

## Deployment form for land and groundwater remediation

The Environmental Permitting (England and Wales) Regulations 2010

Please read through this form and the MPP2 guidance notes that came with it before you filling this form in.

This form may only be used for deployments for land and/or groundwater remediation activities where the operator holds a permit referring to

- SR2008\_27 Mobile plant for the treatment of waste soils and contaminated material, substances or products
- Bespoke permits for land and groundwater remediation.

## B2 Specified activities to be carried out at the site

**B2.1 Provide a brief summary of the contaminants to be treated.**

**B2.2 Provide a list of the authorised treatment technology or technologies and a description of the operations that are to be carried out at this site and place them in context with other things that might be happening at this site.**

**B2.3 Does the site form part of a Cluster project?**

- NO  
 YES

## B 3 Duration of this deployment

**B 3.1 What is the duration (specified period) that this deployment form is required for the operating site?**

Duration of this deployment:

Provide details of any anticipated periodic breaks:

## B 4 Management supervision

**B4.1 Please provide the name and contact details and/or the award certificate for the technically competent manager who will oversee this deployment.**

Name:

Contact details:

**B4.2 Provide information on the site supervision plan for your technically competent manager. Specify what treatment methods can be operated unsupervised and provide a justification as to why this should be the case. (This might include treatment processes where automated and telemetric systems are in use.)**

Insert details

## B5 Waste Types and Quantities

**B5.1 Specify waste types and quantities that you will be treating at the operating site, including the six digit code from the European Waste Catalogue (EWC).**

Waste Type	EWC six digit code	Quantity (m <sup>3</sup> )	Medium(Solid/gas/water/sludge)

## B6 Acceptance Procedures

**B6.1 Please supply details of the procedures to be adopted at the site to ensure that only those materials that are treatable with the specified technology will be treated.**

Insert details – provide supporting document reference if needed

**B6.2 Detail how residual materials/waste which cannot be treated by the specified technology are to be handled at the site**

Insert details – provide supporting document reference if needed

**B6.3 Specify the maximum capacities of quarantine facilities to be used for the storage of contaminated materials destined for re-testing, re-processing or off-site disposal. (Indicate the locations of such quarantine facilities on the site plan)**

Insert details – provide supporting document reference if needed

## B7 Conceptual Site Model and Risk Assessment

*(Use this section to outline the likely impact of your operations on the environment)*

**B7.1 Please provide a conceptual site model (CSM) which identifies all plausible pollution linkages (source-pathway-receptor relationships) and potential impacts to the local environment which could arise as a result of the proposed treatment activities. (A template and further information is available in the guidance.)**

Insert details – provide supporting document reference if needed

**B8 Pollution Control** (for noise, dust, particulates, fibres, aerosols, odour, VOCs, vapours, gases, fuel, oil / or chemical storage, vibration, and pests)

**B8.1** Please provide details of any site specific measures needed to control/minimise emissions, and prevent pollution of the environment and/or harm to human health resulting from your treatment activities (the potential risks should have been identified in your risk assessment)

Insert details – provide supporting document reference if needed

**B9 Emission Monitoring Plans**

**B9.1** Provide a site specific monitoring plan for any emissions that may be generated by the proposed treatment activities. Such monitoring plans must include information on all of the following (if applicable to your process):

- groundwater
- surface water
- soil gases
- air emissions
- noise
- vibration
- odour
- VOCs

Specify the indicator parameters you propose to use for each of the emissions being monitored and provide a justification on why they are the most appropriate parameters to detect impact and prevent pollution. Depending upon your technology the plan should include both point source and wider (fugitive) emissions monitoring. (A template and further information is available in the guidance).

Insert details – give supporting document reference if needed

**B10 Record Keeping - Commissioning, operating and maintenance**

**B10.1** Provide details of commissioning, operating and maintenance including documentation and record-keeping to ensure that emissions from the process do not cause pollution of the environment and harm to human health.

Insert details – provide supporting document reference if needed

**B11 Checklist of supporting documents**

Please ensure that you include the following relevant documents with your deployment application

- Site Plan (B1.2)
- Management supervision (B 4.1)
- Acceptance Procedures (B6.1 and B 6.2)
- Conceptual Site Model and Risk Assessment (B7.1)
- Pollution Control (B8.1)
- Monitoring Plans (B9.1)
- Record Keeping (B10.1)

### **B12 Fee**

You have to submit an application fee with your deployment form. You can find out the charge by searching for 'Environment Agency charging scheme and guidance: environmental permits, licence and registration costs and fees' on: [www.gov.uk/environment-agency](http://www.gov.uk/environment-agency).

This section is required to be completed for all deployments. Please tick and complete one of the boxes below indicating the payment method and ensure that the correct fee is enclosed with the deployment.

**BACS payment - please give the payment reference in the box below.**

## **Section C: Confidentiality and national security**

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

You can ask for information to be made confidential by enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and we will not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

**Only tick the box below if you are certain that you wish information to be confidential. This may delay your application.**

Please treat the information in my application as confidential

You can tell the Secretary of State that you believe that including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Secretary of State and you must still include the information in your application. We will not include the information in the public register unless the Secretary of State decides that it should be included.

You can find guidance on national security in 'Environmental permitting guidance: Core guidance' published by Defra and available via: [www.gov.uk](http://www.gov.uk)

You cannot apply for national security via this application.

## Section D: Declaration

Please read through the following information before ticking the box below.

The information provided will be processed by the Environment Agency to deal with your application, to monitor compliance with the permit conditions, and to maintain the relevant public registers.

We may also process and/or disclose it in connection with the following:

- offering/providing you with our literature/services relating to environmental matters;
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities, emergency services, Defra on environmental issues);
- carrying out statistical analysis, research and development on environmental issues;
- providing public register information to enquirers;
- investigating possible breaches of environmental law and taking any resulting action;
- preventing breaches of environmental law;
- assessing customer service satisfaction and improving our service;
- responding to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004, where the Data Protection Act allows.

We may pass it on to our agents/representatives to do these things on our behalf. You should ensure that any persons named on this form are informed of the contents of this data protection notice.

### Disclosing information you provide to us in this application

We will place the following information from your application on the public register:

- name of the operator;
- where the activity is taking place; and
- details of the activity.

### Declaration

The application contact must tick the declaration section. The application contact must be the operator or their agent.

A person knowingly or recklessly making a statement which is false or misleading when providing information to us commits an offence under regulation 38 of the Environmental Permitting (England and Wales) Regulations 2010.

If you make a false or misleading statement:

- we may prosecute you; and
- if you are convicted, you are liable to a fine or imprisonment (or both)

**I declare that the information provided both on the form and in the supporting documentation which has been supplied with this form is true to the best of my knowledge and belief.**
