Importance: High

Dear Professor Boyd and Dr Davies

As promised, and further to your recent discussions with [REDACTED], I attach the final Study Outline Protocol provided by Professor Pywell at CEH today, which should now be used for the consultation with Professor Godfray's Pollinator Expert Group. I attach both a pdf version and word version for your convenience. One concern that CEH asked me to raise with you was:- That during the planned wider consultation of this protocol with DEFRA Pollinator Strategy Stakeholder Group, this protocol may be leaked and misused. Therefore, CEH have asked if there was anything you could do to ensure the confidentiality of this protocol during the Stakeholder consultation and also could they be informed of who the consulted Stakeholders would be. For this reason I have also copied Professor Pywell into this email.

Due to the urgency of this email please can you confirm receipt by return.

Kind regards
