International Trade

Strategic Export Controls: Country  
Pivot Report

1st January 2012 - 31st March  
2012

OCTOBER 2019

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2012 and 31st March 2012. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

## Reporting

### Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

### Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

#### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

#### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3265	3224	39	2	2794	68	3960	96	15 days
- Permanent Standard	2697	2657	38	2	2369	68	3343	96	15 days
- Temporary Standard	232	232	0	0	181	64	273	96	16 days
- Transhipment	1	1	0	0	4	67	6	100	12 days
- Incorporation	332	331	1	0	238	67	336	95	16 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	3	3	0	0	2	67	2	67	13 days
SITCLs	27	25	2	0	25	54	43	93	19 days
OIELs	92	87	5	0	35	26	65	47	65 days
- Standard	83	78	5	0	24	20	49	41	81 days
- Dealer-to-dealer	6	6	0	0	6	60	10	100	13 days
- Cryptographic	2	2	0	0	2	50	2	50	44 days
- Media	1	1	0	0	0	0	1	100	38 days
- Continental Shelf	0	0	0	0	3	100	3	100	17 days
Global Project Licences	0	0	0	0	1	100	1	100	1 day
OITCLs	15	12	3	0	12	32	28	76	39 days

**Table notes:**

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	40	0	0
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	20	0	0
EU GEA 003 (EU003) - export after repair/replacement	16	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	14	0	0
EU GEA 005 (EU005) - telecommunications	7	0	0
EU GEA 006 (EU006) - chemicals	4	0	0
Chemicals	0	0	0
Cryptographic Development	0	0	0
Export After Exhibition: Dual-Use Items	0	0	0
Export After Repair/Replacement Under Warranty: Dual-Use Items	4	0	0
Export For Repair/Replacement Under Warranty: Dual-Use Items	7	0	0
Dual-Use Items: Hong Kong Special Administrative Region	1	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items)	23	0	1
Low Value Shipments	0	0	0
OIL and GAS Exploration: Dual-Use Items	2	0	0
Technology for Dual-Use Items	4	0	0
Turkey	0	0	0
X	0	0	0
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	1	0	0

OGEL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	3	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	0	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	13	0	0
Export After Exhibition or Demonstration: Military Goods	4	0	0
Export After Repair/replacement Under Warranty: Military Goods	16	0	0
Export For Repair/Replacement Under Warranty: Military Goods	12	0	0
Exports or transfers in Support of UK Government Defence Contracts	7	0	0
OGEL (Certified Companies)	0	0	0
OGEL (Exports under the US-UK Defence Trade Co-operation Treaty)	0	0	0
OGEL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£5,162,831
Non-military	1	£250,000
Total	10	£5,412,831

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£24,077
ML3	3	£24,850
ML6	1	£5,064,318
ML13	4	£49,205
ML22	1	£168
PL5017	2	£212

- assault rifles (20).
- body armour (3 licences).
- components for assault rifles.
- components for body armour (3 licences).
- machine guns (1).
- military helmets (3 licences).
- military support vehicles.
- small arms ammunition (3 licences).
- technology for assault rifles.
- weapon cleaning equipment (2 licences).
- weapon sight mounts.
- weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£250,000

civil explosive detection/identification equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, military guidance/navigation equipment

#### Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals designated under the UN's "1988 List" under UNSCR 1988 of designated individuals. All exports for this destination were approved in accordance with the sanctions in place or for use by the International Security Assistance Force (ISAF)/Diplomatic Missions/United Nations/Recognised NGO.

1	P	cryptographic software

### Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

## Australia

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	7	£589,491
Total	7	£589,491

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£476,206
ML5	1	£27,580
ML7	1	£7,125
ML11	1	£4,000
ML15	1	£74,580

	components for sniper rifles.
T	equipment for the use of weapon night sights.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment.
	NBC protective/defensive equipment.
	sporting guns (1) (2 licences).
	sporting guns (10).
T	weapon night sights.
	weapon sights.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£37,026
Total	2	£37,026

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£35,763
ML11	1	£1,263

components for ground vehicle military communications equipment.  
components for military communications equipment.

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software
2	P	components for submersible vehicles, composite structures, heading sensors for hydrophone arrays, high energy capacitors, imaging cameras, metal alloy tubes, submersible equipment, syntactic foam, underwater electronic imaging systems

#### Country Footnotes

- In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".  
The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£22,386
Total	1	£22,386

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£22,386

T civil explosive detection/identification equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software
2	P	components for sporting guns, unfinished products for sporting guns
3	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment

# Botswana

### Country Footnotes

1. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£12,044,341
Non-military	9	£402,296
Total	12	£12,446,637

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£2,947
ML2	1	£11,979,500
ML3	1	£5,644
ML5	1	£56,250

components for machine guns.  
 components for pistols.  
 components for projectile launchers.  
 components for weapon control equipment.  
 training small arms ammunition.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B351	1	£334
5A002	2	£48,238
5D002	1	£38,964
6A002	1	£100,000
6A003	1	£4,400
7A003	1	£15,500
8A002	3	£194,860

T  
 cryptographic software.  
 direct view imaging equipment.  
 equipment employing cryptography (2 licences).  
 imaging cameras.  
 inertial equipment.

submersible equipment (3 licences).  
toxic gas monitoring equipment.

## Refused

	Count
Military	3
Total	3

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	3

components for pistols (2 licences).  
pistols (1) (3 licences).  
sporting guns (1).

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	body armour, components for body armour, military helmets, rifles, sporting guns
2	P	components for sporting guns, unfinished products for sporting guns
3	T	military support aircraft

## Greece

### Processing Statistics

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	92% (11)
% and number of SIELs completed in 60 working days	100% (12)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	123 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	22% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	93 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	0% (0)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£187,779
Both Military and Non-military	1	£1,173,000
Total	9	£1,360,779

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£222
ML6	4	£169,880
ML10	1	£15,250
ML13	1	£2,427

body armour.  
components for body armour.  
military combat vehicles (2 licences).  
military helicopters.  
tanks (2 licences).  
weapon sights (2 licences).

## Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£125,000
ML1	1	£810,000
ML3	1	£95,000
ML13	1	£143,000

assault rifles (200).  
body armour.  
components for assault rifles.  
components for body armour.  
components for pistols.  
components for rifles.  
direct view imaging equipment.  
military helmets.  
pistols (50).  
rifles (100).  
small arms ammunition.  
weapon sights.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	2	£6,496
Total	2	£6,496

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£5,405
ML10	1	£1,091

components for surface-to-air missiles.  
general military aircraft components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

France  
United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	body armour, components for body armour, military helmets, rifles, sporting guns
2	P	neutron generators, non-military detonators, non-military firing sets
3	P	components for gun silencers, gun silencers
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
5	P	components for sporting guns, unfinished products for sporting guns
6	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
7	T	military support aircraft
8	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets

### Country Footnotes

1. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	16	£270,928
Non-military	25	£2,340,691
Total	41	£2,611,620

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£609
ML4	1	£1,900
ML5	5	£87,000
ML10	5	£78,044
ML11	3	£96,006
PL5035	1	£7,370

aircraft military communications equipment (2 licences).  
 components for all-wheel drive vehicles with ballistic protection.  
 components for assault rifles.  
 components for electronic warfare equipment (2 licences).  
 components for military aero-engines.  
 components for military communications equipment.  
 components for military helicopters.  
 components for military radars (4 licences).  
 components for munitions/ordnance detection/disposal equipment.  
 components for pistols.  
 components for targeting equipment.  
 military aero-engines.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£590,438
1C228	1	£335
1C240	1	£22,000
2B350	2	£17,011
3A002	1	£40,000

### Country Footnotes

- Arms trade sanctions against the Ivory Coast were adopted by 2004/852/CFSP and UN Security Council resolution 1572. These have been amended by UN Security Council resolution 1946 and 1980 (2011) and EU Council Decisions 2010/656/CFSP and 2011/142/CFSP. All exports for this destination were approved in accordance with the sanctions in place.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£7,600
Non-military	3	£5,389,188
Both Military and Non-military	1	£15,490
Total	5	£5,412,278

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£7,600

T military communications equipment.

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,884,188
7A103	1	£5,000
9A004	1	£3,500,000

equipment employing cryptography.  
inertial equipment.  
spacecraft.

#### **Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£920
ML7	1	£11,470
ML11	1	£3,000
ML17	1	£100

T civil NBC protection equipment.  
T components for civil riot control agent protection equipment.  
T components for NBC protective/defensive equipment.  
T military communications equipment.  
T military laser protection equipment.  
T NBC protective/defensive equipment.

### Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

1	P	cryptographic software

#### Country Footnotes

- The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 14 December 2012 by UNSCR 2025 (2011). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

#### Issued

all-wheel drive vehicles with ballistic protection.

#### Country Footnotes

- Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	2	£30,935
Total	2	£30,935

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,067
6A001	1	£29,868

T equipment employing cryptography.  
towed hydrophone arrays.

**SIELs - Incorporation****Issued**

Types of goods on licence	No. of licences	Value
Military	1	£1,118
Total	1	£1,118

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£1,118

components for combat aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

India

**OIELs (excluding Other OIELs)****Issued**

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£68,677
Non-military	3	£16,250
Total	5	£84,927

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£7,500
ML11	1	£61,177

military electronic equipment.  
military support vehicles.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£13,150
5D002	2	£3,100

cryptographic software (2 licences).  
equipment employing cryptography (3 licences).

ML17	1	£100

- T civil NBC protection equipment.  
T civil riot control agent protection equipment.  
T components for equipment for the use of NBC protective/defensive equipment.  
T military communications equipment.  
T military laser protection equipment.  
T NBC protective/defensive equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	equipment employing cryptography, equipment for the development of equipment employing cryptography, software for the development of equipment employing cryptography, technology for the development of equipment employing cryptography
2 (Rv)	P	neutron generators, non-military detonators, non-military firing sets
3 (Rv)	P	biotechnology equipment, components for biotechnology equipment
4 (Rv)	P	cryptographic software, equipment employing cryptography
5 (Rv)	P	imaging cameras, metal alloy tubes, syntactic foam, underwater electronic imaging systems
6 (Rv)	P	technology for the production of unfinished products for military infrared/thermal imaging equipment

Rv - Some or all of which have subsequently been revoked.

#### Country Footnotes

- On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£267,100
Total	3	£267,100

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£220,000
ML17	1	£47,100

military containers.  
 military mobile repair shops and related equipment.

military support vehicles (3 licences).  
military trailers.

## OIELs (excluding Other OIELs)

### SITCLs

Source	Issued	Refused	Revoked
South Africa	1	0	0

### Issued

military combat vehicles.  
weapon mountings.

## Country Footnotes

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

## Singapore

### Processing Statistics

### Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£1,732,115
Total	9	£1,732,115

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£436,200
ML3	2	£46,700
ML10	5	£33,240
ML13	1	£215,975
PL5001	2	£1,000,000

acoustic devices for riot control (2 licences).  
body armour.  
combat shotguns (60).  
combat shotguns (100).  
components for ejector seats (2 licences).  
components for military support aircraft (2 licences).  
components for military training aircraft.  
military helmets.  
rifles (130).  
small arms ammunition (2 licences).  
sporting guns (200).  
weapon sights (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£166,255
Total	1	£166,255

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£166,255

components for targeting equipment.

weapon sight mounts.

#### Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

1. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, the EU has also adopted restrictions on the supply of equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, and of Syrian denominated banknotes and coinage.
2. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, there have been a number of revisions in 2012 and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	12	£8,249,649
Total	12	£8,249,649

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£12,563
ML5	2	£8,139,308
ML7	2	£24,899
ML10	6	£14,738
ML16	1	£47,815
PL5017	1	£10,326

components for combat aircraft (6 licences).  
 components for launching/handling/control equipment for rockets.  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment.  
 components for surface-to-air missiles.  
 components for weapon control equipment.  
 components for weapon night sights.  
 equipment for the use of NBC detection equipment.  
 NBC detection equipment.  
 NBC protective/defensive equipment.  
 unfinished products for military aero-engines.  
 weapon night sights.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Germany  
 Malaysia  
 Pakistan  
 United Arab Emirates  
 United States of America

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography, equipment for the development of equipment employing cryptography, software for the development of equipment employing cryptography, technology for the development of equipment employing cryptography

 components for targeting equipment (3 licences).  
 components for unmanned air vehicles (9 licences).

T equipment for the operation of military aircraft in confined areas.  
 equipment for the production of launching/handling/control/support equipment for unmanned air vehicles.  
 equipment for the production of unmanned air vehicles.  
 equipment for the use of decoying/countermeasure equipment.

T equipment for the use of military communications equipment.  
 equipment for the use of military support aircraft.

T equipment for the use of weapon night sights.

T equipment for the use of weapon sights.

T fire location equipment.

T general military aircraft components.  
 general military vehicle components.  
 gun mountings.

T gun mountings.  
 launching/handling/control equipment for missiles.  
 launching/handling/control equipment for munitions.  
 military aero-engines.  
 military aircraft ground equipment.  
 military combat vehicles (6 licences).  
 military communications equipment.

T military communications equipment.  
 military electronic equipment (2 licences).

T military electronic equipment.  
 military field engineer equipment.  
 military guidance/navigation equipment (4 licences).  
 military helmets.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 military support vehicles (2 licences).  
 military training equipment.  
 NBC detection equipment.  
 NBC protective/defensive equipment (2 licences).

T projectile launchers.

T rangefinding equipment.  
 rifles (1) (2 licences).  
 software enabling equipment to function as military communications equipment.  
 software for determining the effects of weapons.  
 software for electronic warfare equipment.  
 Software for modelling/simulating/evaluating weapon systems.  
 software for NBC detection equipment.  
 sporting guns (1) (6 licences).  
 sporting guns (3) (2 licences).  
 sporting guns (7).  
 technology for command communications control and intelligence software.

- technology for launching/handling/control/support equipment for unmanned air vehicles (2 licences).
- technology for military aero-engines.
- technology for NBC detection equipment.
- technology for software for determining the effects of weapons.
- technology for Software for modelling/simulating/evaluating weapon systems.
- technology for submarines.
- technology for surface-to-surface missiles.
- technology for the development of unmanned air vehicles.
- technology for the production of unmanned air vehicles.
- unfinished products for artillery.
- unfinished products for combat aircraft (8 licences).
- T unmanned air vehicles.
- T weapon cleaning equipment.
- T weapon night sights.
- T weapon sights (7 licences).
- T weapon sights.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	7	£9,224
0E001	1	£1,400
1A004	1	£184,750
1C230	1	£20,000
1C233	1	£5,323
1C351	18	£55,937
1C353	3	£1,957
3A001	2	£11,696

5D002	1	£13,000
6A001	2	£83,925
6A008	1	£150,000
7A003	1	£55,915
End Use	1	£330,000

- T beryllium.
- civil NBC detection systems.
- depleted uranium (3 licences).
- high energy capacitors.
- human pathogens (2 licences).
- hydrophones (2 licences).
- inertial equipment.
- laser radar equipment.
- metallic powders.
- microwave components.
- natural uranium (2 licences).
- pathogenic genetic elements (3 licences).
- products containing enriched lithium.
- software for equipment employing cryptography.
- technology for nuclear reactors.
- thorium (5 licences).
- thyristors.
- toxins (16 licences).

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£140,000
ML1	1	£234,200
ML15	1	£18,000

T imaging cameras.  
T military image intensifier equipment.  
T weapon night sights.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	19	£33,250,248
Total	19	£33,250,248

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	14	£30,293,147
ML11	3	£656,231
ML15	1	£650,000
ML16	1	£1,650,870

components for combat helicopters.  
components for military aero-engines (3 licences).  
components for military infrared/thermal imaging equipment.  
components for military support aircraft (7 licences).  
components for military training aircraft (2 licences).  
components for test equipment for combat aircraft.  
components for unmanned air vehicles.  
electronic warfare equipment.  
military guidance/navigation equipment.  
unfinished products for military aero-engines.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
Australia  
Bulgaria  
Canada  
Egypt  
France  
Germany  
Greece  
Hungary  
India  
Indonesia  
Italy  
Japan  
Jordan  
Kuwait  
Lithuania

Malaysia  
Mexico  
Morocco  
Netherlands  
Nigeria  
Oman  
Qatar  
Romania  
Singapore  
South Africa  
South Korea  
Spain  
Taiwan  
Thailand  
Tunisia  
Turkey  
United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	neutron generators, non-military detonators, non-military firing sets
2	P	triggered spark gaps
3	P	technology for nuclear reactors
4	P	components for aircraft military communications equipment, components for military communications equipment, equipment for the production of military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets
5	P	technology for equipment for the development of surface-to-surface missiles, technology for equipment for the production of surface-to-surface missiles, technology for equipment for the use of launching/handling/control equipment for missiles, technology for equipment for the use of weapon control equipment, technology for launching/handling/control equipment for missiles, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for software for launching/handling/control equipment for missiles, technology for software for military guidance/navigation equipment, technology for software for naval communications equipment, technology for software for surface-to-surface missiles, technology for software for weapon control equipment, technology for submarines, technology for surface-to-surface missiles, technology for weapon control equipment
6	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, technology for military support aircraft
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
8	P	components for NBC protective/defensive equipment
9	P	components for sporting guns, unfinished products for sporting guns

10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, equipment for the use of general naval vessel components, equipment for the use of military electronic equipment, general military aircraft components, general military vehicle components, general naval vessel components, military electronic equipment, technology for general military aircraft components, technology for general military vehicle components, technology for general naval vessel components, technology for military electronic equipment
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, components for military electronic equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment
12	P	components for combat aircraft, components for ejector seats, components for equipment for the production of ejector seats, components for military aircraft ground equipment, components for military aircrew breathing equipment, components for military aircrew protective equipment, components for military electronic equipment, components for military training aircraft, components for signalling devices, components for test models for ejector seats, components for test models for military aircrew breathing equipment, components for test models for military aircrew protective equipment, ejector seats, equipment for the production of ejector seats, equipment for the production of military aircrew protective equipment, general military aircraft components, military aircraft ground equipment, military aircrew breathing equipment, military aircrew protective equipment, military electronic equipment, signalling devices, technology for ejector seats, technology for military aircraft ground equipment, technology for military aircrew breathing equipment, technology for military aircrew protective equipment, technology for signalling devices, test models for ejector seats, test models for military aircrew breathing equipment, test models for military aircrew protective equipment
13	P	technology for nuclear reactors
14	P	components for combat aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
15	P	components for military training aircraft, software for military training aircraft
16	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets

### Country Footnotes

1. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP and replaced by Council Decision 2011/101/CFSP. The measures include restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 314/2004.
