Protecting and improving the nation's health

Weekly national flu report: 26 February 2015 (week 9)

Amendment to the following figure and text on Page 5:

Figure 9: Observed & predicted all-cause death registrations, E&W

Due to a formatting error in the document, figure 10 was duplicated and figure 9 was excluded. Figure 9 has now been included in the document. The text associated with figure 9 (Excess overall all-cause mortality, England and Wales) has been updated to read 'This is less than the 12,039 estimated death registration in **week 6**' rather than week 5.
