Dear sir as a ex publicans of standing who was driven out by unfair brewery practice. I am distressed to see so many fine locals closing for no other reason than they are uneconomic for couples to run them, because a living cannot be made. This is all due to unfair rents and pricing from pub companies and brewers. Pub seem to be going to people now who just have the money for the ingoing but checks on there background should be more thorough to find where the money has come from.

Kind Regards
