## Weekly national flu report: 26 November 2015 (week 48)

### **Amendment to the following text on Page 1 and 7:**

Due to an update on the vaccination uptake figures in children of school years 1 & 2, the proportions in the text on pages 1 and 7 has been updated to read 'Provisional data from the first monthly collection of influenza vaccine uptake in children of school years 1 and 2 age show 11.8% of children of school year 1 and 11.4% of children school of school year 2 had received the 2015/16 live attenuated intranasal vaccine (LAIV) by 31 October 2015.' , rather than 'Provisional data from the first monthly collection of influenza vaccine uptake in children of school years 1 and 2 age show 12.0% of children of school year 1 and 11.5% of children school of school year 2 had received the 2015/16 live attenuated intranasal vaccine (LAIV) by 31 October 2015.'
