

River Fowey historic upstream salmon counts Restormel Weir, Cornwall.

The chart below shows the historic upstream counts for salmon at the Environment Agency fish counter at Restormel Weir, on the River Fowey, Cornwall. Counts for salmon run from July to February (inclusive) of the following year as very few salmon enter the river before the 1 July i.e. all 'large' fish between March and 1 July are assumed to be sea trout.

Historic Upstream Salmon counts (July to February inclusive)

Note: – Figures/bars in red are provisional. All other figures are final (adjusted for fish pass and counter efficiencies). Please acknowledge the Environment Agency as the data source if quoting any of the above figures. The information provided is based on that currently available to the Environment Agency. The Environment Agency accepts no liability for any loss, damage, costs or claims arising either directly or indirectly from its use or interpretation.
