Independent Reconfiguration Panel general terms of reference

The Independent Reconfiguration Panel is an advisory non-departmental public body. Its terms of reference are:

A1. To provide expert advice on:
   - Proposed NHS reconfigurations or significant service change;
   - Options for NHS reconfigurations or significant service change;

   referred to the Panel by Ministers.

A2. In providing advice, the Panel will take account of:
   i. patient safety, clinical and service quality
   ii. accessibility, service capacity and waiting times
   iii. other national policies, for example, national service frameworks
   iv. the rigour of consultation processes
   v. the wider configuration of the NHS and other services locally, including likely future plans
   vi. any other issues Ministers direct in relation to service reconfigurations generally or specific reconfigurations in particular.

A3. The advice will normally be developed by groups of experts not personally involved in the proposed reconfiguration or service change, the membership of which will be agreed formally with the Panel beforehand.

A4. The advice will be delivered within timescales agreed with the Panel by Ministers with a view to minimising delay and preventing disruption to services at local level.

B1. To offer pre-formal consultation generic advice and support to NHS and other interested bodies on the development of local proposals for reconfiguration or significant service change – including advice and support on methods for public engagement and formal public consultation.

C1. The effectiveness and operation of the Panel will be reviewed annually.

Appendix Three

Letter of Referral to Secretary of State for Health from Peter Skolar, Oxfordshire Joint Health Overview & Scrutiny Committee

Dear Secretary of State

Referral to the Secretary of State by the Oxfordshire Joint Health Overview and Scrutiny Committee – Proposals for change to services at the Horton Hospital Banbury, Oxfordshire

1. As you will be aware, in the case of formal consultations on proposals to substantially change local health services, Overview and Scrutiny Committees have the power to refer such proposals to the Secretary of State.

2. The Oxfordshire Joint Health Overview and Scrutiny Committee (OJHOSC), which comprises Councillors from Oxfordshire County Council together with Councillors from all of the District Councils across Oxfordshire which include Oxford City Council, has been formally consulted by the Oxford Radcliffe Hospitals Trust (ORH) on proposals to change a number of services provided at the Horton Hospital. The Horton Hospital is a small general hospital in Banbury in the north of Oxfordshire and serves a population that includes, in addition to north Oxfordshire; south Northamptonshire, parts of Warwickshire and northwest Buckinghamshire. The initial consultation ran for four months from mid-July to mid-October in 2006.

3. The Trust based their proposals on the concerns of clinicians that it was becoming increasingly difficult to find medical staff to run such services overnight, because of changes in training, restrictions in the hours which doctors are allowed to work due to the European Working Time Directive and recruitment difficulties in these specialties. The view of clinicians was that these services could become unsafe, because of these pressures.

4. The consultation included proposals to remove the out-of-hours paediatric service and to replace the consultant-led maternity service with a midwifery-led maternity unit. The OJHOSC was very concerned with these aspects of the proposals and a copy of the Committee’s report on the Trust’s original proposals is attached to this letter.

My ref: Your ref: Date: 30 July 2007
5. At the close of the consultation, although the OJHOSC welcomed a number of the proposals it rejected those that related to maternity and paediatrics. The Committee stated that:

6. “The HOSC believes that the Trust’s main proposals relating to services for children, babies and maternity services would lead to a reduction in the standards of healthcare available to people in the north of the County and that they are potentially unsafe. They run counter to national policy on localising healthcare and are contrary to the principles identified when the Horton Hospital was amalgamated into the Oxford Radcliffe Hospitals Trust”.

7. There were major concerns about transport difficulties between Oxford and Banbury especially at peak travel times and in inclement weather. These concerns included concerns about both emergency transport for patients, and public transport for patients and relatives.

8. These views were shared by the overwhelming majority of members of the public who responded to the consultation and supported in a letter submitted on behalf of all of the local GPS, which condemned the proposals as “unsafe and inhumane”.

9. The OJHOSC went on to call upon the Trust:

   “...either to abandon the proposals, except for those that would improve services at the Horton, or to call upon an independent organisation such as the Independent Reconfiguration Panel (IRP) to examine the proposals in detail and report publicly”.

10. In response, the ORH Board set up two clinical working groups to consider these matters further, and to seek to reach a consensus on the best way of providing safe and sustainable services. One working group reviewed paediatrics; the other reviewed obstetrics, gynaecology, and the special care baby unit. The working groups included clinical staff from the Horton General Hospital and local GPs, as well as other clinical staff working in these services and independent experts.

11. At the same time as setting up the clinical working groups, the ORH Board also established a stakeholder panel, to consider the case for change, discuss proposals from the clinical working groups, and present its own views to the Board. Membership of the stakeholder panel includes representatives from interested local public and patient groups, local government, union representatives, the OJHOSC and Oxfordshire PCT.

12. Each of these groups has now produced a report all of which contained a number of recommendations for changes to the original proposals. The ORH had indicated that they would be willing to incorporate the recommendations of the Clinical Groups into a revised set of proposals to be considered by the Trust Board later this month and that they would also give serious consideration to recommendations made by the Stakeholder Group.

13. The Groups’ reports were considered by a meeting of the OJHOSC on July 12th at which a wide range of witnesses provided evidence and views to the Committee. The witnesses included local GPs, representatives of the Oxford Radcliffe Hospitals Trust, representatives of the Oxfordshire PCT, the Chair of the Clinical Working Groups, the postgraduate Dean, the Regional Director of the South Central Ambulance Trust, the Chair of the Stakeholder Group, Mr Tony Baldry MP, representatives of the “Keep the Horton General” action group, local councillors, the Chairman of the North Oxfordshire Patient and Public Involvement Forum and staff representatives.

14. Having heard all of the arguments for and against the proposed changes, the OJHOSC members concluded that, even if the recommended changes to the original proposals were to be adopted by the Trust, they would continue to have major concerns about the proposals. In
particular, they decided that nothing that they heard had convinced members to change their original view that the proposals relating to services for children, babies and maternity services are not in the best interests of the health service in the area. It was also clear that a large majority of local GPs continued to be concerned about the proposed changes.

15. Evidence supporting the OJHOSC’s view is contained in the attached report, which was written in response to the Trust’s original proposals, and more detail can be provided when required. However, the principle concerns that members have are as follows:

Paediatric services

i. The OJHOSC is very concerned that, if the proposals to close the out-of-hours service are implemented, children could be put at risk, as services would be moved 23.5 miles from their present site. Members are also of the opinion that the proposals would create major transport problems for families, many of whom are living in some of the most deprived areas in Oxfordshire and neighbouring counties.

ii. As local GPs have pointed out, there are occasions when the immediate availability of paediatric support is vital and that such availability would be vastly diminished even if the Clinical Group’s recommendations were implemented.

Obstetrics, gynaecology, and the special care baby unit

i. As with the proposals for children, the OJHOSC is very concerned that, if the proposal to close the consultant-led service is implemented, mothers and babies could be put at risk. The Working Group has noted the quality of work that is done by midwives in midwife-led units and members can see that they provide a very valuable service. However there are major concerns over whether such a large unit as that being proposed would be (a) safe and (b) sustainable. On balance the view is that the case has not been made.

ii. Members are of the opinion that the proposals would create major transport problems for families. This would be especially difficult where the mother is very young, as they frequently have no means of transport and often receive only minimal support from their families. It is worth noting here that the rate of teenage pregnancy in the Banbury area is increasing and many of the youngest mothers live in the more deprived areas.

iii. The OJHOSC considers that there are sufficient concerns around ambulance provision and the transfer of very sick babies and mothers from Banbury to Oxford to call into question the safety of what is being proposed by the Trust.

16. Furthermore, members felt that there were further more general worries in relation to the following:

- There was insufficient contingency in place for emergencies;
- There had been a failure to consider the knock-on effect on other services, for example accident and emergency, if these services were withdrawn;
- The OJHOSC was not satisfied that the tools used for the risk assessment were sufficient as there appeared to be a lack of protocols and input from other specialisms on the possible impact on their services;
• Insufficient thought appeared to have been given to the knock-on effects on Social & Community Services of the proposals in particular in relation to the way that pockets of quite severe deprivation within the area could be affected;

• The public in the whole of the local area is overwhelmingly against these proposals and, while the OJHOSC should always reach conclusions on the basis of evidence, it is impossible to ignore such substantial levels of concern.

17. It is important to stress that the OJHOSC does not underestimate the problems that the ORH is facing. The European Working Time Directive and changes to doctors' training are putting great strain on the services that the Trust provides. It is the Committee's view that insufficient attention has been given nationally to the consequences that these measures are having on acute hospital services right across the country. The OJHOSC therefore asks the Secretary of State to give urgent consideration to reviewing the damage these measures are doing to the NHS.

18. Having said that, members felt that, even allowing for these pressures, the Trust could have done more to take measures that would maintain services at the Horton Hospital rather than diminishing them.

19. The OJHOSC is well aware that the power of referral should be used only if attempts at local resolution have proved to be unsuccessful. The Committee believes that the Trust, in setting up the Clinical and Stakeholder Groups, has tried very hard to achieve local resolution. The decision of the OJHOSC to refer should not be seen as a criticism of the Trust's efforts, post the initial consultation, to resolve the differences of view between the Trust and OJHOSC. In fact the process that the Trust has put in place has been very welcome. However, the OJHOSC cannot see how further local consideration could lead to any sort of resolution.

20. The Committee believes therefore that there is no option other than to refer the proposals for paediatrics and obstetrics, gynaecology, and the special care baby unit to you as the Secretary of State for Health. The OJHOSC asks that you request the Trust to take no further action on their revised proposals and consider what measures within your powers may be possible to allow the ORH significantly to revise their proposals to satisfy the concerns expressed by the OJHOSC.

21. If you require any further information or clarification I would be happy to provide them.

Yours sincerely

18 OCT 2007

Dear Peter,

Following the Independent Reconfiguration Panel’s confirmation that it is willing to undertake a full review and offer advice on the referral from Oxfordshire Joint Health Overview and Scrutiny Committee about proposed changes to maternity, gynaecology and paediatric services, I am writing to confirm the Panel’s Terms of Reference.

Terms of reference

The Panel is asked to advise the Secretary of State by 18 February 2007:

a) whether in the light of the grounds of referral as set out in the correspondence from Oxfordshire Joint Health Overview and Scrutiny Committee to the Secretary of State of 26 July 2007, it is of the opinion that the proposals to reconfigure paediatric services, obstetrics, gynaecology and the special care baby unit at the Horton District General Hospital, Banbury, as set out in the decision of the Oxford Radcliffe Hospitals NHS Trust Board on 26 July 2007 will ensure safe, sustainable and accessible services for the people of north Oxfordshire, and the wider area served by the Oxford Radcliffe Hospitals NHS Trust (namely south Northamptonshire, Warwickshire and north west Buckinghamshire) and if not, why not;

b) on any other observations the Panel may wish to make in relation to the proposals for changes to paediatric services, obstetrics, gynaecology and the special care baby unit and implications for any other clinical services; and

c) in the light of a) and b) above on the Panel’s advice on how to proceed in the best interests of local population.

It is understood that in formulating its advice the Panel will pay due regard to the principles set out in the Independent Reconfiguration Panel general terms of reference.
The Panel's advice to me on this case should be provided in accordance with these Terms of Reference. I look forward to receiving your advice.

Yours,

ALAN JOHNSON

30 October 2007

Dear Secretary of State

Referral from Oxfordshire Joint Health Overview and Scrutiny Committee about changes to maternity, gynaecology and paediatric services proposed by Oxford Radcliffe Hospitals NHS Trust

Thank you for your letter of 18 October about the above.

I am happy to confirm that the Independent Reconfiguration Panel will provide advice in accordance with the terms of reference set out in your letter and, as requested, by 18 February 2008.

The Panel will begin visits to the area in November. As usual, we will be meeting people and hearing views from all sides of the debate.

As you know, in keeping with our commitment to open and transparent working, we will be publishing our advice on the IRP website.

Yours sincerely

Dr Peter Barrett CBE
Chair, Independent Reconfiguration Panel

9 November 2007

For publication

IRP: Have your say on health review

Dear Editor

The IRP, the independent expert on NHS service change, has been asked by the Secretary of State for Health to carry out a review relating to contested proposals for changes to services at Horton General Hospital in Banbury.

As part of our review, we would like to hear from local people who feel that they have new information that was not submitted during the formal consultation process or believe that their voice has not been heard. Please contact us by email at: irpreview@southcentral.nhs.uk or by calling 0800 023 4680.

The referral to the IRP relates to the proposals by Oxford Radcliffe Hospitals NHS Trust to reconfigure paediatric services, obstetrics, gynaecology and the special care baby unit at Horton General Hospital.

Our review will look at whether the proposals will ensure the provision of safe, sustainable and accessible services for local people.

Over the coming months, we will be undertaking a number of visits to the area to talk to patients, clinicians, local authority representatives, interest groups and people living and working in the area who believe they have new evidence that the IRP should take into account.

It is important that our reviews are open and accountable to local communities. We will therefore publish our conclusions on our website - www.irpanel.org.uk - once they have been considered by the Secretary of State for Health.

Yours sincerely

Dr Peter Barrett CBE
Chair, IRP

Martin Houghton  Secretary to the Panel
Becky Farren  Review Manager
Appendix Ten

About the Independent Reconfiguration Panel

The Independent Reconfiguration Panel (IRP) offers advice to the Secretary of State for Health on contested proposals for NHS reconfigurations and service changes in England. It also offers informal support and generic advice to the NHS, local authorities and other interested bodies in the consideration of issues around NHS service reconfiguration.

The Panel consists of a Chair, Dr Peter Barrett, and members providing an equal balance of clinical, managerial and patient and citizen representation.

Further information about the Panel and its work can be found on the IRP Website:

www.irpanel.org.uk
