Strategic Export Controls: Country
Pivot Report

1st July 2012 - 30th September
2012

OCTOBER 2019

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st July 2012 and 30th September 2012. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3327	3277	48	2	2911	70	3984	96	15 days
- Permanent Standard	2811	2764	45	2	2483	69	3425	96	15 days
- Temporary Standard	207	206	1	0	172	67	244	95	16 days
- Transhipment	4	4	0	0	6	100	6	100	10 days
- Incorporation	304	302	2	0	249	77	308	95	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	1	0	0	1	100	1	100	11 days
SITCLs	24	22	2	0	21	50	36	86	20 days
OIELs	53	47	6	0	23	33	35	51	59 days
- Standard	43	37	6	0	15	27	23	41	72 days
- Dealer-to-dealer	7	7	0	0	6	75	8	100	7 days
- Cryptographic	1	1	0	0	2	67	2	67	4 days
- Media	1	1	0	0	0	0	1	100	33 days
- Continental Shelf	1	1	0	0	0	0	1	100	59 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	1	1	0	0	7	70	7	70	9 days

Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	30	0	0
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	3	0	0
EU GEA 003 (EU003) - export after repair/replacement	10	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	10	0	0

0C002	1	£1,024
7A101	1	£2,300

accelerometers.
plutonium-239.

Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

 software for equipment employing cryptography.

Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	48	£5,542,452
Non-military	18	£9,111,594
Total	66	£14,654,047

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£81,355
ML3	2	£646,000
ML4	1	£134,000
ML6	2	£123,878
ML7	2	£8,530
ML9	6	£982,496
ML10	22	£1,600,839
ML11	8	£1,905,583
ML21	1	£0
ML22	2	£3,456
PL5017	3	£56,315

- components for artillery ammunition.
- components for combat aircraft (9 licences).
- components for combat helicopters (2 licences).
- components for combat naval vessels.
- components for machine guns.
- components for military communications equipment.
- components for military electronic equipment.
- components for military guidance/navigation equipment.
- components for military helicopters.
- components for military patrol/assault craft.
- components for military support aircraft.
- components for military training aircraft (9 licences).
- components for NBC detection equipment.
- T components for NBC protective/defensive equipment.
- components for small arms ammunition.
- components for submarines (3 licences).
- components for surface-to-surface missiles.
- equipment for the use of machine guns.
- T equipment for the use of military aero-engines.
- equipment for the use of military communications equipment.
- general military aircraft components.
- general military vehicle components.
- general naval vessel components.
- ground vehicle military communications equipment.
- gun mountings.
- machine guns (10).
- military communications equipment (2 licences).
- military electronic equipment (2 licences).

T military guidance/navigation equipment (2 licences).
 military patrol/assault craft.
 NBC protective/defensive equipment.
 rifles (5).
 software for military communications equipment.
 sporting guns (12).
 technology for military communications equipment.
 technology for military guidance/navigation equipment.
 training aircraft cannon ammunition.
 training smoke/pyrotechnic ammunition.
 weapon cleaning equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1E001	1	£50,000
1E101	1	£0
2B351	1	£261
4A003	1	£15,000
4D001	1	£1,400

7A003	7	£844,852
8A001	1	£4,800,000
8A002	1	£2,760,000
8C001	1	£200,000

T components for marine position fixing equipment.
 components for toxic gas monitoring equipment.
 computer analogue-to-digital equipment.
 equipment employing cryptography (3 licences).
 imaging cameras (2 licences).
 inertial equipment (7 licences).
 marine position fixing equipment.
 radio jamming equipment.
 software for computer analogue-to-digital equipment.
 submersible equipment.
 submersible vehicle control systems.
 submersible vehicles.
 syntactic foam.
 technology for electromagnetic wave absorbing materials.
 underwater telecommunications systems.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	7	£115,784
Total	7	£115,784

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£36,251
ML10	3	£24,909
ML11	2	£54,624

components for combat aircraft (2 licences).
 components for launching/handling/control equipment for munitions.
 components for military training aircraft.
 military communications equipment.
 military equipment for initiating explosives.
 military guidance/navigation equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Angola
 Indonesia
 Mauritania
 Pakistan
 United States of America

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	2	£133,606
Total	2	£133,606

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£15,620
ML2	1	£70
ML3	1	£109,253
ML4	1	£8,664
PL5017	1	£0

assault rifles (15).
 clips for assault rifles.
 combat shotguns (2).
 components for assault rifles.
 components for machine guns.
 components for small arms ammunition.
 CS hand grenades.
 equipment for the use of small arms ammunition.
 machine guns (4).
 pistols (25).

projectile launchers.
 signalling devices.
 small arms ammunition.

SIELs for goods covered by EC Reg 1236/2005 - Transhipment

Issued

Types of goods on licence	No. of licences	Value
Goods covered by EC Reg 1236/2005	1	£455
Goods covered by EC Reg 1236/2005 and Military	0	£0
Goods covered by EC Reg 1236/2005 and Non-military	0	£0
Goods covered by EC Reg 1236/2005 and Both Military and Non-military	0	£0
Total	1	£455

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by EC Reg 1236/2005

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£455

portable anti-riot devices.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, technology for military aero-engines
2	P	components for marine position fixing equipment, components for underwater telecommunications systems, marine position fixing equipment, underwater telecommunications systems
3	P	components for gun mountings, components for launching/handling/control equipment for munitions, components for machine guns, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military patrol/assault craft, components for naval guns, components for signalling devices, components for targeting equipment, components for weapon control equipment, components for weapon sights, technology for gun mountings, technology for launching/handling/control equipment for munitions, technology for machine guns, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military patrol/assault craft, technology for naval guns, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon sights

Country Footnotes

1. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

Types of goods on licence	No. of licences	Value
Military	6	£1,930,611
Total	6	£1,930,611

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,200,000
ML5	2	£569,216
ML6	2	£149,055
ML10	1	£12,340

components for combat aircraft.
 components for rangefinding equipment.
 components for surface-to-surface missiles.
 components for weapon control equipment.

general military vehicle components (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
Kuwait
Saudi Arabia
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft
2	P	components for sporting guns, components for weapon sights, small arms ammunition, sporting guns, technology for sporting guns, technology for weapon sights, weapon sights

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for semiconductor process equipment, components for semiconductor process equipment
2	P	components for equipment for the use of military communications equipment, components for military communications equipment, equipment for the use of military communications equipment, military communications equipment, technology for military communications equipment

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for weapon sights designed for civilian use returned for repair or scrap.

Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011))). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

Total	5	£773,355

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£652,680
ML3	1	£10,000
ML6	1	£11,136
ML9	1	£959
ML11	1	£12,000
ML15	1	£86,580

- T equipment for the use of weapon night sights.
general military vehicle components.
general naval vessel components.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
small arms ammunition.
- T weapon night sights.
weapon sights.
- T weapon sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for improvised explosive device disruptors, components for improvised explosive device disruptors, improvised explosive device disruptors
2	P	equipment employing cryptography, technology for equipment employing cryptography
3	P	equipment employing cryptography, technology for equipment employing cryptography

 T targeting equipment.
 tear gas/riot control agents.
 technology for command communications control and intelligence software.
 technology for the use of air-to-surface missiles.
 weapon night sights.
 T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	1	£425
0D001	1	£1
0E001	2	£40,001
PL9003	1	£16,000

anthrax vaccines.
products containing plutonium-239.
software for nuclear reactors.
technology for nuclear reactors (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	50	£4,259,850
Total	50	£4,259,850

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£286,923
ML5	9	£273,721
ML6	1	£915
ML9	5	£48,412
ML10	28	£1,729,151
ML11	4	£213,149
ML14	1	£1,685,639
ML15	1	£21,939

components for combat aircraft (18 licences).
components for launching/handling/control equipment for missiles.
components for military aero-engines (3 licences).
components for military aircraft navigation equipment.
components for military guidance/navigation equipment (2 licences).
components for military patrol/assault craft.
components for military radars (2 licences).
components for military support aircraft (7 licences).
components for military support vehicles.
components for naval electrical/electronic equipment.
components for periscopes (6 licences).
components for submarines (2 licences).
components for surface-to-air missiles.
components for weapon control equipment.
equipment for the use of military image intensifier equipment.
general naval vessel components.
military image intensifier equipment.

military training equipment.

Country Footnotes

1. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions against the Ivory Coast were adopted by 2004/852/CFSP and UN Security Council resolution 1572. These have been amended by UN Security Council resolution 1946 and 1980 (2011) and EU Council Decisions 2010/656/CFSP and 2011/142/CFSP. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 14 December 2012 by UNSCR 2025 (2011). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

Issued

military communications equipment (2 licences).

Country Footnotes

1. Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011. UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development works and other sales or supply of arms and related materiel as approved in advance by the Committee. Procedures vary: some exports must be approved in advance by the Sanctions Committee while other require notification only.

All exports for this destination must be in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for military combat vehicles and military support vehicles was for civilian use by the Ministry of Justice.

equipment employing cryptography (2 licences).

Country Footnotes

- Arms trade sanctions against Guinea were adopted by EU Common Position 2009/788/CFSP amended by Council Decision 2009/1003/CFSP. EU Common Position 2009/788/CFSP was repealed and replaced by Council Decision 2010/638/CFSP on 25 October 2010. A further amendment was made to the arms embargo through the adoption of Council Decision 2011/706/CFSP on 27 October 2011 which allows for the export of certain equipment to be used for maintaining public order by the police and gendarmerie in Guinea. An additional exemption was introduced with the adoption of Council Decision 2012/149/CFSP and this relates to the return of non-combat helicopters to Guinea. The embargo also extends to equipment that might be used for internal repression as designated in the annex to Council Regulation 1284/2009. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. Licences granted for sniper rifles, components for sniper rifles, weapon sights and small arms ammunition were issued for sporting and hunting end use.
2. On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

Country Footnotes

1. The United Nations embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The UK's national implementing legislation on Sierra Leone is however still in force. Work is underway to repeal this at the earliest opportunity.

Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

Resolution 2036 (2012) prohibited the import, purchase or transport of charcoal from Somalia. The provision of certain related service to Somalia (financing or financial assistance, as well as insurance and reinsurance related to the import, purchase or transport of charcoal from Somalia) were also prohibited by UNSCR 2036.

All exports for this destination were approved in accordance with the sanctions in place.

ML15	1	£114,160

- assault rifles (200) (2 licences).
assault rifles (300).
body armour (4 licences).
T civil NBC detection systems.
components for assault rifles (3 licences).
components for body armour (4 licences).
components for pistols (3 licences).
components for rifles (3 licences).
direct view imaging equipment (4 licences).
T equipment for the use of NBC detection equipment.
T equipment for the use of weapon night sights.
T imaging cameras.
military helmets (4 licences).
T military infrared/thermal imaging equipment.
T NBC detection equipment.
pistols (50) (3 licences).
rifles (100) (3 licences).
small arms ammunition (3 licences).
T weapon night sights.
weapon sights (3 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	4	£34,301
Non-military	1	£6,000
Total	5	£40,301

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,456
ML6	2	£21,809
ML16	1	£11,036

components for air-to-air missiles.
 components for military combat vehicles (2 licences).
 unfinished products for military support aircraft.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A101	1	£6,000

accelerometers.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Belgium
 Brazil
 Canada
 Finland
 France
 Germany
 Luxembourg
 Malaysia
 Spain
 Sweden
 Turkey

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, technology for military aero-engines
2	P	components for marine position fixing equipment, components for underwater telecommunications systems, marine position fixing equipment, underwater telecommunications systems
3	P	equipment employing cryptography, technology for equipment employing cryptography
4	P	body armour, direct view imaging equipment, military helmets
5	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew breathing equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support

		aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew breathing equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft
6	T	assault rifles, body armour, components for assault rifles, components for body armour, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition

5A002	1	£1,922,136
5D002	1	£1,371

equipment employing cryptography.
software for equipment employing cryptography.

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

software for equipment employing cryptography.

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, the EU has also adopted restrictions on the supply of equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, and of Syrian denominated banknotes and coinage.

2. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. In addition, there have been a number of revisions in 2012 and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	20	£1,147,047
Non-military	20	£4,842,366
Both Military and Non-military	2	£323,845
Total	42	£6,313,258

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£43,011
ML3	3	£25,903
ML4	2	£44,502
ML5	1	£2,320
ML7	1	£475

ML9	1	£3,912
ML10	3	£464,059
ML11	5	£264,531
ML15	1	£282,714
PL5001	1	£15,620

- anti-armour ammunition.
- anti-riot/ballistic shields.
- components for combat naval vessels.
- components for military aero-engines (2 licences).
- components for military guidance/navigation equipment (5 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for NBC protective/defensive equipment.
- components for recognition/identification equipment.
- components for sniper rifles.
- gun mountings.
- military aero-engines.
- military equipment for initiating explosives.
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- military infrared/thermal imaging equipment.
- T NBC protective/defensive equipment.
- small arms ammunition (2 licences) [See footnotes 2, 3].
- sniper rifles (10).
- weapon sights [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	2	£135,310
1C202	1	£729
1C350	1	£9,000
2B350	6	£29,077

6A003	1	£13,677
ML1	1	£169,119
ML7	1	£445

ML17	2	£4,570
ML22	1	£0
PL5017	1	£495

T	civil NBC protection clothing.
T	direct view imaging equipment.
T	equipment for the use of weapon sights.
T	goods treated for signature suppression for military use (2 licences).
T	image intensifier tubes.
T	imaging cameras.
T	NBC protective/defensive equipment.
T	technology for equipment for the use of weapon sights.
T	weapon night sights.
T	weapon sight mounts.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	equipment employing cryptography, radio jamming equipment
2	T	assault rifles, body armour, components for assault rifles, components for body armour, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition

Case & goods Footnotes

1. Licence granted for items to be held in stock by a commercial company against future orders.
2. One licence granted for small arms ammunition was for use in counter-terrorist operations.
3. Licence granted for small arms ammunition was for sporting end-use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	24	£3,001,869
Non-military	41	£194,649,413
Both Military and Non-military	2	£1,408,900
Total	67	£199,060,182

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£122,779
ML5	2	£602,391
ML10	8	£1,912,406
ML11	5	£113,772
ML13	4	£215,916
ML21	2	£18,625
ML22	2	£264
PL5017	3	£15,716

aircraft military communications equipment.
assault rifles (20).
body armour (3 licences).
components for aircraft military communications equipment.
components for assault rifles.
components for body armour (2 licences).
components for military airborne equipment.
components for military helicopters (2 licences).
components for military radars.
components for military utility helicopters.
T equipment for the use of attack alerting/warning equipment.
equipment for the use of military communications equipment.
equipment for the use of military guidance/navigation equipment.
equipment for the use of targeting equipment.
gun silencers.
military airborne equipment (2 licences).
military aircraft ground equipment (2 licences).
military communications equipment.
military guidance/navigation equipment (2 licences).
military helmets (4 licences).
software for military communications equipment.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£152,815
Non-military	4	£5,021
Total	10	£157,836

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£23,007
ML3	1	£90,250
ML6	3	£39,558

components for military support vehicles.
 gun silencers.
 military support vehicles (3 licences).
 small arms ammunition.
 sporting guns (23).
 weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	4	£5,021

equipment employing cryptography (4 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

1	1

OIELs (excluding Other OIELs)

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	equipment employing cryptography

Country Footnotes

1. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP and replaced by Council Decision 2011/101/CFSP. The measures include restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 314/2004.
