Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the surrender in part of an environmental permit.

This partial surrender removes an area of land from the installation that has never been used for manufacturing activities. We are satisfied that the application meets the criteria for low risk surrender and therefore there was no need for intrusive sampling prior to surrender of this land.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
