NGEC shortlisted bidders: National Capital Works Framework

February 2012

The following organisations have been shortlisted to go forward to the next stage of the procurement process for the National Capital Works Framework, following the evaluation of pre-qualification questionnaires (PQQs).

The evaluation process looked at the evidence of the bidders' past performance which was submitted in the PQQs. This included technical capability, health and safety, financial standing, quality assurance, environmental management and equal opportunity and diversity.

The National Capital Works Framework for construction will be used to deliver higher value projects, more complex projects and cross-region programmes up to a value of £50m, across the Defence estate.
