

White turkeys (stags) organic, free range - Wrolstads

All valuations expressed in pence per bird

Age (days)	7	14	21	28	35	42	49
Farm gate sales	267	304	348	399	446	507	568
Sales to butchers	267	304	348	399	446	507	568

Age (days)	56	63	70	77	84	91	98
Farm gate sales	635	708	785	869	956	1049	1139
Sales to butchers	635	708	785	869	956	1049	1139

Age (days)	105	112	119	126	133	140	147
Farm gate sales	2342	3544	4747	5949	7151	8354	9556
Sales to butchers	1982	2825	3668	4510	5353	6196	7039

Age (days)	154	161	168
Farm gate sales	10758	11961	13163
Sales to butchers	7881	8724	9567

This table is intended to provide valuations for white-feathered stags (males) reared as Traditional Farm Fresh ('TFF') birds under organic, free range conditions. Typically the birds will be of 'Wrolstad' strains. They are NOT intended to be used for large-scale, intensive turkey production (e.g. Bernard Matthews/Faccenda Turkeys). Bird numbers for a typical TFF/seasonal site will generally be counted in hundreds rather than thousands, although larger enterprises may produce at the latter level. By comparison, a typical 'intensive' production site will rear many thousands of birds (individual houses may contain up to 20,000 birds).

During the first few weeks of the rearing period, free range birds will be kept indoors in brooding houses (or sheds).

The table provides valuations

Figures are provided for both 'farm gate' sales - i.e. sales direct to the final customer and for 'sales to butchers', which are intended to reflect trade values. Because of the difference in the resultant valuations, it is important to determine which type of outlet the farmer supplies. If both types of outlet are supplied, a pro-rata figure should be calculated. Similarly, if the age of the birds does not exactly match the figures given in the tables, the corresponding pro-rata figure should also be calculated.

Valuations have been based on a maximum slaughter age of 24 weeks at which point the average liveweight has been taken to be 9.6kg (derived from industry targets) with an oven-ready weight of 7.6kg. Although valuations are determined on the basis of the age of birds, it is strongly recommended that for flocks that are 12 weeks or older, a random sample of 25 culled birds are weighed as a reference in case of future disputed valuation
