Hello

are lessees of

We cannot compete with the of us because:

We have to pay £313.00 to Enterprise Inns for a 22gal of Carling lager when our close competition pays less than £200.00; and we pay £124.000 for a nine gal. of cask ale.

We have to pay £31.20 for a 1.5ltr. of vodka when Makro sell it for £19.95.

Is it fair that even though Enterprise Inns are well aware that we cannot compete with the pubs around us, they will offer no help at all.

of our local competition ( have had a face lift in the , and look clean and welcoming, Is it fair that the 'lease support works' (see attached) required at the and agreed with Eip before we signed the lease in June 2010, have never been started? We can't afford to fight them through the courts.

In a nut shell, we are the scruffiest pub for miles around and the most expensive to drink in, a recipe for bankruptcy if ever there was one. We are pinning our hopes on the Government having the 'bottle' to do what's right.

..
