Country Pivot Report

1st July 2011 - 30th September 2011

EXPORT CONTROL ORGANISATION

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

This report covers export licensing decisions made by Her Majesty's Government between 1st July 2011 and 30th September 2011. All the information relating to a destination is shown together, and the reader will find all (if any) information on SIELs, OIELs, SITLs, SITCLs and OITCLs all in one place. This enhances the readability of the report.

The information within the report covers those licences Issued, Refused or Revoked within the period for the following categories:

- Standard Individual Export Licences (SIELs) (including information on incorporation and Standard Individual Transshipment Licences)
- Open Individual Export Licences (OIELs)
- Open Individual Trade Control Licences (OITCLs)
- Standard Individual Trade Control Licences (SITCLs)
- Council Regulation 1236/2005 (concerning trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment).

There have been some major changes made to the content and layout of the report, and these take into account the commitment the Government made to the Committee on Arms Export Controls. The changes that have been implemented in this report are as follows:

- A breakdown of the overall value of SIELs issued, into military and non-military totals
- A split in the list of items between military and non-military items
- The inclusion of the control entry list with a breakdown as to how many items were licensed under that category and the value
- The addition of the ultimate destination for items that are being incorporated
- The addition of the case summary for SIELs that have been refused

## **General Information**

### **SIELs**

SIELs generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence. Licences permitting permanent export are generally valid for 2 years from date of issue. Where the export is temporary, for example for the purposes of demonstration, trial or evaluation, the licence is generally valid for one year only and the items must be returned before the licence expires. A licence is not required for the majority of transshipments through the UK en-route from one country to another, providing certain conditions are met. Most other transshipments can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. Where this is not the case, a Standard Individual Transshipment Licence (SITL) is required.

The information on SIELs included in this Report has been compiled using the Export Control Organisation's computer databases. The databases were interrogated during the compilation of this Report to identify the status of all applications on which a decision was taken during the period covered by this Report. In a small number of cases there may be a subsequent change of status. There are two main reasons for such changes: a licence issued during the period may have been revoked, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully.

During the period 3052 SIELs were issued, 39 were refused and 1 was revoked.

### **OIELs**

OIELs are specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees. OIELs covering the export of items entered on the Military List are generally valid for two years, while OIELs covering other items are generally valid for three years. There are no Open Individual Export Licences for transshipments. During this reporting period 56 OIELs were

issued. In addition, none were amended during the period to exclude particular destinations and/or items, 3 were refused and none were revoked. It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

A summary description is provided for all items covered by SIELs and OIELs issued for this period. The Report also gives information on the number of small arms covered by SIELs issued in the period.

However, this information is not provided in cases where, under the Code of Practice on Access to Government Information, the arguments for publication of the information are otherwise outweighed by the harm that this would cause to commercial confidentiality and/or legitimate security interests in the recipient country. No such exclusions were made in this Report.

In the case of SIELs refused or revoked, only the rating of the goods is provided. Likewise for OIELs, only details of ratings are provided for licences revoked, refused in full or whose coverage was amended during the period by the exclusion of the destination (including items excluded in 2012 by the amendment of 2012 and pre-2012 licences).

## **TRADE LICENCES**

### **Standard Individual Trade Control Licences (SITCLs)**

A Standard Individual Trade Control Licence (SITCL) is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for two years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Should further similar activity take place, a further licence must be applied for. During the period 42 SITCLs were issued, 4 were refused and none were revoked.

### **Open Individual Trade Control Licences (OITCLs)**

An Open Individual Trade Control Licence (OITCL) is specific to a named trader and covers involvement in trading of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users. OITCLs are generally valid for 2 years. During the period 4 OITCLs were issued, 3 were refused and none were revoked.

A lower level of information is provided on both OITCLs and SITCLs as the release of further information at this stage may have an adverse commercial effect on some of the activities being undertaken. However, more detailed information should be included in the full Strategic Export Controls Annual Report.

## **INFORMATION ON SIELS, SITLS AND OIELS**

The entry for each destination contains the following information:

### ***For SIELs:***

- The value of all applications in respect of which a SIEL was issued for the export of items to the destination concerned during the period, whether the export concerned was permanent or temporary. Values are shown to nearest pound, and are also broken down by the control list entry.

It should be noted that the actual value of exports made under the licences is likely to be less than shown

because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

- The number of licences issued, including numbers of licences for items on the Military List, for other items and for both.

- A summary description of the items covered by the licences issued during the period, with the items that were allowed for temporary export indicated by a "T" preceding the description. The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. It does include applications refused during this period that, at the end of it, were pending a decision on an appeal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In a small number of cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued, as shown above, is slightly lower than the sum of all SIELs issued shown on the destination pages.

### ***For Incorporation:***

Information on incorporation is provided in the same format as for SIELs, and includes the same level of information. Information is also included on the ultimate destination for incorporated items. Also included is the final destination of the items that are to be incorporated.

### ***For SITLs:***

Information on SITLs is provided in the same format as for SIELs. The licensing information can be found within each destination, under the heading 'SIELs - Transhipment'. However, the items covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.

### ***For OIELs:***

- The number of licences issued also includes additional items authorised in 2007 through amendment to a pre-2007 licence.

- A summary description of the items covered by each OIEL the relevant OIELs issued during the period is shown by destination, with the items that were allowed for temporary export indicated by a "T" preceding the description.

- Information is also provided on the relevant destination pages for OIEL applications refused in full or for licences which were revoked or where coverage was amended during the period by the exclusion of the destination or by the exclusion of items in this quarter by amendment to licences issued in 2007 or earlier.

The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific items or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, those for which it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, as the case may be. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

### ***Special OIELs:***

There are four special categories of licences:

#### ***Media OIELs:***

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required. During this reporting period, 2 Media OIELs were issued.

#### ***Continental Shelf OIELs:***

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels. During this reporting period, 1 Continental Shelf OIEL was issued.

#### ***Global Project Licences (GPL)***

This is a form of export licence that has been introduced by Framework Agreement (FA) partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria. During this reporting period, no GPLs were issued.

#### ***Transfer of Technology and Technical Assistance***

These OIELs are issued for the transfer of technology and provision of technical assistance under Articles 8, 9 and 10 of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2002. During this reporting period no licences were issued, none were refused and none were revoked.

### Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 17 December 2011 by UNSCR 1961 (2010). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

**Country Footnotes**

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.
