Package meeting briefings - final check before submission - by 11am 12/1/12

Importance:

High

Hi all

Many thanks for your contributions to the Package Meeting briefings for the agenda items on Mixed Stock Fisheries and Atlantic Salmon.

The contributions have been consolidated into the two attached briefings which we need to keep very short, so I've had to rework text quite a lot to fit. Could you please:

- have a quick look and let me know if anything has been misinterpreted, poorly expressed, etc.
- Wales, Scotland and Northern Ireland – indicate that you are happy with the line on phasing out mixed stock fisheries.

I'll need **comments by 11am tomorrow (Thursday 12th)** in order to incorporate, and will assume that if you don't respond it is a 'nil return'.

regards
