1 Executive Summary

1.1 Skills have long been recognised as a key driver of economic growth and prosperity, yet is an area where Britain has performed relatively weakly compared with key economic competitors.

1.2 In November 2009 BIS published Skills for Growth which marked a radical shift in some of the priorities in the skills system. In particular it aimed: to tackle the gap in intermediate skills by creating a modern technician class through expanding apprenticeship numbers; to invest particularly in the sectors offering future growth (especially hi-tech, low carbon industries); to improve how providers respond to the skill needs of employers and the expectations of individuals through increased information and choice; and to simplify the skills landscape.

1.3 Qualification levels of the adult population are one measure of skill levels, and the previous government set targets for the proportion of working-age adults to be qualified to particular levels by particular dates (for example 79% of the working age population to be qualified to Level 2 and 56% to Level 3 by 2011). Clearly a key contributory factor in raising qualification levels of the working age population, in addition to the number of young people becoming of working age with qualifications at Level 2 and Level 3, is the number of adults in learning undertaking their first Full Level 2 (or Level 3) qualification.

1.4 This report presents the findings of research into the skills and qualification levels of adults on Adult Learner Responsive (ALR) learning provision in 2009/2010. The research was undertaken to understand the extent to which investment in ALR learning provision is being directed towards up-skilling individuals with lower skill levels, especially those without prior attainment at Full Level 2 (equivalent to 5 GCSEs at grades A-C or NVQ Level 2).

1.5 The research, commissioned by the Department for Business, Innovation and Skills (BIS) and the Skills Funding Agency and undertaken by IFF Research, looked specifically at the highest prior qualifications of adult learners (aged 19+) who were undertaking Full Level 2 or Full Level 3 learning in November 2009.

Determining the level of highest prior qualification

1.6 In assessing the implications of the research findings regarding prior achievement, and in comparing these findings against other alternative data sources and management information, it is important to take into account the method used in the survey for determining highest prior qualification.

1.7 Information on the qualifications that people had attained prior to their course was gathered in the following way. Survey respondents were first asked to indicate whether they had achieved any qualifications from school, college or university, from an apprenticeship, through work or government schemes or through any other sources. Those who confirmed that they had achieved a prior qualification were read a list of qualifications and asked whether or not they had achieved each of these, and to give

details of any other qualifications (including those achieved outside of the UK) not appearing on this list.

1.8 From this list of qualifications achieved and answers to supplementary questions regarding the number and level of each qualification, a highest level was assigned to each respondent. Slightly different figures result depending on how 'other qualifications' are dealt with. The default method used in the Prior Achievement research series to derive information on the highest prior qualification of learners and the incidence of first Full Level 2 learning (which replicates the approach taken in the Labour Force Survey) ignores 'other' qualifications (including all those attained outside the UK) with regards to determining highest prior qualification level if the respondent has achieved any of the qualifications read out to them. If an 'other' qualification is the only qualification an individual says they have, then it is assigned to a level in a pre-determined (random) manner (55% are assigned to Full Level 1, 35% are assigned to Full Level 2, 10% are assigned to Full Level 3).

The incidence of first Full Level 2 learning

1.9 The following table shows the percentage incidence of first Full Level 2 learning amongst adult learners undertaking Full Level 2 and Full Level 3 ALR courses in November 2009. It also shows comparisons with the five previous surveys in the research series.

Table 1.1: Incidence of first Full Level 2 learning by level of learning and year of survey

	2009/10			2008/9	2007/8	2006/7	2005/6	2004/5
	<i>No. of interviews</i>	No. of first Full Level 2 learners (weighted)	Proportion undertaking their first Full Level 2	Proportion undertaking their first Full Level 2				
FE Full 2	1,505	41,656	39%	39%	37%	38%	38%	38%
FE Full 3	1,499	21,009	20%	20%	19%	20%	22%	22%

1.10 The survey results indicate that among the estimated 106,200 adult learners enrolled on a Full Level 2 ALR course in November 2009, 39% were studying for their first Full Level 2 qualification. This represents approximately 41,650 learners, who if successful, would pass the Level 2 threshold. Conversely, this means that

three-fifths (61%) of Level 2 learners already had a Full Level 2 qualification or higher before enrolling on their course.

1.11 Among the approximate 105,000 adult learners enrolled on a Full Level 3 ALR course in November 2009, 20% were studying for their first Full Level 2 qualification. This represents approximately 21,000 learners, who if successful, would pass the Level 2 threshold.

1.12 Across both Level 2 and Level 3 ALR provision combined, the incidence of first Level 2 learning revealed by the survey was 30% (corresponding to approximately 62,650 learners).

1.13 There has been no significant change in the proportion of adult ALR learners undertaking their first Level 2 qualification, either at Level 2 or Level 3, compared with 2008/09. Indeed there has been very little change since 2004/05: among Full Level 2 learners the figure has been within the range 37% to 39%, among Level 3 learners it has ranged from 19% to 22%. The survey data does not support the hypothesis that the incidence of first Full Level 2 learning amongst Level 2 and 3 learners is increasing.

Comparison of prior achievement level as recorded in the survey and on the Individual Learner Record (ILR)

1.14 Between 2004 and 2010, a series of studies have been carried out as part of the 'Prior Qualifications' programme of research, focusing on the prior attainment levels of Level 2 and Level 3 learners engaging with FE/ALR provision. A consistent finding across these studies has been a discrepancy between the data held on the ILR (entered by training providers when learners enrol) and learners' own reports of the qualifications they had before starting their course, as found by the detailed questioning in the survey. These previous studies have all found that the ILR under reports both the proportion of learners with any prior attainment and the proportion with prior attainment at Full Level 2 or above.

1.15 Across all learners interviewed where the ILR recorded a prior qualification level, the ILR and survey-determined prior achievement level was consistent in just over two-fifths of cases (42%). Where the two measures did not give the same level, the tendency was for the survey to indicate a higher level of prior qualifications than recorded on the ILR: overall for two-fifths of all learners (42%) the level recorded by the ILR was lower than found for the survey, while the reverse was true for one in eight learners (in 12% of cases the ILR appeared to over-state the prior achievement of learners). In a further 5% cases the survey measure of highest prior attainment was inconclusive. Overall the survey of learners again confirms (as with previous studies) that the ILR appears to under-report the level of prior qualifications held by adult ALR Level 2 and Level 3 learners.

1.16 Looking just at those learners marked as first Full Level 2 ALR learners on the ILR, in half of cases (50%), the survey indicates that the learners already had a Full Level 2 qualification before starting their course.

Conclusions

1.17 The research has indicated that the majority of learners enrolled on Full Level 2 and Full Level 3 learning in 2009/10 already had prior attainment at Full Level 2. Furthermore, there has not been any significant increase over time in terms of the proportion of learners engaging with ALR provision drawn from low-skilled groups without prior Full Level 2 qualifications.

1.18 The research suggests that the information on prior attainment recorded on the ILR by providers may underestimate the extent of prior attainment of learners, and therefore gives an inflated estimate of the impact of ALR provision in up-skilling adults with low skill levels.

2 Introduction

2.1 This report presents the findings of research into the skills and qualification levels of adults on Adult Learner Responsive (ALR) learning provision in 2009/2010. The research was undertaken to better understand the extent to which investment in ALR learning provision is being directed towards up-skilling individuals with lower skill levels, especially those without attainment at Full Level 2 (equivalent to 5 GCSEs at grades A-C or NVQ Level 2).

2.2 The research, commissioned by the Department for Business, Innovation and Skills (BIS) and the Skills Funding Agency and undertaken by IFF Research, looked specifically at the highest prior qualifications of adult learners (aged 19+) who were undertaking Full Level 2 or Full Level 3 learning in November 2009. The survey was conducted in July and August 2010, and covered just over 3,000 learners.

Research background and objectives

2.3 Skills have long been recognised as a key driver of economic growth and prosperity, yet is an area where Britain has performed relatively weakly compared with key economic competitors.

2.4 In November 2009 BIS published Skills for Growth which marked a radical shift in some of the priorities in the skills system. In particular it aimed: to tackle the gap in intermediate skills by creating a modern technician class through expanding apprenticeship numbers; to invest particularly in the sectors offering future growth (especially hi-tech, low carbon industries); to improve how providers respond to the skill needs of employers and the expectations of individuals through increased information and choice; and to simplify the skills landscape.

2.5 Qualification levels of the adult population are one measure of skill levels, and the previous government set targets for the proportion of working-age adults to be qualified to particular levels by particular dates (for example 79% of the working age population to be qualified to Level 2 and 56% to Level 3 by 2011). Clearly a key contributory factor in raising qualification levels of the working age population, in addition to the number of young people becoming of working age with qualifications at Level 2 and Level 3, is the number of adults in learning undertaking their first Full Level 2 (or Level 3) qualification. The issue is also important for skills policy given the Level 2 Entitlement providing fee remission for those studying towards their first Full Level 2 qualification. While good management information is available on the levels towards which current learners are studying (via the Individual Learner Record database), there are questions as to how well this provides reliable information linking the level being studied with the prior qualification levels achieved i.e. good information exists on the number of adult learners working towards a Level 2 qualification but not how many of these are working towards their first Level 2 qualification.

2.6 In order to better understand this, and to contribute to the efficient and appropriate use of investment in skills and training, BIS commissioned IFF research to investigate the

prior qualifications of adults in Further Education that were undertaking a Full Level 2 or Full Level 3 qualification in the academic year 2009 / 10. The key aim was to assess the proportion of adult learners that were undertaking their first Full Level 2 qualification.

2.7 Two other analogous surveys were also conducted amongst adult Apprenticeship and Train to Gain learners. The findings for these learner groups are outlined in separate reports.

Methodology

2.8 A total of 3,004 telephone interviews were conducted with adult learners (aged 19 plus) who had been undertaking ALR courses at Full Level 2 or Full Level 3 in November 2009.

2.9 The sample of learners was drawn from the Individualised Learner Record (ILR) and covered:

- FE learners enrolled on provision at Full Level 2 or Full Level 3 in November 2009;
- Who had not indicated that they were unwilling to be contacted for survey work;
- For whom a telephone number was available.

2.10 Interviews were conducted using Computer Aided Telephone Interviewing (CATI) from IFF Research's telephone centre at its offices in London. Fieldwork took place from 14th July to 11th August 2010. The questionnaire used for the study and details on the response rates to the survey are appended.

2.11 In order to ensure a distribution of interviews that would maximise the reliability of the data analysis, quotas were set by the level of course studied and the age of the learner. The quotas were determined using an interlocking age by learning level matrix. Half of the interviews were allocated to Level 2 learners and half to Level 3 learners, with allocations by age within level proportionate to the full eligible ILR population at Level 2 or Level 3. Further details on the quotas are appended (Appendix A).

2.12 To allow estimates to be made from the survey results for the whole adult Level 2 and Level 3 ALR learner population, the survey results were grossed up at the analysis stage to the full profile of adult learners in November 2009. This grossing up process was done by age within level to ensure the profile of learners was representative by these variables.

Report structure

2.13 This report is structured in chapters as follows:

- **Understanding the profile of adult learners** – here we describe the demographic characteristics and work status of the learner cohort.
- **The prior qualification level of learners** – highlights the proportion of learners entering their course with prior qualifications at different levels, with a focus on the incidence of first Full Level 2 learning.
- **Comparison of prior achievement level as recorded in the survey and on the Individual Learner Record (ILR)** – explores the nature of discrepancies between the survey measures of prior attainment and the MI on prior attainment available from the Individual Learner Record.
- **Appendices** – giving further details on sampling and grossing strategies, response rates for the survey and the survey questionnaire.

2.14 The report compares findings with previous comparative studies conducted among adult learners on FE courses in 2003/4, 2004/5, 2005/6, 2006/7, 2007/8 and 2008/9 (all of these conducted by IFF).

3 Understanding the profile of adult learners

3.1 This chapter outlines the demographic profile of adult Full Level 2 and Full Level 3 ALR learners, their economic situation and their reasons for starting the course when they did.

3.2 The data presented in this chapter represents the population characteristics of learners and reflects the proportion of learners in each group after the survey data has been grossed up to represent the full population of adult learners on Full Level 2 or 3 provision in November 2009.

Demographic profile of Full Level 2 and Full Level 3 ALR learners

3.3 Table 3.1 below shows the age, gender and ethnicity profiles of eligible ALR learners in learning in November 2009.

Table 3.1: Demographic profile of ALR learners – November 2009

		Level of ALR course	
		All learners	Full 2
<i>Base: All learners</i>	3,004	1,505	1,499
	%	%	%
Male	42	45	38
Female	58	55	62
19-24	45	37	52
25-44	46	51	41
45 – retirement	9	11	6
Over retirement age	*	1	*

		Level of ALR course	
		All learners	Full 2
White	76	78	74
Non-white	22	20	24
<i>Asian</i>	9	8	9
<i>Black</i>	8	7	9
<i>Chinese</i>	1	1	1
<i>Mixed / other</i>	5	4	5
Not stated	2	2	2

*= <0.5% but >0%

3.4 Most ALR learners on Full Level 2 and 3 courses are female (58%), with the figure particularly high for Full Level 3 courses (62% female).

3.5 The majority of adult ALR learners are aged 19 to 24 (45%) or 25 to 44 (46%). Learners on Full Level 2 ALR courses are more likely to be older – almost two-thirds (63%) are aged 25 or over, whereas more than half of learners on Full Level 3 courses are aged 19 to 24 (52%).

3.6 The majority of ALR learners are white (76%). There is a significantly higher proportion of non-white learners on Full Level 3 courses (24%) than Level 2 (20%).

3.7 Table 3.2 illustrates shows the regional split of ALR learners on provision in November 2009.

Table 3.2: Region of ALR learners – November 2009

		Level of ALR course	
		All learners	Full 2
<i>Base: All learners</i>	3,004	1,505	1,499
	%	%	%
East of England	9	9	9

East Midlands	7	7	7
Greater London	19	20	19
North East	7	6	7
North West	15	14	15
South East	11	10	13
South West	8	8	8
West Midlands	14	15	13
Yorkshire and Humberside	11	11	10

Learner reasons for starting the course when they did

3.8 Learners were asked why they started their course when they did. This measure offers a useful insight in to learners’ motivations at that point in time. Figure 3.1 shows the most common reasons given for the particular timing of enrolment to an ALR course.

Figure 3.1: Reasons for starting the course when did (spontaneous)

3.9 A third of learners started their course when they did because of a personal interest at that point in time (32%). Job and career-related reasons were also quite common reasons for learners undertaking learning or training when they did, including deciding to change career (21%), to enable them to progress in their job (17%) or because their employer suggested it (6%).

3.10 Others simply stated that their personal circumstances were favourable for learning at that time for example, as a result of children having left home (17%, higher amongst women, 21%, than men, 12%) .

3.11 Another factor influencing the timing of study was it following on from another FE course (12%), with this more likely to be mentioned by Level 3 learners.

Economic indicators

3.12 Table 3.3 shows learners' economic situation in terms of employment status at the time of the survey in July / August 2010, for all learners, then for those no longer studying on the course they were doing in November 2009.

Table 3.3: Economic activity of ALR Learners at the time of interview

	All learners			Those who had completed Nov 09 course		
	All	Full 2	Full 3	All	Full 2	Full 3
<i>Base: All learners</i>	3,004	1,505	1,499	2,428	1,234	1,194
	%	%	%	%	%	%
Still studying on Nov. 2009 course	19	18	20	-	-	-
Economically active	71	73	69	87	89	87
Employed full-time	22	25	19	27	31	24
Employed part-time	21	17	25	26	21	31
Self-employed	4	4	3	5	5	4
On a government-supported training and employment programme	1	1	*	1	1	1
Unemployed though looking and available for work	21	22	19	25	27	24

	All learners			Those who had completed Nov 09 course		
	All	Full 2	Full 3	All	Full 2	Full 3
Doing unpaid family work	3	3	2	3	4	3
Economically inactive	10	9	11	12	11	13
Retired	*	1	*	*	1	*
Unemployed but not looking or not available for work	7	7	7	9	8	9
None of the above	3	2	3	3	3	4

*= <0.5% but >0%

3.13 Looking across all learners, one fifth were still on their course at the time of interview (19%), and around seven in ten learners had left this course but were economically active at the time of the survey (71%).

3.14 When looking at those who had left their course by the time of interview, the economic activity rate is 87%, including 27% in full-time employment, and 26% working part-time. Around one in eight leavers were economically inactive. These learners mostly described their status as 'unemployed but not looking or not available for work' (9%). Overall, of those who had left their course, as many as a third of learners were unemployed (25% looking for work; 9% not) at the time of the survey.

3.15 Amongst those who had completed their course and were either not available or not looking for work at the time of the survey, half expected to be available for work again within the next two years (50%), whilst around three in ten (31%) felt that within the next 5 years was a more realistic time-frame.

3.16 Three in ten learners (31%) were receiving some form of benefit or credit at the time of the survey. As shown in Table 3.4, those who had completed or dropped out of the course they were on in November 2009 and had not secured work were, unsurprisingly, more likely to be in receipt of benefits or credits (51%, compared to 18% of those who left the course and were working, and 24% of those still studying on the same course).

Table 3.4: Proportion of learners in receipt of benefits at the time of the survey

	All learners	Still on Nov 09 course	Finished course – in work	Finished course – not in work
<i>Base:</i>	3,004	576	1,406	1,022
	%	%	%	%
Receiving benefits or credits	31	24	18	51
Tax Credits	11	9	10	15
Housing Benefit	10	5	5	19
Income Support (IS)	9	6	2	19
Job Seekers Allowance (JSA)	7	4	4	13
Council Tax Benefit	3	2	1	6
Child Benefit	2	4	1	3
Disability Living Allowance (DLA)	2	2	*	4
ESA	2	2	*	5
Carer's Allowance	1	*	-	2
Adult Learning Grant	1	1	1	2
Not receiving any benefits or credits	69	76	82	49

*= <0.5% but >0%

- = zero

3.17 Female learners (36%) were much more likely than male (23%) to be receiving benefits or credits at the time of the survey. Female learners were particularly more likely to be receiving Tax Credits (16% v. 4% of male learners) and Housing Benefit (12% v. 6% of male learners).

3.18 Table 3.5 shows the personal annual income of those individuals who had completed their original course of study by the time of interview. Overall for this group,

where a gross annual income was given, this was typically less than £13,000 per year (74% of cases). Personal income is clearly likely to be higher where the individual had secured work after leaving their course, and this is clear in the income figures for those self employed (37% earning over £13,000) and those in full-time employment (60% earning over £13,000).

Table 3.5: Personal income (annual) amongst those who had completed November 2009 course by time of interview

	All who completed course	In full time work	In part-time work	Self-employed	Claiming benefit/credit and not in work
<i>Base: All answering**</i>	1,881	578	541	89	388
	%	%	%	%	%
Less than £13,000	74	40	91	63	93
£13,000 - £16,999	12	27	5	17	5
£17,000 - £22,999	8	20	2	11	2
£23,000 - £25,999	2	4	*	6	*
£26,000 - £34,999	2	4	1	1	-
£35,000 or more	1	4	*	2	-

*= <0.5% but >0%

- = zero

**Excludes those refusing (21% for all who completed course) and those responding 'Don't know' (1%)

3.19 Table 3.6 shows household income, where learners were willing or able to give this data. Across all learners, around three-quarters (73%) live in households with a combined income of less than £17,000 per year.

Table 3.6: Household income (annual)

	All learners	Still on Nov 09 course	Finished course – in work	Finished course – not in work
<i>Base: All answering**</i>	1,859	330	870	659
	%	%	%	%
Less than £13,000	49	39	39	71
£13,000 - £16,999	13	15	15	10
£17,000 - £22,999	11	12	12	8
£23,000 - £25,999	6	5	8	3
£26,000 - £34,999	7	10	9	4
£35,000 or more	13	20	17	5

**Excludes those refusing and those responding 'Don't know' (38% of all learners)

3.20 Overall, only a small proportion (4%) reported a combined household income of £35,000 or more, although this was higher amongst those still studying (20%) and those who completed or left the course and are now in work (17%).

4 The prior qualification level of learners

4.1 In this chapter we present findings on the prior qualification level of adult ALR learners, focusing in particular on the number and proportion of learners undertaking their first Full Level 2 qualification.

4.2 Throughout the report it should be noted that we use the term 'first Full Level 2 qualification' to mean any learning at Level 2 or above where the learner's highest prior qualification was below Full Level 2. It includes those learners studying at Full Level 2 whose prior highest qualification was below this level, but also to learners studying Full Level 3 qualifications with no prior qualification at Full Level 2.

4.3 First we briefly discuss the method of determining highest prior qualification. Determining the level of highest prior qualification

4.4 In assessing the implications of the research findings regarding prior achievement, and in comparing these findings against other alternative data sources and management information, it is important to take into account the method used in the survey for determining highest prior qualification.

4.5 Information on the qualifications that people had attained prior to their course was gathered in the following way. Survey respondents were first asked to indicate whether they had achieved any qualifications from school, college or university, from an apprenticeship, through work or government schemes or through any other sources. Those who confirmed that they had achieved a prior qualification from these sources were read a list of qualifications and asked to confirm whether or not they had achieved each of these, and to give details of any other qualifications (including those achieved outside of the UK) not appearing on this list.

4.6 From this list of qualifications achieved and answers to supplementary questions regarding the number and level of each qualification attained, a highest level was assigned to each respondent. Slightly different figures result depending on how 'other qualifications' are dealt with. The default method used in the Prior Achievement research series (replicating the approach taken in the Labour Force Survey) ignores 'other' qualifications (including all those attained outside the UK) with regards to determining highest prior qualification level if the respondent has achieved any of the qualifications read out to them. If an 'other' qualification is the only qualification an individual says they have, then it is assigned to a level in a pre-determined (random) manner (55% are assigned to Full Level 1, 35% are assigned to Full Level 2, 10% are assigned to Full Level 3). A number of non-'other' qualifications are also assigned to levels in set ratios. If an apprenticeship is the highest qualification then half these learners are assigned as having achieved a Level 2 qualification and half a Level 3. If a CSYS is the highest qualification then 67% are allocated as a Level 2 and 33% a Level 3. If A levels, AS levels or O levels are the highest qualification but the learner is unsure how many that they have, then level is determined

using the results of those that do have such qualifications as their highest and assigning the proportion of learners at each level.

4.7 This approach has been used for the purposes of deriving information on the highest prior qualification of learners (e.g. Table 4.1) and the incidence of first Full Level 2 learning (Table 4.2).

4.8 However, an important aspect of this survey was determining the extent to which survey-based information on prior qualifications matches that shown on the ILR, and hence providing evidence on the reliability of the ILR’s assessment of prior qualification level. This analysis is presented in Chapter 4. For this analysis, we do not allocate level in the way described above. This is simply because where we are showing the proportion of cases where the ILR prior level differs from the level that is derived from the information given by the learner during the survey, randomly allocating a level for other qualifications may lead to a level being derived which suggests a discrepancy where none exists. In these cases we have simply said the survey prior attainment level is inconclusive. The exception to this is cases where whichever level the other qualification was randomly assigned to would be higher or lower than that on the ILR for that learner.

4.9 Note that when describing highest qualification level in this report we use NVQ equivalent levels running from Level 1 to Level 5. The current Qualifications and Credit Framework (QCF) shows five tiers of learning (Levels 4 to 8) for the range covered by Level 4 and 5 in this report. The Level 1 to 5 framework has been used in this report to maintain comparability with the prior attainment field on the ILR and previous research in this series.

Highest prior qualifications of learners

4.10 The table below shows the percentage of adult learners undertaking Full Level 2 and Full Level 3 ALR courses in November 2009 who had various levels of prior qualification before starting their course, according to the survey data.

Table 4.1: Prior qualification level by learner type

		Level of highest prior qualification					
Horizontal %'s	Base		None	Below Full L2	Full L2	Full L3	Full L4/5
Level of study							
Full Level 2	1,505	%	12	27	26	17	18
Full Level 3	1,499	%	6	14	36	27	17

4.11 Results show that as many as a third (35%) of adults undertaking learning at Level 2 already had a prior qualification at a **higher level** than this before enrolling (at Full Level 3, 4 or 5). One in six Level 3 learners (17%) had attained a qualification at a higher level sometime in the past.

4.12 Results shown in Table 4.1 also indicate that a minority of learners are undertaking their first Full Level 2 qualification (i.e. have no qualifications or qualifications below Full level 2). This is discussed in detail in the following section.

The incidence of first Full Level 2 learning

4.13 The table below shows the percentage incidence of first Full Level 2 learning amongst adult learners undertaking Full Level 2 and Full Level 3 ALR courses in November 2009. It also shows comparisons with the five previous surveys in the research series.

Table 4.2: Incidence of first Full Level 2 learning by level of learning and year of survey

	2009/10			2008/9	2007/8	2006/7	2005/6	2004/5
	<i>No. of interviews</i>	No. of first Full Level 2 learners (weighted)	Proportion undertaking their first Full Level 2	Proportion undertaking their first Full Level 2				
FE Full 2	1,505	41,656	39% (39.2%)	39%	37%	38%	38%	38%
FE Full 3	1,499	21,009	20% (20.0%)	20%	19%	20%	22%	22%

Base no. of interviews for previous surveys:

2008/9 - Level 2: 1,403; Level 3: 1,417; 2007/8 - Level 2: 1,590; Level 3: 1,210; 2006/7 – Level 2: 1,600; Level 3: 1,203;

2005/6 – Level 2: 1,506; Level 3: 1,258; 2004/5 – Level 2: 1,338; Level 3: 758

4.14 The survey results indicate that among the estimated 106,200 adult learners enrolled on a Full Level 2 ALR course in November 2009, 39% were studying for their first Full Level 2 qualification. This represents approximately 41,650 learners, who if successful, would pass the Level 2 threshold. Conversely, this means that three-fifths (61%) of Level 2 learners already had a Full Level 2 qualification or higher before enrolling on their course.

4.15 The incidence of adult Full Level 3 learners without prior Full Level 2 qualifications is lower, at 20%. Clearly this would be as expected given that having qualifications at Level 2 can often be a requirement for undertaking a Level 3 course.

4.16 Across both Level 2 and Level 3 ALR provision combined, the incidence of first Level 2 learning revealed by the survey was 30% (corresponding to approximately 62,650 learners).

4.17 Table 4.3 gives the statistical confidence associated with the 2009/10 findings, given the number of interviews conducted. For example, for the ALR Full Level 2 learners, we can be 95% confident that the true firstness figure lies within + or - 2.5% of the survey finding.

Table 4.3: Statistical confidence intervals associated with first Full Level 2 learning figures

	<i>Number of interviews</i>	Proportion undertaking their first Full Level 2	Confidence intervals associated with number of interviews conducted (95% confidence level)
FE Full 2	1,505	39.2%	+/-2.5%
FE Full 3	1,499	20.0%	+/- 2.0%
Overall	3,004	29.6%	+/- 1.8%

4.18 As can be seen in Table 4.2, there has been no significant change in the proportion of adult ALR learners undertaking their first Level 2 qualification, either at Level 2 or Level 3, compared with 2008/09. Indeed there has been very little change since 2004/05: among Full Level 2 learners the figure has been within the range 37% to 39%, among Level 3 learners it has ranged from 19% to 22%. The survey data does not support the hypothesis that the incidence of first Full Level 2 learning amongst Level 2 and 3 learners is increasing.

4.19 The survey highlights differences in the incidence of first Level 2 learning according to the age of the learner, this being higher for the middle age bracket of 25 to 44 year old learners than the average figures for all Level 2 and Level 3 learners, as shown in the following table. Note the incidence data for the retirement age plus age band is not shown because of the small number of individuals surveyed for this category.

Table 4.4: Incidence of first Full Level 2 learning by level of learning and age of learner

	<i>Base - Number of interviews</i>	No. of first Full Level 2 learners (weighted)	Proportion undertaking their first Full Level 2
Level 2 overall	1,505	41,656	39%
19-24	562	14,066	36%
25-44	762	23,737	44%
45-retirement age	169	3,618	30%
Level 3 overall	1,499	21,009	20%
19-24	784	9,010	16%
25-44	617	10,802	25%
45-retirement age	95	1,200	18%

4.20 A significantly higher proportion of 25 to 44 year old Level 2 learners were studying for their first Full Level 2 (44%) than those Level 2 learners aged 19 to 24 (36%) or 45 to retirement age (30%). The same pattern holds for Level 3 provision: one quarter of the 25 to 44 year old learners on provision in November 2009 (25%) had no prior Full Level 2 qualification, compared to less than one fifth of the younger and older groups of learners. Hence upskilling is more likely to be occurring among learners aged 25-44.

4.21 For learners enrolled on Level 2 provision, there is also a difference in the incidence of first Level 2 learning by ethnicity (see Table 4.5 below). White learners are significantly more likely to have a prior Level 2 qualification or higher (i.e. a lower firstness rate) than people of other ethnic backgrounds, with the incidence of first Level 2 learning at 37% for White learners and 46% for Non-White learners. Amongst those enrolled on Level 3 learning there was no significant difference in the incidence of firstness by ethnicity.

Table 4.5: Incidence of first Full Level 2 learning by learner ethnicity

	<i>Base - Number of interviews</i>	No. of first Full Level 2 learners (weighted)	Proportion undertaking their first Full Level 2
Level 2 overall	1,505	41,656	39%
White	1,174	31,053	37%
Non-White	303	15,267	46%
Level 3 overall	1,499	21,009	20%
White	1,116	9,833	20%
Non-White	359	5,183	21%

The incidence of first Full Level 3 learning

4.22 In order to understand further the additionality associated with Level 3 learning, it is useful to look at the percentage incidence of first Full Level 3 learning amongst adult learners undertaking Full Level 3 ALR courses in November 2009.

4.23 The incidence of first Level 3 learning amongst these learners as measured by the survey was 56%. This corresponds to an estimated 59,000 learners studying towards their first Level 3 qualification as of November 2009.

5 Comparison of prior achievement level as recorded in the survey and on the Individual Learner Record (ILR)

5.1 An area of policy interest is the precision of the ILR data on the incidence of first Level 2 learning and the extent that it can be relied upon as a measure of firstness. Hence in this section we examine the consistency between ILR and survey measures of the proportion of Level 2 and Level 3 learners enrolling without any prior attainment at Full Level 2.

5.2 Between 2004 and 2010, a series of studies have been carried out as part of the 'Prior Qualifications' programme of research, focusing on the prior attainment levels of Level 2 and Level 3 learners engaging with FE/ALR provision. A consistent finding across these studies has been a discrepancy between the data held on the ILR (entered by training providers when learners enrol) and learners' own reports of the qualifications they had before starting their course, as found by the detailed questioning in the survey. These previous studies have all found that the ILR under reports the proportion of learners with any prior attainment, and prior attainment at Full Level 2 or above. This section compares the prior attainment level recorded on the ILR for FE learners enrolled as of November 2009 in order to see whether this pattern is continuing.

5.3 For the majority of adult ALR learners on the ILR, the ILR has information on their prior qualification level before they enrolled on their course. In the cohort of learners falling within the scope of the survey (those aged 19+ who were enrolled on a Full Level 2 or Full Level 3 ALR course in November 2009), the majority (83%) had a prior qualification level marked on the ILR, leaving 17% where the qualification level was 'not known'. This is in line with the situation seen for the 2008/09 eligible cohort sample, where again, 17% of records were missing ILR information on prior attainment.

5.4 Certainly over time the proportion of learners for whom the ILR holds prior qualification information has increased, from 44% of adult FE learners in 2005/06, to 62% in 2006/7, to 73% in 2007/08, to the 83% level in the last two academic years. This reflects the greater emphasis on encouraging providers to collect prior qualification information for all learners to allow better monitoring of Level 2 attainment levels. However, as highlighted above, there have been on-going questions around the **accuracy** of this data, even as the actual **volume** of data collected has increased. The following section looks at whether there is evidence of improvements in the November 2009 data.

5.5 The level of prior qualification on the ILR is shown on the following table, both for all sample provided that fell within the scope of the survey and among those where an interview was achieved. The profile of the achieved sample and of the total sample supplied was very similar; hence the achieved sample is good representation of the all in

scope learners in terms of what is recorded on the ILR as their level of highest prior qualification.

Table 5.1: ILR information on prior achievement

	ILR (all supplied sample in scope)	ILR (achieved sample)
	%	%
No qualifications	11	10
Entry Level and below Level 1	3	3
Level 1	22	23
Level 2	30	31
Level 3	10	10
Level 4/5	5	5
Other qualification, level not known	2	2
Not known	17	16

5.6 Over two-fifths of learners in the population in scope for the survey (45%) were recorded on the ILR as being already qualified to Level 2 or above before starting their course and this was very similar to the proportion among the survey sample (46%). Both figures are lower than the equivalent figure of 70% as derived from the survey data (see Chapter 3), and therefore would seem to indicate that the ILR is failing to record prior attainment at Full Level 2 or above for a substantial portion of learners.

5.7 In order to assess in more detail the relationship between the ILR and the survey data, the following section looks at how the actual prior qualification levels compare on the two datasets, for the same learners. The following chart highlights the discrepancies between the data on prior qualification levels on the ILR and that collected in the survey. The comparison is shown only for those learners where a definite prior qualification level was recorded both on the ILR and through the survey questioning (2,307 out of the 3,000 learners interviewed).

Figure 5.1: Comparison of ILR and survey level of prior achievement for those with prior level recorded on the ILR

Base: Learners with definite prior achievement level from both the ILR and from the survey (LFS measure) (2,307)

5.8 Compared to the survey findings, the ILR suggests a higher proportion of Full Level 2 and Full Level 3 learners with no prior qualifications (12% v 9%), and a much lower proportion with prior qualifications at Full Level 3 or above (18% v 41%). The ILR gives only 6% of learners interviewed for the survey as having a prior qualification at Level 4 or 5, while the survey reports one fifth (19%) of the same learners as having these high level qualifications.

5.9 The ILR gives the incidence of first Full Level 2 learning for these learners as 43%, compared to the survey data, which indicates that only 28% are studying for their first Full Level 2 qualification. The magnitude of the discrepancy between the ILR and survey estimates of prior highest qualification level is very similar to that seen in the 2008/09 survey.

5.10 To further explore the nature of the discrepancy between the ILR and survey measures of prior attainment, Table 5.2 shows data on the extent of agreement between the two data sets in cases where a level of prior attainment was given on the ILR. It shows the extent to which the survey and the ILR differ on the assessment of prior qualification level. It is important to note that this discrepancy may not always be critical in the sense of affecting firstness – if the ILR indicates that a person has no prior qualifications and the

survey suggests that they have a qualification below Level 2, then this is much less critical from a policy angle than where the ILR records a learner as having prior qualifications below Level 2 and the survey indicates they have qualifications at level 2 or higher. The issue of discrepancies regarding first Level 2 qualifications is discussed later in the chapter.

Table 5.2: Comparison of the survey and ILR measures of prior qualification level

Row percentages	Base*		ILR and survey measure the same	ILR higher	Survey measure higher	Survey inconclusive* *
All learners	2,458	%	42	12	42	4
Level of study						
Level 2	1,181	%	41	13	41	4
Level 3	1,277	%	43	11	42	4
Age						
19 – 24	1,148	%	43	11	42	4
25 – 44	1,093	%	41	14	41	4
45 – retirement age	203	%	48	7	41	4

*Base - All records with prior attainment level data provided on the ILR

** 'Survey inconclusive' refers to cases where the level of the highest prior qualification as recorded in the survey cannot be definitively determined (see further explanation at paragraph 3.8).

5.11 Across all learners interviewed where the ILR recorded a prior qualification level, the ILR and survey information on prior achievement level was consistent in just over two-fifths of cases (42%). Where the two measures did not give the same level, the tendency was for the survey to indicate a higher level of prior qualifications than recorded on the ILR: overall for two-fifths of all learners (42%) the level recorded by the ILR was lower than found for the survey, while the reverse was true for one in eight learners (in 12% of cases the ILR appeared to over-state the prior achievement of learners). In a further 5% cases the survey measure of highest prior attainment was inconclusive (see note at paragraph 3.8). Overall the survey of learners again confirms (as with previous studies) that the ILR appears to under-report the level of prior qualifications held by adult ALR Level 2 and Level 3 learners.

5.12 Table 5.2 also shows how discrepancies between the ILR and survey measures differ according to the level of the course and the age of the learner. This shows that there are no significant differences in the degree of discrepancy for Level 2 and Level 3 courses,

but the records for the older learner group (45 to retirement age) are more likely to show agreement between the ILR and survey assessments of prior attainment.

5.13 In order to fully understand the likelihood that a particular claim of firstness on the ILR will be accurate, it is necessary to look at the survey assessment of prior attainment specifically among learners indicated on the ILR as being first Level 2 learners, a base of 1,070 respondents. This is shown in Table 5.3.

5.14 Table 5.3 highlights that the survey confirms the ILR first Level 2 assessment in almost half (47%) of cases. In half of cases (50%), however, the survey indicates that the learners already had a Full Level 2 qualification before starting their course.

Table 5.3: Extent of agreement between survey measure of prior qualification level for learners recorded as first Level 2 learners on the ILR

Row percentages	Base		ILR and survey agree First Level 2	ILR says first Level 2, survey indicates prior attainment at Full Level 2	ILR says first Level 2, survey inconclusive
All recorded on the ILR as first Level 2	1,070	%	47	50	3
Level of study					
Full Level 2 learning	685	%	52	45	3
Full Level 3 learning	385	%	38	60	2
Age					
19 – 24	447		42	55	3
25 – 44	525		51	47	2
45 – RA	89		45	52	3

5.15 The analysis presented in Table 5.3, based as it is only on those learners for whom the ILR states Level 2 firstness, reveals a different pattern than the overall analysis shown in Table 5.2 in terms of level of learning. The incidence of the key ‘error’ on the ILR in assessing Level 2 firstness is highest for Level 3 learners (60%) and below average for Level 2 learners (45%). So where the ILR indicates that a learner entering a Level 3

course has no prior attainment at Full Level 2, the survey is more likely to indicate this as erroneous as compared to an analogous claim for someone enrolling on a Full Level 2 course.

5.16 These patterns by the level of learning can perhaps be explained with reference to the anticipated level of prior qualification individuals should have before undertaking a Level 3 course. It is usual for learners applying for Level 3 courses to have progressed from learning at Full Level 2, and for successful prior attainment at this level to be a pre-requisite for gaining a place on a Level 3 course. Therefore it stands to reason that claims that a given learner is not already qualified to Full Level 2 before starting a Level 3 course are more likely to be wrong than when a learner is starting a Level 2 course. However, it should be noted that even for Level 2 courses, the survey still indicates a concerning level of overstatement on ILR claims of Level 2 firstness.

5.17 It is also possible to specify the actual type of prior qualification held by learners where the ILR and survey measures give different levels of attainment. Table 5.4 lists the specific highest prior qualifications held by those learners with a prior qualification at Full Level 2 or above on the survey data, where the ILR gave the highest prior attainment level as 'no qualification' or below Level 2. This sheds light on the type of prior qualifications apparently missed or omitted from the ILR or miscoded to level, contributing to differences in reported firstness.

Table 5.4: Highest prior qualification where survey indicates a prior Full Level 2 or higher and where ILR stated highest prior qualification as below Full Level 2

Data unweighted	ILR stated highest prior	
	No qualifications	Level 1
Base: Learners for whom survey indicates have prior Full Level 2 or higher and ILR indicates highest prior qualifications below Full Level 2	152	387
	%	%
GCSE/O level grade A-C or equivalent (L2)	16	17
A level or equivalent	16	10
NVQ Level 2	11	20
NVQ Level 3	11	4
Apprenticeship	7	7
Degree	7	4
Diploma in higher education	5	4
OND,ONC,BTEC etc, national	4	4
Other HE below degree	4	9
GNVQ intermediate	3	1

Data unweighted	ILR stated highest prior	
	No qualifications	Level 1
A,S level or equivalent (L2)	2	1
BTEC,SCOTVEC first or general diploma	2	4
City & Guilds craft	1	3
City & Guilds advanced craft	1	2
HNC,HND,BTEC etc higher	1	4
Access to HE	1	2
GNVQ advanced	1	1
RSA advanced or higher	1	1
Teaching qualification	1	-
RSA diploma	-	1
Nursing qualification	-	1
A,S level or equivalent (L3)	-	1

5.18 The prior qualifications revealed by the survey for these learners recorded as having no prior qualifications were most commonly:

- GCSEs/O levels at Full Level 2 (16%)
- A Levels (16%)
- NVQ Level 2 (18%) and NVQ Level 3 (11%).

5.19 Those recorded on the ILR as having a Level 1 qualification, where the survey found the learner indicated that they had a prior qualification at Level 2 or higher, most commonly had:

- NVQ Level 2 (20%)
- GCSEs/O levels at Full Level 2 (17%)
- A Levels (10%)

5.20 The issue of why discrepancies may exist between the survey and ILR measures has been discussed in more detail in the report of findings from the recent 'provider-level' research carried out by IFF Research for the Skills Funding Agency and BIS. This discusses in more detail the factors influencing the incidence of discrepancy, and provider views on recording accurate prior attainment information on the ILR.

5.21 This provider-level report found evidence that some discrepancies in recording of Level 2 firstness might be linked to the way prior attainment is recorded for those who have previously studied with the provider. A requirement of the ILR (not that his always

understood or followed by providers) is that the level of prior achievement is based on what the learner has when they first come to the provider, not what they have when they start a particular course. Hence a learner arriving at a provider with a highest qualification below Level 2 who undertakes a Full Level 2 qualification with the provider and progresses with them to a Level 3 qualification, should be recorded on the ILR for this latter course as undertaking their first Full Level 2 qualification, despite their having attained a Full Level 2 when they start the level 3 course. For the survey, the questioning asks simply about the qualifications at the time they start the course. For this reason, among Level 3 learners that had studied with the provider previously, some of the cases where the ILR shows no prior Level 2 qualifications and the survey indicates they have a prior Level 2 may be 'legitimate' in that the ILR is recording what it is intended to record.

5.22 This provider-level research, referring to learners on provision in November 2008, showed that the proportion of cases in which the survey disputed an ILR claim of first Full Level 2 learning was higher for those who had studied with the provider before (at 56%). Furthermore, around a third (34%) of all Level 3 learners who were recorded as first Level 2 learners on the ILR but not through the survey (a base of 433 learners) had studied with the same provider before starting their Level 3 course. This indicates that for some learners the discrepancy between the survey and the ILR assessment of prior qualifications at level 2 is 'legitimate'. In the current dataset, the discrepancy rate for first Level 2 learning is again higher for those learners who had studied with the provider before, but the effect is not statistically significant.

Appendices

A – Quotas and weighting

The quota targets for the ALR section of the survey were calculated to ensure a spread of interviews directly proportional to the age of learners in the population of eligible learners derived from the ILR, within level of learning. Half of the interviews were allocated to Level 2 and half to Level 3. The following table shows the quota targets specified.

Quota targets – ALR Learners					
	19-24	25-44	45 to retirement age	Over retirement age	Total
<i>Learning type:</i>					
FE Full 2	559	762	169	10	1,500
FE Full 3	787	617	93	3	1,500
<i>Total</i>	1,346	1,379	262	13	3,004

As shown in the table below, the final achieved interview figures were very close to these target quotas, with each learning level and age category accounting for the intended overall proportion of the total interviews.

Final achieved interviews – ALR Learners					
	19-24	25-44	45 to retirement age	Over retirement age	Total
<i>Learning type:</i>					
FE Full 2	562	762	169	12	1,505
FE Full 3	784	617	95	3	1,499
<i>Total</i>	1,343	1,379	264	15	3,004

At the analysis stage, the survey data was grossed up to reflect the full populations of ALR learners (aged 19+) in Full Level 2 or Full Level 3 ALR learning as of November 1st 2009. The grossing-up process was designed so that the profile of learners by learning level and

age would match the population profile. The following table shows the population figures to which the survey data has been grossed up, totalling c. 211,422.

Population figures – Eligible FE Full L2 and Full L3 ALR Learners in November 2009					
	19-24	25-44	45 to retirement age	Over retirement age	<i>Total</i>
<i>Learning type:</i>					
FE Full 2	39,571	53,934	12,003	729	106,237
FE Full 3	55,161	43,280	6,497	247	105,185
<i>Total</i>	<i>94,732</i>	<i>97,214</i>	<i>18,500</i>	<i>976</i>	<i>211,422</i>

B - Sample outcomes and response rate

In total, c.6,000 learners were called at least once for the survey, resulting in 3,004 complete interviews; this includes many for whom no definite outcome was achieved, or where sample was removed because quota targets had been achieved.

The response rate can be taken to be the number of completed interviews (3,004) as a proportion of all definite outcomes in scope (i.e. excluding wrong numbers or those not recalling the course detailed on the ILR). In effect, this is derived from the following calculation:

Completed interviews / (Completed interviews + Quit during interview + Refused + Other dead outcome)

The response rate for this survey was **75%**.

C – Detailed information on personal income

The following tables provide more information on the personal income of adult learners at the time of survey, based on those who had completed their course by this time. Data is shown split by level of study, age and employment status at the time of interview. Data for some groups cannot reliably be represented because the base number of interviews is very low, at less than 20. In other cases, the base size is between 20 and 50 interviews, and the data should be used with caution.

Table C.1 - Personal income (annual) amongst adult learners who had completed November 2009 course by time of interview – By age within level

	All who completed course	Level 2 – All	Level 2 – Age 19-24	Level 2 – Age 25+	Level 3 - All	Level 3 – Age 19-24	Level 3 – Age 25+

D - Questionnaire

2010 Prior Achievements Questionnaire 2010

IFF Research

J4894

INT1) Can I speak to (NAMED RESPONDENT) please?

Yes	1	Continue to intro (INT2)
No – no longer lives there	2	ASK INT1A
No – refusal	3	Thank and Close
Call back	4	Make appt

INT1A) Can you give me the correct number for [NAMED RESPONDENT]?

RECORD NEW PHONE NUMBER AND RE-DIAL

DP INSTRUCTION: LOOP BACK TO INT1

Yes	RECORD NEW NUMBER FOR NAMED CONTACT. UPDATE SAMPLE WITH NEW TEL NO.
No	THANK AND CLOSE

WHEN SPEAKING TO NAMED RESPONDENT

INT2) Hello, my name is XXX and I'm calling from IFF Research, an independent market research company. We are conducting a survey on behalf of Skills Funding Agency, formerly part of the Learning and Skills Council, of people who were on [FE / Apprenticeship/Train to Gain] courses at colleges or training providers in late 2009 (i.e. last year). It is an important study for the Skills Funding Agency, and will help them understand the qualifications that people had before starting their learning.

The interview only takes about 10 minutes. All responses you give will be strictly confidential – we are only reporting anonymised responses back to the Skills Funding Agency.

Would now be a convenient time to undertake the interview (or could I call you back later at a more convenient time)?

REASSURANCES: USE AS NECESSARY

Where did you get my name / number from? The sample was drawn at random from records held by the Learning and Skills Council on recent learners [in FE/on Apprenticeships/Train to Gain].

Who are the Skills Funding Agency?: The Skills Funding Agency is a new government organisation which took over many of the functions of the LSC, and are responsible for planning and funding high-quality vocational education and training for adults in England.

Contacts:

At IFF – XX or XX at IFF Research on XXX

At the Skills Funding Agency XXX

IFF works strictly within the Market Research Society Code of Conduct. The MRS has a freephone number, 0500 396999.

RECORD FROM SAMPLE:

S1) GENDER

Male	1	
Female	2	

S2) AGE

19-24	1	
25-44	2	

45-60 (if female) / 45-65 (if male)	3	
61+ (if female) / 66+ (if male)	4	

S3) FE LEVEL

FE Full Level 2	1	
FE Full Level 3	2	
FE Part Level 3	3	

S4) REGION

EE East of England	1	
EM East Midlands	2	
GL Greater London	3	
NE North East	4	
NW North West	5	
SE South East	6	
SW South West	7	
WM West Midlands	8	
YH Yorkshire & Humberside	9	

S6A) TTGNNOV

YES	1	
NO	2	

S7) APPRENTICESHIP

YES	1	
NO	2	

S7A) MAIN FE

YES	1	
NO	2	

1) First can I just check, in late 2009 were you enrolled on a course at (INSERT COLLEGE or PROVIDER)?
 [IF ASKED ADD 'by late 2009 we mean 'November' 2009]

Yes	1	ASK Q1a
No / not sure	3	THANK AND CLOSE

1a) Which of the following apply...(READ OUT)?

Are you still on the same course	1
Or did you complete the course	2
Or did you not complete the course	3
(DO NOT READ OUT) Don't know	X

ASK ALL

- 1b) Which course or programme [TEXT SUB: are you enrolled on (Q1a=1) / were you enrolled on in November 2009 (Q1a NOT 1)] at (INSERT COLLEGE or PROVIDER)]?

Text:	1	Go to Q2
-------	---	----------

- 2) The first area I would like to cover is any qualifications you may have had **BEFORE** you started the [INSERT TEXT FROM Q1b] course or programme with [NAME OF PROVIDER]. I am interested in any qualification you had before starting the course, whether you got it at school or college or through work or training; and no matter how long ago you got them. So do you have any qualifications from any of the following? READ OUT

		Yes	No	Don't know
A	School, college or university	1	2	3
B	Connected with work, whether your current employer or a previous one	1	2	3
C	From government schemes	1	2	3
D	From an Apprenticeship	1	2	3
E	From having been educated at home, when you were of school age	1	2	3

IF NO/DON'T KNOW TO ALL OPTIONS AT Q2 ASK Q3 (OTHERS GO TO QUALIFICATIONS SECTION)

- 3) So can I just check, you left full time education with no qualifications and have not gained any qualifications since then, for example through work or returning to college?

Correct – no qualifications	1	CHECK SECTION ON ADDITIONAL DFES QUESTIONS
No – DO have qualifications	2	GO TO QUALIFICATIONS SECTION
Not sure if what have counts as a qualification	3	GO TO QUALIFICATIONS SECTION
Can't remember if have qualification	4	THANK AND CLOSE (THIS DOES NOT COUNT AS AN INTERVIEW)

IF ANY QUALIFICATIONS:

- 4) Before I run through some qualifications, can you tell me if you had any qualifications specific to Scotland or Wales before starting your [INSERT TEXT FROM Q1b] course (ADD IF NECESSARY: such as SCOTVEC or SCEs)?

Yes – Scottish	1	IF THIS SINGLE CODED EXCLUDE UNDERLINED IN ITALICS AT Q5
Yes – Welsh	2	IF THIS SINGLE CODED EXCLUDE THOSE IN PLAIN UNDERLINING AT Q5
No	3	EXCLUDE QUALIFICATIONS UNDERLINED IN FOLLOWING TABLE

- 5) I'd like to run through a list of qualifications to see which you had BEFORE starting your [INSERT TEXT FROM Q1b] course. (IF Q2 has at least one Yes among first 4 statements: "Please include all those acquired from [list statements answered YES AT Q2_a to Q2_d]"). However, please do NOT include the qualifications which your [INSERT TEXT FROM Q1b] course is/was intended to lead to. READ OUT. INTERVIEWER INSTRUCTION: PLEASE READ OUT ALL PRECODES TO CHECK WHETHER RESPONDENT HAS THAT QUALIFICATION. ADD IF NECESSARY THAT WE NEED

TO DOUBLE CHECK THAT THEY DO NOT HAVE CERTAIN QUALIFICATIONS, AND THAT AFTER THIS MAIN QUESTION, THE SURVEY IS MUCH SIMPLER.

ALL QUALIFICATIONS ATTAINED OUTSIDE THE UK SHOULD BE CODED AS OTHER FOREIGN CODE 31 (EXCEPT INTERNATIONAL BACCALAUREATE).

	Code	Max level achievable with qualification
A degree level qualification acquired in the UK including foundation degrees, a BSc, a BA, MA or a PhD, graduate membership of a professional qualification a PGCE (Post Graduate Certificate of Education), or higher	1	5
A Diploma in Higher Education: this usually takes two years full-time or three years part-time. (Examples are DipHE in youth and community work, or DipHE in design)	2	4
HNC / HND (Higher National Certificate / Higher National Diploma)	3	4
ONC / OND (Ordinary National Certificate / Ordinary National Diploma)	4	3
BTEC / BEC / TEC / EdExcel/ LQL	5	4
SCOTVEC, SCOTEC or SCOTBEC	6	4
Teaching qualification other than PGCE	7	4
Nursing or other medical qualification (excluding nursery nurse qualifications) not yet mentioned (please do not include first aid courses)	8	4
Other Higher Education qualifications below degree level	9	4
A levels (if respondent aged 60 plus add: including Higher School Certificate and Matriculation Higher), Vocational A levels or equivalent	10	3

	Code	Max level achievable with qualification
The New Diploma – these are a new qualification introduced in September 2008 designed for 14-18 year olds	11	
NVQ / <u>SVQ</u>	12	5
GNVQ / <u>GSVQ</u>	13	3
AS-level / vocational AS-level or equivalent	14	3
Certificate of 6 th Year Studies (CSYS)	15	3
Access to HE	16	3
O levels or AO levels (if respondent aged 60 plus add School Certificate and Matriculation) [nb ended in 1988]	17	2
<u>Standard/Ordinary (O) Grade/Lower (Scotland)</u>	18	3
GCSEs [nb introduced from 1988] or Vocational GCSEs	19	2
CSEs [nb ended in 1988]	20	2
<u>National Qualifications including Advanced Higher, Higher, Intermediate and Access qualifications</u>	21	4
RSA or OCR	22	4
City and Guilds	23	3
YT Certificate	24	1
Key Skills / Core Skills (Scotland)	25	2
Basic Skills including Skills for life/literacy/numeracy/ESOL	26	1
<u>Welsh Baccaulaureate</u>	27	Level 3
International Baccaulaureate (acquired UK/ elsewhere)	28	Level 3

	Code	Max level achievable with qualification
<u>Entry Level Qualifications</u>	29	1
Any other professional or vocational qualification such as HGV or first aid qualification (IF YES: Can you tell me what such qualifications you have?) INTERVIEWER NOTE: INCLUDE HEALTH AND SAFETY AND FOOD HYGIENE CERTIFICATES HERE. MULTICODE OK.	30	Level derived (if highest) from next but one section
Any foreign, non-UK qualifications (IF YES: Can you tell me what such qualifications you have?) INTERVIEWER NOTE: INCLUDE ALL QUALIFICATIONS ACQUIRED OUTSIDE THE UK EXCEPT INTERNATIONAL BACCALAUREATE. MULTICODE OK. PROBE FOR COUNTRY, NAME OF QUALIFICATION, NUMBER ACHIEVED AND UK EQUIVALENT WHERE POSSIBLE	31	Level derived (if highest) from next but one section
Which other qualifications, if any, do you have? (LIST) INTERVIEWER NOTE: ENTER ONE QUALIFICATION ONLY. PROBE FOR TYPE, LEVEL, NUMBER WHERE APPLICABLE AND SUBJECT	32	Level derived (if highest) from next but one section
Any other qualifications? (LIST) INTERVIEWER NOTE: ENTER ONE QUALIFICATION ONLY. PROBE FOR TYPE, LEVEL, NUMBER WHERE APPLICABLE AND SUBJECT	33	Level derived (if highest) from next but one section
Any other qualifications? (LIST) INTERVIEWER NOTE: ENTER ONE QUALIFICATION ONLY. PROBE FOR TYPE, LEVEL, NUMBER WHERE APPLICABLE AND SUBJECT	34	Level derived (if highest) from next but one section

SECTION: FOLLOW UP ON QUALIFICATIONS TO DETERMINE HIGHEST LEVEL & 'THINNESS'

Before starting your [INSERT TEXT FROM Q1b] course.....

IF BTEC/ BEC / TEC / EdExcel / LQL AT Q5

6) Was your highest BTEC qualification...READ OUT AND CODE FIRST THAT APPLIES

At higher level (level 4 or higher)	1	Full (100%) level 4
At National Certificate or National Diploma level (level 3)	2	Full (100%) level 3
A first diploma or general diploma (level 2)	3	Full (100%) level 2
A first certificate or general certificate (below level 2)	4	Full (100%) level 1
(DO NOT READ OUT) not sure	5	= treat as full (100%) level 1 for determining level

IF SCOTVEC / SCOTEC / SCOTBEC AT Q5

7) Was your highest SCOTVEC qualification...READ OUT AND CODE FIRST THAT APPLIES

At higher level (level 4 or higher)	1	Full (100%) level 4
A full National Certificate (level 3)	2	Full (100%) level 3
A first diploma or general diploma (level 2)	3	Full (100%) level 2
A first certificate or general certificate (below level 2)	4	Full (100%) level 1
Modules towards a National Certificate	5	Part level 1
(DO NOT READ OUT) not sure	6	= treat as part level 1 for determining level

IF A LEVEL AT Q5

8) Did you have...

One A level (or equivalent)	1	Counts as 50% of level 3
Or more than one	2	Full (100%) level 3
(DO NOT READ OUT) not sure	3	= treat as (50%) level 3 for determining level

IF SCE HIGHERS AT Q5

9) There is no q9 (moved to q18a)

IF NVQ/SVQ AT Q5

10) What was your highest level of full NVQ / SVQ...

Level 1	1	Full (100%) level 1
Level 2	2	Full (100%) level 2
Level 3	3	Full (100%) level 3
Level 4	4	Full (100%) level 4
Or Level 5	5	Full (100%) level 5
(DO NOT READ OUT) not sure	6	= full level 1 for determining level

IF NEW DIPLOMA AT Q5

10a) What was your highest level of New Diploma...

Advanced Diploma	1	Full (100%) level 3
Progression Diploma	2	Full (100%) level 3
Higher Diploma	3	Full (100%) level 2
Or Foundation Diploma	4	Full (100%) level 1
(DO NOT READ OUT) not sure	5	Full (100%) level 1

IF GNVQ/GSVQ AT Q5

11) Was your highest GNVQ / GSVQ at...?

Advanced level 12 units	1	Full (100%) level 3
Advanced level 6 units	2	Part (50%) level 3
[DO NOT READ OUT] Advanced level – unsure of units	3	Full (100%) level 3
Full intermediate level (6 units)	4	Full (100%) level 2
Part one intermediate level (3 units)	5	Part (50%) level 2
[DO NOT READ OUT] Intermediate level – unsure of units	6	Full (100%) level 2
Full foundation level (6 units)	7	Full (100%) level 1
Part one foundation level (3 units)	8	Part (50%) level 1
[DO NOT READ OUT] Foundation level – unsure of units	9	Full (100%) level 1
(DO NOT READ OUT) Can't remember / Don't know	10	= full level 1 for determining level

IF AS-LEVEL AT Q5

12) Did you have...

One AS level	1	Counts as 25% of level 3
Two AS levels	2	Counts as 50% of level 3
Three AS levels	3	Counts as 75% of level 3
Four or more AS levels	4	Counts as 100% of level 3
(DO NOT READ OUT) not sure	5	Counts as 25% of level 3

IF HAVE O LEVELS OR AO LEVELS

13) How many O levels or AO levels did you have in total? PROMPT IF NECESSARY. IF DON'T KNOW / CAN'T REMEMBER ASK IF LESS THAN FIVE

One	1	Counts as 20% of a level 2
Two	2	Counts as 40% of a level 2
Three	3	Counts as 60% of a level 2
Four	4	Counts as 80% of a level 2
Or 5 or more	5	Full (100%) level 2
Can't remember but less than 5	6	= treat as 20% of a level 2
(DO NOT READ OUT) Can't remember at all	7	= treat as 20% of a level 2

IF HAVE SCE STANDARD / ORDINARY O GRADE

14) How many SCE Standard grades 1-3 or O grades at grade C did you have? PROMPT IF NECESSARY. IF DON'T KNOW / CAN'T REMEMBER ASK IF LESS THAN FIVE

None	1	Counts as full level 1
One	2	Counts as 20% of a level 2
Two	3	Counts as 40% of a level 2
Three	4	Counts as 60% of a level 2
Four	5	Counts as 80% of a level 2
Or 5 or more	6	Full (100%) level 2
Can't remember but less than 5	7	= treat as 20% of a level 2
(DO NOT READ OUT) Can't remember at all	8	= treat as 20% of a level 2

IF HAVE GCSEs

- 15) How many GCSEs grade C or above did you have? PROMPT IF NECESSARY. IF DON'T KNOW / CAN'T REMEMBER ASK IF LESS THAN FIVE

None	1	Counts as full level 1
One	2	Counts as 20% of a level 2
Two	3	Counts as 40% of a level 2
Three	4	Counts as 60% of a level 2
Four	5	Counts as 80% of a level 2
Or 5 or more	6	Full (100%) level 2
Can't remember but less than 5	7	= treat as 20% of a level 2
(DO NOT READ OUT) Can't remember at all	8	= treat as 20% of a level 2

IF HAVE CSEs AT Q5

- 16) How many CSEs did you have at grade 1? PROMPT IF NECESSARY. IF DON'T KNOW / CAN'T REMEMBER ASK IF LESS THAN FIVE

None	1	Counts as full level 1
One	2	Counts as 20% of a level 2
Two	3	Counts as 40% of a level 2
Three	4	Counts as 60% of a level 2
Four	5	Counts as 80% of a level 2
Or 5 or more	6	Full (100%) level 2
Can't remember but less than 5	7	= treat as 20% of a level 2
(DO NOT READ OUT) Can't remember at all	8	= treat as 20% of a level 2

IF NATIONAL QUALIFICATIONS (SCOTLAND) AT Q5

- 17) Was your highest National Qualification... READ OUT AND CODE FIRST THAT APPLIES?

Advanced higher	1	ASK NEXT QUESTION
Higher	2	ASK Q18a
Intermediate level 2	3	<u>ASK Q20</u>
Intermediate level 1	4	<u>ASK Q19</u>
Access Level	5	Full (100%) level 2
(DO NOT READ OUT) not sure	6	Full (100%) level 2 for determining level

IF ADVANCED HIGHER NATIONAL QUALIFICATIONS (SCOTLAND) INCLUDING SCE INTERMEDIATE AT PREVIOUS QUESTION

18) Did you have ... READ OUT AND CODE?

One advanced higher	1	Part (50%) level 4
Or more than one	2	Full (100%) level 4
(DO NOT READ OUT) not sure	3	= Part (50%) level 4 for determining level

IF HIGHER AT Q17

Q18a) Did you have...

One Higher	1	Counts as 33% of level 3
Two Highers	2	Counts as 66% of level 3
Three of more Highers	3	Full (100%) level 3
(DO NOT READ OUT) not sure	4	= treat as 33% of level 3 for determining level

IF INTERMEDIATE LEVEL 1 AT Q17

19) How many Scottish National Qualifications Intermediate level 1 did you have at grade B or above ... READ OUT AND CODE?

None	1	Counts as full level 1
One	2	Counts as 20% of a level 2
Two	3	Counts as 40% of a level 2
Three	4	Counts as 60% of a level 2
Four	5	Counts as 80% of a level 2

Five or more	6	Full (100%) level 2
(DO NOT READ OUT) not sure	7	= treat as 20% of a level 2

IF INTERMEDIATE LEVEL 2 AT Q17

- 20) How many Scottish National Qualifications Intermediate level 2 did you have at grade C or above ...
READ OUT AND CODE?

None	1	Counts as full level 1
One	2	Counts as 20% of a level 2
Two	3	Counts as 40% of a level 2
Three	4	Counts as 60% of a level 2
Four	5	Counts as 80% of a level 2
Five or more	6	Full (100%) level 2
(DO NOT READ OUT) not sure	7	= treat as 20% of a level 2

IF CITY AND GUILDS AT Q5

- 21) Was your highest City and Guilds qualification... READ OUT AND CODE FIRST THAT APPLIES?

Advanced Craft / part 3	1	Full (100%) level 3
Craft / part 2	2	Full (100%) level 2
Foundation / part 1	3	Full (100%) level 1
(DO NOT READ OUT) not sure	4	= Full level 1 for determining level

IF RSA / OCR AT Q5

22) Was your highest RSA or OCR...? READ OUT AND CODE FIRST THAT APPLIES

A higher diploma	1	Full (100%) level 4
An advanced diploma or advanced certificate	2	Full (100%) level 3
A diploma	3	Full (100%) level 2
Or Some other RSA or OCR (including Stage I, II and III)	4	Full (100%) level 1
(DO NOT READ OUT) not sure	5	Treat as full (100%) level 1

IF APPRENTICESHIP AT Q2 (Q2D=1):

ZQ23) When did you complete your apprenticeship? Did you complete before 1995 or in 1995 or later?

Before 1995	1	Treat as full level 2
In 1995 or more recently	2	ASK ZQ24
(DO NOT READ OUT) Can't remember	3	Treat as full level 2

IF APPRENTICESHIP ACHIEVED AFTER 1995 (ZQ23=2):

ZQ24) Was your Apprenticeship at ...? READ OUT?

Advanced level (Advanced Apprenticeship or Advanced Modern Apprenticeship)	1	Full (100%) level 3
Foundation level (Apprenticeship or Foundation Modern Apprenticeship)	2	Full (100%) level 2
(DO NOT READ OUT) Not sure	3	Treat as full level 2

IF 'Welsh Baccalaureate' AT Q5 ASK

24a) Is your Welsh Baccalaureate ... READ OUT?

At Foundation level	1	100% level 1
At the intermediate level	2	100% level 2
Or the advanced level	3	100% level 3
(DO NOT READ OUT) not sure	4	100% level 1

SECTION FOR 'OTHER' AND 'FOREIGN' QUALIFICATIONS AT Q5 (i.e. codes 30-34)

(OTHERS CHECK Q30a)

IF 'OTHER' OR FOREIGN QUALIFICATION CODED AT Q5 (codes 30-34) AND THIS MULTICODED WITH OTHER RESPONSES (including 2 other responses, or an other and a foreign qualification) ASK Q25 (IF 30-34 AT Q5 AND THIS SINGLE CODED ASK Q26)

25) You've mentioned that you had a number of qualifications before starting your [INSERT TEXT FROM Q1b] course. Which of the following do you regard as the highest qualification? READ OUT. SINGLE CODE ONLY

(INSERT EACH OF THOSE CODED FROM 1-29 IF ANY. ALSO INSERT ANY OF Q2_E AND Q2_F IF CODED)	1	GO TO NEXT SECTION
INSERT TEXT OF 'OTHER' (CODE 30 IF APPLICABLE)	2	ASK NEXT QUESTION
INSERT TEXT OF 'OTHER' (CODE 31 IF APPLICABLE)	3	
INSERT TEXT OF 'OTHER' (CODE 32 IF APPLICABLE)	4	
INSERT TEXT OF 'OTHER' (CODE 33 IF APPLICABLE)	5	

INSERT TEXT OF 'OTHER' (CODE 34 IF APPLICABLE)	6	
INSERT TEXT OF ANY FOREIGN QUALIFICATIONS (CODE 31)	7	
All equal	8	see instructions below*
Not sure	9	GO TO NEXT SECTION

*if "All Equal" coded, set dummy variable below and re-ask Q25 based on which is most recent.

EQUALDUM = 1 if Q25="All equal"

IF CODES 30-34 AT Q5 SINGLE CODED, OR IF CODE 2 - 7 AT Q25 (OTHERS GO TO NEXT SECTION)

- 26) Can you tell me a bit more about this qualification. What age were you when you achieved it? IF DON'T KNOW EXACT THEN HAVE A RANGE

16 or under	1
17-18	2
19-24	3
25 plus	4
Can't remember	5

- 27) Were there entry requirements for starting this qualification, for example could you only start learning for this qualification if you had other qualifications or if you had relevant experience?

Yes – entry requirements	1	ASK Q28
No – entry requirements	2	ASK Q29

Can't remember	3	
----------------	---	--

IF ENTRY REQUIREMENTS

28) What other qualifications or relevant experience did you need?

IF CODES 30-34 AT Q5 SINGLE CODED, OR IF CODE 2 - 7 AT Q25

29) How long did it take to achieve this qualification from start to completion? PROMPT WITH RANGES IF NECESSARY

A month or less	1
More than a month but less than 3	2
More than 3 months but less than 6	3
More than 6 months but less than 9	4
More than 9 months but less than a year	5
Between 1 year and 18 months	6
More than 18 months	7
Can't remember	8
Other (RECORD HOW LONG AND DETAILS PROVIDED)	0

IF Q29 = 3-8 OR 0

29a) And was the course a full-time or part-time course?

Full-time	1
Part-time	2
Can't remember	3

- 30) INTERVIEWER EITHER CLASSIFY INTO LEVEL IF CLEAR OR CHECK WITH RESPONDENT: Qualifications are often classified into broad levels. Which of the following broad descriptions do you think comes closest to the level of this qualification?

INTERVIEWER INSTRUCTION – USE PREVIOUS ANSWERS TO HELP GAUGE ESTIMATED LEVEL RELEVANT

Estimated at:

Level 1 which is entry or foundation level - this includes short courses.	1	= level 1
A level 2 intermediate qualification, such as O levels or City and Guilds craft level	2	= level 2
A level 3 advanced qualification such as A levels, and ONC or OND or a City and Guilds Advanced craft. This is likely to take 2 years to complete, and would not be gained by anyone under 17.	3	= level 3
A first degree (this would take 2-3 years to complete and you would normally need qualifications at A level or equivalent) [Would be 20 plus to acquire this]	4	= level 4
A higher degree like an MBA or a PhD (this would take a number of years to complete and would normally require a first degree). [Would be over 20 to acquire this].	5	= level 5
Don't know / unsure	6	= UNCLEA R

IF SAY 'Teaching qualification other than PGCE' AT Q5 (Q5=7) ASK 30a (OTHERS CHECK Q30b)

30a) You said earlier that you had some teaching qualification other than a PGCE. Can you tell me a bit about this teaching qualification?

INTERVIEWER NOTE: IN EACH INSTANCE READ OUT & ASK EACH OF:

- Where you attained it
- At what age
- How long it took
- Whether you needed any qualifications to get on the course and, if so, what qualifications
- Whether it was a full or part-time course?

INTERVIEWER NOTE – ENTER ANSWER TO EACH PART OF QUESTION BEFORE MOVING ONTO NEXT.

NOW CHECK Q30aii

30aii) Was this teaching qualification for...READ OUT (CODE ALL THAT APPLY)

Further Education	1	Now check q30b
Key Stage 4	2	
Key Stage 3	3	
Key Stage 2	4	
Key Stage 1	5	
Foundation stage	6	
(ONLY READ OUT IF NONE YES) None of the above	7	
Can't remember / don't know	8	

IF SAY 'Nursing or other medical qualification, excluding nursery nurse qualifications' AT Q5 (Q5=8) ASK Q30b, (OTHERS CHECK NEXT PAGE)

Q30b) You said earlier that you had some Nursing or other medical qualification, excluding nursery nurse qualifications. Can you tell me a bit about this nursing qualification – where you attained it, at what age, how long it took, whether you needed any qualifications to get on the course and, if so, what qualifications and finally whether it was a full or part-time course? Also can you tell me what type of job the qualification was needed for.

INTERVIEWER NOTE – ENTER ANSWER TO EACH PART OF QUESTION BEFORE MOVING ONTO NEXT.

--

CATI TO DETERMINE HIGHEST QUALIFICATION OR QUALIFICATIONS

IF Q5 SINGLE CODED HIGHEST QUALIFICATION = ANSWER AT Q5

IF Q25 ANSWERED CODE 2-7 TAKE ANSWER OF HIGHEST QUALIFICATION FROM ANSWER AT Q25

IF Q25 ANSWERED AS CODE 1 (REFERRING TO A RESPONSE CODED AT Q5 AS 1-29) AND ONLY ONE ANSWER AT Q5 CODED 1-29 TAKE THIS AS HIGHEST QUALIFICATION

OTHERS TAKE HIGHEST QUALIFICATION (S) FROM HIGHEST QUALIFICATION FROM Q5-Q30 RESPONSES (LEVEL 3 FULL HIGHER THAN A PART LEVEL 3; PART LEVEL 3 HIGHER THAN LEVEL 2 ETC ETC)

NOTE:

IF A LEVEL AND AS LEVEL SELECTED AS HIGHEST THEN ALWAYS CHOOSE A LEVEL A S HIGHEST AND ASK Q32 (ONE QUAL HIGHEST)

- 31) **IF MORE THAN ONE QUALIFICATION HIGHEST (OTHERS ASK Q32)**
 From what you have told us about the qualifications you had before starting your [INSERT TEXT FROM Q1b] course, we take it that your highest qualifications were <insert qualifications>. Which of these did you achieve most recently? SINGLE CODE ONLY

<Highest qualification 1>	1	ASK Q32
<Highest qualification 2>	2	
<Highest qualification 3>	3	
Two or more at the same time	4	
Don't know	5	

SAY TO ALL WITH QUALIFICATIONS

- 32) **IF ONE QUALIFICATION HIGHEST:** From what you have told us about the qualifications you had before starting your [INSERT TEXT FROM Q1b] course, we take it that your highest qualification was <insert qualification>. How many years ago did you achieve this qualification? IF UNSURE PROMPT WITH RANGES.

IF MORE THAN ONE QUALIFICATION HIGHEST: How many years ago did you achieve [<ANSWER FROM Q31> IF CODES 1-3 OR IF DON'T KNOW OR CODE 4 'the most recent of these qualifications']

EXACT NUMBER OF YEARS AGO THAT ACHIEVED _____	1	RECORD EXACT YEAR (1920-2009)
Don't know	2	ASK Q33

IF DON'T KNOW (OTHERS ASK Q34)

- 33) Roughly how many years ago would you say it was...? READ OUT

Within the last 3 years	1
Within the 5 years	2
Within the last 10 years	3
Within the last 20 years	4
Within the last 30 years	5
More than 30 years ago	6
Don't know	7

ASK ALL EXCEPT THOSE SINGLE CODE AT Q5 (IF SINGLE CODED GO TO NEXT SECTION)

- 34) Have you gained any other qualifications since your {[<highest qualification> if only one highest qualification identified by CATI] OR [<highest qualification> at q31 if codes 1-3] OR ['these highest qualification' if other answer at q31]}? Please do not include the [INSERT TEXT FROM Q1b] course that you were enrolled on in November 2009.

Yes	1	ASK Q35
No	2	GO TO NEXT SECTION
Don't know	3	

ASK ALL WITH MORE RECENT QUALIFICATIONS (ie YES AT Q34)

- 35) What was the most recent qualification that you had before starting your [INSERT TEXT FROM Q1B] course? LIST ANSWERS FROM Q5 [PLUS AN OTHER – NOTE TO RESEARCH - WE WILL NEED TO EDIT THESE] AND PROMPT IF NECESSARY
- 36) And how many years ago did you achieve <ANSWER FROM Q35>?
-

EXACT NUMBER OF YEARS AGO THAT ACHIEVED _____	1	RECORD EXACT YEAR (1920-2009)
Don't know	2	ASK Q37
