Andrew

Great to see you and so sorry for momentary lack of recognition. It was that unfamiliar environment thing. Thanks for this stuff – looks excellent. I've suggested our new Deputy Head of North America Dept, make friends with you (he leads on TTIP for us) so hope he will.

Kind regards

K

Hi Kate,

In case of use/interest, please find attached two recent ICC UK papers on the (surprisingly controversial) TTIP investment agenda. Your colleagues in BIS will already have copies of these; and they are also available online [here](#).

It is really starting to look like securing a meaningful trade deal will be an uphill battle and then some...

With best wishes,

Andrew
