

White turkeys (stags) organic, free range - Wrolstads

All valuations expressed in pence per bird

Age (days)	7	14	21	28	35	42	49
Farm gate sales	266	303	347	397	444	505	565
Sales to butchers	266	303	347	397	444	505	565

Age (days)	56	63	70	77	84	91	98
Farm gate sales	631	704	781	863	950	1043	1133
Sales to butchers	631	704	781	863	950	1043	1133

Age (days)	105	112	119	126	133	140	147
Farm gate sales	2336	3539	4742	5945	7148	8351	9554
Sales to butchers	1976	2820	3663	4507	5350	6193	7037

Age (days)	154	161	168
Farm gate sales	10757	11960	13163
Sales to butchers	7880	8724	9567

This table is intended to provide valuations for white-feathered stags (males) reared as Traditional Farm Fresh ('TFF') birds under organic, free range conditions. Typically the birds will be of 'Wrolstad' strains. They are NOT intended to be used for large-scale, intensive turkey production (e.g. Bernard Matthews/Faccenda Turkeys). Bird numbers for a typical TFF/seasonal site will generally be counted in hundreds rather than thousands, although larger enterprises may produce at the latter level. By comparison, a typical 'intensive' production site will rear many thousands of birds (individual houses may contain up to 20,000 birds).

During the first few weeks of the rearing period, free range birds will be kept indoors in brooding houses (or sheds).

The table provides valuations

Figures are provided for both 'farm gate' sales - i.e. sales direct to the final customer and for 'sales to butchers', which are intended to reflect trade values. Because of the difference in the resultant valuations, it is important to determine which type of outlet the farmer supplies. If both types of outlet are supplied, a pro-rata figure should be calculated. Similarly, if the age of the birds does not exactly match the figures given in the tables, the corresponding pro-rata figure should also be calculated.

Valuations have been based on a maximum slaughter age of 24 weeks at which point the average liveweight has been taken to be 9.6kg (derived from industry targets) with an oven-ready weight of 7.6kg. Although valuations are determined on the basis of the age of birds, it is strongly recommended that for flocks that are 12 weeks or older, a random sample of 25 culled birds are weighed as a reference in case of future disputed valuation
