Comment			
We no longer do any electron microscopy, I doubt if anyone does apart from MS (formerly CFI) and CEPR - perhaps we should discuss if these SMI's are still appropriate at next meeting.			
Recommended Action	<p>ACCEPT</p> <p>These documents will not be reviewed again unless there is a change in methodology. The method will also be moved to a new section of the website entitled "Reference methods and Guidance" when a new website is developed.</p>
