

Tax credits – other types of help you could get

If you get tax credits, you may also be able to get other help with day-to-day costs. The help you could get may depend on where you live in the UK and the type and amount of tax credits you get.

This factsheet gives you some examples of the type of help that may be available if you claim or receive tax credits.

Help with health costs

If you meet the criteria, you will be able to get help with the cost of:

- prescriptions, wigs and fabric supports if they are not already free where you live
- dental treatment
- eyesight tests
- glasses or contact lenses
- travel for treatment after referral by a doctor, dentist or optician

If you qualify, you will automatically be sent an NHS Tax Credit Exemption Certificate in the post, normally within 8 weeks of your tax credits being awarded.

If you meet the criteria and you don't get your certificate before you need treatment, you can use your award or renewal notice as proof you're entitled to tax credits. If you haven't received your award or renewal notice, you will need to:

- pay for your treatment and get a receipt
- ask about claiming a refund afterwards
