**Strategic Export Controls: Country
Pivot Report**

1st October 2015 - 31st December
2015

April 2022

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st October 2015 and 31st December 2015. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spread sheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spread sheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3483	3401	82	0
- Permanent Standard	2820	2745	75	0
- Temporary Standard	251	245	6	0
- Transshipment	3	2	1	0
- Incorporation	403	403	0	0
- For goods covered by the torture regulation (Permanent or Temporary)	6	6	0	0
SITCLs	50	50	0	0
OIELs	98	85	13	0
- Standard	82	69	13	0
- Dealer-to-dealer	9	9	0	0
- Cryptographic	6	6	0	0
- Media	0	0	0	0
- Continental Shelf	1	1	0	0
Global Project Licences	0	0	0	0
OITCLs	9	9	0	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st October 2015 to 31st December 2015

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3782	89	4215	99	11 days
- Permanent Standard	3148	89	3508	99	11 days
- Temporary Standard	250	89	276	98	12 days
- Transshipment	7	88	8	100	10 days
- Incorporation	372	89	417	100	12 days

- Continental Shelf	0	0	1	100	31 days
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	4	24	12	71	44 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£231,743
Non-military	3	£138,116
Total	9	£369,859

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£19,990
ML3	1	£5,330
ML6	1	£22,223
ML13	3	£169,200
PL5001	1	£15,000

anti-riot/ballistic shields [See footnote 8].
 assault rifles (18) [See footnote 1].
 body armour (2 licences) [See footnotes 10, 2].
 components for all-wheel drive vehicles with ballistic protection [See footnote 7].
 components for assault rifles [See footnote 1].
 components for body armour (3 licences) [See footnotes 10, 2, 9].
 components for pistols [See footnote 1].
 military helmets (3 licences) [See footnotes 10, 2, 9].
 pistols (15) [See footnote 1].
 small arms ammunition [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£64,000
5D002	1	£26,612
5E002	1	£47,504

civil NBC detection systems [See footnote 6].
 information security software [See footnote 4].
 technology for information security software [See footnote 5].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	general military vehicle components
2	T	military support aircraft

SITCLs

Source	Issued	Refused	Revoked
Romania	1	0	0

Issued

equipment for the use of aircraft cannon ammunition.

OITCLs

Source	Issued	Refused	Revoked
United Arab Emirates	1	0	0

Issued

all-wheel drive vehicles with ballistic protection [See footnote 3].

Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2160 (2014), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

Case & goods Footnotes

1. Licence granted for civilian /commercial end use under a government contract.
2. Licence granted for protective equipment for crowd control use. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Diplomatic missions.
4. Licence granted for equipment to improve broadband connectivity. Armed forces end use.
5. Licence granted for equipment to improve broadband connectivity. Armed forces end use.
6. Licence granted for government end use.
7. Licence granted for civilian / commercial end use.
8. Licence granted for civilian / commercial end use.
9. Licence granted for civilian / commercial end use.
10. Licence granted for civilian / commercial end use.

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Total	4	£2,352,850

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£36,900
3D101	1	£800,000
3E101	1	£10,000
6A003	1	£5,950
7A103	1	£1,500,000

T civil explosive detection/identification equipment [See footnote 1].
imaging cameras.
inertial equipment [See footnote 3].
software for X-ray generators [See footnote 2].
technology for X-ray generators [See footnote 2].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	guidance/navigation equipment, inertial equipment

Country Footnotes

1. On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.
All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for government end use.
2. Licence granted for government end use.
3. Licence granted for civilian / commercial end use.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	2	£3,186
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	2	£3,186

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	2	£3,186

portable incapacitating substance riot control devices (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities. The embargo was most recently renewed through UNSCR 2198 (2015), and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Diplomatic missions.

1	T	military support aircraft

Country Footnotes

1. UN Security Council Resolution 1907 (2009) established an arms embargo on Eritrea. UNSCR 2111 (2013) consolidated exemptions to the arms embargo for non-lethal military equipment intended solely for humanitarian or protective use, as approved on case-by-case basis in advance by the Security Council Committee pursuant to resolutions 751 (1992) and 1907 (2009); and protective clothing, including flak jackets and military helmets, temporarily exported to Eritrea by United Nations personnel, representatives of the media and humanitarian and development workers and associated personnel for their personal use only.

Following the adoption of the UN arms embargo, the EU adopted Council Decision 2010/127/CFSP on 1 March 2010 and Council Regulation (EU) No 667/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Total	2	£83,552

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£83,552

components for military combat vehicles (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

South Africa

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for NBC detection equipment, NBC detection equipment, technology for NBC detection equipment
2	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines [See footnote 1]
3	P	weapon sights
4	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/simulating military operation scenarios [See footnote 2]
5	T	military support aircraft
6	P	components for small arms ammunition, components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights

Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Navy.
2. Licence granted for marketing and promotional use. Civilian / commercial end use.

1A007	2	£33,838
6A001	2	£21,098

civil explosive detection/identification equipment.
hydrophones (2 licences).
non-military detonators.
non-military firing sets.
technology for nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	62	£18,971,366
Non-military	1	£2,217,310
Total	63	£21,188,676

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	9	£1,020,190

ML5	8	£76,042
ML6	6	£472,494
ML9	9	£147,904
ML10	19	£335,917
ML11	2	£15,967,702
ML14	1	£20,000
ML16	2	£204,416
ML17	1	£1
ML21	5	£726,700

components for all-wheel drive vehicles with ballistic protection.
 components for combat aircraft (8 licences).
 components for combat helicopters (3 licences).
 components for combat naval vessels (2 licences).
 components for decoying/countermeasure equipment (6 licences).
 components for electronic warfare equipment.
 components for ground based radars.
 components for ground vehicle military communications equipment (2 licences).
 components for military aero-engines.
 components for military containers.
 components for military helicopters (2 licences).
 components for military patrol/assault craft.
 components for military radars (4 licences) [See footnote 3].
 components for military support aircraft (3 licences).
 components for military training aircraft [See footnote 1].
 components for naval communications equipment.
 components for naval electrical/electronic equipment (2 licences) [See footnote 6].
 components for periscopes (2 licences).
 components for submarines (2 licences).
 components for surface-to-surface missiles (3 licences).
 components for turrets (2 licences).
 components for weapon control equipment.
 electronic warfare equipment.
 general military aircraft components.
 general military vehicle components.
 general naval vessel components.
 ground vehicle military communications equipment.
 military communications equipment.
 simulators for periscopes.
 software enabling equipment to function as military improvised explosive device
 decoying/detection/disposal/jamming equipment (5 licences) [See footnote 5].
 unfinished products for military aero-engines (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£2,216,000
6D002	1	£810
6E101	1	£500

components for radar equipment.
 radar equipment.
 software for radar equipment.
 technology for radar equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
2	P	components for equipment for the use of NBC detection equipment, components for military electronic equipment, components for NBC detection equipment, equipment for the use of NBC detection equipment, military electronic equipment, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for military electronic equipment, technology for NBC detection equipment

3	P	technology for depleted uranium, technology for materials containing depleted uranium, technology for materials containing natural uranium, technology for materials containing thorium, technology for natural uranium, technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium processing equipment, technology for products containing depleted uranium, technology for products containing natural uranium, technology for products containing thorium, technology for thorium, technology for tritium production equipment, technology for uranium isotope separation equipment
4	P	components for NBC detection equipment, NBC detection equipment, technology for NBC detection equipment
5	T	technology for materials containing plutonium-239, technology for nuclear fuel reprocessing equipment, technology for nuclear grade graphite, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium-239, technology for products containing plutonium-239
6	P	components for environmental test facilities for military aero-engines, components for equipment for the production of military aero-engines, components for military aero-engines, components for military containers, environmental test facilities for military aero-engines, equipment for the development of military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, military containers, technology for military aero-engines, technology for production installations for military aero-engines, unfinished products for military aero-engines
7	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines [See footnote 7]
8	P	weapon sights
9	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/simulating military operation scenarios [See footnote 8]
10	T	military support aircraft
11	T	components for launching/handling/control equipment for bombs [See footnote 2]
12	P	components for small arms ammunition, components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for goods which will be returned to the UK. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for explosive detection / disposal purposes. Civilian / commercial end use.
5. Licence granted for explosive detection / disposal purposes. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. End use by the Navy.
7. Licence granted for accessories / spare parts. End use by the Navy.
8. Licence granted for marketing and promotional use. Civilian / commercial end use.

Country Footnotes

- Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for sporting / hunting purposes. Personal end use.
- Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.

Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP (as amended) and EU Council Regulation 267/2012 (as amended). Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£366,893
Non-military	11	£670,681
Total	13	£1,037,574

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£347,893
ML13	1	£19,000

body armour [See footnote 8].
 components for body armour [See footnote 8].
 decoying/countermeasure equipment [See footnote 4].
 military helmets [See footnote 8].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£198,106
2B351	1	£10,147
5A002	5	£278,070
6A003	1	£180,000
End Use	2	£4,358

civil NBC detection systems.
 civil NBC protection clothing.
 components for valves.
 imaging cameras [See footnote 2].
 information security equipment (5 licences) [See footnotes 10, 3, 5, 6, 9].
 liquids processing equipment.
 toxic gas detectors [See footnote 7].

Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
5A001	1

telecommunications interception equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
2	1

OIELs (excluding Other OIELs)

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	military support aircraft

United States of America	1	0	0

Issued

all-wheel drive vehicles with ballistic protection (6 licences) [See footnote 1].
components for air-to-air missiles.
military containers (2 licences) [See footnote 1].
promoting the supply of components for air launched rockets
promoting the supply of components for military combat vehicles.
promoting the supply of components for military support vehicles.
promoting the supply of equipment for the use of military combat vehicles.
promoting the supply of equipment for the use of military support vehicles.
surface launched rockets.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. 11/B
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for goods returned after repair in the UK. Armed forces end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
6. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Academic end users.
8. Licence granted for end use by a international organisation.
9. Licence granted for armed forces end use.
10. Licence granted for armed forces end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	21	£292,996
Total	21	£292,996

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£117,512
ML3	3	£87,988
ML6	2	£7,887
ML7	1	£21
ML8	3	£328
ML11	2	£78,910
PL5017	1	£350

- artillery ammunition.
- blank/inert ammunition.
- components for military electronic equipment (2 licences).
- equipment for the use of grenade launchers.
- equipment for the use of sporting guns.
- general military vehicle components.
- military electronic equipment.
- military guidance/navigation equipment.
- military support vehicles.
- precursors for energetic materials (3 licences).
- small arms ammunition.
- tear gas/riot control agents.
- training small arms ammunition.
- weapon night sights.
- T weapon night sights.
- weapon sights (7 licences).
- T weapon sights.

SIELs - Transhipment

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£36,927
Total	1	£36,927

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry') As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9002	1	£36,927

non-military energetic materials.

OIELs (excluding Other OIELs)

% and number of SIELs completed in 20 working days	0% (0)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£76,278
Total	1	£76,278

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£76,278

components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1].
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1].

Country Footnotes

- UN Security Council resolution 1572 of 15 November 2004 established an embargo on the supply of arms and related material to the Ivory Coast. The embargo was amended by Resolutions 1946 (2010) and 2045 (2012), and was most recently renewed through UNSCR 2219 (2015) for a period until 30 April 2016.

EU Restrictions currently in force with respect to the Ivory Coast are set out in Council Decision 2010/656/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for explosive detection / disposal purposes. International Organisation end use.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£35,781
Total	1	£35,781

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£35,781

smoke/pyrotechnic ammunition.

OIELs (excluding Other OIELs)

Country Footnotes

- UNSCR 2128 (2013) currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in Liberia. There are exemptions to the embargo for supply of non-lethal equipment intended solely for humanitarian or protective end uses, as well as for equipment for support of or use by the UN peacekeeping mission in Liberia (UNMIL). The EU implement the UN resolutions through Council Decision 2010/129/CFSP and Council Regulation (EU) No 234/2004, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

- T
- components for aircraft cannons (2 licences).
 - components for gun mountings [See footnote 5].
 - components for launching/handling/control equipment for missiles.
 - components for machine guns (2 licences) [See footnotes 1, 9].
 - components for military aero-engines.
 - components for military communications equipment (4 licences).
 - components for military electronic equipment.
 - components for military equipment for initiating explosives.
 - components for military guidance/navigation equipment (2 licences).
 - components for military helicopters (2 licences).
 - components for military radars.
 - components for military support aircraft.
 - components for military training aircraft.
 - components for naval engines (2 licences).
 - components for naval gun installations/mountings.
 - components for naval guns (3 licences).
 - components for NBC protective/defensive equipment.
 - components for pistols [See footnote 1].
 - components for projectile launchers [See footnote 1].
 - components for sniper rifles (2 licences) [See footnotes 1, 5].
 - components for submarines.
 - crowd control ammunition [See footnote 1].
 - demolition charges/devices.
 - equipment for the use of machine guns (2 licences) [See footnotes 1, 9].
 - equipment for the use of military communications equipment.
- T
- equipment for the use of military radars.
 - equipment for the use of sniper rifles (2 licences) [See footnotes 1, 5].
 - equipment for the use of submarines.
 - general military aircraft components (2 licences).
 - general naval vessel components.

grenade launchers [See footnote 1].
gun mountings [See footnote 5].
gun silencers (3 licences) [See footnotes 1, 5, 9].
machine guns (10) [See footnote 1].
machine guns (20) [See footnote 9].
man portable air defence systems.
military communications equipment.
military equipment for initiating explosives.
military field engineer equipment.
military training equipment.
naval electrical/electronic equipment.
pistols (1) [See footnote 1].
projectile launchers [See footnote 1].
small arms ammunition [See footnote 1].
sniper rifles (1) [See footnote 1].
sniper rifles (2) [See footnote 5].
software for military communications equipment.
T software for military communications equipment.
Software for modelling/simulating military operation scenarios.
surface-to-air missiles.
technology for air defence systems.
technology for grenade launchers [See footnote 1].
technology for machine guns [See footnote 1].
technology for man portable air defence systems.
technology for man portable air defence systems training equipment.
technology for military communications equipment.
technology for military training equipment.
technology for pistols [See footnote 1].
technology for projectile launchers [See footnote 1].
technology for sniper rifles [See footnote 5].
weapon cleaning equipment (2 licences) [See footnotes 5, 9].
weapon sight mounts [See footnote 5].
weapon sights (3 licences) [See footnotes 1, 5, 9].

Non-military

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£3,335
Total	1	£3,335

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£3,335

extended temperature range integrated circuits.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	hydrophones
2	P	technology for composite laminates, technology for composite structures, technology for stretch-forming equipment
3	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines [See footnote 7]
4	P	guidance/navigation equipment, inertial equipment
5	P	weapon sights
6	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment
7	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/simulating military operation scenarios [See footnote 8]
8	P	components for military radars, equipment for the use of military radars, military electronic equipment, software for military radars, technology for military radars
9	T	military support aircraft
10	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Law enforcement agency end use.
4. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
5. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
6. Licence granted for temporary / exhibition purposes. Armed forces end use.
7. Licence granted for accessories / spare parts. End use by the Navy.
8. Licence granted for marketing and promotional use. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Law enforcement agency end use.

Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The EU implements this sanctions regime via Council Decision (CFSP) 2017/1775 and Council Regulation (EU) 2017/1770.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for explosive detection / disposal purposes. International Organisation end use.

Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£610,004
Both Military and Non-military	1	£12,940
Total	2	£622,944

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£454,034
PL5017	1	£155,970

components for combat helicopters [See footnote 1].
 components for military helicopters [See footnote 1].
 equipment for the use of combat helicopters [See footnote 1].
 equipment for the use of military helicopters [See footnote 1].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£3,490
ML11	1	£9,450

information security equipment.
 military communications equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military support aircraft [See footnote 2]

oil and gas industry equipment/materials (3 licences).
promoting the supply of oil and gas industry equipment/materials (3 licences).

Country Footnotes

1. Decision 2014/512/CFSP, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£9,007
Total	3	£9,007

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£4,350
ML4	1	£4,657

components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for sporting guns.
 weapon sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for gun mountings, components for weapon sights, gun mountings, weapon sights
2	P	technology for depleted uranium, technology for materials containing depleted uranium, technology for materials containing natural uranium, technology for materials containing thorium, technology for natural uranium, technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium processing equipment, technology for products containing depleted uranium, technology for products containing natural uranium, technology for products containing thorium, technology for thorium, technology for tritium production equipment, technology for uranium isotope separation equipment
3	P	components for NBC detection equipment, NBC detection equipment, technology for NBC detection equipment
4	P	weapon sights
5	T	military support aircraft
6	P	components for small arms ammunition, components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights

Issued

military combat vehicles.

Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for equipment to improve broadband connectivity. International Organisation end use.
2. Licence granted for end use by a international organisation.
3. Licence granted for end use by a international organisation.

bomb suits.

Country Footnotes

1. EU Council Decision 2014/449/CFSP separated existing joint measures concerning Sudan and South Sudan into distinct legal acts.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

The EU previously embargoed the provision of arms and related materiel to Sudan and South Sudan jointly in Council Decision 2011/423/CFSP.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for end use by a international organisation.

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	33	£990,928
Non-military	10	£1,651,540
Total	43	£2,642,468

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£127,958
ML3	1	£122,500
ML4	2	£6,381
ML5	2	£37,344
ML6	6	£31,238
ML7	1	£19,300
ML10	10	£277,178
ML11	3	£124,181
ML13	2	£44,348
ML15	1	£40,000
ML17	1	£10,500
ML21	1	£150,000
ML22	1	£0

body armour (2 licences).
 components for anti-armour ammunition.
 components for body armour (2 licences).
 components for combat aircraft.
 components for military aero-engines (2 licences).
 components for military combat vehicles.
 components for military combat vehicles.
 components for military communications equipment (2 licences).

components for military radars.
 components for military training aircraft (4 licences).
 components for NBC protective/defensive equipment.
 components for sniper rifles.
 components for weapon control equipment.
 decoying/countermeasure equipment.
 general military aircraft components (3 licences).
 general military vehicle components (4 licences).
 military communications equipment.
 military field generators.
 military guidance/navigation equipment.
 T military infrared/thermal imaging equipment.
 signalling devices.
 sniper rifles (1).
 software for military training aircraft.
 software for military training equipment.
 sporting guns (1) (2 licences).
 technology for military training aircraft.
 technology for military training equipment.
 T weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	2	£2
1C351	4	£1,500,679
5A002	2	£1,159
PL9010	2	£149,700

information security equipment (2 licences).
 materials containing enriched uranium (2 licences).
 materials containing plutonium-239 (2 licences).
 sporting shotguns (1) (2 licences).
 toxins (4 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	16	£946,962
Total	16	£946,962

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£508
ML5	2	£480,000
ML10	10	£462,482
ML11	1	£3,972

components for combat aircraft (3 licences).
 components for military aero-engines.
 components for military radars (2 licences).
 components for military training aircraft (3 licences).
 general military aircraft components (3 licences).
 military guidance/navigation equipment.
 signalling devices (3 licences).

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£15
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£15

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£15

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	weapon sights
2	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/simulating military operation scenarios [See footnote 1]
3	T	military support aircraft
4	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft
5	P	components for small arms ammunition, components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, unfinished products for sporting guns, weapon sights

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for marketing and promotional use. Civilian / commercial end use.

Syria

Processing Statistics (excluding amendments)

% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£5,004
Non-military	2	£18,840

Total	3	£23,844
-------	---	---------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£5,004

components for military equipment for initiating explosives [See footnote 1].
military equipment for initiating explosives [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
End Use	2	£18,840

industrial generators (2 licences) [See footnotes 2, 3].

Country Footnotes

1. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian end use.
2. Licence granted for civilian / commercial end use.
3. Licence granted for civilian / commercial end use.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	58	£84,814,408
Non-military	2	£1,422,670
Total	60	£86,237,078

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£19,733
ML4	15	£68,899,923
ML5	5	£814,981
ML9	1	£41,836
ML10	26	£10,214,114
ML11	4	£92,856
ML14	1	£15,779
ML15	2	£4,700,138
ML21	5	£4,306
ML22	5	£10,742

airborne refuelling equipment.
 command communications control and intelligence software (2 licences).
 components for air-to-air missiles (4 licences) [See footnote 8].
 components for bombs (4 licences) [See footnotes 10, 11, 6].
 components for combat aircraft (7 licences).
 components for combat helicopters (8 licences) [See footnote 7].
 components for launching/handling/control equipment for missiles.
 components for military aero-engines (5 licences) [See footnote 4].
 components for military aircraft head-up/down displays.
 components for military cameras/photographic equipment [See footnote 2].
 components for military communications equipment.
 components for military helicopters.
 components for military infrared/thermal imaging equipment.
 components for military radars (2 licences) [See footnote 13].
 components for military support aircraft.
 components for military training aircraft.
 components for military training equipment.
 components for munitions/ordnance detection/disposal equipment.
 components for naval engines.
 components for surface launched rockets.

components for surface-to-surface missiles (2 licences).
 components for targeting equipment (2 licences).
 components for torpedoes (2 licences) [See footnote 1].
 components for weapon control equipment.
 components for weapon night sights.
 electronic warfare equipment.
 general military aircraft components.
 general naval vessel components.
 military communications equipment (2 licences).
 software for military communications equipment (2 licences).
 software for military guidance/navigation equipment [See footnote 5].
 technology for command communications control and intelligence software (2 licences).
 technology for military communications equipment (2 licences).
 technology for weapon control equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3C001	1	£650,000

Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£5,455
5D002	2	£375
5E002	2	£403

information security equipment.
information security software (2 licences) [See footnote 1].
technology for information security equipment (2 licences).

Refused

	Count
Military	2
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML15	2

T military image intensifier equipment.
T military infrared/thermal imaging equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the

above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	2

Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
