To whom it may concern,

I would like to add my support to the consultation process regarding the tied pub company model without which I would not be in the position I am today operating a successful pub at the heart of my community.

Enterprise has enabled me to both operate my own pub business and supported me through getting the presentation and offer right for my customers. This has included decorating the outside of the pub, reconditioning the furniture to give my customers a place to sit. They have helped with financial support by way of initial rent concessions to give me the opportunity to get works done myself to further improve my pub. I have plans to go on and decorate my function room.

I am very proud of what I have achieved at the and I hope that you recognise that without the help and support Enterprise have shown I doubt the pub would still be a pub today but rather a matching block of flats as has happened across the road. I just wanted to put my point of view across as I know everyone is quick to jump on all the bad news but there are plenty out there that are also trying their hardest in hard times and working closely with Enterprise can also prove successful as I am proof!
