this interview
- Aintsenn variable from Module A in this interview

Module F: Requirement of sentence (curfew, exclusion, prohibited activities)

If the respondent has been on a curfew, excluded from a place or prohibited activities between the start of their order and the current interview they are routed into module F. Some questions will only be asked if they have started doing the requirement since the baseline interview. Other questions will be asked independent on whether the requirement was occurring at the baseline interview.

If the respondent has been doing more than one of these requirements they will be routed through the complete module in a similar way as during the baseline interview. Maximum three loops –one for each of the requirements.

If the respondent has been doing more than one type of each requirement between the start of their order and the current interview, the set of questions are looped. Maximum two loops – one about requirement at baseline interview, one about current requirement.

Module I: Requirement of Sentence (Drug Treatment)

If the respondent was receiving drug treatment at the baseline interview or has started receiving drug treatment since the baseline interview they are routed into module I. Some questions will only be asked if they have started doing the drug treatment since the baseline interview. Other questions will be asked independent on whether the drug treatment occurred at the baseline interview.

If the respondent has been doing more than one type of drug treatment the majority of the module questions should be looped. Maximum two loops –one about the drug treatment identified at the baseline interview, one about current drug treatment.

Module I further provide information on the respondent's motivation to stop their drug use these indicators will be tracked between the interviews.

Module O: Offending, Convictions, Outcome Evaluation, Anti-social behaviour

This module is asked of all respondents. It repeats the majority of the questions related to offending, drugs and alcohol related offending and the omfq questions from the baseline interview. The reference periods are changed to focus on experiences since the baseline interview and questions asking historical information are deleted.

Ointro

The next questions are about things that you may have done since we last interviewed you. That is from <month of baseline interview> to today.

We do not want to know the details of any specific offences, just what types of offence, if any, you may have committed and how frequently you committed them.

Please remember that all answers will be confidential.

Thank you for taking the time to answer our questions.

Just to confirm, your answers will only be available to Natcen, Matrix and researchers at the Ministry of Justice (MoJ).

Last time we spoke, you gave permission for your answers to be linked to information held by other government departments for research purposes. We would also like to link the answers you have given **this** time.

Just to be clear, this will not affect your community order now or in the future, and you can withdraw your permission at any time by contacting Natcen or the MoJ.

May we have your permission to link the answers from **this** interview to information held by other government departments?

1. Consent to data sharing given
2. Consent to data sharing not given

(If Qfeedf.pdatash=nocons then)

P3datash

Thank you for taking the time to answer our questions.

Just to confirm, your answers will only be available to Natcen, Matrix and the Ministry of Justice (MoJ).

We would like to get permission from you for certain information from this interview to be linked to administrative records held by the MoJ and other government departments. Either

the MoJ or another government department research team (or a third party acting on their behalf) will perform this data linking.

The only information that will be passed from the MoJ to other government departments is your name, national insurance number, date of birth address and gender.

This will in no way affect your community order now or in the future, and you can withdraw your permission by contacting Natcen or the MoJ at any time.

The information will only be used for research and statistical purposes. Please note that if you mention an intention to harm yourself or others I will have to pass this information on.

The results from this study may be published in reports but data will be anonymous and it will not be possible to identify you.

May we have your permission to link the answers from **this** interview to information held by other government departments?

Interviewer note: Matrix is an independent social research organisation.

1. Consent to data sharing given
2. Consent to data sharing not given

Pnino

To help with the data linking, what is your national insurance number?

Interviewer: this should be 2 letters then 6 numbers then a letter e.g. **Qq123456a**
