Subject: Enterprise Inns

Dear Sir, Madam

I understand that a government led initiative is underway to investigate how certain arrangements are made between pub companies and their publicans. My partner and I run a business in one of Enterprise inns pubs. We have always found Enterprise inns to be fair, approachable and understanding in any dealings that we have had. We have recently arranged a new rent agreement that will help us significantly in the coming months, Enterprise inns were not obliged to do anything as we willingly signed a contract and agreed upon a rent for a fixed period. By doing this, Enterprise inns have given our small business a fighting chance to get through a challenging and difficult time. I really hope this message is read by the people conducting this investigation and would be happy to assist in any way going forward.

Many thanks
