**Strategic Export Controls: Country
Pivot Report**

**1st October 2012 - 31st December
2012**

OCTOBER 2019

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st October 2012 and 31st December 2012. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3361	3306	55	0	2854	68	3934	94	15 days
- Permanent Standard	2807	2757	50	0	2497	70	3375	95	14 days
- Temporary Standard	194	192	2	0	135	57	212	90	18 days
- Transhipment	7	7	0	0	4	40	8	80	21 days
- Incorporation	352	349	3	0	217	59	338	92	16 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	1	0	0	1	100	1	100	17 days
SITCLs	26	26	0	0	23	51	39	87	20 days
OIELs	77	68	8	1	38	33	63	54	53 days
- Standard	66	58	7	1	24	25	47	49	64 days
- Dealer-to-dealer	5	5	0	0	9	100	9	100	3 days
- Cryptographic	6	5	1	0	4	36	6	55	54 days
- Media	0	0	0	0	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	0	0	0	0	1	100	1	100	8 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	2	1	1	0	6	75	6	75	5 days

Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	40	0	1
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	5	0	0
EU GEA 003 (EU003) - export after repair/replacement	4	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	6	0	0
EU GEA 005 (EU005) - telecommunications	1	0	0
EU GEA 006 (EU006) - chemicals	2	0	0
Chemicals	0	0	0

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	9	£442,296
Non-military	7	£4,082,312
Total	16	£4,524,608

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	5	£392,687
ML10	1	£15,225
ML13	3	£13,052
PL5017	3	£21,332

aircraft military communications equipment.
 armoured plate.
 body armour (2 licences).
 components for body armour.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).
 equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).

military improvised explosive device decoying/detection/disposal/jamming equipment.
munitions/ordnance detection/disposal equipment (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£346,984
5A002	5	£235,317
5D002	1	£11
7A103	1	£3,500,000

equipment employing cryptography (5 licences).
improvised explosive device activation/jamming equipment.
inertial equipment.
software for equipment employing cryptography.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".
The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	9	£295,215
Non-military	1	£0
Total	10	£295,215

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£172,805
ML10	1	£15,410
ML11	1	£20,000
ML15	1	£85,000
PL5017	1	£2,000

- T ballistic test equipment.
- T components for military aero-engines.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- T rifles (1) (2 licences).
- T weapon night sights.
- T weapon sight mounts.
- T weapon sights (3 licences).
- T weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£0

technology for nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£18,972
Total	2	£18,972

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£18,000
ML10	1	£972

components for military training aircraft.
general military vehicle components.

5D002	1	£1

cryptographic software.
equipment employing cryptography.

Country Footnotes

1. In February 1992, the Organisation on Security and Co-operation in Europe (OSCE) requested that all OSCE participating states should introduce an embargo on: "all deliveries of weapons and munitions to forces engaged in combat in the Nagorno-Karabakh area".

The UK interprets the OSCE arms embargo for Armenia and Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia or in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Country Footnotes

1. A comprehensive ban on the provision of all arms and related material to Myanmar was adopted under CFSP 2006/318 as renewed by Council Decision 2010/232/CFSP. The EU also adopted restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 194/2008. All exports for this destination were approved in accordance with the sanctions in place.

bomb suits.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896, 1952 (2010 and 2021 (2011))). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. Licences granted that may include a combination of the following goods were issued for end use in maritime anti-piracy operations - assault rifles, body armour, components for assault rifles, components for pistols, components for rifles, direct view imaging equipment, military helmets, pistols, rifles, small arms ammunition, weapon sights, components for body armour, components for sporting guns, high quantities of sporting guns and combat shotguns.

Case & goods Footnotes

1. Licence granted for private/sporting use.
2. Licence granted for testing and evaluation at a firing range.
3. Licence granted for evaluation by a Government organisation.
4. Licence granted for personal protection of crew on board a vessel.
5. Licence granted for a detection kit for use by a commercial company.

Country Footnotes

- Arms trade sanctions against Eritrea were adopted by UN Security Council resolution 1907 on 23 December 2009. UNSCR 2060 (2012) introduced exemptions to the arms embargo for temporary export of protective clothing to Eritrea by United Nations personnel, representatives of the media and humanitarian and development workers and associated personnel for their personal use only; and for the export of non-lethal military equipment intended solely for humanitarian or protective use, as approved in advance by the relevant Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,500
Non-military	1	£14,419
Total	2	£15,919

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£1,500

components for all-wheel drive vehicles with ballistic protection.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£14,419

equipment employing cryptography.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML2	1

grenade launchers.

Military	2	£282,069
Total	2	£282,069

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£184,000
ML7	1	£2,069
ML15	1	£96,000

T components for NBC protective/defensive equipment.
T military image intensifier equipment.
T military infrared/thermal imaging equipment.
T NBC protective/defensive equipment.
T weapon night sights.

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	civil aero-engines, components for airframe structures, components for civil aero-engines, components for civil aircraft

Country Footnotes

- UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted Council Regulation (EU) No 267/2012 on 26 March that revoked and replaced previous EU sanctions measures. Sanctions against Iran now include wide restrictions on trade including the

export of 'dual use' goods and goods that could contribute to Iran's nuclear programme as well as an arms embargo. There are also wide restrictions targeting the investment in Iran's energy including the supply of key equipment and the purchase of oil and gas. Furthermore there are wide prohibitions on dealings with large sections of the financial sectors including the freezing of funds and economic resources of certain individuals and entities, as well as restrictions on the provision of insurance to the Government of Iran and restrictions on the transfer of funds with Iranian banks.

All exports for this destination were approved in accordance with the sanctions in place.

- On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

- The adoption of UNSCR 1929 on 9 June 2010 established a UN embargo on the supply of conventional weapons to Iran, in addition to restrictions introduced under the original UNSCR 1737 of 23 December 2006, which restricted any equipment that could contribute to the nuclear capability of Iran. The consolidated Regulation 267/2012 includes amendments to UNSCR 2010/413/CFSP that embargo equipment for the petrochemical industry, trade in precious and raw metals, diamonds, Iranian banknotes and coinage to the Central Bank of Iran, naval equipment and technology for ship-building, and on certain software for integrating industrial processes. There is currently one exemption to the arms embargo, for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

EU counter-proliferation sanctions currently in force are set out in Council Decision 2010/413/CFSP, as amended. This Decision embargoes the supply of arms and equipment that could contribute to the nuclear capability of Iran, nearly all Dual-Use equipment and equipment for certain sectors of the oil and natural gas industries.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- These licences are for export of commercially available electronic equipment. They were originally refused because of concerns of possible diversion to military end-use. The refusals were reported in the Quarterly Report for October-December 2012 and the Annual Report for 2012. On appeal, the diversion risk was found to be unsubstantiated and the licences were granted. For the sake of consistency the same goods description has been used here as when reporting the refusals.

 promoting the supply of military infrared/thermal imaging equipment.
 promoting the supply of targeting equipment.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

- Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£18,786
Total	1	£18,786

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£18,786

equipment employing cryptography.

Country Footnotes

- The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 14 December 2012 by UNSCR 2025 (2011). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

 imaging cameras.
 metal alloy cylindrical forms.
 software for equipment employing cryptography (3 licences).

Country Footnotes

1. Arms trade sanctions against Libya were adopted by UN Security Council resolution 1970 in February 2011.

UNSCR 1970 (2011) was implemented by the EU through Council Decision 2011/137/CFSP and Regulation No.204/2011. The EU measures also extended the scope of the UN travel ban and asset freeze, plus a ban on the export of equipment which could be used for internal repression.

There are exemptions to the UN arms embargo measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers, arms and related material intended solely for security or disarmament assistance to the Libyan authorities and other sales or supply of arms and related materiel. Procedures vary: some exports must be approved in advance by the Sanctions Committee while others require notification and the absence of a negative decision.

All exports for this destination must be in accordance with the sanctions in place.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. All goods will be used by athletes for training and competing in National and International competition.
2. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place. This licence relates to the export of disposal equipment for Improvised Explosive Devices, which is not covered by the above embargo.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	7	£856,493
Non-military	46	£6,752,128
Both Military and Non-military	1	£451,735
Total	54	£8,060,356

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	4	£706,000
ML13	3	£143,493
ML17	1	£7,000

body armour (3 licences) [See footnotes 1, 2, 3].
 components for body armour (3 licences) [See footnotes 1, 2, 3].
 components for military support vehicles.
 military containers.
 military helmets [See footnote 1].
 military support vehicles (4 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£557,031
1C350	1	£650,000
2B350	2	£133,031
5A001	1	£760,389
5A002	30	£3,113,261
5D001	1	£88,776
5D002	8	£1,126,000
5E002	4	£11,868
6A001	1	£200,000
7A003	2	£72,772
7A103	1	£30,000
PL8001	1	£9,000

chemicals used for industrial/commercial processes.
 T civil explosive detection/identification equipment (2 licences) [See footnotes 4, 5].
 civil NBC detection systems.
 corrosion resistant chemical manufacturing equipment (2 licences).
 cryptographic software (6 licences).
 equipment employing cryptography (30 licences).
 explosives detection equipment.
 inertial equipment (3 licences).
 marine position fixing equipment.
 Rv radio jamming equipment.
 software for equipment employing cryptography (3 licences).
 Rv software replicating controlled telecommunications equipment.
 technology for cryptographic software.
 technology for equipment employing cryptography (3 licences).

Rv - Some or all of which have subsequently been revoked.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£50,000
1A006	1	£11,735
1A007	1	£1,200
5A001	1	£42,000
ML4	1	£164,900
ML6	1	£150,000
ML13	1	£28,000
PL5001	1	£3,900

all-wheel drive vehicles with ballistic protection [See footnote 6].
 anti-riot/ballistic shields [See footnote 6].
 bomb suits [See footnote 6].
 civil explosive detection/identification equipment [See footnote 6].
 improvised explosive device activation/jamming equipment [See footnote 6].
 improvised explosive device disposal remotely operated vehicles [See footnote 6].
 military helmets [See footnote 6].
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 6].
 non-military firing sets [See footnote 6].

Case & goods Footnotes

1. For the protection of personnel employed in the finance sector.
2. Licence granted for use by a law enforcement agency.
3. Licence granted to protect security personnel.
4. Licence granted for use by a commercial company.
5. Licence granted for use by a government organisation.
6. Licence granted for bomb disposal equipment for government / military end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£112,206
Non-military	2	£44,800
Total	6	£157,006

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£73,080
ML11	2	£31,775
ML13	1	£3,999
ML17	1	£428
ML21	1	£355
ML22	1	£38
PL5017	1	£2,531

body armour.
 components for military communications equipment.
 equipment for the use of military communications equipment.
 general naval vessel components.
 goods treated for signature suppression for military use.
 military communications equipment.
 military electronic equipment.
 software for military communications equipment.
 technology for military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£30,000
7A103	1	£14,800

T civil NBC detection systems.
 inertial equipment.

OIELs (excluding Other OIELs)

Issued

Country Footnotes

- On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

Case & goods Footnotes

- Licence granted for private/sporting use.
- Licence granted for private/personal protection.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	36	£17,258,690
Non-military	34	£357,360
Both Military and Non-military	2	£1,094,468
Total	72	£18,710,518

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£119,172
ML3	2	£2,155,036
ML4	3	£2,689,040
ML6	10	£7,704,426
ML7	1	£1,000
ML9	1	£51,444

ML10	7	£56,360
ML11	7	£1,109,171
ML17	1	£12,439
ML18	1	£134,840
ML21	3	£124,324
ML22	3	£3,016,990
PL5017	3	£84,448

	aircraft military communications equipment (3 licences).
	command communications control and intelligence software.
	components for all-wheel drive vehicles with ballistic protection.
	components for ground vehicle military communications equipment.
	components for launching/handling/control equipment for munitions.
T	components for machine guns.
	components for military combat vehicles.
	components for military communications equipment (2 licences).
	components for military training aircraft.
	components for naval communications equipment.
	components for turrets (2 licences).
T	components for turrets.
	crowd control ammunition [See footnote 1].
	CS hand grenades [See footnote 1].
	equipment for the operation of military aircraft in confined areas.
	equipment for the production of artillery ammunition.
	equipment for the use of military communications equipment (2 licences).
	equipment for the use of military guidance/navigation equipment.
T	equipment for the use of naval guns.
T	equipment for the use of turrets.
	goods treated for signature suppression for military use.
	ground vehicle military communications equipment.
	hand grenades [See footnote 1].
	illuminators [See footnote 1].
T	machine guns (1).
	military aircraft ground equipment.
T	military combat vehicles.
	military communications equipment (2 licences).
	military guidance/navigation equipment (2 licences).
T	military support vehicles.
	NBC protective/defensive equipment.
	signalling devices [See footnote 1].
	smoke/pyrotechnic ammunition [See footnote 1].
	software for military communications equipment.
T	software for military radars.
	tear gas/irritant ammunition (2 licences) [See footnote 1].
	technology for military communications equipment.
	technology for production installations for decoying/countermeasure equipment.
	technology for turrets.
	training crowd control ammunition [See footnote 1].
	training tear gas/irritant ammunition [See footnote 1].
	turrets.
T	turrets.
T	unmanned air vehicles.
T	weapon cleaning equipment.
T	weapon night sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	8	£2,680
1C006	1	£81
2B350	13	£56,071
2B352	2	£28,316
3A001	1	£622

5A001	1	£83,000
5A002	3	£99,835
5D002	3	£13,251
6A002	1	£18,954
6A003	1	£39,550
7A103	1	£15,000

- biotechnology equipment (2 licences).
 components for corrosion resistant chemical manufacturing equipment (2 licences).
 corrosion resistant chemical manufacturing equipment (11 licences).
 cryptographic software.
 T cryptographic software.
 deuterium compounds (8 licences).
 direct view imaging equipment.
 electronics cooling fluids.
 equipment employing cryptography (3 licences).
 general purpose integrated circuits.
 imaging cameras.
 improvised explosive device activation/jamming equipment.
 T inertial equipment.
 software for equipment employing cryptography.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£196,628
6A003	2	£82,604
ML1	2	£715,916
ML11	1	£12,000
ML15	1	£75,580
PL5017	1	£11,740

- T direct view imaging equipment.
 T equipment for the use of weapon night sights.
 T imaging cameras (2 licences).
 T military image intensifier equipment.
 T military infrared/thermal imaging equipment.
 T weapon night sights (2 licences).
 T weapon sight mounts.
 T weapon sights (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft military communications equipment, aircraft seals, aircraft valve seats, components for aircraft military communications equipment, components for equipment for the use of military support aircraft, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military aircrew protective equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew protective equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for military support aircraft

2	P	accessories for military training equipment, components for military training equipment
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of military helicopters, general military aircraft components, military aero-engines, military aircraft ground equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military aircraft ground equipment, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, technology for software for aircraft military communications equipment, technology for software for equipment for the use of military helicopters, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military guidance/navigation equipment, technology for software for military helicopters
4	P	aerial target equipment, airborne refuelling equipment, aircraft cannon ammunition, aircraft cannons, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for airborne refuelling equipment, components for aircraft cannon ammunition, components for aircraft cannons, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for combat aircraft, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for fuze setting devices, components for global navigation satellite systems jamming equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military cameras/photographic equipment, components for military containers, components for military field generators, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military infrared/thermal imaging equipment, components for military mobile repair shops and related equipment, components for military radars, components for military support aircraft, components for military training aircraft, components for military training equipment, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon mountings, components for weapon sights, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of aerial target equipment, equipment for the use of airborne refuelling equipment, equipment for the use of aircraft cannon ammunition, equipment for the use of aircraft cannons, equipment for the use of aircraft military communications equipment, equipment for the use of attack alerting/warning equipment, equipment for the use of combat aircraft, equipment for the use of countermeasure equipment for military cameras/photographic equipment, equipment for the use of countermeasure equipment for military image intensifier equipment, equipment for the use of countermeasure equipment for military image recording/processing equipment, equipment for the use of countermeasure equipment for military infrared/thermal imaging equipment, equipment for the use of decoying/countermeasure equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of equipment for the operation of military aircraft in confined areas, equipment for the use of fire location equipment, equipment for the use of fuze setting devices, equipment for the use of

	<p>global navigation satellite systems jamming equipment, equipment for the use of launching/handling/control equipment for missiles, equipment for the use of launching/handling/control equipment for munitions, equipment for the use of launching/handling/control equipment for rockets, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military cameras/photographic equipment, equipment for the use of military containers, equipment for the use of military field generators, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military mobile repair shops and related equipment, equipment for the use of military radars, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of military training equipment, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of test models for combat aircraft, equipment for the use of test models for military support aircraft, equipment for the use of test models for military training aircraft, equipment for the use of weapon control equipment, equipment for the use of weapon mountings, equipment for the use of weapon sights, fire location equipment, fuze setting devices, general military aircraft components, global navigation satellite systems jamming equipment, goods treated for signature suppression for military use, launching/handling/control equipment for missiles, Processing Statistics

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	89% (8)
% and number of SIELs completed in 60 working days	100% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£6,300
Non-military	8	£161,691
Total	9	£167,991

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£6,300

body armour.

components for body armour.
military helmets.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£99,132
5A002	7	£62,559

civil explosive detection/identification equipment [See footnote 1].
equipment employing cryptography (7 licences).

Case & goods Footnotes

1. Licence granted for use by a civil aviation authority.

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£102,750

T military support vehicles (2 licences).
 military support vehicles.

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The UK's national implementing legislation on Sierra Leone is however still in force. Work is underway to repeal this at the earliest opportunity.

Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009), 1916 (2010), 2002 (2011) and 2060 (2012) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or the United Nations Political Office for Somalia, or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

Resolution 2036 (2012) prohibited the import, purchase or transport of charcoal from Somalia. The provision of certain related service to Somalia (financing or financial assistance, as well as insurance and reinsurance related to the import, purchase or transport of charcoal from Somalia) were also prohibited by UNSCR 2036.

All exports for this destination were approved in accordance with the sanctions in place.

technology for nuclear reactors.
thyristors.
toxins (2 licences) [See footnote 1].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	10	£2,946,515
Non-military	1	£25,000
Total	11	£2,971,515

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£59
ML10	8	£2,863,525
ML16	2	£82,931

components for combat aircraft (2 licences).
components for combat helicopters (2 licences).
components for military helicopters.
components for military training aircraft (8 licences).
general naval vessel components.
unfinished products for military training aircraft (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A001	1	£25,000

accelerometers.

Country Footnotes

- Arms trade sanctions were imposed by UN Security Council resolutions 1556 and 1591 to cover the Darfur region, and furthered by EU Common Positions 1994/165/CFSP and 2005/411/CFSP which apply to the whole of Sudan. Council Decision 2011/423/CFSP adopted on 18 July 2011 extended the arms embargo to South Sudan. All exports for this destination were approved in accordance with the sanctions in place.

5B002	1	£1,800
7A003	1	£65,138

civil riot control agent protection equipment.
 equipment employing cryptography.
 equipment for the development of equipment employing cryptography.
 inertial equipment.
 software for nuclear reactors.
 toxins (3 licences).
 tritium.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,460
ML7	1	£390

civil riot control agent protection equipment.
 components for NBC protective/defensive equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	14	£19,364,755
Total	14	£19,364,755

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£645,000
ML10	12	£18,649,686
ML14	2	£70,069
ML21	1	£0

components for aircraft military communications equipment.
 components for combat aircraft.

components for military aero-engines.
 components for military aircrew breathing equipment.
 components for military radars.
 components for military training aircraft (8 licences).
 components for military training equipment.
 military training equipment.
 software for military training aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 France
 Germany
 India
 Oman
 Qatar
 Saudi Arabia
 Spain
 United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military communications equipment

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Country Footnotes

1. On 9 May 2011 the EU adopted restrictions against Syria on the supply of arms and related materiel under Council Decision 2011/273/CFSP. There have been a number of revisions to these restrictive measures in 2012 and 2013, and the EU has also adopted a number of additional restrictions including on the supply, maintenance or manufacture in country of equipment which might be used for internal repression, including equipment and software that could be used for telecommunications monitoring by the regime, of key equipment and technology for the Syrian oil and natural gas industries, of technology to be used in the construction or installation of new power plants for electricity production, of Syrian denominated banknotes and coinage, restrictions on provision of insurance and re-insurance, restrictions on issuance of and trade in certain bonds and a ban on exports of luxury goods.

T	NBC protective/defensive equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	17	£506,378
Total	17	£506,378

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£208,800
ML6	2	£208,370
ML9	1	£13,342
ML10	13	£75,866

components for air-to-surface missiles.
 components for combat aircraft (13 licences).
 components for military combat vehicles.
 components for turrets.
 general naval vessel components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Germany
- Indonesia
- Italy
- Malaysia
- Saudi Arabia
- South Korea
- United Arab Emirates
- United States of America

Country Footnotes

1. Arms trade sanctions against Zimbabwe were adopted by EU Common Position 2004/161/CFSP amended by Common Position 2008/135/CFSP and replaced by Council Decision 2011/101/CFSP. The measures include restrictions on the supply of items that could be used for internal repression, as designated in the annex to Council Regulation 314/2004.
