## **S10 Consultation**

A section 10 consultation has been completed. Harris used a good variety of means to consult, including a brochure and public meetings to explain the proposal. The brochure was sent to 5,400 homes initially about the 2FE proposal, but after this was expanded to 5FE, a further letter was sent out to 11,000 homes.

The consultation did not generate any significant objections. During the formal statutory consultation process they received a total of 33 responses of which 97% agreed that the Secretary of State should sign a Funding Agreement to allow the free school to open. All agreed that the aim and ethos of the school was suitable.

## **Summary of Impact on local schools**

The Local Authority supports the school and jointly held meetings with Harris to explain the proposal to local parents. The LA informed us that local primary schools that were party to the discussions had no significant objections.

Basic Need is high and Thurrock LA has been keen to expand local capacity. The Harris Federation is an experienced and successful academy sponsor which has a reputation for providing high quality curriculum provision and the proposed free school will contribute to the expansion of existing high quality schools and the strong demand for new places.

For the purposes of the impact assessment, we have included all primary schools within a 1.3 mile radius from the site of the school. There are three (Harris Primary Academy Chafford Hundred, Belmont Castle Academy, Tudor Court Primary School) where the impact is likely to be moderate. The impact is minimal in all other cases.

Mayflower is likely to have a moderate impact on Harris Primary Academy Chafford Hundred because it is opening in the premises of the existing academy, and its permanent site will be very close. However, Harris is not concerned about the impact; HPACH is a recent convertor but is now producing results above national average, its recent Ofsted inspection - in May this year - was Good (previously requiring improvement) and it is now oversubscribed.

The impact on Belmont Castle Academy is likely to be moderate. The Academy's results are below average; however it is rated Good by Ofsted and has no unfilled places at entry point.

Tudor Court Primary School is likely to be moderately impacted. However, Tudor Court is improving – its 2013 Ofsted inspection

was Good (previously requiring improvement), and its recent results are above national average. Although it has surplus places from previous years it has only 1 unfilled place in 2012/13.
